

MINING, BUSINESS AND STOCKS

TRANSACTIONS ON MINING EXCHANGE

The Bottom Seems to Have Completely Dropped Out of the Local Market.

MAY DAY AND NEW YORK BON.

Some Sacramento Bought—Park City Stocks Not in Demand—Closing Quotations.

This was another dull day for the brokers operating on the Salt Lake Stock and Mining Exchange. There was an improvement in prices; but it was only a slight one. May Day and New York furnished the bulk of the trades, both selling at figures slightly above those noted yesterday. Outside the sales of these stocks there was little doing. A small lot of Sacramento was brought out at 9 1/2 cents. Curia dropped from 16 1/2 to 14 1/2 cents, while Lower Mammoth went the same way and dropped off a cent. The Daily Stocks were not in demand and were passed with the quotation. Consolidated Mercury held its own. For Boston Cotton was bid; it was offered at \$8.50. The closing quotations were as follows:

TODAY'S QUOTATIONS.

Table with columns: Stocks, Bid, Asked. Lists various stocks like Albia, Alex, Bullion Beck, Curia, etc.

NEVADA STOCKS.

Table with columns: Stock Name, Bid, Asked. Lists Nevada stocks like Goldfield, Jim Butler, etc.

LUCK OF CHINA ED.

Celestial at Finch in a Fair Way to Make a Fortune.

The Monitor group of mining claims, owned by "China Ed" of this place, was visited by a De Lamar Lodge representative a few days ago. Here is without doubt the largest ledge of gold-bearing ore in the world, says that paper. The ledge is 165 feet in width, and has been traced for over a mile in length. This ledge across the entire width of the ledge assays from 44 to 45. At a depth of 20 feet, in a cross-section 25 feet long, the assays run from 35 to 36 to the ton.

The owners are now cutting the ledge and taking sample assays every foot. The return from these assays are so favorable that sinking on the shaft is to be resumed at once, and it is thought by the depth of fifty feet has been attained they will be taking out shipping ore.

This mine is located at a distance of only 15 miles from the Salt Lake, on the Los Angeles railroad, and a wagon road can be constructed at a nominal cost.

There is no doubt but this mine will create a stir in mining circles as soon as the publicity of its ore deposits becomes more generally known.

NEW COMPANY FORMED.

Congressman Howell President of Blue-Bell Mining Company.

Special Correspondence. Logan, May 25.—Articles of incorporation of the Blue-Bell Mining company have been filed with the county clerk. The capital of the company is placed at \$100,000, and shares are placed at 10 cents. The following are the holders of the stock: Joseph Howell, 125,000 shares; A. B. Nielson, 10,000; John F. Squires, 10,000; George Wilson, 10,000; H. Lundstrom, 10,000; Geo. Wilson, trustee, 10,000; F. K. Neuberger, 5,000. The officers are Joseph Howell, president; John F. Squires, vice-pres-

Today's Metal Quotations:

Local settling prices as reported by the American Smelting and Refining Company: SILVER, 58 3/4. COPPER, CASTING, 14 3/4. " ELECTRO, 14 7/8. LEAD, \$3.50@4.50.

New York Quotations:

LEAD, quiet, 4.50@4.60. COPPER, quiet, 15@15 1/4.

ident, and A. G. Lundstrom, secretary and treasurer. The company will develop properties in Paradise canyon.

Dana Annual Meeting

The shareholders of the Dana Gold Mining company, whose properties are located in Park Valley, held their annual election yesterday and chose the following officers: G. Lavagnino was made president, Judge W. I. Snyder, vice president, and S. L. Henderson, secretary and treasurer, the remainder of the directors consisting of C. F. Little, L. P. Kimball and Joseph Federich. It is the intention of President Lavagnino to visit the properties of the company and to outline a campaign of future development. Already considerable gold-bearing ore of good quality has been exposed in the properties, and that a plant with which to reduce it will be constructed before the expiration of another year is not unlikely.

STAR CON. MEETING.

Much Interest Being Taken in Gathering Scheduled for Next Week. Considerable interest is being manifested in the special meeting of the shareholders of the Star Consolidated Mining company which is called to take place next week next Monday. There appears to be little opposition to the plan to make the stock of the company assessable. The fact is the hope of the company depends upon this very thing, so it is very probable indeed, that a change in the articles of incorporation will be authorized giving the board of directors power to levy assessments in accordance with the laws of the state governing such matters. The Star Consolidated is reputed by a great many to be a good property, but that it is necessary to do considerable development work before stockholders can expect to see their stock advance in value or expect to get any direct returns. The management has for several months been confronted with a serious problem. In the first place the mine contains practically no having commercial value and has no money in the treasury to make a search for it.

UTAH APEX MINE.

Company is Marketing Close to Fifty Tons of Ore a Day. Out at the properties of the Utah Apex Mining company in Bingham things are moving along in good shape, both in the driving of the main tunnel ahead and in the development of other portions of the mine. The ore shipments show a slight increase as compared with what they were a few weeks ago. From 40 to 50 tons are being sent out daily that brings to the company from \$12 to \$15 to the ton.

IN CLAY BUSINESS.

Salt Laker are Interested Near Seattle. A dispatch from Tacoma conveys the information that the object of the recent trip of J. E. and Ernest Bambergers to Seattle was for the purpose of securing an option on the Deseret Clay works near Seattle, with the intention of effecting a consolidation with the Benton Clay Works, in which they are already interested. Mr. J. E. Bamberger admitted that the Tacoma report is founded on truth, but says no deal has, as yet, been consummated.

