LOVELY COMPLEXIONS

POSSIBLE TO ALL.

What Nature denies to many Art secures to all. Hagan's Magnolia Balm dispels every blemish, overcomes Redness, Freckles, Sallowness, Roughness, Tan, Eruptions and Blotches, and removes all evidences of heat and excitement. The Magnolia Balm imparts the most delicate and natural complexional tints—no detection being possible to the closest observation.

Under these circumstances a faulty complexion is little short of a crime. Magnolia Balm sold everywhere. Costs only 75 cents, with full directions.

PATENTS

obtained for new inventions, or for improvements on old ones, for medical or other compounds, trade-marks and labels. Caveats, Assignments, Interferences, Appeals, Suits for Infringements, and all cases arising under the Patent Laws, promptly attended to—Inventions that have been REJECTED by the Patent Office may still, in most cases, be patented by us. Being opposite the U. S. Patent Department, and engaged in Patent business exclusively, we can make closer searches, and secure Patents more promptly, and with broader claims, than those who are remote from Washington. INVENTORS send us a model or sketch of your device; we make examinations and advise as to patentability free of charge. All correspondence strictly confidential. Prices low, and NO CHARGE UNLESS PATENT IS SECURED.

We refer in Washington, to Hon. Postmaster General D. M. Key, Rev. F. D. Power, The German-American National Bank, to officials in the U. S. Patent office, and to Senators and Representatives in Congress; and especially to our clients in every State in the Union and in Canada. Address

Financial Talk.

NEW YORK, 7.—The *Tribune* says: The exports from this country are going to be enormous, and in one form or another, foreign money must come hither to pay for products purchased. It is no longer possible for England and Germany to pay this country by sending $200,000,000 bonds, as has been in recent years, nor are American railroad securities of a kind that can be advantageously sold here lightly esteemed by foreign holders. Probably a settlement will be made in three ways—by some abatement in prices of foreign products to induce larger purchasers, by some sales of American railroad and other corporate and municipal securities, and by some shipments of specie. Happily the Bank of England now holds an unprecedented stock of coin; and it is the feeling among the ablest financiers of that country that considerable exports of specie would not now be a misfortune. In the absence of special exertions to prevent such a movement, it seems likely to grow large. An immense amount of capital is waiting to find employment in manufacture, commerce, mining and agriculture, and in the further development of the nation's resources. Evidence of the fact will be seen in starting mills long idle, in opening new mines, farms and railroads, and in the unceasing demand for labor.

Washington dispatches report official letters received from Berlin which leave no doubt that at the next International Congress on Silver, Germany will unite with this country and take a leading part in the question of restoring silver to an equal relation with gold. Germany's action is regarded as important.

The *Herald* says of Germany's proposed action: The news is important, if true, and it will hasten Evarts' plan for a new conference. It is generally understood that Geo. Walker, of this city, who is an intelligent bi-metallist, has been sent to Europe by Evarts to pave the way for such a new conference on silver; but if Minister White is correctly reported from Washington, the accession of Germany will make the conference immediately possible. If Germany should really offer to help reinstate silver as money, and not as mere subsidiary coin, Bismarck would give the world another genuine surprise.

Skilled English Labor.

The arrival here, yesterday, in the steamship *Algeria*, from Liverpool, of 130 Sheffield cutlers, brought over by the Feary Cutlery Co., Bridgeport, Conn., is said to be the first importation of 500 or 600, contemplated by the Bridgeport firm, who propose the large manufacture of pocket cutlery, extending to other branches if successful. The men say they were offered better wages and more comfortable homes and gladly came.

Official Perquisites.

The *Sun's* Washington special calls attention to the number of high government officials enjoying summer vacation with traveling expenses paid by Government. It instances the President and family's visit to Fortress Monroe in a Government steamer, Sherman's tour in a revenue cutter, Schurz's tour to the Northwest, nominally to inspect Indian agencies, in imitation probably of General Sherman's summer "inspection tour" in the North and Northwest.

An Embezzler Captured.

CHICAGO, 7.—*Tribune's* Ottawa special: Herman B. Chapman, who last summer was tried and acquitted of the charge of embezzling $14,000 from the United States Express Company while driving on its delivery wagons has been shadowed since his acquittal and to day was arrested at Lasalle, where the robbery was committed, the charge this time being perjury. Chapman's trunk was searched and found to contain a considerable sum of money which bears evidence of having been buried so long as to be useless for circulating purposes. Chapman has been to San Francisco, and under the name of Geo. A. White, has established a news agency on the Southern Pacific, a fact which is to be proved by the citizens of California who will also show that he has handled large sums of money there. The case was continued ten days.

Capital Notes.

WASHINGTON, 7.—Judge Tarbell, Deputy First Comptroller of the Treasury, has given a decision in a question recently raised by the National Board of Health as to the official status of the health officers appointed by the State and local boards and paid out of the funds of the National Board, upon application of the local organizations for aid. Judge Tarbell holds that the appointees of local organizations are at most only agents of the National Board, and that the mere fact that the rules of the latter require money in aid of the local boards to be paid directly to their employees and not to the boards themselves for discretionary use does not make the said employees United States officers. Judge Tarbell recommends, however, all such appointees to be required to certify, under oath to the correctness of their accounts and the amount of their compensation.

