

LOCAL AND OTHER MATTERS.

FROM FRIDAY'S DAILY

NEW TIME TABLE.—General Superintendent Joseph A. Young has issued time table No. 4, for the Utah Central Railroad, which takes effect on and after Monday next, the 21st inst. By this time table we note that two regular trains will run daily each way; while a third train will run each way on Wednesdays, Saturdays and Sundays. On Sunday the afternoon train will not run. The times of starting from this city will be: For the morning train, ten minutes past seven; the afternoon train, ten minutes past three; and the train running three days a week will leave the depot here at five o'clock in the evening. The trains leave Ogden at 10.5 a.m.; 6 p.m.; and the Wednesday, Saturday and Sunday train at 6.45 a.m. This arrangement of running will meet public requirements, will greatly facilitate travel and will increase the business of the line.

SILVER BRICKS.—Yesterday a couple of silver bricks were on exhibition opposite the store of Messrs. Walker Bros. One weighed seventy pounds and the other seventy-five; combined they were worth about three thousand dollars. The silver from which they were made was taken from the new mines on the dividing line between Utah and Nevada, towards the southern part of the Territory, the nearest settlement of our people to the mines being in Meadow Valley.

SHOOTING.—Last night some soldiers beat an Indian boy very badly before the Theatre. The boy applied to the police, who went after the soldiers without taking their arms. The soldiers turned on them opposite Col. Little's residence, and one of them fired on the police, but the ball fortunately missed. The officers returned for their weapons, and followed to capture the offenders, succeeding in securing them on the bench about half way between the City and Camp Douglas; but not until several bullets were sent whizzing disagreeably around at various points during the chase. Officer Hampton had a narrow escape, a ball having passed through his coat and pants, and through his pocket handkerchief in his coat pocket. Fortunately nobody was wounded. This morning the prisoners were brought in for trial, but requested a postponement until to-morrow morning, which was granted. During the affray last night they intimated that they were proceeding on the prospective strength of the Cullom bill passing; and thought they might operate a little in advance of the ordinary course.

STATION P. O. RUSH VALLEY.—We are in receipt of a letter from Bro. Silas Hillman, formerly of Spanish Fork, but now of Station P. O., Rush Valley, by which we learn that the people of the branch of the church there are alive to their religion and wide awake to the cause of Zion. They are in a secluded position, and recently got up a petition for the establishment of a postoffice at their place, they being twenty-five miles from the nearest one. The petition with ninety signatures was sent to Hon. W. H. Hooper, at Washington. The reply was favorable and contained suggestions from the Second Assistant P. M. General for bids to carry weekly mails from Stockton to Rush Valley, from Stockton to Deep Creek and from Egan Canyon to Deep Creek. On the 14th instant the bids or proposals were forwarded, and the establishment of a post office at Station P. O. is very probable and is anticipated with considerable interest.

WALLSBURG.—The good folks of Wallsbury, Round Valley, Bros. W. E. Nuttall and J. C. Purcell inform us, are exerting themselves in building up the kingdom of God. The citizens are full in faith and are trying to live their religion. Improvements of every kind are being pushed vigorously ahead. Though the place only numbers some 27 families, they have erected a substantial schoolhouse this winter twenty by thirty feet, which is attended by some fifty scholars. They have also a good Sunday school. The erection of a co-operative saw mill is contemplated.

LONG ISLAND.—Elder Angus M. Cannon, writing on the 11th inst., says that he has had the pleasure of spending two weeks on Long Island, where a perfect howl has been raised by priest and press against "Mormonism." The excitement has done good; fourteen had joined the Church and there was every prospect that more would follow.

CLOSE OF THE LEGISLATURE.—The Legislative Assembly closes its labors to-night, or, more properly speaking, to-morrow morning, for the business at the close of the session usually keeps them far into the night, nearing the light of another day. They have labored faithfully and assiduously during their allotted forty days, and have passed a goodly number of measures affecting the Territorial welfare, of which the Civil Code of practice is the most important and required by far the greatest amount of labor. The honorable gentlemen can return to their constituents satisfied that their labors will be approved by an appreciative people.

INFORMATION WANTED.—If Joseph McKinley is in this city and will call at the

Pacific House and enquire for Charles Cook, he will hear of something to his advantage.

