

EL PASO CONGRESS THANKS ROOSEVELT

For His Letter on Irrigation and
Approves His Policy on the
Subject.

TWO UTAH MEN ARE HONORED.

Fred J. Kiesel of Ogden Put on Ex-
ecutive Committee; J. H. Smith of
Salt Lake a Vice President.

El Paso, Tex., Nov. 18.—The twelfth
National Irrigation congress today
adopted the report of the committee on
permanent organization as submitted
last night, and the new president, Gov.
George C. Pardee of California, took the
chair and made an address. All the
officers recommended by the committee
were elected.

The convention adopted a resolution
thanking President Roosevelt for his
letters and for his interest in irrigation,
and approving his policy on this sub-
ject.

The executive committee was empow-
ered to act as a committee on creden-
tials at future meetings in order to
save time and expedite the convention's
work.

The resolutions passed during the
closing hours were very important in
many respects, especially those favoring
a repeal of the stone and timber
act, the preamble of which reads: "It is
the sense of this congress that the re-
peal of the stone and timber act is
sacredly preserved to all the people of
the United States and rigidly reserved
for actual home seekers."

The Congress of the United States is
commended for withdrawing 4,000,000
acres of arid lands and 50,000,000 acres
of forest lands from entry, and the
repeal of the desert land law is urged
together with that of the timber and
stone act, commutation tax of the
homestead act and a substitute is of-
fered in the sale of stumps. As a
substitute for the desert land law it is
desired to permit individuals as actual
settlers to enter on only 100 acres.

Other resolutions adopted were those
opposing all issues of land script, ur-
ging the government purchase of all
lands in the limit of forest reserves,
favoring non-interest bearing loan by
the government to create an irrigation
fund to be used by the secretary of the
interior, and repeal under the pro-
visions of the irrigation law; urging a law
permitting states to organize into dis-
tricts for the sale of irrigation lands
and upon approval by the secretary of
the interior to be allowed to employ the
engineers of the reclamation service;
favoring legislation to aid beet sug-
arculture; declaring that the "presence
of the delegates from the sister republic
of Mexico has strengthened the bond
between the two countries and in ap-
preciation of the cordial treatment ac-
corded this congress while on Mexican
soil, we cordially invite the republic of
Mexico to send a delegation to the Port-
land congress;" favoring the extension
of a national irrigation law to include
Texas in its provision, in so far as to
permit the secretary of the interior to
direct the reclamation engineers to ex-
amine and report upon feasible irriga-
tion projects in Texas; and, when ap-
proved, to superintend their construc-
tion, to the end that Texas may have
the same service that is now extended
to the other arid sections; expressing
confidence in reclamation engineers,
forestry and water service, and
thanking them; commending the work
of the weather bureau in compiling a
climaticological almanac; urging that
the remaining public domain be reserved
to homesteaders; urging an appropriation
for forest planting on denuded water-
sheds, with the view of increasing the
value of streams still flowing and re-
newing those which have disappeared;
urging a consolidation of all govern-
ment forestry work in the department
of agriculture.

C. H. Booth of Los Angeles was re-
elected chairman of the executive com-
mittee and authorized to select a vice-
chairman. J. Tom Richardson of Port-
land was elected secretary. Other mem-
bers of the committee are: Nevada, J.
M. Jones, Reno; Utah, F. J. Kiesel,
Ogden; Washington, H. C. Souder,
North Spokane; Arizona, B. A. Fowler,
Phoenix; Colorado, A. F. Frances, Crip-
ple Creek; New Mexico, L. B. Prince,
Santa Fe; Oregon, A. K. Wilson, Port-
land; California, C. H. Booth, Los An-
geles; Nebraska, P. V. Magley, Lincolnton.