The President and Secretary of State are firmly convinced that no exigency is likely to arise through the Darien Canal project which can cause disquietude or make it necessary for this government to take steps for the protection of American interests. They believe De Lesseps and the Paris congress have selected an impracticable route, and that the scheme will eventually fail through lack of financial support and American co-operation.

Official information has been received at the State Department that the German government is inclined to modify the position taken by it against silver, and is willing to discuss with the United States steps looking to the adoption internationally of the bimetallic standard.

Democrats of Maryland.

BALTIMORE, 7.—The Democratic State Convention nominated Wm. Hamilton, of Washington County, for Governor; B. J. M. Wynn, Attorney General; Thomas J. Keating, for Comptroller; Spencer Jones of Montgomery, for Clerk of the Court of Appeals. The following are among the resolutions adopted: The obligations and credit of the United States and of Maryland ought to be sacredly maintained. Neither the Federal nor the State debt ought to be increased; but a provision ought to be made as soon as practicable, for funding the debts of each at a lower rate of interest, and for the gradual payment of such debts while they continue to exist, every proper means of legislation should be adopted which may be necessary to give effect to these public obligations, to confirm confidence in their complete security.

When the democratic conservative party regained power in Congress, it enforced an economical administration of public affairs, and made resumption of specie payments a possible event. It will be its duty to maintain the advantage thus gained by firmly establishing the credit of the country upon a basis of coin exchangeable in all the markets of the world.

The democratic conservative party of the country was deprived, by fraud, of the fruits of its victory in the Presidential contest of 1876. The reprobation of history will fall upon those who committed the crime against the people. It is the duty of that people acting in their respective States to protect themselves and their posterity against a recurrence of the offence by enacting laws which will afford no future opportunity for such fraudulent practices.

The democratic conservative party of this State, faithful to the supremacy of the Constitution of the United States, rests its construction of that instrument upon the express words of the Tenth Amendment, adopted in 1791. "The powers not delegated to the United States by the Constitution, now prohibited by it to the States, are reserved to the States respectively or to the people." The republican party in its conduct of national affairs has violated the fundamental article. We return our hearty thanks to the members of the democratic conservative party in Congress, for their endeavors to secure impartial trials by juries in Federal courts, by the abolition of the test oaths, and for the manly steadfastness with which they have resisted republican encroachment upon limitations imposed by the Constitution.

Rapidly Spreading. Many New Cases Reported.

MEMPHIS, 7.—Eleven new cases were reported this morning—seven colored. The weather is sultry. Heavy storms prevailed last night to the north of Memphis. A light shower fell in this city near daylight.

Twenty-nine cases in all, including the five mentioned in these dispatches last night, were reported to the Board of Health for the 24 hours ending at six o'clock this evening, 16 of these colored. Among the whites reported this p. m., are R. E. Webb, Lizzie Gatchell, Lizzie Todd. Three other deaths have occurred, Kate Hally, Fred. Hollander, Jesse Heard, colored. This is a marked increase in the number of new cases, and plainly indicates that the fever is rapidly spreading.

The Howard association to-day assigned 75 additional nurses to duty. Their daily expenses aggregate near $500.

Ed. Moon's condition to-night is more favorable than last evening. R. E. Webb is in a critical condition. Mrs. Flago and the remaining two of her children were prostrated this afternoon, their cases will be reported to-morrow. An entire family of mother and four children are down with the disease. Commencing to-morrow a semi-weekly mail will be received and sent to Grenada, Mississippi, via. the Mississippi & Tennessee Railroad. It rained heavily this p. m. Another storm threatened from the south.

The committee of safety have sent circular letters to absent Memphians in other cities, asking their assistance towards supporting the poor now in camps.

New Orleans, 7.—The board of health to-night adopted the following resolution:

Resolved, There is not now a single case of yellow fever in the city or environs of New Orleans, that this opinion of the board is concurred in, we believe, by the entire medical profession of this city. There is no danger of an epidemic arising this summer from past or future cases should such occur. The grave danger to be apprehended is from the introduction of foreign cases. The board of health is determined to avert by the strictest and most unremitting vigilance.

The above resolution is preceded by a declaration that this city is entirely free from the contagious disease, and suggesting that quarantine against New Orleans be removed. Information is received that quarantine against New Orleans has been removed by Grenada and other points.

St. Louis, 7.—Five yellow fever patients are in the quarantine hospital.

FOREIGN.

GREAT BRITAIN.

News from Capetown.

LONDON, 7.—Advices from Capetown to the 22d of July, say several Zulu chiefs have submitted to Sir Garnet Wolseley at St. Paul's. It is reported he assured them they will henceforth be governed and protected by the British government.

General Crealock and Colonels Wood and Buller will return to England. Another detachment of marines has re-embarked for home. A strong force has to advance on Ulunda immediately, General Wolseley having promised the chiefs he would be there on the 10th of August. A detachment of friendly natives and irregulars and probably also General Newdegate's column will advance simultaneously on the king's new kraal.