INFORMATION WANTED. at President Brigham Young's office, of the whereabouts of Roswell Prindle. Mrs. Sawyer, wife of Levi P. Sawyer, Mrs. Nancy Brown, wife of John Hiram Brown, maiden name Miss Nancy Wiest.

A NEAT INVENTION.—Mr. T. M. Mori dropped in to-day with a very simple invention and yet a most useful one, in the shape of a clothes-line-fastener. It is a neat little spring, one of which is to be screwed on to each of the posts between which the line is extended. The contrivance is such, that while the line can be taken down or put up in a second or two, and tightened or slackened as rapidly, the more weight is put on it, the tighter it becomes. The line can be lowered to allow of the clothes being hung on, or raised when they are on as easy as pulling a string; and in case of a sudden storm the entire line, pins, clothing and all can be quickly gathered up and carried in doors. Mr. Mori is the agent for Utah.

FROM SATURDAY'S DAILY.

SESSION CLOSED.—The Nineteenth session of the Legislative Assembly closed this morning about 4 o'clock. Without referring to the business of the session at length, we have no hesitation in characterizing it as one of the most important that has been held in this Territory, in the measures that have been passed and approved.

COMMITTED FOR TRIAL.—Edward Artee, Thomas Hill and George Belford, the three soldiers who were arrested night before last, were brought up this morning on the charge of assault with deadly weapons with intent to kill. The evidence did not tend to inculpate Belford and he was discharged. But it was very plain that the other two had been guilty of a gross outrage and deadly assault, and they were held for trial at the next regular term of the Probate Court, in \$800 bonds each. The security not being forthcoming, they were remanded to prison.

STAMPING DEEDS TO CITY LOTS.—Through the courtesy of O. J. Hollister, Esq., U. S. Collector of Internal Revenue, we are favored with the following copy of a letter from him to John B. Milner, Esq., U. S. Deputy Collector, Provo City, dated, Feb. 18th:

"SIR:—In reply to your letter of the 2nd, deeds to city lots, made by the Mayor or County Judge in discharge of his official duty, are exempt from stamp tax, by section 154, Revenue Law Compilature."

A PETITION TO PREST. GRANT.—It is said that six hundred ladies of Wyoming Territory have petitioned President Grant to remove Secretary Lee, of that Territory, for immorality and intemperance.

INFORMATION WANTED.—If Mary Nelson, the wife of Aaron Nelson, who presided over the Derby Conference, England, in 1858, will communicate with Mrs. J. Wilmet, at Bro. J. McGaw's, Ogden City, she will learn of something greatly to her advantage.

PURE SALT.—Hon. S. Pitchforth, of Nephi, Juab County, presented to-day, on behalf of the manufacturers, Messrs. Salisbury, Warner & Co., of Nephi, a very fine specimen of table salt, made from a spring, oozing from a rock near Nephi. This salt is declared to be free from any mineral mixture, and to be perfectly pure. The manufacturers can furnish it in Salt Lake City, at prices to suit the times.

THE URSO CONCERT.—The approaching concert in San Francisco, under the direction of the famous violinist Camillo Urso, promises to be a grand affair. Fifteen thousand dollars worth of tickets had been sold some days since. The concert is for the benefit of the Mercantile Library. The monster drum to be used on the occasion is eight feet and three inches in diameter, three feet six inches in length and weighs one hundred pounds. It takes two hundred and ten feet of cordage to tighten the instrument and has sixty-two ears. The shell of the drum is made of galvanized iron, while the bands, or hoops, are of California laurel. The drum, and the cudgel to beat it with—the latter four feet long, required twenty-one sheep and two calf skins to cover them with.

INDECENCY ON THE SAN FRANCISCO STAGE.—The San Francisco Bulletin of the 15th inst., speaking of an entertainment at Maguire's Opera House, the evening previous, says:

"The performances at the Opera House are rapidly approximating the melodeon standard. The can-can in its lowest form was boldly introduced in the extravaganza of *The Slave of Love* last evening. La Sangali and her sisters threw off everything like the appearance of decency, and stood confessed before the audience 'naked and not ashamed.' What the style of performances at the Bella Union and Pacific Melodeon may be, we know not; but if they are much worse than we saw last night, they must be low indeed."