Nevada, F. S. Newlands, Reno; Utah,
A. H. Smith, Salt Lake; Washington,
Cyrus H. Hays, Spokane; Arizona,
Dwight H. Heard, Phoenix; Colorado,
F. H. Brandenburger, Denver; New Mex-
ico, Francis G. Tracey, Carlsbad; Ore-
gon, Thomas G. Horley, Pendleton;
California, Scipio Craig, Redlands; Ne-
braska, W. H. Wright, Scott's Bluffs,
were elected vice presidents.

RATES ON LIVESTOCK.

Railroads Claim that They Are
Reasonable.

Chicago, Nov. 18.—Nearly all the testi-
mony in the case of the Texas Cattle
Raisers' association against the
Southwestern Railway company, be-
ing heard before the stock commer-
cial commission, has been taken. The at-
torneys for the railway companies
closed their case tonight, but the com-
mission will convene tomorrow to hear
a little additional testimony from the
other side.

The grounds on which the railroad
companies declare their side of the con-
trovercy to be just and reasonable
were summed up by Judge Baxter, one
of the railroad lawyers, as follows:

Livestock shipments are more ex-
pensive to handle than almost any
other kind of traffic; livestock trains
have to be given the right of way over
all other trains except passenger trains;
the liability to damages on account of
livestock injured or killed while in
transit greatly reduces the gross earn-
ings; the shipments of livestock delay
traffic more than any other class of

SCIENCE PREVENTS BALDNESS.

The Fatal Germ and Its Remedy New
Facts of Science.

It is the rarest thing in the world for
a man to be necessarily bald. No man
whose hair is not dead at the roots,
need be bald if he will use Newcomb's
Herpicide, the new scalp antiseptic.
Herpicide destroys the germ that cuts
the hair off at the root, and cleans the
scalp of dandruff and leaves it in a
perfectly healthy condition. Mr. Man-
nert, in the Maryland Block, Butte,
Mont., was entirely bald. In less than
a month Herpicide had removed the
enemies of hair growth, and nature did
its work by covering his head with
thick hair an inch long, and in six
weeks he had a normal suit of hair.

freight; special arrangements and
equipment must be provided for this
traffic, entailing extraordinary expen-
ses; all railroad cars must be returned
empty, thereby greatly increasing the
empty mileage of all freight cars; rail-
road companies provide free transpor-
tation to men accompanying shipments
of livestock, thereby cutting into the
receipts of the passenger departments;
livestock cars cannot be loaded in the
capacity of cars carrying "dead
freight."

In the hearing of the case, traffic
managers, superintendents and officers
of seven railroad companies testified,
and without exception the rates were
declared to be exceptionally low when
all difficulties were considered. One of
the witnesses did not think the rates
were even compensatory.

SOUTH'S INTERESTS AS DEAR TO PRESIDENT AS NORTHERN.

Washington, Nov. 18.—Col. John S.
Mosby received a few months ago a
letter from Judge Roulhac of Birming-
ham, Ala., commenting on the attitude
of the southern people toward the pre-
sident personally. Col. Mosby sent the
letter to Oyster Bay, as he thought the
sentiment expressed in it by a confeder-
ate veteran would be gratifying to the
president. He received a reply,
which he did not publish during the
campaign, as he felt that the presi-
dent's motives in writing the letter
would be misconstrued. The letter is
as follows:

"Oyster Bay, N. Y., Sept. 19, 1904.—
(Personal).—My Dear Col. Mosby:—
That is a fine letter of Roulhac's and I
appreciate it. I have always been ad-
mired rather than angered by the at-
tacks upon me in the south. I am half
a southerner myself, and I can say with
all possible sincerity that the interests
of the south are exactly as dear to me
as the interests of the north. Sincerely
yours,

"THEODORE ROOSEVELT."

NORTH SEA COVENTION.

Great Britain Has Not Accepted
Russia's Modifications.

London, Nov. 18.—Great Britain has
not yet accepted the modifications of
the North sea convention proposed by
Russia.

The draft of the convention, which
has now had an interesting career, is
in London, and proposals and counter-
proposals on the subject of the wording
continue to be exchanged between the
British foreign office and the Russian
embassy.

