SAVE YOUR HAIR | TO LEARN HOW TO DO IT READ AND HEED WHAT FOLLOWS.

SAVE YOUR HAIR.—The laws of Health and Longevity demand it, the customs of social life require it. The matter is of great importance in every way.

BEAUTIFY YOUR HAIR.—It is the surpassing crown of glory, and for the loss of it there is no compensation.

CULTIVATE YOUR HAIR.—For by no other means can it be saved and beautified.

LYON'S

KATHAIRON,

Discovered thirty-five years ago by Prof. Lyon, of Yale, is the most perfect preparation in the world for preserving and beautifying the hair.

Besides being the best hair dressing ever produced, Lyon's Kathairon will positively prevent grayness, and will restore new hair to bald heads, if the roots and follicles are not destroyed.

It actually performs these seeming miracles, of which the following is

A FAIR SPECIMEN

I had been entirely bald for several years, constitutional, I suppose. I used a few bottles of Kathairon, and, to my great surprise, I have a thick growth of young hair.

COL. JOHN L. DORRANCE, U. S. A.

In every important respect the Kathairon is absolutely incomparable. It is unequaled.

1. To Cure Baldness.
2. To Restore Gray Hair.
3. To Remove Dandruff.
4. To Dress and Beautify the Hair.

BEAR IN MIND.—The Kathairon is no sticky paste of sulphur and sugar-of-lead, to paint and daub the hair and paralyze the brain. It is a pure and limpid vegetable lotion, intended to restore the hair by natural growth and reinvigoration. It is splendidly perfumed, and the most delightful toilet dressing known. No lady's or gentleman's toilet outfit is complete without Lyon's Kathairon.

EXTRA SESSION.

SENATE.

WASHINGTON, 2.--Various bills were introduced, among them one by Harris, providing for a treaty with Mexico.

Hoar's resolution condemning as unconstitutional and revolutionary the democratic programme of legislation, was laid on the table—yeas 35, nays 20.

Blaine said at a future time the republicans would ask for a direct vote on the resolution.

Salisbury made a report against the admission of Bell as senator from New Hampshire on the appointment of the governor. It will come up for consideration to-morrow.

Hoar presented the views of the minority of the committee in favor of admitting Bell, signed by himself, Cameron, of Wisconsin, and Ingalls.

The Senate then went into executive session.

When the doors reopened the Senate adjourned.

HOUSE.

WASHINGTON, 2.—An effort was made by Sparks to fix the time for closing the debate on the army appropriation bill. Suggestions were made to have a night session, to restrict speeches to 15 minutes each, and to close the debate to-morrow. Objection was made to all the propositions, Conger stating that a number of gentlemen on both sides have given notice of their desire to speak; also that many had prepared speeches and would not like to be restricted to 15 minutes; also that but few members would be present at night sessions. On both sides it was declared that there was no desire to cut off the debate, and the Speaker gave it as his experience that unlimited debate was the shortest debate.

A motion of Stevens that a vote be taken at 2 o'clock on Saturday was voted down.

Finally on motion of Dunnell, of Minnesota, all general debate was ordered closed at 3 o'clock on Friday, leaving the five minutes debate open.

The House then went into committee of the whole.

The debate was opened by Williams, of Wisconsin, who stated that two things were absolutely indispensable, purity of the ballot box and peace at the polls. If it is required all the power of the state and general government that power should be exercised, whether it be put forth under national or under state jurisdiction. He had heard much talk about bayonet government, but he knew of no government which did not rest ultimately on the bayonet. Whoever talked about the government without that final resort in case of resistance to civil law, talked about Utopia. The only bayonet rule this country knew was that which had just put down one of the most wicked and cruel rebellions that ever disgraced the earth or that had denied his southern friends the delectable pastime of shooting negroes. For since 1864 the republican party has been tripping over a chip, because then it began to allow the non-performance of the laws of the country. The President had the right to send troops even to the Church of Christ. It was not pleasant to see bayonets at the polls, but neither was it pleasant to see voters assailed by armed roughs. He, unlike Garfield, believed this was the centre of the whole question of Federal authority and national perpetuity, and not a mere skirmish line.

Townshend, of Illinois, spoke on the democratic side. He did not know by what authority Garfield spoke when he intimated that these bills would not receive the sanction of the President, but if the prophecy was to be verified, there was no man so blind or prejudiced as to know that their failure was due to the President. If government was to be starved, the responsibility for that was not to be laid at the door of the democratic party. He said, answering the charge that it is revolutionary for a democratic majority to amend the appropriation bills regarding the election laws, there was good republican precedent therefor and cited a number of them, and showing that Garfield's course now was inconsistent with his record in 1872. The first expression of the people on the issue before Congress, was given in Chicago yesterday by the election of a democratic mayor and other officers, for the first time in twenty years. He (Townshend) regarded the issue as solely one of free election and impartial juries.