DEATH OF "BUFFALO BILL."—The Omaha Herald of the 15th inst. says: "This man, who has of late been so much

talked about in the papers, has been known for years on the plains as a guide and scout of acknowledged ability, but of late his dissipation and natural depravity have turned him into a desperado. Last Thursday morning he went into the eating-house at North Platte, flourishing a large revolver, and called for his breakfast, and when it was served he amused himself with buttering his cakes and throwing them against the wall. He was then drunk, and had been on a spree several days. On getting on board the cars he flourished his revolver, frightening the passengers, and finally breaking one of the windows of the car with it. His next move was into the baggage car, where he struck the news-boy with his revolver, and received a powerful blow in return from a Californian. He then retreated from that car, and meeting one of the colored porters, hit him a blow with his pistol, knocking him senseless and cutting a deep gash in his head. But this class of men finally meet their fate, in almost every case with their boots on, and yesterday we learned from O. W. Cady, the news-boy who came in on the train, that "Buffalo Bill's" wild career had come to a violent end, and that he had been shot and killed at McPherson.

A CLINCHER FOR WOMAN'S RIGHTS.—At a meeting for woman's rights, held long ago in Ohio, the minister of the parish argued on the negative side of the question. Sojourner Truth is reported to have made the following novel but clinching reply in its favor:

"Den dat little man in black dar, he say woman can't have so much right as man 'cause Christ wa'n't a woman. Whar did your Christ come from?" Rolling thunder could not have stilled that crowd as did those deep wonderful tones, as she stood there with outstretched arms and eyes of fire. Raising her voice still louder, she repeated: "Whar did your Christ come from? From God and woman! Man had nothin' to do wid him."

FROM MONDAY'S DAILY

SABBATH MEETINGS.—Elder Milo Andrus, who returned from his mission to the East, on Saturday night, occupied the time in the morning. He treated at length on the condition of affairs in the Eastern States and the feelings that exist concerning Utah. He exhorted the congregation to cultivate intellectual development and hold fast to the truth of the gospel, with a perfect confidence in the overruling providences of the Lord for the protection of the Saints.

In the afternoon, President Geo. A. Smith gave a short account of his early missionary labors. He was followed by President Young, whose discourse was reported.

CHANGE OF TIME ON U. C. R. R.—The change in time of running trains on the Utah Central commences to-day. See their advertisement in to-day's paper.

ANNIVERSARY BALL.—The grand ball to-morrow night, on the anniversary of Washington's birth-day, promises to be one of the events of the season. A large number of influential gentlemen with their ladies will be present. We met to-day a number of officers, from various military districts, who have arrived to participate in the enjoyments of the occasion.

To accommodate the non-dancers, the upper circles will be open to spectators as per advertisement in another column.

MESSAGE at Deseret Telegraph Office for L. Granger.

LAKETOWN.—Bishop Ira Nebeker, of Laketown, Rich co., called in this morning. The Bp., accompanied by Messrs. S. Kimball and James Kerl reached this city on Saturday night. They left Laketown last Wednesday about noon and crossed the ridge of the mountains east of Laketown to Bear river, reaching Evanston on Friday morning; from the latter place they traveled to S. L. City by rail. On the mountains from Laketown to Bear river they found the snow, for seven or eight miles, about two and a half feet deep. In Bear River valley it was only about three inches deep, but about fifteen miles below Evanston it was again heavy. The day before Bishop Nebeker left Laketown, Mr. Salisbury, of the Salisbury tageline, reached that place, trying to determine from the state of the roads, whether it were possible to run a line of stages from Evanston to Montana; he thought there would be no difficulty in doing so.

SERIOUS ACCIDENT.—On Saturday afternoon last, Amos Neff, of Mill Creek, a youth of about sixteen years, had his hand and wrist terribly mangled by the bursting of a shot gun while firing at some prairie chickens. He was brought into the city, on Sunday morning, and it was found necessary to remove the thumb and forefinger, as well as a portion of one of the bones of the wrist. The operation was performed by Dr. Anderson, assisted by Drs. Bernhisel and S. B. Young, the youth being under the influence of chloroform. We understand he is doing well to-day, and will most probably save his wrist and three fingers.

