BRITISH GENEALOGY.

LATTER-DAY Saints from Great Britain who propose to trace the genealogies of their forefathers (especially natives of Maryland, Scotland, Wales, Channel Islands, or Isle of Man) are hereby respectfully informed that, with the addition of the proper researchers, I have undertaken the important task of collecting the data for publication purposes, from those countries.

Having acquired Great Britain as my field of labor, and now actively operating, I rely on the earnestness and integrity of the British race of both sexes, for support, and offer my services to them as an humble instrument in the hands of God.

All persons desiring information should apply immediately as this is a rare opportunity in connection with the great events of the Latter-day Work.

Last Night's Dispatches.

CONGRESSIONAL.

SENATE.

WASHINGTON, 30.—Pending the discussion the bankrupt bill was laid aside temporarily that the morning business might be transacted.

Morrill, Vt., from the committee on finance, reported adversely on the concurrent resolution of Beck, declaring it inexpedient to levy taxes at this time to maintain the sinking fund, and the committee was discharged from its further consideration. Morrill said the law as it now stood provided for the sinking fund and it could not be repealed by a concurrent resolution.

Kirkwood presented the credentials of Allison, Senator from Iowa. Tabled.

Butler submitted an amendment to the resumption repeal bill, so as to repeal the tax on private or State bank notes. Ordered printed.

Booth, from the committee on public lands, reported, with an amendment, the bill for the relief of certain public land settlers, and to pay back certain fees and commissions paid on void entries of public lands. Placed on the calendar.

Cockrell, from the military committee, reported a bill authorizing the President to appoint James Shields a brigadier general on the retired list. Placed on the calendar.

Sargent, from the naval committee, reported that the conference on the naval appropriation bill had compromised their slight differences. Report unanimously agreed to.

After morning business the Senate resumed consideration of the bill to repeal the bankrupt law.

Ingalls favored a well-regulated bankrupt law, a modification of the present one.

Davis (Ills.) thought it a great mistake to repeal this law and, unless it or another similar one existed, debtors would be at the mercy of creditors. He thought it might be simplified by the judiciary committee.

Beck said if the matter went to the judiciary committee it would not be heard from this session.

Allison submitted an amendment to refer the bill and amendments to the judiciary committee with instructions to report a substitute that will relieve the suffering classes of debtors.

Edmunds opposed repeal.

Thurman moved to amend Allison's amendment so as to instruct the judiciary committee to report on Thursday next. He said Ohio was unanimous for a repeal of the law.

Paddock and others urged that no reference be made, but that the bill be disposed of now.

Thurman's amendment was rejected, 34 to 19.

Allison' amendment was rejected 36 to 18.

Another vote on the renewal of Thurman's motion resulted against instructing the judiciary committee to report, the vote being 27 to 27.

Merrimon's motion to refer to the judiciary committee simply, was rejected 28 to 23.

Edmunds moved the bill and amendments be referred to a special committee of three.

Allison moved to adjourn, that the bill and amendments be printed, so that it might be finished in half an hour to-morrow. Agreed, 37 to 17. Adjourned.

HOUSE.

WASHINGTON, 30.—The House went into committee of the whole on the legislative appropriation bill, Eden in the chair.

Gibson offered an amendment to the bill reorganizing the mint at New Orleans, and appropriating $150,000 for its maintenance.

Gibson's amendment was, after a long discussion, defeated—97 to 71.

During a long discussion on reduced appropriations for territorial governments, the republicans criticised the action of the committee on appropriations, and the Speaker defended the committee and condemned the republicans for opposing economy.

Garfield declared the expenses had been decreasing since 1872. The republicans believed in maintaining the government at any cost and in economy not consistent therewith.

Randall denied that the republican House had decreased the expenses, and urged them to cease resisting economy.

Hale said the Speaker had a hard job to control the extravagance of his party, who had reported the river and harbor bill and the Mexican pension bill. The economy of the democrats was cheese-paring.

Conger criticised the Speaker for his complaints, and said his potent and restraining voice should be heard in democratic caucuses.

Calkins alluded to the Speaker's former advocacy of an increase of the members' salaries as a measure of economy.

The Speaker said he had honestly advocated that increase, but when he found the people condemned it he gave up his own opinions and obeyed instructions.

Calkins asked if he gave back the $5,000?

Randal said no, but he would defend his record.

Williams, Wis., asked several questions regarding his record as to cutting down and raising the salaries of members, to which the Speaker replied and asserted that whenever a proposition was made to decrease the salaries he would vote for it. He believed, however, rather in reducing the number of employees in the departments than their pay.

After further discussion the committee rose and the House adjourned.

EASTERN.

Morrissey in a Dying Condition.