Satisfactory conclusion of these ex-
changes is anticipated shortly, though
it probably will be next week before
the convention is actually signed.

One of the chief difficulties is to find
a satisfactory equivalent in French for
the English word "blame."

LED A DOUBLE LIFE.

Dr. T. C. Conklin of Farmington,
Ill., Had Two Wives.

Peoria, Ill., Nov. 18.—Death has re-
vealed an extraordinary case of double-
life led by Dr. T. C. Conklin, a prom-
inent physician of Farmington, who
died Nov. 8. The wife with whom he
was living at the time of his death went
to Lewiston to have herself appointed
administratrix of his estate, and found
that the records showed that many
years ago her husband had been mar-
ried to a Miss Steele, and that the first
wife and four children were still alive.

Children of the first wife will make a
fight for the estate, which amounts to
about \$10,000. Dr. Conklin had two chil-
dren by his second wife.

CATHOLIC PRIEST ARRESTED.

He is Charged With Forging a
Woman's Name.

Pender, Neb., Nov. 18.—Father Joseph
Schell, the Catholic priest arrested in
Omaha and brought to this city, was
today arraigned on a charge of for-
ging the name of Mrs. Mary Little Wal-
ker to a certificate of deposit for \$2,000
drawn on the Home Bank. He pleaded
not guilty and the trial was set for next
month. Father Schell left today for
Washington, where he will seek to place
before President Roosevelt the condi-
tions which exist at the Winnebago
Indian agency, which he alleges are in
a starving condition as a result of
their persecution by unscrupulous white
merchants.

Washington, Nov. 18.—In conversa-
tion with the president today, Secy.
Hitchcock referred briefly to the
charges made by the Rev. Joseph Schell
of the Catholic church against Indian
Commissioner Jones regarding a recent
investigation of the condition and treat-
ment of the Winnebago Indians. Father
Schell is a Nebraska priest and has an-
nounced his purpose to come to Wash-
ington to lay the whole matter before
the president. Secy. Hitchcock an-
nounced that if Father Schell should
come here he would refuse to see or
have anything to do with him. He in-
dicated that the president might de-
cline to take up the subject also with
him. Secy. Hitchcock said he had an-
nounced his intention not to receive
Father Schell to Archbishop Ryan, a
member of the board of Indian mis-
sions, and that the archbishop had
carefully approved of his determina-
tion.

COLORADO'S VOTE.

Official Count Shows that Pea-
body Wasn't In It.

Denver, Nov. 18.—The official count
of the vote at the recent election in all
counties except Denver, Pueblo and
Arapahoe, with the unofficial figures
from these, shows that Gov. James H.
Peabody ran over 40,000 votes behind
President Roosevelt. Roosevelt's plu-
rality is 31,416 and Adams' majority
over Peabody is 16,196. All candidates on
the Republican state ticket except Pea-
body were elected by pluralities ranging
from 3,099 upwards. The count in Den-
ver has been delayed by court proceed-
ings.

INDEPENDENCE EXPLOSION.

Cases Against 48 Men Charged
With Complicity Dismissed.

Cripple Creek, Colo., Nov. 18.—Dist.
Atty. Trowbridge today dismissed the
cases of 48 men who had been charged
with complicity in the Independence
depot explosion and the Victor riot of
June last. Two of the men had been
in jail five months. The others were
out on bonds.

There remain similar charges against
17 men, including Charles H. Moyer,
president, and William B. Hayward,
secretary, of the Western Federation of
Miners, but it is doubtful whether these
cases will ever be tried.

Since the election about 50 men who
had been deported have returned to the
district and have not been molested.

COMMISSIONER WARE.

Question as to When His Resig-
nation Takes Place.

Washington, Nov. 18.—A question has
been raised as to the date when the
resignation of Pension Commissioner
Ware takes effect. The resignation was
dated Nov. 13 last and was accepted
by the president the next day. Neither
in the resignation nor in the acceptance
was there any mention of time when
the resignation should become opera-
tive. The commissioner's note was
brief. He only said:

"With best wishes I hereby tender
this, my resignation."

