

SENATOR SMOOT IS INVITED

By American Club of Pittsburg to
Be Their Guest.

AT ANNUAL GRANT BANQUET

He Has Accepted the Invitation—
Quite a Number of Ministers Strongly
Opposed to His Coming.

Pittsburg, Pa., March 24.—The American club of this city received word today from United States Senator Reed Smoot of Utah that he would accept the invitation extended him to be a guest at the annual Grant banquet in April.

The National Reform association today met and protesting against the election and seating in the senate of Mr. Smoot. They are making plans with the object of having him unseated at the next session. Quite a number of the ministers here, members of the reform association, expressed their disapproval in various ways in opposition to his being received as a guest by the American club.

Suicide for Love.

San Jose Cal., March 24.—Ruth Zeigler, 25 years of age, lately a teacher in the public schools of Minneapolis, committed suicide near Saratoga last night by drowning herself in Camp Creek. She received a letter from Minneapolis yesterday from a young man announcing that he desired to break their engagement. After reading the letter she left the house of Mrs. Sherbrooke, where she had been staying, and was not seen alive again. She came to California five weeks ago for her health. She drowned in less than two feet of water and was lying on her face when found.

French Teaching Orders.

Paris, March 24.—The chamber of deputies, by a vote of 301 to 246, tonight rejected all the applications for teaching orders made by the religious teaching orders. The entire session today was devoted to a discussion of the government bill which opposes the application of the teaching orders for authorization and the chamber by its vote refused to pass the discussion of the clauses of the bill. Remaining to be considered are those separately for authorization to remain in France, but rejected them by a single vote. Among these orders which are that expelled from France are the English and American Catholic and in whose behalf British Ambassadors and United States Ambassadors Porter recently interested themselves.

Murdered by Unknown Parties.

Utah, Cal., March 24.—The coroner's jury in the Stokes case at Bonville tonight in a verdict this afternoon to find that Robert Stokes, a well known citizen, was murdered by unknown parties at the hands of parties unknown.

The murder was evidently familiar to the house, as he had secured a gun to go to the house. The gun was placed in such a position as to try to lead the officials to believe that Stokes shot his wife and then himself.

Killed His Daughter's Betrayer.

Missouri, March 24.—Joseph L. Young, a well known rancher living at Grand, is alleged, fatally stabbed David Dowell, a postoffice clerk and well known in this city, at 3 o'clock this morning. The affair occurred in Young's room in the Missouri hotel, where he had taken Dowell to try and persuade him to marry his daughter, Jessie Young, whom the father claims Dowell had ruined. The physicians said Dowell cannot live. Young himself disclaimed Dowell with a wire hunting knife.

To Determine Honolulu Time.

San Francisco, March 25.—Edwin Smith and Fremont Morse of the coast and geologic survey are preparing to exchange telegraphic time signals over the new cable to determine the precise difference of time and longitude between San Francisco and Honolulu. The probabilities are that the longitude of Honolulu is not much in error, but its determination to date has been dependent upon chronometer or transportation from distant points. A method now only used where telegraphic land lines or ocean cables are not available.

Schley Accepts Invitations.

San Francisco, March 25.—Admiral Schley has finally consented to accept several informal dinners and luncheons in this city. Vallejo and Mare Island will be visited by Admiral Schley and his wife on Thursday and on Saturday they will start to return east by way of Portland, Seattle and Salt Lake.

PHILIPPINE CURRENCY.

Treasury Department Asked to Coin Pesos.

Washington, March 24.—It is learned that the insular division of the war department has requested the secretary of the treasury to purchase the necessary silver and execute the coinage of the Philippine pesos authorized by the Philippine currency act.

Although this act authorizes the coinage of not to exceed 75,000,000 pesos, it does not specify the manner of coinage.

Inventor of Corn Planter Dead.

Decatur, Ill., March 24.—George D. Haworth, inventor of the first corn planter and other agricultural implements and for 40 years a leading manufacturer of Decatur and owner of much valuable manufacturing property in Chicago, died at his home here today.

Ex-Gov. Aronzo Dead.

San Diego, Cal., March 25.—A special to the Union from Encarnada, Lower California, 25th.

Cure for Pimples

Gently smear the face with CUTICURA Ointment, but do not rub. Wash off the ointment in five minutes with CUTICURA Soap and hot water, and bathe freely for some minutes. Repeat this treatment morning and evening. Use CUTICURA Soap alone, with hot water, at other times, as often as agreeable.