NEW YORK, 30.—The *Sun's* Saratoga dated at 1 o'clock this morning, says Morrissey could not be aroused a few minutes ago, when it was necessary to give him medicine. His limbs are growing cold. His friends have lost all hope.

Preliminary Injunction.

Ellis C. Benedict, who owns 100 shares of the Western Union Telegraph Company stock, applied for a preliminary injunction against the combination of that company with the Atlantic and Pacific Telegraph Company, and leaves the plaintiff to establish his claim to the injunction upon trial.

The Anticipated Indian Troubles.

WASHINGTON, 30.—Apprehensions in several quarters of serious troubles with the Indians this summer are not thought to be groundless. The War Department has communications from parties whose opinions are entitled to earnest attention, to the effect that warlike movements are clearly discernible on the part of several tribes.

That Sensational Paragraph.

The *Star*, this evening, retracts its sensational paragraph of yesterday concerning the alleged runaway match of Senator Mitchell's daughter, and publishes a statement of the pastor of St. Peter's Church, in this city, that he married Miss Mitchell and Mr. Handy on the 23rd instant, with the consent of the bride's parents and in their presence. The *Star* adds: "We cheerfully accept the correction, and wish the handsome couple all manner of happiness."

The Murderous Miners.

COVINGTON, Ind., 30.—The murderous miners who, some weeks since, went through town in a drunken fury, shooting negroes, killing several, are on trial. The evidence, which has been conclusive of their guilt, is nearly in, and the verdict will probably be reached to-day or to-morrow.

Grand Peace Jubilee.

CINCINNATI, 30.—Quite an enthusiastic citizens' meeting, to-day, endorsed Mayor Moore's project for a grand jubilee next September, comprising soldiers from both armies in the late war. Efforts will be made to gather 100,000 or more in camp for a grand peace demonstration. An executive committee was appointed until arrangements could be perfected.

Guilty of Murder.

INDIANAPOLIS, 30.—After a six days' hearing of preliminary examination, Justice Sloan, to-day, at Covington, Ind., found 13 of the Coal Creek rioters guilty of murder in the first degree and held them in $3,000 bail each, to await the action of the grand jury. Four others were released.

Visiting Sitting Bull's Camp.

LEAVENWORTH, 30.—Three subchiefs of the Nez Perces Indian prisoners, headed by White Feather, left Fort Leavenworth, today, for Sitting Bull's camp, accompanied by Mr. Clark, an experienced interpreter and guide. The Indians go as commissioners to the Nez Perces with Sitting Bull, to report to them the condition of Chief Joseph's band at Fort Leavenworth, it having been rumored among the Indians on the plains that those here were badly treated. They go without military escort.

The Steamer "Cimbria"—The Mystery Not Yet Solved.

ELLSWORTH, Me., 30.—The passengers on the steamer *Cimbria* at South West Harbor, proved to be a regularly organized ship's company of 60 officers and 600 seamen of the Russian imperial navy, under the command of Count Grifenberg. On her arrival a long dispatch in cipher was sent to Admiral Lessorsky at St. Petersburg, and the officers seem to be awaiting a reply. The ship has a large amount of stores on board, including coal for ten days' steaming. No arms or ammunition are visible, and the officers deny that there are any such on board. The officers and crew of the steamer number 700, and are all Germans. Captain Badenhausen was taken out of another steamer and appointed to the *Cimbria* three days after he reached Hamburg, and she took in her stores and passengers as rapidly as possible. Captain Badenhausen has asked for a bill of health from this port. The Russian officers are very reticent about the object of their visit, and even profess to be ignorant of their destination or the purpose of their being sent here. Among the officers is a Russian nobleman of high rank, who was with the Grand Duke on his visit to this country. None of the officers have yet been on shore except the captain and purser of the ship and the paymaster of Russian corps. The collector has boarded the ship and found her papers all right, corresponding to the captain's statement. A formal entry will be made to-day and a list of her passengers furnished as soon as it can be made out. They observe no special secresy, but have permitted the Associated Press agent to freely go about the vessel. They think they may remain here some days. The ship came in without a local pilot, and no inquiry is being made for a pilot. She is not disabled.

Import and Export Statement.

CHICAGO, 30.—The following is a statement of the imports and exports during the nine months of the fiscal year which ended March 31, 1878: Merchandise exports, domestic, $522,581,925, foreign, $10,449,297, total, $533,031,130; imports, $329,801,629; excess of exports over imports, $203,229,501. Specie and bullion exports, $23,036,092; imports, $15,719,849; excess of exports over imports, $3,316,243. Total excess of exports over imports of specie and merchandize, $206,545,744.

Rise in Water.