Since the president's acceptance has

been received, the commissioner has
continued to discharge the duties of
office until the present time and inquiry
has developed the fact that it was his
expectation to remain in office for some
weeks yet. The question as to date
has been brought unofficially to the at-
tention of the secretary of the interior,
but he has not as yet taken any steps
in connection with the matter. The
claim is made that Mr. Ware's occu-
pancy of the office terminated when the
president acted upon it, and that no
act of the commissioner since that date
is legal. When the matter was brought
to Mr. Ware's attention today he re-
plied that he had not known that the
question had been raised. "My inten-
tion has been," he said, "to remain in
office until about the 10th of December,
but I am not anxious to continue even
until then. My original wish was to
get out immediately after the election,
and I have only extended the time to
meet the wishes of the president."

MOUMENT TO McKINLEY.

Fund of \$600,000 Has Been Com-
pleted.

Chicago, Nov. 18.—Announcement was
made today of the completion of the
fund of \$600,000 for the erection of a na-
tional monument to the late President
McKinley. Alexander H. Revell, chair-
man of the Illinois state auxiliary of
the McKinley National Memorial as-
sociation, in a report submitted to the
state committee, states that \$50,000,
the proportion allotted to Illinois, had
been raised. In New York, next Tuesday,
the national trustees of the association
will meet and adopt a design for the
monument.

Section Foreman Killed.

Albany, Or., Nov. 18.—Neal Sullivan,
a section foreman at Detroit, east end
of Corvallis and Eastern railroad, was
run over and killed today by a loaded
train of gravel cars. Four cars had
been set on the end of a spur. Sullivan
started the cars down the grade to
where they were needed when he slipped
and fell to the track.

Snowstorm at Butte.

Butte, Mont., Nov. 18.—Butte was
treated to the first snow-storm of the
season today. There was an inch at
Woodville. It is snowing heavily in
the mountains.

Brutal Murder by Bulgarians.

Salonica, Nov. 18.—During the night
of Nov. 17, at the village of Zabadya,
near Ghevgeli, a Bulgarian band murder-
ed a priest named Stoyan, together
with his two brothers. The murderers
then set fire to the house, burning to
death Stoyan's wife and child.

Balloon Ascension from Zurich.

New York, Nov. 18.—A well known
balloonist, Spellerling, accompanied by
two members of the German aérostat-
ic club of Berlin has made an as-
cent from Zurich, says a Herald dis-
patch from Geneva, Switzerland. The
balloon took a westerly course over the
Bernese Alps, making a safe landing in
the village of Courbatere, in the canton
of Neuchâtel. It attained an elevation
of two miles. Brilliant sunshine was
experienced, but the cold was in-
tense.

Several successful photographs were
taken.

Second Division, Baltic Fleet.

Falkenberg, Denmark, Nov. 18.—After
coaling, the second division of the
Baltic squadron sailed northward this
morning. The Danish gunboat and a
torpedo boat accompanied the fleet in
Danish waters.

"Black-Eye Artist" Dead.

New York, Nov. 18.—Thomas Kean,
one of the characters of the tenderloin,
whose profession was unique, has been
found dead in his sixth avenue office.
Kean was known as "the black eye ar-
tist." He made a business of treating
damaged eyes by painting over the
discoloration and had a great follow-
ing, which covered all classes of soci-
ety.

Beaten by Negro Robber.

Chicago, Nov. 18.—In an encounter
with a negro robber Hyman Isaacs, a
paw broker, has been beaten over the
head with a hatchet and probably fa-

cused the subject of tariff revision in his
message. The consensus of opinion as
expressed to the president was that if
the tariff is to be revised, the work
should be taken up early; but thus far
no decision has been reached, and none
will be until the president has had op-
portunity to thoroughly discuss the
subject with members of Congress gen-
erally.

will be able to present a pretty careful
draft of the document. It can be said
