

DESERET EVENING NEWS.

Publishing every day, except Sunday, at 4 p.m.
Subscription price, 10 cents; 12 months, \$1.00; postage paid by
mail.

WEEKLY NEWSLETTER DUES.
Published every Friday and Saturday.
Subscription price, 10 cents; 12 months, \$1.00; postage paid by
mail.

THE DESERT WEEKLY.
A full 40 pages newspaper, the largest and best in
the country, monthly volume in a color cover
and news from all over the country, \$1.00 per month or delivered
by mail.

THE MURKIN.

How This Troublesome Weed Is Persecuted
and How It May Be eradicated.
The murk is a pestilential. It has a
strong root and which grows down to a
great depth in the soil. The root of
the murk is borne on a branching stem which
sprouts up from the center of the plant.
The roots are hidden in the ground at
the outer end of the branch. These
roots are somewhat irregular in shape
and they are so strong that they have
the power of pulling up plants and
things that may come in contact with
them. Hence we find them clinging to
the hair of horses and cattle that may
pasture where they grow.

THAT BIENNIAL WEED, THE MURK.

When hundreds are allowed to grow
freely the weed of sheep cutting in
the pastures will become a pest, but
little by little. The number of seeds pro-
duced by a single plant is very great.
When the lamb is cut off above the
surface of the ground it will at once
grow again. The effect is produced
during the winter season of year
of growth, and the result is a persistent
weed that grows even after being
rooted out.

The man who knows his land now
can readily conclude that his whole
duty has been discharged to the best
advantage when he has care-
fully disengaged the root of the
murk.

"I did," he said, "and the last time I
was here I pulled out some of the
murk to see if it would grow again.
And when I came back next
month I'll be on another boat
to show you once more."

"I'd like it," said the girl, "but I reckon
you'll have to give it up."

"Give it up?" Calbreath inter-
ested. "How's that? I'd be delighted, I'm
sure."

"I can't tell," she said, with
a something of a smile on her smile.

The second bell was ringing.

"Well, good-by, Miss—good—good
Bye!" he extended his hand and said
this.

"Yes, I'd like to look over the next
boat with you, but—" and she glided across her flat bosom to the hill to
a little crowd that stood there-
only to tell the truth, I'm going to
be a-riid next month."

"I'd!" exclaimed Cob, "and I
can't have. Can't you put it off?"

"Not now, I reckon," the girl an-
swered, holding his hand and glanc-
ing up the hill again, "but—but you
can't take the boat if you want to."

The mate held stern, the order to
lower the mizzen mast, and al-
ready the ropes were cracking, while the big
steer wheel of the boat began to turn
slightly. Cob knew that everybody on
board was looking at him, and his
lance, too, that the boy's eyes must
be in the crowd on the hillside. But
he saluted the brids. It was a roun-
ing life. As he stepped to imprint his
hand on the hill side, dashed out of one
of the little groups and headed
toward him.

"I'd!" he shouted.

Bil Cob was never like the wind,
and as he sprang on the right it seemed
down soon as almost throw him in
the water.

The young man shook his fist an-
grily. "Don't you know I was only foolin'
all the time?"

"But he kissed you," yelled the
steward young man.

"Oh, John," she laughed, "he was
only kissing the birds."

And the laugh that rose out from
deck and cabin was echoed time and
again from the hills of old Clay. —Detroit Free Press.

Small Flocks of Flock.
In the summer season the hens on the
range secure a large share of food that
cannot be utilized in any other manner, and
where a small flock is kept and no
feed is in a yard, there is a tendency to
overcrowding. But when there are
not difficult to destroy. Farmers
who go over their flocks twice a year
will the spud will soon have no tor-
dust. In cutting them care should be
taken to strike below the crown. Every
plant cut in this way must die, says an
expert, and it is better to let the plants
die than to sacrifice the flocks for the
foregoing. The cutting must be
done at any time of the year when the
ground is not frozen, and it is, of course,
much more easily done when the plants
are young.

expert, and it is better to let the plants
die than to sacrifice the flocks for the
foregoing. The cutting must be
done at any time of the year when the
ground is not frozen, and it is, of course,
much more easily done when the plants
are young.

Westerly Notes.
It is estimated that in the United
States there are 2,000,000 flocks bearing
to 50,000 courses and producing
60,000,000 pounds of yearly meat.

In the great dairy state of Wisconsin
there are over 3,000,000, and in the
larger dairy town of the state there are up
ward of sixty thousand.

According to the rules of the New
York Avicultural Exchange, eggs to flocks
are to be laid in boxes under ten hours
than ten eggs to a case of thirty, or
twelve eggs to a case of fifty-six dozen.

At the Illinois experiment station last
season an average effect on yield of
field corn resulted from cutting the tops
when in good condition for hoppers, or
leaves from stems, when they appeared

At the Pennsylvania station were
grown for stages was not much ad-
vantageous when the plants were large,
with ears nearly matured, instead of
shaving them in a slant, whether cut or
not. In a green and watery condition
the plants were given decidedly larger
yields than did the smaller varieties.

MIS. REWARD.

**Cavalier Young Fellow Shooted the
Madden Over the Head and Killed.**
Liberty Landing is the name of a
small place situated by the river
between the Missouri and the
Mississippi, Mo. In the same period when
there have been four great fires, viz., April 1, Missouri and Kansas;
May 14, Texas; May 15, Iowa; Mississippi;
June 5, 6, and 7, and South Dak. City, Tex.
These have been known among
men as the "Great Fire of 1892." On April 1,
Austin, Tex.; May 14, Sioux City, Iowa; April 15,
Missouri; April 16, Kansas; April 17, Tex.; April 18,
Mississippi; April 19, Tex.; April 20, Mo.; April 21,
Iowa; April 22, Tex.; April 23, Mo.; April 24,
