GEO. Q. CANNON,

Editor and Publisher,
Salt Lake City, Utah Territory.

Bishop WILLIAM BUDGE is authorized to act as GENERAL AGENT for the DESERET NEWS throughout Cache County.

*Elder GEORGE FARNWORTH of Mount Pleasant, is appointed GENERAL AGENT for the DESERET NEWS and JUVENILE INSTRUCTOR for Sanpete County.

Special Notices.

"Good Measure and Running Over."

DOOLEY'S BAKING POWDER has already taken the precedent over others, from its well known strength and purity; but aside from these facts it is put up in cans holding the full weight as represented, which is rarely the case with those of ordinary manufacture. Hence DOOLEY'S BAKING POWDER is the best, purest, strongest and cheapest ever offered to the consumer, and every one who has used it will readily testify to this assertion.

A DELICATE AND SWEET PERFUME—Burnett's Florida.

THE STEAMER *Scotia* recently took out a supply of Burnett's Cologne Water to Germany, to fill a private order.

BEWARE of unprincipled imitations of Wrappers and bottles of Burnett's Cologne, Cocaine, &c.

THE ATTENTION of hotel keepers, and families is respectfully invited to Burnett's Flavoring Extracts.

DR. BURNETT's reputation as a scientific druggist renders his productions reliable.—N. Y. Advocate and Journal.

LOCAL AND OTHER MATTERS.

FROM TUESDAY'S DAILY.

THE PRESIDENTS' PARTY.—Through the kindness of President Geo. A. Smith, we learn that President Young and the Elders accompanying him were at Soda Springs, yesterday, all well, and that the party intended leaving this morning for Montpelier, Bear Lake Valley.

COMING.—We understand that Zavis-towski's troupe will arrive in this city some time this week, and will play a short engagement at the Theatre. The troupe has been playing in the West, where they are spoken highly of.

BIRTH.—On Sunday afternoon, June 12th, at 3.30, the wife of Charles Popper, of twin daughters.

PERIODICALS.—We are indebted to Bro. James Dwyer, of the Railroad News Depot, East Temple street, for the current numbers of Peterson's *Musical Monthly*, London Bow Bells, the *Technologist*, the *Architect and Builder's Monthly*, edited by Ben Lin-foot, and the *Manufacturer and Builder*. Most of the above are well known to the reading public, and they are all well deserving of patronage. The *American Architect and Builders' Monthly* is a new aspirant to favor, and is devoted wholly to education in architecture and art generally. It is beautifully illustrated with large-sized lithographs of the following buildings: Second Presbyterian Church of Philadelphia; Public Library and Museum building, Springfield, Mass.; Calvary Church, Utica, N. Y.; Chapel, Dexter Monument, Cincinnati, O., and the New State Capitol, Frankfort, Ky. The work is published by Linfoot and Flew, architectural lithographers, 328 Walnut street, Philadelphia, at five dollars per year. The architects and builders of the country will, no doubt, as a general thing, be found on the subscription

list to this journal, for to them, we imagine, its contents will be invaluable.

THE KEEPAITCHININ.—The eighth number of this humorous sheet appears to-day. The present issue, like its predecessors, is replete with witticisms, fun and frolic, and contains considerable truth as well as poetry. To read the *Keepapitchinin* is the panacea for those subject to depression of spirits occasioned by these tight times. No. 8 contains a new story by the author of the "Midnight Muff," which was so extensively copied by Eastern journals. It also contains a profusely illustrated history of the iconoclastic Cromwell. A thrilling naval engagement, etc., etc. It's Rich.

THE PEACH LAW.—The Council Bluffs Bugle, of the 9th inst., says

"A curious *lusus naturae*, or rather 'a law,' is observable in the tendency of the peach trees of this season to produce from a single blossom twins and triplets. That this is owing to no local cause, but to some general law, is evident from concurrent testimonies in widely distant regions, and on both shores of the Chesapeake."

The Bugle asks, "has this twin development been observed in other States?" If the above statement be true, and be not due to any local cause, but to some general law, the probability is very great that a similar development will be observed in other peach-growing regions besides those of Iowa. Utah is a great peach-growing country, but we have neither seen nor heard of anything like that referred to by the Bugle; wonder if any of our readers have?

DISTRICT COURT.—The adjourned term of the District Court met yesterday and to-day. Owing to the absence of Chief Justice Wilson, O. F. Strickland, Judge of the 1st District, presided. A few minor cases were disposed of and the court adjourned until July 11th.

SPRING RAIN.—The promise of rain which, in the shape of dark clouds, has been made for the past two or three days, was fulfilled this morning, in a magnificent shower, such as is seldom seen in these valleys. The growing grain must be greatly benefited by this opportune visitation, if it extends over any great area of country. It will also be of great good to the fruit trees, and help to cleanse them of the poison of the hoppers. For the past few days the pests have been on the wing, and they are not so numerous in this city as they have been. If they do not return, the cleansing the trees have received to-day, will strengthen the prospect for some good fruit being raised in the city orchards.

THE "JUVENILE INSTRUCTOR."—No. 8 of this little magazine is now ready, and is fully equal to any which have preceded it. The following is a part of its contents: "Juvenile Farmers," illustrated; "Chemistry of Common Things—Wrought Iron;" "Editorial Thoughts;" "The Sahara," illustrated; "Biography—Joseph Smith, the Prophet;" "Missionary Sketches;" "The Butter Lion;" "Chinese Provision Shops." Poetry—"Learn a Little Every Day," "Spring" and "In the Morning," selections, etc. The *Juvenile Instructor* should be in every family, and read by every child in the Territory.

A MESSAGE FOR HIM.—There is a message at the Western Union Telegraph Office for J. Odell. Call and get it.

FROM WEDNESDAY'S DAILY.

