A MAN

WHO IS UNACQUAINTED WITH THE GEOGRAPHY OF THIS COUNTRY, WILL SEE BY EXAMINING THIS MAP, THAT THE

CHICAGO, ROCK ISLAND & PACIFIC R. R.

IS THE GREAT CONNECTING LINK BETWEEN THE EAST & THE WEST!

Its main line runs from Chicago to Council Bluffs, passing through Joliet, Ottawa, La Salle, Geneseo, Moline, Rock Island, Davenport, West Liberty, Iowa City, Marengo, Brooklyn, Grinnell, Des Moines (the capital of Iowa), Winterset, Council Bluffs, with Branches from Wilton Junction to Peoria; Wilton Junction to Muscatine, Washington, Fairfield, Elston, Belknap, Centerville, Princeton, Trenton, Gallatin, Cameron, Leavenworth, Atchison, and Kansas City; Washington to Sigourney, Oskaloosa, and Knoxville; Keokuk to Farmington, Bonaparte, Bentonsport, Independence, Edson, Ottumwa, Eddyville, Oskaloosa, Pella, Monroe, and Des Moines; Newton to Colfax; Altoona to Des Moines; Winterset to Adair; Des Moines to Lenox and Audubon; and Avoca to Herlan. This is positively the only Railroad which owns, and operates a through line from Chicago to Des Moines, Iowa.

Through Express Passenger Trains are run with Pullman's Palace Sleeping Cars attached, and with no change of cars, between CHICAGO and PEORIA, KANSAS CITY, COUNCIL BLUFFS, LEAVENWORTH AND ATCHISON. Through cars are also run between Milwaukee and Kansas City, via the Milwaukee and Rock Island Short Line.

The "Great Rock Island" is magnificently equipped. Its road bed is simply perfect, and its track is laid with steel rails.

What will please you most will be the absence of smiling your eyes, while passing over the beautiful prairies of Illinois and Iowa, in one of our magnificent Dining Cars that accompany all Through Express Trains. You get an entire meal, as good as is served in any first-class hotel, for seventy-five cents.

Appreciating the fact that a majority of the people prefer separate apartments for different purposes (and the immense passenger business of this line warrantingit), we have added to our equipment that finest Compartment Cars in use, Sleeping Cars for Sleeping purposes, and Palace Dining Cars for eating purposes only. One other great feature of our Palace Cars is a SMOKING SALOON where you can enjoy your "Havana" at all hours of the day.

Connections are made in Union Depots at Council Bluffs, Kansas City, Leavenworth, Atchison, and Rock Island, with the lines diverging therefrom, these connections being made in Union Depots.

THE PRINCIPAL R. R. CONNECTIONS OF THIS GREAT THROUGH LINE ARE AS FOLLOWS:

At CHICAGO, with all diverging lines for the East and South.

At PEORIA, with the I. B. & W. R. R.; and P., P. & J. R. R.

At ROCK ISLAND, with P. C. & St. L. R. R.

LONDON, 15. — The Hamburg newspapers state that on Sunday last the British steamer *Admiral Castle*, bound for Venezuela, entered the river Elbe. This vessel, from the nature of her cargo, attracted the attention of the Peruvian Consul. She had a large quantity of war material, and intended to take in 100 tons of powder at Hamburg and then proceed to Valparaiso. While at anchor she took fire and was scuttled to prevent an explosion. The ship and cargo, which included a number of Krupp guns, were insured in London and Hamburg for £137,000. The Peruvian Consul is about to proceed against the owners of the vessel.

J. S. Wright, who has just been elected a liberal member of Parliament for Nottingham, fell dead at the educational meeting in Birmingham to-day.

In the Spanish Congress to-day, General Compos appealed to the Government to make various reforming and liberal modifications in the Cuban budget of receipts, but Senior Armas, a Cuban deputy, combatted the proposal. He declared that the reforms suggested were impossible, considering the state of the Cuban exchequer. Senior Cabrara, another Cuban deputy, insisted on the necessity of reform in the administration. The Cuba official *Gazette* states that the floating debt of the Cuban treasury on April 1st, amounted to 113,000,000 pezetas.

The Russian representative at Constantinople has sent a note to the Porte demanding that the proceedings in the case of the assassin of the Russian Consul be at once brought to a conclusion if consistent with justice, and declaring that Russia will hold the Porte responsible if the assassin should escape, or if further outrages are committed.

Correspondence.

WASHINGTON, D. C.,
April 10, 1880.

Editor Deseret News:

The United States Senate has an easy way of adjourning over, occasionally, knowing that it can accomplish as much in a day, when it settles down to work, as the House can in a week. It rarely has a session on Saturday, and if any of the Senators wish for a day or so of diversion — as in the case of Senator Don Cameron when he had to make arrangements for his wedding—the Senate obligingly adjourns over for the required number of days. In the rules of their dignified body there is no "previous question" to cut off debate, but generally, the Senators know when they are done talking, and a vote can be had in reasonable time. The Senate hardly ever delays public business. It is the House by its never ending debates on immaterial points, the personal strife of its members, and its rules by which dilatory motions can be made almost to the end of time, that creates the trouble. I hoped a great deal from the new rules, but besides the delay caused by discussion of these rules, they have themselves seemed to be less promotive of progress in legislation than the old ones. It would be strange indeed, if, after the unnecessary and indefensible procrastinations of this session, some measures should not be adopted to cure this vice of our legislative system.

In the Senate on Monday next a vote will be taken on the Ute agreement of Secretary Schurz, with a prospect of its adoption. It gives, as will be remembered, land in severalty to the Indians, as was officially proposed by President Monroe in 1821.