TENTH WARD LECTURE.—Elder J. L. Barfoot will lecture to-morrow evening (Tuesday) upon the subject "Unseen Influences." To commence at 7 o'clock.

LARCENY AND BURGLARY.—For the past few nights the people of the Sixth and Seventh wards of this city have been annoyed by the committal of several thefts, which seem to have culminated last night in a burglary, on the premises of Mr. Henry Riser, residing in the former ward.

Some time last week Major Ladd and Mr. Wm. M. Cowley, of the Seventh ward, were robbed of a considerable number of articles of underclothing and bedding, hung out to dry upon clothes lines; and last night while Bro. Riser and family were at meeting some party or parties effected an entrance into a window of their dwelling and ransacked two rooms. Among the articles stolen were two watches, worth about thirty dollars, and three dollars and ten cents in money. The marauders, evidently hungry, drank a lot of milk and took away all the provisions they could conveniently appropriate. The pockets of a number of garments hanging up in the rooms were turned inside out, but nothing beyond the foregoing articles was obtained.

The citizens in every part of the city should take warning by these nefarious transactions and have the windows of their dwellings securely fastened; and, as night approaches, empty their clothes lines. They must remember that times have changed somewhat; once it was perfectly safe to leave doors and windows open, and as for clothes lines, it mattered not whether full or empty, they were perfectly safe; but it is not quite so now. Times are hard and the railroad's finished, and it is necessary to adopt more precaution against dishonesty.

IMPERIAL RECEPTION.—The Chicago Times, of the 17th inst., contains a lengthy account of the first Imperial Entertainment of the season, given by the Emperor Napoleon at Paris, on the 26th ult. Among the Americans present were Augustus L. and Madame Chetlain, the former so long and favorably known to the people of this city as U. S. Assessor of Internal Revenue.

LOST!

SUPPOSED to be running on West Jordan range, one Brindle COW, 5 years old, branded on left horn D. Evans, on near hip E, also, one 2 year old Red HEIFER, white spot on forehead, branded on near hip E.

If the two men who called at my house on Thursday the 10th inst. to enquire if I had any cows on west Jordan range, will give any information regarding the above, they will be liberally rewarded.

DAVID EVANS, Seventh Ward, S. L. City, d786w3-lea

NOTICE!

TO whom it may concern; that cash entry, No. 192, for the townsite of Bountiful, embracing Sections 19 and 30, township 2 north, range 1 east, has been suspended for further proof, and this is to notify all claimants that on the 9th day of March, 1870, at 10 o'clock a.m., I will appear at the U. S. Land office, Salt Lake City, U. T., to make the necessary proof and show that I am entitled to have the entry of said land confirmed under the town site Act, of March 2nd, 1867, for the use and benefit of the inhabitants thereof, at which time and place any person or persons so disposed can appear and attest.

HECTOR C. HAIGHT, Probate Judge.

MUSIC AND INSTRUMENTS.

I HAVE completed arrangements for the importation of MASON & HAMLIN Organs, of all sizes and styles at from \$50.00 to \$2,500.00 each. I will furnish in Salt Lake City, and all places south, at manufactures prices, adding freight only from Chicago. Also Music Books at publishers prices and postage. Will answer by mail all enquiries in relation to Books or Instruments. JOHN M. MACFARLANE, w3-1 St. George, U. T.

CURTIS MODELS—PRICES REDUCED

TO MEET THE TIMES!—The merits of this system for Cutting all kinds of garments worn by Ladies, Gentlemen and Children are known by scores of ladies in this City and Territory; but the sure way is to prove it for one's self which may be done without charge. This system removes all anxiety regarding the FIT of garments, as all its directions are absolutely positive. There will be no altering—not taking up or letting out, which not only injures the material but destroys the proportions and often ruins the garment. The system is very simple and can be learned in a few hours.

MRS. JOSEPH BULL, 17th Ward, Agent.

CUTTING and FITTING done in all its branches.

T. & W. TAYLOR,

HAVE on hand two Champion Reapers and Mowers, combined. Also two Mendenhall Hand Looms, and a lot of Muskets and Rifles, which they will sell for vouchers on the Utah Central Railroad.