Calkins held that the citizen, when not protected by the State, had a right to call on the government. If the President was celebrated for anything it was for keeping his own counsel, and no one knew whether he would veto the bill. If he did, then such a contraction would take place as the country was wholly ignorant of.

Herbert said the democrats would not be led away like mad bulls by this red flag of sectional hate. They adhered to the plain question shall troops be used at the polls?

White, of Pennsylvania, denied that the republicans desired force at the polls. They only wanted to protect the citizens. He denied the charge made against the republican party yesterday, of despotism and usurpation.

The committee then rose and the House adjourned.

EASTERN.

Confirmations.

WASHINGTON, 2.—The Senate confirmed Andrew D. White, of New York, envoy extraordinary and minister plenipotentiary to Germany; Cornelius A. Logan, of Illis, minister to Central American States; Jacob H. Stenart, of St. Paul, surveyor general for the district of Minnesota; A. B. Claton, United States marshal for the northern district of Texas; Jefferson P. Kidder, associate justice of the Supreme Court of Dakota.

The Fitzjohn Porter Case—The General's Course Vindicated by the Board.

The report of the board of officers in the case of Fitzjohn Porter says: The new evidence, in addition to the old, has placed beyond question many important facts before the subject of dispute, in respect to which radically erroneous opinions were entertained by Gen. Porter's accusers, and doubtless by the court-martial that pronounced him guilty. The result has been to establish, beyond a reasonable doubt, all the facts essential to the formation of a correct judgment upon the merits of the case. Concerning the charge of which Gen. Porter was found guilty, of not having moved his command on the night of August 27th, 1862, in obedience to an order from Gen. Pope, the board report that it was a manifest physical impossibility to march over that road that night. That nothing would have been gained by the attempt, and that it would have been wise if Gen. Porter had delayed the attempt still longer than he did; that he exercised the very ordinary discretion of a corps commander, and that it was his plain duty to exercise it. With reference to the famous 4.30 order, the board find that it was not received by Porter before 6.30 of the 29th of August; that the officer who wrote the dispatch only began to write at 4.30; that the messenger who took it could not have traveled over the route which they assert they had taken, if their own testimony be true; that one of the witnesses concerning this order had given manifest inconsistent statements, and another witness had confessed to the board that he had deliberately made a false statement in regard to the route taken while carrying the dispatch, and as to still another witness on this point, his testimony as to the early delivery of the dispatch was so completely broken down that no weight whatever was attached to it. On the other hand the testimony as to the time of the delivery of the 4.30 order, such officers as General Sykes, Colonels Locke and Monteith, and several other witnesses all go to prove that the order was not delivered until about sundown, and this testimony has been confirmed by the production of a dispatch from Porter to McDowell dated 6 p.m. of the day in question, the terms of which show that Porter could not then have been in possession of the 4.30 order. As soon as the 4.30 order was received, Porter ordered an attack, but darkness came on and Porter wisely ordered further preparations to cease. The report concluding this part of the investigation says: When the darkness came on the rear of McDowell's column of weary troops was passing by the rear of Porter's column, still several miles from their destined place on the field. The Union army was not even yet ready for battle. Porter's duty during the afternoon of the 29th of August was too plain and simple to admit of discussion, and the board are unable to find anything in it subject to criticism much less deserving of censure or condemnation.

Nominations.

The President has nominated David T. Corbin, of South Carolina, for chief justice of the Supreme Court of Utah; Mrs. S. Wadsworth, of Ills., receiver of public moneys, La Mesile, New Mexico.

The Debate on the Army Bill.

Although the House, to-day, decided to close the general debate on the army appropriation bill at three o'clock next Friday, this does not necessarily imply that a vote will be taken on Friday, for until the previous question shall have been demanded and seconded, any member will be at liberty to offer an amendment either real or formal, and speak upon it under the five minute rule. In this way the debate may possibly be prolonged several days, and it is not generally expected that the bill will reach a final vote in the House before the middle of next week.

The Trade Between Mexico and the United States.

The joint resolution introduced in the Senate, to-day, by Harris, of Tennessee, sets forth in the preamble that it is the desire and wish of the government and people of the United States to maintain the most amicable relations with the republic of Mexico; that it is believed to be manifestly to the interests of the people and of both governments to extend and increase, by all proper means, the exchanging of products and to facilitate and foster the most liberal commercial relations between the people of the two governments, and that many citizens of the United States have invested their capital, and others are desirous of investing in Mexico, in mining, construction of railroads, banking, farming, stock-raising and merchandizing, and in this view with the purpose of increasing said investments, which are believed to be mutally beneficial to the people of both governments, a treaty is deemed necessary; therefore,

Resolved, That the President of the United States be authorized and requested, by the appointment of three commissioners, to be confirmed by the Senate, to open and conduct negotiations with the republic of Mexico for the purpose of making a treaty which will include matters and subjects named in the preamble to this resolution, and any and all matters which, in the opinion of the two governments are the proper subjects of such treaty.