The House has spent three days of the present week in consideration of the army bill, and debate will run into next week. The principal contention is over the proviso prohibiting payment for services of troops at the polls at any election in any State. The naval appropriation bill will be discussed at night session during the coming week, but will pass without much discussion.

The Senate has adopted a resolution to print 300,000 copies of the Agricultural Report and a like number on the report on the manufacture of beet sugar. Placed in a single row, these books would reach 80 miles or so, and the singles leaves so placed would reach round the world twice, with binding material enough to make a man-of-war. There are not half as many books in the Congressional Library, numerous as that is, as this Senate order covers.

Editor Deseret News:

My last letter to you was written on the summit of the Rocky Mountains, and in about two feet of snow. On the first of this month, we arrived at the Junction (so called from the reason of one road branching north to Virginia City and one continuing in a north-westerly direction to Helena, Glendale and Butte cities). On leaving the Junction we also left our friend of six weeks (viz. deep snow), and on the evening of the 6th camped on one of the sources of the great Missouri, the stream being known as Junction Creek. The hills and mountains are covered with a very dense coating of grass of last year's growth; indeed the best used by us has been so far unfit for use.

On the 7th we entered Red Rock Canon, about six miles from the end of the road, and 14½ from our starting point. We found the canon very narrow, about wide enough for a railroad track. This canon is very appropriately named, being a very bright red, such as are to be found in Southern Utah around Leeds. We were three days in the canon; on the eve of the 10th we first camped on Rock Creek, a very beautiful transparent stream, and a source of the Missouri River also. The stream though small abounds in small fish of a very good quality. On the 11th we came near the mouth of the canon, and this evening we can see at a distance of four miles our "Mecca," that is Red Rock City, the point to which the Utah and Northern is graded.

Red Rock Valley is a valley about the size of Sompete, but not as wide; it is pre-eminently a stock country. It also abounds in game of several varieties. In the centre of the valley is a lone red butte, about 250 feet in height, and about five miles around. It has a very imposing appearance, putting one in mind of the Rock of Gibraltar as seen in pictures. The surrounding of this country are very high, steep mountains, but strange to say they are devoid of timber, and are perfectly bare when seen at a distance.

Two companies of surveyors are now on their way surveying the road from Red Rock through Ryan's Canyon toward Helena, the objective point, by the last of this year. They began cross-sectioning to-day, and Bishop Merrill, of Richmond, Cache Valley, the head grading contractor, is expected here on the 18th, when grading will be actively prosecuted.

There is some talk of a branch road from Red Rock to National Park on the Yellowstone River, but it has assumed no definite shape as yet. There is an immense amount of freight being taken from here to different points in Montana.

Messrs. R. Walker and Wm. S. Godbe, of your city, passed here a few days ago, for Butte, to look after their extensive mining interests.

JAMES F. WILKIN.

NOTICE.

IS HEREBY GIVEN TO THE STOCKholders of the Summit County Railroad Company by the undersigned, the owners of more than one-third of the capital stock of said Company, that there will be a meeting of the stockholders of said company held at the office of the Union Pacific R. R Company, at Echo Station, Summit County, Utah Territory, on Wednesday the 28th day of April, A. D. 1880, at the hour of 2 o'clock p. m. for the purpose of amending the 1st article of association of the said Summit County R. R. Co. so as to authorize the said company to build a branch line of railroad from a point on its present line, about three miles from Echo Station, and near the mouth of Grass Creek Canyon, and extending thence eastwardly up said Grass Creek to a point at or near the last or upper coal mine on said creek, a distance of about seven miles; and also to fix the southern terminus of said railroad at Park City in said Summit County.

Swallowing POISON

Spurts of disgusting mucous from the nostrils or upon the tonsils, Watery Eyes, Sniffles, Buzzing in the Ears, Deafness, Cracking sensations in the Head, Intermittent Pains over the Eyes, Fetid Breath, Nasal Twang, Scabs in the Nostrils and Tickling in the Throat are

SIGNS OF CATARRH.

No other such loathsome, treacherous and undermining malady curses mankind. One-fifth of our Children die of diseases generated by its Infectious Poison, and one-fourth of living men and Women drag out miserable existences from the same cause. While asleep, the impurities in the nostrils are necessarily swallowed into the stomach and inhaled into the lungs to poison every part of the system.

Dr. Wet De Meyer's Catarrh Cure absorbs the purulent virus and kills the seeds of poison in the farthest parts of the system. It will not only relieve, but certainly cure Catarrh at any stage. It is the only remedy which in our judgment, has ever yet really cured a case of Chronic Catarrh.

Cured! Cured! Cured! Cured!

O. H. PERSBURY, Prop. West End Hotel, Long Branch, cured of 20 years Chronic Catarrh.

THE NEW LIGHT WEIGHT WATER PIPE!

Fig. 1.

Fig. 2.

Is Superior for Hydraulic Mining, City Water Works, and all other purposes for which iron or wood is used to any pipe now manufactured. It combines

LIGHTNESS WITH STRENGTH

(Being from ⅛ to ¼ the weight of iron,) and

CHEAPNESS WITH DURABILITY.

It is Made of the Best Oregon Pine, and is spirally Bound with Wrought Iron of Suitable Strength to Sustain any Required Pressure.

The whole Exterior is Completely Protected from Rust or Decay by a Thick Coating of Asphaltum, while the Interior being Constantly in contact with the water

WILL LAST FOR 50 YEARS.

It is from 50 to 75 per cent. Cheaper than the Iron Pipe, and will sustain a gravity head of 700 feet, or over 300 pounds pressure to the square inch.

It is already in use in many of the leading Cities of the Pacific Coast, and is rapidly taking the place of iron pipe along the lines of Western Railroads. It is used for Gas, Oil and Water. For full particulars, prices, Etc., address,