Fifty Years the Standard

CREAM

BAKING POWDER

Awarded
Highest Honors World's Fair

PRICE BAKING POWDER CO.
CHICAGO

Including recognition of Mexican and Philippine coins, it is not contemplated at present to coin more than 20,000,000 pesos, at about the rate of 2,000,000 a month.

The silver for these coins will be purchased in the United States, but under what conditions has not yet been determined. The treasury, it is understood, will purchase only at the market value, in such quantities as may be needed as the coinage progresses.

It is said that the department will not submit to any advance in the price of silver if it possibly can be secured at the ruling rate.

Still Have Faith in Pennell.

New Haven, Conn., March 25.—Miss Nellie Lamb, sister of Mrs. Arthur Pennell, declares that faith in Pennell has not been shaken so far as his wife's family are concerned, by the revelations of the Burdick incident. "I believe the truth has not yet been told," she declared, "and we certainly shall not sit in judgment on my brother-in-law until all the facts are known."

Telluride Plant Resumes.

Colorado Springs, Colo., March 24.—Manager Hugh W. Fullerton of the Telluride reduction company this afternoon announced that the Telluride plant would resume operations at once after its suspension on Friday morning. He notified the members of the Colorado City Mill and Smelter's union that all former employees, including President Edwards of the union, could have their places upon application at the mill. The mill will begin operations with about 125 men.

Elk Are Not Starving.

Bozeman, Mont., March 24.—R. A. Wagner, a scout of the National park, who is here today from his home in the Gallatin basin, says the reports of starving elk in and around the park are wholly false. He says the animals wintered better than in several years. He recently saw a herd of about 300 elk in the upper basin, and they appeared to be strong and healthy.

Features of Soufriere's Eruption.

London, March 24.—The colonial office yesterday received a dispatch from the governor of the Windward Islands, Sir Robert Llewellyn, from the island of Grenada, which says the features of the eruption of the Soufriere, on the island of St. Vincent, are the immense clouds of smoke and the comparative absence of lightning. No damage has been done to Georgetown, St. Vincent, beyond a heavy fall of sand and small stones to the depth of two to three inches. The governor adds that the volcano quieted down during the afternoon. The dispatch presumably refers to the eruption of March 21.

Gale on Samoan Islands.

Tutuila, March 10, via San Francisco, March 24.—Correspondence of the Associated Press.—The gale which passed over the Samoan group between the 10th and 12th of February, caused greater damage than was anticipated. Conflicting reports have come in stating that many of the older coconut groves, the timber of two to three hundred years of age, were uprooted and the present crop destroyed. Owing to the destruction there will be a scarcity of native food for a few months. The yield of copra for 1903 will be less than estimated. No damage was done to shipping interests.

Town of Surigao Relieved.

Manila, March 24.—The town of Surigao, in the northwestern part of the island of Mindanao, which was captured Sunday by the Americans, was relieved today. The American officials and foreigners were found to be safe.

Eighty ladrones, led by 20 escaped convicts, participated in an attack on Surigao. They had 20 rifles and 40 bombs and succeeded in surprising and rushing the constabulary barracks, and capturing the town. The ladrones of Clark were killed at the first rush. The ladrones captured 80 rifles.

The American officials, the women and the foreigners sought refuge in the government building. The American soldiers, a former Indian scout, assumed command. The defenders of the building were armed with shotguns and revolvers. They held out until the town was relieved today by a force of constabulary sent from Tacloban. The ladrones fled at the approach of the constabulary.

Three companies of United States infantry will reach Surigao and then probably will start in pursuit of the ladrones. The government forces operating in Albay province, forces of Luzon, have established a concentration zone, in the center of that province, 25 miles long and 10 miles wide, and have a force of detachments of troops following the various ladrone bands.

KANSAS CITY POLICE.

Investigation Develops Sensational Disclosures.

Kansas City, Mo., March 24.—The investigation of the police department, started by charges of crooked work last week by City Jailer Todhunter before the board of police commissioners, has developed sensational disclosures.

tional disclosures, and will be pushed. Todhunter in his testimony declared that the jailers have made a practice of taking money from prisoners who have any service rendered them, and also have regularly taken money from a lawyer for throwing cases his way. Other charges made during the investigation are to the effect that a sergeant and other officers at the Central station have stolen from drunken prisoners. Another case testified to was that of a prisoner who was released without trial upon payment of \$125 to a lawyer, who was, it was asserted, escorted to the man's cell by city detectives. These disclosures later, it was stated, went with the prisoner to a pawnbroker's shop, that he might pawn his diamonds to secure the money.