Caucus of Democratic Senators.

The democratic senators, in caucus, ratified the report of the committee recently appointed to designate the employees of the Senate for retention, and unanimously agreed that the Senate should permanently retain Capt. Isaac Bassett, the assistant door-keeper, and the venerable William John, well-known as keeper of the main door of the Senate chamber, both of whom have been in the service 40 years or more, and also Amzi Smith, superintendent of the document room, together with two of the acting assistant door-keepers, who are crippled Union soldiers. Changes in the force of the clerical employes will be made gradually, during the present month, in a manner to avoid inconvenience. It was suggested in the caucus that several of the most experienced clerks should be included in the list of employees expressly designated for retention, but after some discussion the majority decided that the secretary of the Senate should exercise his own judgment and discretion concerning the personel of his office, and a similar decision was made by the caucus in regard to the propositions to add to the list the names of certain especially useful and faithful members of the force of the sergeant-at-arms. No action was taken on the question permitting general legislation during the present session. The prevalent sentiment appeared strongly in favor of restricting the business to the passage of the appropriation bills.

A Vile Nest Broken Up.

WHEELING, W. Va., 2.—The town of Farmington, Marion county, has been infested for some time past by a class of people who have lived in open violation of law and decency, selling whiskey without a license and living in open adultery. Late last night a band of 30 men, supposed to belong to a vigilance committee recently organized under the name of the "Red Men," visited a number of scandalous places, broke them up, inflicting the punishment of lashes and tar and feathers on the inmates, destroyed the whisky and made general purging of the filthy sewers.

Purchase of an Arizona Mine.

CHICAGO, 2.—The *Tribune* says: Some Chicago capitalists on the board of trade have purchased the once famous Vulture mine, of Arizona Territory, formerly owned by Phelps & Co., of California. Stamp mills and other works are to be erected at once. An incorporation of $10,000,000 capital stock has been made under the name of the Central Arizona Mining Co. The stock will be listed and sold on the New York Stock Exchange.

Keene's Wheat Combination.

The telegraph says: Keene now has about 6,500,000 bushels of wheat in America, and by a shrewd combination, has control of a considerable amount in Europe. There seems considerable ground for the belief that there is a combination to raise the prices of grain and provisions all over the country.

The Refugees Appeal for Aid.

ST. LOUIS, 2.—A number of prominent colored gentlemen who have been most active in relieving, while here, and assisting to their destination colored emigrants from the south, issued, this afternoon, an appeal for aid to all generous and charitable people throughout the country, setting forth that of late, scores of colored people have been daily landed on the wharves here, fleeing from inhuman treatment by white leaguers and from a second slavery. Their struggle to reach the free west should receive the attention of liberty-loving men and women everywhere, and appeal to all such for means to assist them in finding new homes. The colored people of this city have not encouraged them to come; transportation companies have offered them no inducements to emigrate; but, according to their own testimony, they have started for Kansas, because they heard they wouldbe free there, and because it was impossible for them to live longer at their old homes. These refugees, at the best, have but slender means. A large proportion of them are destitute when they reach here, having spent all their money for the passage to this point, and are thus dependent upon others to reach their destination. We need both money and clothing. In the name of God and humanity we ask help for the refugees. Any contribution sent will be most thankfully received and acknowledged by the Rev. Moses Dickson, 1,211 Morgan street.

New Ten Dollar Certificates.

NEW YORK, 2.

Two hundred and forty thousand dollars in new $10 certificates was received at the sub-treasury here yesterday, and about $20,000 disposed of to bankers and brokers. They are almost similar to the legal tender note, with the exception that they are not so long and a little wider.

Schooner Sunk.

NANTUCKET, 2.—The schooner *Emma G. Edwards* sunk on Tuckermuck Shoal, last night, and the captain, mate and three of the crew were lost.

Honorably Acquitted.

NEW ORLEANS, 2.—The case against ex-Collector C. L. Smith, recently indicted by the grand jury, charged with perpetrating fraud on the government by carrying on the custom house rolls the names of parties not actually performing any work for the government, was called, to-day, in the circuit court. After examining half a dozen witnesses, District Attorney Leonard stated that the government had failed to make out a case. The accused was honorably acquitted.

TEXAS.

A Notorious Gang of Robbers.

GALVESTON, 2.—A special to the *News* from Fort Griffin says: On the night of the 25th ultimo, nine disguised, well-armed men took possession of Hamburg's Store, Tepee Creek, near Staked Plain, covering the clerks and others with pistols, until they robbed the store of all the money, arms and ammunition. They then attacked a camp party *en route* for Leadville taking them by surprise, and shot Mr. Anderson, who attempted resistance. They took about $300 and all the live stock of the party. After leaving the vicinity they went to Blanco Canon, and robbed the store of Conrad & Roth of $1,500 worth of provisions, arms, etc. They are believed to be the notorious Reeves gang, from Lincoln, Neb. The New Mexico rangers will pursue.
