Mijialo Lukich Sues the Southern Pacific in Federal Court for Injuries Sustained.

RIGHT LEG AND LEFT FOOT.

Riding on Train When Accident Occurred Through Alleged Negligence Of Engineer and Conductor.

A suit was filed in the United States circuit court this morning by Mijialo Lukich, through his guardian, John Kombo, against the Southern Pacific company asking \$20,000 damages for the loss of his right leg and left foot. Plaintiff's complaint states that he is a native of Austria and 17 years of age. That on July 14 of this year while in the employ of the defendant company as a common laborer on what is known as a water car and while he was riding on the train an accident occurred through the negligence of the engineer and conductor of the train, by reason of which he met with the injuries set forth. W. L. Maginnis and Charles Stout are attorneys for the plaintiff.

BIDS WERE TOO LOW.

Sale of Electrical Power Plant Is Therefore Postponed.

The sale of the plant and property of the Salt Lake City Water and Electrical Power company under order of the court was again postponed by Commissioner Morris Sommer today on account of the bids received for the plant being too low. The bids for the plant, namely, \$35,000. One bid of \$34,900 was received and rejected. The sale was then postponed until tomorrow morning at 11 o'clock at the west door of the City and County building.

SUPREME COURT.

Cases Argued and Submitted Before that Body Today.

The following cases were argued and submitted before the supreme court today: Thomas Busby vs. the Century Gold Mining company, appellant; Bountiful City, appellant, vs. D. C. Lee et al; Max Davidson vs. E. A. Munsey, appellant. The case of Bountiful City against Lee was brought in Davis county to recover \$25 which city expended in building a covered flume across Fourth West street in Bountiful to convey irrigating water to defendant's property. An ordinance was passed requiring persons who used the water of Mill Creek to flume their irrigation ditches wherever they crossed the streets of that city.

It is alleged that defendants refused to build such a flume for their ditch so the city put the flume in and attempted to collect the amount expended by an action at law. Defendants demurred to the complaint and the demurrer was sustained and costs were awarded to defendants. From that ruling this appeal was taken.

MOTHER AGAINST SON.

Mrs. Ellen Walsh Wants Deeds to Certain Property Cancelled.

Because her son, Henry Walsh, refused to carry out his agreement to provide a home, clothing and provisions for her during the remainder of her life, Mrs. Ellen Walsh has filed suit in the district court asking that deeds to two parcels of land in lot 5, block 61, plat C, which were given to him, be cancelled and set aside. She alleges that her son used undue influence and false representations in getting her to sign the deeds, one of which was executed on July 3, 1899, and the other on April 20, 1896.

It was agreed that, in consideration for the property, her son was to care for her during the remainder of her life, she being 61 years of age, and the first deed was executed. He has refused to provide for her and she therefore asks that the deeds be cancelled and declared null and void.

THE BEN HUR RUSH.

All Records in the History of the Theater Are Broken.

It looked like the old Booth and Barrett days around the Salt Lake Theater this morning. At midnight last night, boys began taking up their positions on the front steps to be in readiness for the opening of the "Ben Hur" sale, announced for 10 o'clock. The numbers swelled from daylight on till at 10 o'clock there was a good sized congregation on the steps and in the lobby. Attached to the theater kept the crowd in strict line, and by forming them in single file, a line which reached from the window, down the steps and westward up the street nearly to Broadway. The length of the line broke all records at theater sales and many people will have to stay in place till night before their turn arrives. In order to check speculation the rule of selling no more than four tickets to any one purchaser was strictly adhered to, but it is said many speculators had several representatives in line. At 2 o'clock there were still 150 to 200 people in the line and several ladies had chairs brought them determined to stay it out the rest of the day.

CALIFORNIA BOOMING.

E. W. Gillett Returns and Reports Indications of Prosperity.

E. W. Gillett, general freight and passenger agent of the San Pedro, Los Angeles and Salt Lake railroad, returned last evening from an absence of three weeks to the Pacific coast. He reports everything working smoothly on the western end of construction and that rapid progress is being made. He says the weather is warm in Los Angeles and that place is full of tourists who are already coming in for the winter. The city is exceedingly prosperous, the hotels are crowded and the streets are lined with traffic and people. Since the first of January building permits amounting to over \$9,000,000 have been issued and construction of business blocks and residences is seen everywhere, and yet there is an entire absence of any boom. Mr. Gillett spent a day or two in San Francisco and says that city, too, is filled with people, especially on the coast of the Bankers' convention. He says California generally is looking good and its people seem to be contented and happy.

The movement is to be started early in the spring under Dowie's personal leadership, according to his department of publicity press agent. Mrs. Dowie leaves Saturday with her daughter for a trip to Australia via Europe.

NOVEL MAIL BOX.

Harry Shipley has just received a postal card he deposited over two months ago under a rock on Pike's Peak, with the request that the finder mail it, and be rewarded with a photograph of the top of the peak. The finder was Louis C. Barry, Hector, Minn., and the card was mailed while en route east somewhere in Kansas. Mr. Shipley says that the sum is not peaked, as one imagines by looking at the mountain from a distance. While the top is not flat, there are about 19 acres of comparatively level surface covered with rocks. It is the habit of tourists to place their cards on a large stone and cover them with a smaller rock. The top of the mountain is covered with these little monuments, ranging in height from a single stone to a hastily built monument of a foot or more.

Mr. Shipley further states: "I saw many of the cards so deposited, and I decided to play at the game myself. I had a postal card in my pocket, also one of my business cards. I addressed the postal card myself, and on the back placed one of my business cards, upon which I wrote that whoever might find the card, if they would mail it to me I would send them a photograph of the top of the peak, which I took that day."

UTAH PRESS INVITED.

Asked to Participate in World's Press Parliament at St. Louis.

D. P. Felt, president of the Utah Press association, is in receipt of a letter from Walter Williams, commissioner to the foreign press, in which, by direction of President Francis of the world's fair at St. Louis, he invites the Utah Press association and Utah newspapermen generally, to attend the fair or meet during the week beginning May 18, 1904. He says plans are made to give the press visitors half rates at the hotels, halls provided for sessions, besides admission tickets and other courtesies usually shown newspapermen. The letter states:

The National Editorial association and several state and territorial associations, have already voted to meet in St. Louis. Some of the greatest foreign journalists, editors and publishers of the leading newspapers of Europe will be present during this week and participate in the World's Press Parliament.

Mr. Felt is of the opinion that the Press association will avail itself of this invitation, and hopes the Salt Lake press will join them in the party to be made up.

CRITICALLY ILL.

Wife of County Commissioner Anderson in a Very Serious Condition.

The many friends of Mr. and Mrs. James H. Anderson will hear with regret of the critical illness of Mrs. Anderson, who has been suffering from stomach troubles for several months past. This afternoon her condition was such as to cause grave alarm, the attending physician giving very little hope for her recovery. It is to be hoped, however, that a change for the better will ensue and that Mrs. Anderson may be restored to health to be a comfort to her husband and family for years to come.

C., Oct. 22.—Indian Commissioner Jones has prepared a circular letter to agents and superintendents on Indian reservations containing instructions for their guidance in co-operating with officials of the bureau of animal industry in the extermination of diseases of cattle and sheep.
