Volumes, at times, of woman's happiness or misery. The dull, sunken eye, with its dark circles almost surely speaks of womanly ill-health, and its attendant suffering. With the dull eye goes usu-ally the sallow, sunken check, the drawn mouth, the shrunken form-the whole glory of woman's beauty marred by the effects of disease.

Dr. Pierce's Favorite Prescription cures the diseases which undermine the health and mar the beauty of women. It establishes regularity, dries weakening drains heals inflammation and ulceration, and cures female weakness. maiden name, Harriet H. Bolce, given

Sick women are invited to consult Dr. Pierce by letter free, and so obtain the advice of a specialist upon their disease. All correspondence is strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

"With pleasure I send a few lines to let yo know that I feel much better than for eigh know that I feel much better than for eight years before taking your medicine," writes Mrs. Pierce Ceise, of 824 West Phila. Street York, Pa. "Will recommend Dr. Pierce's medicine to every person who may inquire as to what it has done for me. I was troubled with female weakness, and began to think I would never be well. If I had continued the treatment prescribed by my doctor I don't know what would have become of me. When your treatment was commenced my weight was 163 pounds, at present it is 150. Have healthy color and my friends say I look well. My best thanks to you and my best wishes, too, for what you have done for me."

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women.

Dr. Pierce's Pleasant Pellets cleanse the clogged system from accumulated impurities.

Manager Graham of the Enquirer weather is the coldest ever experienced in Tooele county. There is no use dis-guising the fact, sheep are starving and freezing on the ranges. Reports from the desert indicate that the losses will be great

Mails are being carried from Stockton to Vernon on sleighs.

All the healing balsamic virtues of the Norway pine are concentrated in Dr. Wood's Norway Pine Syrup. Nature's own remedy for coughs and colds.

JUNCTION. NEW RESIDENCE BURNED.

Defective Flue Causes the Destruction of the Sudweeks Home.

Special Correspondence.

Junction, Plute Co., Feb. 18 .-- Prepara tions for building again has already be-gun on the place of Daniel Sudweeks of Kingston, whose new building was en-tirely destroyed by fire last Saturday. on account of a defective flue. Mr. Sudweeks had just been fixing the flue and built a fire, telling his folks they would have to watch it. They sat down to dinner in their old house which was a few rods away when they were in formed by their neighbors that their

house was on fire. Lucky for them every thing in the house and the windows were taken out and saved. house had caught on fire twice I Th from the same cause. > support of this board, and in return that the board has been wonderfully helped by the station in the work pecu-liar and special to it, and that in a sense the two institutions cannot be separated.

AGRICULTURAL EDUCATION.

It may be claimed that it is a funcion of the agricultural college to prohe experiment station, and this view correct in so far as the influence f the college extends; yet, because it a college, its advantages are limited o a few who can afford the time and xpense of the course, unless special nd short courses are established. Thatcher, Graham Co., Ariz., Feb. 14. -Thorough preparations had been made chich the authorities in this state have ot seen fit to provide, notwithstanding e importance of such a move has en urged by this board, both in sea an and out of season. As I study this roblem of agricultural education I am The ore and more convinced that the ad itional need now is for the establish ment of a course in agriculture in the public schools. This question is a per untal one, and yet it is of the utmos mportance. Fortunately, there has been great progress in agricultural everal trees later. As a compliment to the workers the academy board gave ines in recent years, and we are bette prepared today for the teaching of he students a free party in the assemagriculture in the public schools than ever before, because we are getting a trained body of teachers, and we ar etting the various lines of teaching in Under the auspices of the academy a

such a form as to make it possible tive a logical system of instruction. Another impetus that has been given the question of teaching agriculture the public schools is the ent in many states of graded countr gh schools, where it will be possibl earnestness and attention. Surprise is expressed by the professor that land is ithout interfering with instruction i ther lines to teach those branche which shall be of greatest service to the farmers' children. I am satisfied well taken care of, and this can only be that true progress and genuine uplift done by intelligently applying the best ag along agricultural lines must come methods. A department of agriculture is greatly needed in the academy. rom the education of those who ar o be the farmers of the future, as we An interested audience listened to the remarks of the frofessors on the decor-

s the education of the farmers of to day. In so far as such education shall levelop an interest in the work that i o go on hereafter.

Twenty-eight years ago Clifton was first settled and was then in the and aim for an ultimate end, namely the genuine instruction of the farmers and in order to do this we must, as state or rather Territory of Utah, and was part of Cache stake of Zion. It is the years go by, have a higher class situate on the west side of the beauti-ful valley of Cache, the O. S. L. runs of instructors-those who have been trained in the science of agriculture and are able to present in a right way one mile east of town. The station is called Garner, after our Deseret News the results of scientific investigations. agent, W. F. Garner, and is a flag sta-tion. The town is what some people and to show their relation to farm practice. Along this line it is gratifying to call a string town. The precinct has eight miles of railroad through it. The ranches are scattered. The ward is eight miles from north to south and six eight miles from north to south and six from east to west, covering an area of 48 square miles. The soil is a black loam and if they had plenty of water no richer iand could be found in the state. This is what is called a dry farm country, and last year the crops were very short on account of the drouth. But their prospects are in the ascender on a brief of the drout of the ascendency as an irrigating district has been organized and the bonds published

know that the influence of the various educative forces, including the institute, has borne good fruit both directly and indirectly and in teaching the farmer to adapt himself to his condi-tions. It is a fortunate thing for any state when all of the forces whose aim is the betterment of any one industry shall work together. This state has been peculiarly fortunate in that all its working for agricultural progress and uplifting have been both complemen-tary and supplementary, working together harmouniously, recognizing one