Reservoir Sites for San Francisco

New York, March 25.—Hon. Franklin K. Lane, recently a candidate for governor of California and the city attorney of San Francisco, is in New York. His mission in coming east is to secure from the department of the interior the right to use two reservoir sites on the Yosemite National park as a source of water supply for San Francisco. Applications were made for these sites two years ago by the mayor, but were rejected. The city now renews the application in its own name. If they are granted the water supply will be owned by the municipality. Plans and estimates have already been made which call for an expenditure of \$40,000,000. In general outline the scheme is to build back in giant reservoirs, the waste flood waters of the Tuolumne river, and by canals and pipes carry the water across the San Joaquin valley and under San Francisco Bay, a distance of 140 miles.

The new charter of San Francisco makes it mandatory that the question of municipal ownership of the water supply shall be submitted to the vote of the people, and it is in conformity with that direction that the plans of the Tuolumne project have been made.

Chief Engineer Morley Dead.

New York, March 25.—Chief Engineer A. W. Morley, U. S. N., retired, is dead at his home in Brooklyn. He was one of the best known and most capable officers of the old engineer corps of the navy.

Chief Engineer Morley was born in Hartford, Conn., and entered the navy at the outbreak of the civil war. He participated in the blockade and the engagement of the west, Gulf and South Atlantic squadrons, and by the close of the war had attained the grade of first assistant engineer. After he served on the Pacific and North Atlantic stations, and at various periods between sea duty at the navy yard, New York. He was promoted chief engineer in 1882 and was assigned to special duty with the naval advisory board, upon whose recommendations the reorganization of the navy was begun. In 1893 he was specially selected as chief engineer when that bureau was first commissioned. He was retired from active duty in 1898.

Jews Will Be Asked to Go West.

Chicago, March 25.—The Chronicle today says:

Jews who migrate to the United States and come to Chicago to make their homes will be invited to continue their journey westward. If the plan of the Chicago Removal Industrial society, which was organized last night, succeeds.

Chicago Jews expect the movement to result in great good. They say the congested district of the ghetto will be relieved, and that the Jews will be urged to seek homes in the country, in the villages, and small cities of the west.

He Will Remarry His Wife.

New Bedford, Mass., March 25.—After an absence of 40 years Edwin Dow of Newark, N. J., who accumulated a fortune out west, is to remarry his wife. Dow some time after his marriage divorced her, leaving her with a young child. He returned to Newark, N. J., and after a few years he secured a divorce, and was married to Catherine Norton. Dow made his fortune and returning, found his wife married. Capt. Norton died two years ago, and Dow came on from the west, and met his former wife, asked her to remarry him. She consented and the marriage will take place Sunday.

A Dickens Exhibition.

New York, March 25.—An interesting Dickens exhibition arranged in connection with the recently formed Dickens fellowship, will be opened at Memorial Hall here today, cables the London correspondent of the Tribune. A wealth of Dickensiana will be on view, notably the sundial, which showed the time of day in the garden at Gadshill, the writing desk which the novelist took with him to America, and the wooden midshipman of "Donkey & Co." There is also a page of the manuscript of "Pickwick Papers," describing the wedding breakfast at Old Warden's. It is believed to be the only portion of the manuscript existing in the possession of an American collector.

FAT BABIES

Are Famous Sleepers.

The saying: "Sleepy as a fat baby" expresses a good deal, for fat babies are famous little fellows to sleep. What a contrast is their refreshing rest to the pitching and tossing of a sleepless coffee drinker. A good old Spring field, Ill., found a way to bring refreshing sleep in place of insomnia. "Un-die three years ago" he says, "for 15 years I was troubled with a troubling in my stomach, was very nervous, did not sleep, and was troubled with severe headaches and drowsy insomnia. After trying all sorts of remedies it came to me that the cause of my troubles were the result of drinking coffee, and seeing an article in the paper about Postum I determined to try it. So I quit coffee and took on Postum. It agreed with me from the first cup. At first I drank it diluted, then pure. I relished it too and to my great joy I was a sleeper. My stomach troubles, nervousness all gone and head clear and instead of being wakeful for half the night I sleep like a fat baby and get up in the morning refreshed. This is due to having quit coffee and taken to drinking Postum." Name furnished by Postum Co., Battle Creek, Mich.

Nothing more delicious about it but there is a reason. If healthy, sound sleep is worth anything to you drop coffee and take Postum a short trial—say ten days. That will tell the tale.

ST. LOUIS FAIR COMMISSION.