AT PELICAN POINT.

Engineer Thomas Says Little is Being Done There at Present. W. T. Thomas, who is to occupy the position of engineer in the field during the construction of the new mill at Pelican Point, Utah county, where the new town of Bostonia is to be reared, is in the city again. He says while the company has commenced some preliminary work such as the repairing of an old stone building there, which is to be used as a boarding house, little else is going on. He will be several weeks before the mill will begin to assume proportions of much consequence.

BOSTON MARKET.

Closing quotations today as reported by the Brokerage & Finance Co., successors to Hudson Sons Co., brokers, were: Amalgamated, 75d, Asked, 80 1/2. Bingham, 25 1/2. Con. Mercury, 18. De-West, 12 1/2. U. S., 42 1/2. United States, 29 1/2.

TEA

Good tea is so much better than common that you won't buy any more poor stuff.

Private leased wires with Logan and Bryan, Corcoran, Bonding, etc.

New York Stock Exchange, New York Cotton Exchange, Boston Stock Exchange, Chicago Board of Trade.

We handle all prominent Utah Mining and Commercial Stocks.

POCATELLOITES FIND TRIPOLI LEDGE

Immense Deposit Discovered Near The Town of Emmett in Western Idaho.

WHAT PRODUCT IS USED FOR.

Ledge is Forty Feet Wide—New Company Soon to be Organized in Idaho Terra.

John Mullin and several others of Pocatello believe they are going to make their fortune out of a large deposit of tripoli which they not long ago acquired near the town of Emmett in western Idaho. Mr. Mullin recently brought down a chunk of the stuff, not knowing himself what it was; neither could anybody in Pocatello tell him; not one in the whole town had ever seen anything exactly like it.

It has a whitish appearance, is free from any grit and when washed between the fingers would lead one to think it is ordinary talcum powder. Mr. Mullin discovered that the material is useful for scouring purposes, and his wife, after trying it on her silverware, declared she had never seen anything to equal it for such purposes.

A piece of the stuff was shown Victor C. Hejke, in charge of this district for the United States geological survey, mineral division, yesterday, and he promptly pronounced it a tripoli, and is used among other things in filtering and for scouring purposes. This ledge, Mr. Mullin has informed a "New" representative, measures about 40 feet in width. A company will be organized at Pocatello and an effort made to put the product to commercial uses.

Nash Some Better.

A bulletin to James A. Pollock during the day conveyed the information that E. W. Nash, president of the A. S. & R. company, who has been dangerously ill for several days, is some better today and that his doctors now entertain hopes of his recovery.

CONCENTRATES.

The Mammoth Mining company has a big lot of ore at the samplers today. Simon Bamberger went to Ogden today on business for the Salt Lake & Ogden road.

Charles C. Freyberger of the Colorado Iron Works Co., went to Newhouse last night. The Continental Alta mines are shipping an average of about two cars of ore per day.

The Hildred group of six claims in Let's mine near Hildred, Ida., has been sold to an eastern syndicate. Development work is progressing steadily at the Clutter property at Bingham under the option of Peter Porter.

ST. LOUIS.

MARKET ANYTHING AND ANBODY'S.

Strength of London Stocks Helped Some Internationals in New York to Higher Level.

U. P. BOUGHT SPASMODICALLY

Effect Was to Make Better Prices All Around—It Subsequently Lost Its Rise.

New York, May 25.—Strength in the London market helped some of the international stocks to a higher level in the opening trading here, but demand was very languid and a number of the industrial and specialties fell off. Energetic selling commenced after trading was under way. The brunt of the attack was borne by the leading transportation, metal and railroad equipment stocks. Eastern stocks were on the whole better supported, but Reading was quite weak. Great Northern preferred rose way 1/2. Northern Pacific 3 1/2, Smelting 1 1/2, St. Paul, Northwestern, St. Louis Southern preferred, Colorado & Southern second preferred, the United States Steel stocks 1 to 1 1/2. Partial recoveries were made before the close, but the volume of business diminished. Ontario & Western was pushed vigorously up to 3 1/2, a gain of 1/2.

Speculation flattened out and business became very dull about last night's level, but the market was firm in London. London was steady at noon. Higher prices all around resulted from spasmodic buying in the United States and American Copper, which benefited from a point each. After the demand for the leaders abated almost motionless. Liquidation in Cop Products stocks cost the common 2 points, and the Wisconsin Central preferred and Republic Steel preferred moved up a point. Reading and Erie yielded 1 and Union Pacific subsequently lost its rise.

LIVESTOCK.

Chicago, May 25.—Cattle—Receipts, 1,200; market steady. Good to prime steers, 3 1/2 to 4 1/2; heavy, 3 1/2 to 4 1/2; cows, 2 1/2 to 3 1/2; calves, 2 1/2 to 3 1/2; hogs, 2 1/2 to 3 1/2; sheep, 2 1/2 to 3 1/2; lambs, 2 1/2 to 3 1/2.

KANSAS CITY.

Kansas City, May 25.—Cattle—Receipts, 1,200; market weak. Native steers, 3 1/2 to 4 1/2; heavy, 3 1/2 to 4 1/2; cows, 2 1/2 to 3 1/2; calves, 2 1/2 to 3 1/2; hogs, 2 1/2 to 3 1/2; sheep, 2 1/2 to 3 1/2; lambs, 2 1/2 to 3 1/2.