PRESIDENT YOUNG AND COMPANY.—By the courtesy of President Geo. A. Smith we are enabled to lay the following telegram before our readers respecting the movements of and meetings held by President Young and company:

"PARIS, Bear Lake,
June 14th, 1870.

GEO. A. SMITH:

We received your telegram on the 11th instant. We came from Montpelier to-day; had a fine rain storm. The health of the company is good. Hold meetings at St. Charles to-morrow. The rain prevented our holding meetings here to-day for any length of time. Please let my family and other families of brethren who are with me know that we are all well.

B. YOUNG."

PREPARING TO ERECT A FOUNTAIN.—We noticed that men, in the employ of Hon. Wm. Jennings, are busily engaged in digging a trench down the side walk on South Temple Street, and are laying pipes to convey water for a fountain, which Mr. Jennings is about to have erected on the lawn in front of his residence, he having obtained permission from the City Council to have the necessary supply of water. This

will greatly enhance the beauty of Brother Jennings' mansion and surroundings, which already attract the eye of, and charm, every beholder.

WEBER CITY.—By the letter of Bishop Peterson, in to-day's News, it will be seen that quarantine and every other precaution possible have been adopted to stop the spread of the small pox at Weber city. This is as it should be, and shows that the people there are alive to the necessity of energetic measures in the present emergency. We were informed, however, this morning, by a gentleman from that section of country, that the people of Morgan City have not been so prompt. We are assured that at that place, although there have been one or two authenticated cases of the disease, quarantine has not been established, but that the people residing there and in the settlements adjoining are allowed to enter and leave at pleasure.

If this be true, we cannot but believe that the disease and all danger of it have disappeared; for it is hardly likely that the citizens of Morgan would be guilty of such culpable neglect in the presence of real danger.

Since writing the preceding we are in receipt of a letter from Wm. Eddington, Esq., Mayor of Morgan City, in which the information referred to above is confirmed. Bro. Eddington says there has been four cases of the varioloid disease in Morgan City, one of which was very severe. One of the afflicted parties has recovered, and the others are progressing. The whole of them and their families were removed from the city to the small pox hospital, about a mile distant, and "every precaution" is being taken by both town and county officers, to check, and prevent the spread of the malady. He does not say anything about quarantine being established at Morgan, which we regard as one of the most essential precautions, and indispensable where there is any risk of the disease being communicated to adjoining settlements. Quarantine undoubtedly entails inconvenience wherever established, but better endure temporary inconvenience than run the risk of spreading a mortal contagion through a settled district.

FROM THURSDAY'S DAILY.

THE COMING HOLIDAYS.—Bro. Phillips, whose card is in our columns, called us in last evening to see some of his flags, which he is preparing for the jubilant occasions. He seems to understand the "regulations" of making correct flags, and brought to our notice some flags in our city that are not made strictly according to the requirements of the national standard. We have heretofore been compelled to send away from home for our bunting to fly upon the breeze, but we can now supply even this want by the workmanship of our own citizens. Home manufacture again; encourage it!

REPRIEVED.—By proclamation of His Excellency Governor Mann, Thomas Knapp, condemned to be shot to-morrow, for the murder of Sarah Jones, the negress, at Ogden, some time since, has been reprieved for thirty days.

SHOT AT BY INDIANS—STRUCK BY LIGHTNING.—A dispatch, received yesterday afternoon per Deseret Telegraph line, dated Fairview, June 15th, says:

"Myself and Peter Christianson of this place were fired at by Indians, on Monday morning. We were crossing the hills about three miles from here, when suddenly four guns were discharged at us from the brush, about a dozen yards off. We turned and ran, escaping without injury, though two more shots were fired after us, one passing so close as to burn the face of my companion, and the other passing within an inch or two of myself. We did not see the Indians, but supposed there were at least five, as four guns were fired off, and we heard a cap burst. We think we owe our escape to the fact that we were coming down hill towards the covered Indians."

L. N. B. PRITCHETT."

Another dispatch, received at the same time and from the same place as the above, says:

"During a severe thunder storm on Monday afternoon, Bro. Andrew Peterson, of this place, was out driving, when the lightning struck both him and his horses, instantly knocking them down. Bro. Peterson, though stunned and weakened, escaped without further injury. One of his fine mares, worth three hundred dollars, was instantly killed."

WASATCH COUNTY.—Elder Guy M. Key-sor, of this city; has just returned from a tour in Wasatch county. At Wallsburgh,

he says that prospects are good for doing a big dairy business; water power churns, and milk houses are becoming numerous. The meadow and grazing land and crops are suffering badly from the ravages of the hoppers.

In Provo Valley the crops are poor owing, either to the crickets or the land not being properly plowed or seeded. Grasshoppers are plentiful south of Heberville.

In Parley's Park dairy business is receiving a good share of attention; the south end of the park is about a foot deep with young crickets.

INQUIRED FOR.—The following letter, handed in for publication by Mr. Moore, postmaster of this city, may be of great importance to the parties inquired for, who are said to be residents of this Territory:

LYONS, N. Y.,
June 4th, 1870.

Postmaster Salt Lake City, Utah:—Dear Sir.—I am informed that some ten or twelve years ago, Jacob Hatch, an old man, who was a soldier in the war of 1812, lived at or near your place. Is he or his widow or any of his children yet alive, and what are their names and P. O. addresses? I will pay you for all the trouble and expense you are put to in gaining this information. Please reply and send charges.

Yours, etc.,
WM. VAN METER,
per MASON.

An exchange, in an article announcing the decease of a person, says: "His remains were committed to that bourne whence no traveler returns accompanied by his friends."

Liberty is a good institution, but people have different ways of understanding it. A Teutonic friend of ours says: "When I no gets mine lager, I leaves the country."