Work of Preparing Exhibit to
Begin Soon.

HANDSOME APPROPRIATION.

Able Men Chosen to Carry on the
Work—Headquarters to be
Opened Soon.

It is generally conceded that the last Legislature did quite the handsome thing by the state, in relation to the St. Louis exposition. The sum of \$50,000 was appropriated to be used in preparing and installing the exhibit and erecting a building on the grounds as a sort of headquarters for the Utah visitors at the exposition. The Utah display is in the hands of a very competent commission consisting of Gov. Wells, L. W. Shurtliff, Samuel Newhess, and Senators Hoyt Sherman and Willis Johnson. The commission will meet within a few days to outline a plan of procedure. Headquarters will be opened in the near future, and as there is ample time to make thorough preparations before the exposition opens, it is naturally expected that the display of Utah's resources at St. Louis will far exceed any previous exhibit.

TO REMOVE PEST HOUSE

Duty Imposed Upon the City by New Statute.

The isolation hospital will have to be moved according to the new law, of which Senator Williams is the author. No such institution as the pest house is to be allowed nearer a public road than 20 rods, or closer to a stream of water than a fourth of a mile. The city is given until July 1 of next year to move the hospital.

The law reads as follows:

Pest houses and detention hospitals, and hospitals in certain localities and providing a penalty for the violation of this act.

Section 1. That no city, county or municipal corporation or public or private corporation or person or association of persons shall, after the first day of July, 1903, use, operate, maintain or cause to be used, operated or maintained any house, building or premises for any pest house, asylum or hospital, used as a place of detention in which to keep or confine persons having or suspected of having any contagious or infectious disease within twenty rods of any public road or within one-fourth mile of any canal, ditch, aqueduct or flume, conveying a stream of running water only, and uncovered along the surface of the ground where the water or flume are conveyed into or used by the inhabitants of any city, town or village, for cultural, household or other domestic purposes.

Section 2. Any person, association of persons, or corporation, violating any of the provisions of this act shall be deemed guilty of a misdemeanor.

The new Irrigation Law, in pamphlet form, only 10c at the Deseret News Book Store.

CARTER'S LITTLE IVER PILLS

SICK HEADACHE

Positively cured by these
Little Pills.

They also relieve Distress from Dyspepsia, Indigestion and Too Heavy Eating. A perfect remedy for Diarrhoea, Nausea, Drowsiness, Bad Taste in the Mouth, Coated Tongue, Pain in the Side, TORPID LIVER. They Regulate the Bowels. Purely Vegetable.

Small Pill. Small Dose.

U. S. and British Clerg of the L. D. S. U. The decision was unanimously in favor of Hoffman and Burgess, but the judges were slightly divided between Reese and Carlson.

NEW JUDGE FOR THIS DISTRICT

Governor Required to Appoint One
Within a Few Days.

HOLDS OFFICE UNTIL 1905.

Statute Requires His Excellency to Name the Man Within Thirty Days After Passage of Act.

The governor has a new duty imposed upon him by the late Legislature, and that is the appointment of a fourth judge for the Salt Lake judicial district. The law requires his excellency to make this appointment within 30 days after the passage of the act. As his time is growing limited the appointment is daily expected, and not a little interest and curiosity is being manifested by the members of the bar, as to who the new judge will be. Whoever is fortunate enough to land the plum will hold his office until January, 1905, when he, like his colleagues, will have to depend upon the uncertain tides of politics to retain or lose his place.

The bill is as follows:

An act to increase the number of judges for the Third Judicial district and for the appointment of one judge, pending the next general election. Be it enacted by the Legislature of the State of Utah:

Section 1. That from and after the passage and approval of this act there shall be four district judges in and for the district court of the Third Judicial district of this state.

Sec. 2. That the governor be and he is hereby authorized and required to appoint one district judge in and for the Third Judicial district, within 30 days after the passage and approval of this act, whose term of office shall be until the first Monday in January, A. D. 1905, and his successor is elected and qualified, as provided by law.

Sec. 3. This act shall take effect from and after its approval.

TROUBLE ABOUT A HOME.

Mrs. Smith Asks That Building Concern Be Compelled to Act.

Emma D. Smith has filed suit in the district court against the Home Security company to compel defendant to fulfill its contract in relation to loaning her money with which to build a home. She alleges that she has made a number of payments to the company as required by her contract, and recently it refused to accept any further payments. She further alleges that on April 20 she would have commenced building, she having fulfilled her part of the contract, asks the court to compel the defendant to perform its part.
