

BEAVER DISTRICTS ARE BOOMING.

L. N. Morrison Brings Up an Interesting Budget of News.

BANNER YEAR IN MINING.

The Cactus and Imperial—Pushing Development Work—The Mines in the Star District Busy.

Mr. L. N. Morrison, who is one of the pioneers of the mines of Beaver county, returned Saturday from a visit to the properties in which he is interested. He likewise visited the Star mining district near Frisco, and brings back a very interesting budget of news from the various mines.

Mr. Morrison said this morning that never before has the mines around Beaver been as active, or the prospects brighter for the mines which are situated in its neighborhood.

In speaking of the Cactus mine he says they are now employing a force of twenty-five men, and that they are blocking out magnificent bodies of ore. This property will in the near future be one of the big producers of the State. The Imperial is looking fine and a great amount of development work is in progress. The ore of this property is increasing in value as depth is gained, and the body growing greater. In the Star district the Adella is becoming the sensation. Some twelve men are employed on this property, and they are now engaged in taking out ore. They have at present twenty-five tons of high grade carbonate ore on the dump, and will shortly be one of the heavy shipplers of the south country.

The Burning Moscow, a new mine, is being worked by a considerable force of men, and is looking well. It also has a fine lot of ore on the dump, and is daily blocking out more.

The Tailman in the same district is looking up, and have a force of 12 men employed developing the property, and the owners have every possible show of making it a mine.

Taking it on the whole, Mr. Morrison says that Beaver county, and the south country in general is coming to the front, and the prospects for the opening for the country are as bright as they well can be.

RECEIVER APPOINTED.

Fred. Duncan Will Have Charge of the Chloride Point.

A receiver has been appointed for the Chloride Point Mining company pending a suit on a labor lien on the mine. Frederick Duncan, the manager of the Overland, has been appointed. The case came up before Judge Cherry from Tooele county and the information states that the company owe \$1,000, only two of the directors are residents of Utah; that the tools and other machinery of the mine are being destroyed by neglect. It was upon this showing that Judge Cherry granted the petition.

Over in the Wasatch.

Another strike is reported from the Frisco district. This is in the Wasatch mine which is now being operated by Messrs. Leacock and Smith. The strike was made in an incline going down on the contact. The ore is said to be of a very fine quality.

Red Wing Matters.

W. C. Orem, of the Red Wing Blingham, has returned from a visit to that property. He brings with him some fine samples of the ore which was recently struck in the Red Wing vein. The ore is a black oxide of copper and has a value of 30 per cent to the ton of the metal. Since making the strike the lessees, the Bob brothers, have twelve tons mined out on the dump, and will shortly be in with a shipment. Mr. Teacher, who made the sensational shipment of carbonate from the vein he has leased, will duplicate it during the coming week. Mr. Orem says that the ore is growing better in the vein and that much higher returns can be expected when the ore is marketed.

The Sapho Incorporated.

The Sapho Mining company was incorporated Saturday afternoon. The property of the company is situated in the White Pine district, Nevada, and consists of the Bob Tail, Nevada and Sapho mining claims. S. K. Orem is president of the new company which is incorporated for 300,000 shares of the par value of 25 cents each.

Wyoming Copper Strike.

A big strike is reported in the Ramblin mine in the Keystone district, Wyoming. The mine is situated on Douglas creek, 45 miles west of Laramie. At a distance of 75 feet from the surface a vein of metallic copper was encountered, which assays up to the value of \$200 per ton.

Will Bond the Shawmut.

The Boston News Bureau has the following to say of the Shawmut mine of Bingham.

"The Shawmut Mining company, operating mining properties in the Bingham camp, Utah, has decided to mortgage its property and offer to stockholders \$500,000 five-year 7 per cent bonds at 92. The proceeds will be used in payment of the company's floating debt and to provide working capital."

"The company has met with disappointment in connection with the operation of its mill, the power company having completely failed to provide the necessary power. Assurance has been given of power by Jan. 1 from a company now running its lines into Bingham."

"The directors report that development work now aggregates upward of 3,000 feet, the ore having given higher assay values as development has proceeded."

"The new bonds are payable 30 per cent."

THE MARKET IS STRONGER.

The Day on the Exchange Shows a Decided Upward Tendency.

LOWER MAMMOTH HIGHER.

Daily-West Shows a Gain of Seventy Cents Per Share—The Week Opens With a Good Business.

The stock exchange opened the week today to a fair business and a stronger tendency than the close on Saturday. Lower Mammoth had gained strength during the Sunday rest and made up other sport skyward and sold up to \$1.20, but fell at the close of the call and was offered at \$1.18. This stock was easily the feature of the day, 11,200 shares having participated in the trading.

Star Consolidated is still dropping slowly and surely, 600 shares having changed hands at figures around 70 cents per share and closed the day at that figure. Ajax was active, 1,100 shares being sold, 1,000 of which brought 65 cents, the remainder going for 64 cents. Dexter sold as high as 134, the last transaction, however, closing five cents below that figure. Rocco Home Stake opened the week higher and was wanted at the close at 50 cents per share, 500 shares having changed hands at figures slightly below that point.

May Day was a trader at about the old quotations and 3,500 shares of Silver Shield was traded in at figures around 25 cents. The market was strong and was sold in big lots at advancing figures, closing at 11 1/2 cents, holders asking a half cent above that mark. Daily West had made a jump of Sunday and 100 shares brought \$2.75 a gain of 75 cents per share.

Among the non-traders Sacramento likewise had gathered strength and was wanted at 38 cents, a gain of one cent per share. Most of the other stocks were stronger. The quotations are as follows:

A BULLY'S WATERLOO.

Hoodlum Who Insults Ladies Runs Against a Snag.

Among the young and sportive element around the local railroad offices the noble art of self-defense has become a popular pastime until there are a round-bakers dozen of athletic con-venturers at the headquarters of a well known boxing professor in this city and the police authorities of the solar plexus, the upper cut and other sleep producers. This leading towards the many profane crop of black eyes around the various offices. At the present time there are three most notable in evidence. One of them, a young fellow named Evans, was manifested this morning when W. C. Evans, of the Chicago Northwestern, showed up to work with his right optic in mourning. Evans is universally conceded to be about the best amateur boxer in this city, and he himself told the story of how it happened. The young railroad man did not tell the story himself but it has leaked out nevertheless.

It appears that as he was walking home with a well known and popular young lady, when, at the corner of Eighth and Second South, a gang of overgrown hoodlums began to pass audible and coarse remarks at the expense of the young lady in question. Naturally this was resented by her escort, who told them that they ought to know better. By way of response the biggest fellow in the crowd stepped forward and without a moment's warning, smashed Evans in the face. But for the fact that the railroad man jerked his head back, he would undoubtedly have been down and out. Evans placed his hand on his forehead and the young fellow proceeded to give the bully a few illustrations of boxing as it is taught in Salt Lake. Those who saw the affair say it was a very pretty exhibition, although it was entirely too short for comfort. The young fellow, who the bully will retire from the place of the vulgar and unsympathetic for at least the space of one week.