It is represented that King Cetewayo has with him a force of only 1,000, and it is believed might be captured without difficulty.

The Premier of the Government of Cape Colony announces, in the assembly that Sir Bartle Frere did not contemplate resigning the governorship.

Sir Garnet Wolseley has resolved to occupy Ulundi until peacefully established. Troops press Cetewayo on all sides. General Wolseley's interview with the coast chief was satisfactory, but the latter considered it quite impossible while Cetewayo is at large. Natives generally cannot understand the retirement of the British forces from Ulundi, hence General Wolseley will reoccupy it and has summoned all the chiefs to meet him there on the 10th of August to settle questions relative to the future of the country. Operations against Cetewayo are by irregular and friendly natives. Arrangements are making to break up the first division of the cavalry brigade and send the men home. Oham has undertaken to capture his brother Cetewayo.

CANADA.

A Destructive Storm.

WOODSTOCK, Canada, 7.—A severe gale blew from the north-west yesterday; trees were uprooted, fields of wheat leveled to the ground, and corn fields severely injured.

At Bonctouche, since the last report, information has been received that the destruction is much more extensive than was at first supposed. Very few houses have escaped injury. Beside that done to the roof and spire of the Roman Catholic chapel, the outbuildings, storehouse and barns of Rev. Mr. Michaud are a mass of ruins. Miss Julia Michaud, niece of the priest, is seriously injured. The convent is somewhat racked, but still standing. Several cords of bark awaiting shipment, with several rafts of deals were driven to sea. Irving's warehouse is utterly destroyed. A large school building with furniture and library is a total loss. Timbers a ton in weight were raised and carried several hundred feet with the violence of the tempest. An old moulding shop and other buildings and a ship yard are swept away. Fences are levelled in all directions. The ruins of farm houses and barns defy description. In many cases they are strewn for miles along the highway. Crops and forest lands are completely destroyed. New deaths are continually reported. In one instance a mother was crushed to death while her child in her arms was uninjured. Several children in Dallard settlement are missing. They had been picking berries, and are supposed to be killed. Visitors are arriving from all parts, and subscriptions to the starving country folk are rarely made.

What $200 Did in Wall Street.

August 18th, 1878, a Philadelphia customer wrote Messrs. Lawrence & Co., Bankers, N. Y.: "Dear Sirs—Yours containing remittance for $1,113.25, as profits on my 200 shares, is received. Accept my thanks, for I am very well satisfied. You may use this letter. I would recommend every one who feels disposed to speculate to send for your circular." This is but one instance out of thousands by which the new COMBINATION SYSTEM of operating in stocks enables people with large or small capital to make similar profits. By this excellent plan the orders of thousands of customers from city and country are pooled into ONE IMMENSE SUM and co-operated as a MIGHTY INDIVIDUAL ACCOUNT. Each member of the combination secures all the advantages of the largest capital united with experienced skill. Profits divided monthly. $10 invested returns $50, or 5 per cent. on the stock; $75 will make $450, and so on, according to the market. Messrs. Lawrence & Co.'s new circular (mailed free) has "two unerring rules of success," and explains everthing, so that one may operate successfully. All kinds of stocks and bonds wanted. New Government loan supplied. Apply to Lawrence & Co., Bankers, 57 Exchange, N. Y. City. 10

SIMMONDS'

NABOB!

WHISKY.

The PUREST and BEST

FOR ALL

Medicinal and Family Purposes.

HAS BEEN SOLD IN ALL THE Eastern States, and given universal satisfaction. It is highly recommended by the Faculty in all cases of Nervousness, Weakness, Debility, Dyspepsia, Indigestion, etc. It is now introduced to the public of the Pacific Slope indorsed by the following certificates of the eminent Dr. S. Dana Hayes, State Assayer of Massachusetts, and Dr. H. C. Loudenback, of St. Louis, Mo., both gentlemen prominent in their profession, and which is a guarantee to all buyers of its purity and quality. I can show thousands of letters from persons from all parts of the United States and Canada, to testify to its merits and the benefit it has afforded as a family remedy and tonic.

Sold by all Druggists and Grocers, in ½ bulk or by the case or bottle.

Country Orders Promptly Attended to

LABORATORY AND OFFICE,
No. 4, State Street, Boston, Sept. 9, 1878.

GEORGE SIMMONDS, ESQ.—Sir: The sample marked "Nabob Whisky," received from you, has been analyzed with the following results:

It is of selected alcoholic strength and free from added flavoring oils, acids, metals, or other deleterious substances. The whisky is pure, of superior quality, and suitable for distilled and medicinal purposes.

Respectfully
S. DANA HAYES,
State Assayer for Massachusetts.

ST. LOUIS, September 20, 1878.

G. SIMMONDS, Esq.—I have been using your Nabob Whisky for some time, and have no hesitation in saying it is, without exception, the purest article I have used either medicinally or for family purposes. To many of my patients who have been suffering from indigestion and nervous affections, I have prescribed Nabob Whisky for their use, and I take pleasure in saying to you the effect has been most satisfactory. Please send me by express six cases, and oblige Yours, very truly,
H. C. LOUDENBACK, M. D.