NASHUA, 30.—The Merrimack River is about 13 feet above high water and still rising. Property owners along the banks are getting alarmed. The flats are impassable.

WESTERN.

Fire and Loss of Life.

SAN FRANCISCO, 30.—A fire occurred in a Chinese lodging house, in Dupont near California Street, this morning. One body has been recovered from the ruins. A number more is supposed to be buried in the debris.

FOREIGN.

GREAT BRITAIN.

The Striking Operatives—Both Sides Obdurate.

LONDON, 30.—The masters at Ashton-under-Lyne will meet on Wednesday to decide whether to give notice of a reduction of wages. It is thought probable that a 5 per cent. reduction will be proposed. A similar reduction was submitted to in November, and the proposal which is now anticipated would reduce wages in Ashton district to the same rate as that demanded by masters in north and northeast Lancashire. There is great distress in Blackburn and a number of women and children are compelled to beg. Both sides are obdurate.

Eastern News Notes.

A St. Petersburg correspondent of the *North Deutsch Algemeine Zeitung*, writing about Russia's demand for Bessarabia, says: Let no one deceive himself as to what is coming. The desire to recover Bessarabia is only a symptom of the wish pervading the entire Russian nation to destroy the Paris treaty. It is not so much Bessarabia we are striving for; what we aim at is the cancelling of this treaty. Whether the Bulgarian frontiers remain as defined in the treaty of San Stefano; whether the great element is allowed more scope; whether Servia is aggrandized; whether Austro-Hungary is conceded temporary or permanent occupation of Bosnia and Herzegovina, making Montenegro an enclave of her own territory, all this is of comparative indifference to the Russian nation. Whether the rearrangement of Turkey is regulated by a congress, conference or war, the demands for the restoration of Bessarabia will always be preferred with the same pertinacity. Suppose we should be balked this time, this would only make us more eager to pursue our object in future:

The *Times* in a leading editorial says regarding this: Russia appears to be ready to make numerous concessions, provided she can substitute for the common European interests in Turkey a set of isolated and conflicting interests and can thus emancipate herself, no less than Turkey, from direct obligations towards Europe. It is this disposition against which we must persistently protest, and if Russia seeks a peaceful issue to the present complications, she must recognize the principle she has acknowledged on former occasions. Let her only do that and concessions even less than those she offers might in some respects satisfy the country.

A Vienna correspondent discussing the Austrian policy, while pronouncing the rumors regarding the occupation of Bosnia as premature, does not say they are more than premature, but rather intimated such measure may soon become justifiable.

Gen. Todleben has issued an order of the day instructing Russian troops in Roumania to behave well towards the people.

Political news from the continent though contradictory and conveying but an imperfect idea of what the nature may be, is looked upon favorably in the stock markets. Prices opened at a general improvement. Consuls and Russians shared in the advance.

The insurgents are endeavoring to gain strategic points in a way that shows the existence of a directing head.

No final decision has been reached in the plenary council of ministers in regard to the Austro-Hungarian compromise. Hungarian ministers have left for Pesth, but they return during the week to complete negotiations.

Various Vienna correspondents persistently maintain that an Austrian occupation of Bosnia is imminent. A Berlin correspondent says positively that the occupation will be effected as the result of a bargain with Russia.

A Vienna dispatch states that no final decision has been taken relative to the project for realizing part of the vote of credit. This must cause, for a short time, the postponement of the occupation of Bosnia, which, however, must be henceforth regarded as a certainty, and may be expected in three or four weeks. One reason will be to escort 150,000 refugees back to their homes, and also to overawe the Montenegrins and others.

It has been arranged that Servia, in the event of an Anglo-Russian war, shall only observe the stipulations of the San Stefano treaty, while Turkey remains neutral. It is probable that the Servian army will slowly occupy many strategical positions in old Servia, with the consent of Russia. All levies will be at their posts by May 19th, at the entrenched camp at Kladovo, which is one of the principal points of concentration, and is now completely fortified.

TURKEY.

Affray Between Russian and Turkish Soldiers.

CONSTANTINOPLE, 30.—An affray has occurred between the Russians and Turkish soldiers near Doud Pasha barracks, about two miles beyond the fortifications. Eighty men were wounded on both sides. The Seraskierate has consequently prohibited the Russian soldiers from crossing the line of demarkation.

CONFERENCE VISITORS.

I BELIEVE that the Citizens of this Territory could afford to pay a committee $10 per day to examine into the merit of machines offered, thus preventing the palming off of inferior articles on the market, and the consequent loss of thousands of dollars, to be repeated semi-occasionally by making a few changes and names to said machines. When this time comes the Remson Knitter and New American Sewing Machines will take a front rank for simplicity of parts, durability, ease of learning, utility, etc.
