The children of the public schools of

entertainment. Bishop Preston also C. R Savage of the Salt Lake City Old Folks' committee were present. In the evening a dance was held to which all the old folks were admitted free. One and all expressed themselves as having a very enjoyable time.

S. S. TEACHER HONORED.

Last evening about 40 young people and the superintendency of the Lehn Sunday school gave a delightful sur-prise on Elder George A. Smith who Leht has resigned as the head teacher in the Sunday school, after having labored diligently and faithfully for many years. Most of the young people were his former scholars or teachers unde his former scholars or teachers unde him. After having a fine program nic luncheon was served after which games, etc., were indulged in. As Bro smith is the president of the Y. M. M A, and has so many other duties h thought it necessary to resign from the unday school work

Yesterday the little haby of Bro. Jesle Webb was buried in the Lehi City

Supt. James H. Gardner of the sugar factory, and Heber Austin, assistant agriculturist, returned last night from Colorado where they have been in-

specting the factories of that state.

PAROWAN.

PIONEER DAY CELEBRATED. **Elegant Banquet and Entertainment**

The Features--District Court. Special Correspondence.

Parowan, Iron Co., Jan. 13 .- The 2nd anniversary of the arrival of the Parowan pioneers in the Little Lake valley was royally celebrated

heart's action and improves the circulation. have been a inveterate smoker since my boyhood. At the over a year ago I first noticed sym, as of heart trouble, palpitation and acute pains and a peculiar, I might say, indescribable feeling ecross my chest. Local physicians said I had 'tobacco heart' quit smoking for a while and took regular dose, of digitalis and belladona with some relief but the same old symptoms were still there. A friend of mine here recently died of what the doctor said was valvular disease of the heart, Knowing that his symptoms were similar to mine I felt that my time too was limited, although I am still a young man, in my thirty-ninth year. In Skillman & Stone's drug store here Dr. Miles' New Heart Cure was recommended. I began taking it and I can positively state that its effect is marvelous. I have just finished my third bottle and feel like a 'kid' and believe I am cured. This letter is the spontaneous utterance of one who wishes to thank you for benefits received."-WM N. GRANT. for benefits received."-WM. N. GRANT, Seattle, Wash, formerly of Spokane, Wash. All draggists sell and guarantee first bot-tle Dr. Miles' Remedies. la order to prevent people from thus holding town lots who do not even intend to come to the country the board cancelled the draw on all lots that are not improved and all lots held by non-

To the man who is holding on to a lot and doing nothing towards building up the country this does not seem the right way, but to people who are struggling along day by day, digging the ditches, building meeting and school-houses and are actual residents it is ex-

actly the right thing to do. Prest. Byron Sessions left this mornng for Cheyenne to attend the state egislature, having been elected a memer at the last general election. The people of Lovell have built an

excellent schoolhouse containing three large rooms. The house is nicely seatand three teachers are employed. There are about 165 pupils in attendance.

Cowley has also erected a school building of two rooms, but in order to accommodate all the children, we will have to use the ward meetinghouse, and keep three teachers at work.

The ward meetinghouse is also being finished and painted for our guarterly conference, which convenes on the 18th and 19th of this month. It is the intention of the Bishop to have the house dedicated at that time.

The Cowley Dramatic company has presented the "Cuban Spy" and the Rough Rider" at Cowley, Byron and Lovell lately. This was a treat to the people and the company deserves credit for the able presentation. The company is under the direction of Charles

E. Mann. RELIEF SOCIETY FAIR.

The Relief society of Cowley will have a fair during the conference. They will also give an operetta by the children at that time.

At Byron a fine new rock schoolhouse is being erected. Ward conferences have been held in the towns of Byron, Lovell and Cowley. The Saints feel much encouraged over the prospects in our new country. Cattle and sheep are doing well, but the range is not as good as last year.

To the homeseeker our country af-fords excellent opportunities, but it requires work to subdue Dame Nature in this arid region. Our climate is excellent; plenty of water and land, and more days of sunshine than any place your correspondent has ever known.

The health of the people is good. ----

> BUTTE, MONTANA. P ESTOF JACK RABBITS.

Bunnies Have Become Alarmingly Numerons-Rabbit Drive Suggested

Special Correspondence, Butte, Mont., Jan. 14 .- The Smith River Bounty association has become alarmed over the tremendous increase of jack rabbits as a result of the killing off of wolves and coyotes, which has

been stimulated the last few years by liberal bounties, and an appropriation may be asked of the legislature to help defray expenses of a proposed big war of extermination.

At the meeting of the association at White Sulphur Springs it was reported that the rabbits were becoming so numerous that a stack of alfalfa hay dis appeared in a short time. In a fer, miles drive in any direction one may see hundreds of jack rabbits grazing along like bands of sheep. On the west side of the Smith river valley, the creatures ar becoming more numerous

to determine the age almost to a day. It depends upon the fact that the air perhaps than in other sections of the country. One rancher from this local-ity reported having counted over 200 rabbits playing about his hay stack. cavity at the blunt end of the egg en-larges with age, giving increasing tendency to float point downward in a sait solution. A scale at the back of the Another rancher said the pests had eaten so much of his alfalfa stack that the vessel gives the inclinations corres. remainder was in danger of toppling pending to various ages. A fresh-laid

of its roots is only 151. The wood, though spongy, is far tougher than cork. The specific gravity of corkwhich is the outer bark of a kind of oak-is 240, while that of most woods between 400 and 800, and that of the heaviest wood known, the black ironwood of Florida, is 1,302,

> Flowering plants have been shown by Dr. H. T. Brown and Mr. F. Es-Salt Lake City, Utah: Sec. 1. That section 5 of an ordicomit to be very nicely adjusted to an atmosphere containing three parts nance reorganizing the Police Depart-ment of Salt Lake City, prescribing the f carbon dioxide in 10,000. A slight in crease of the carbon dioxide proved number of officers and men, defining surprisingly unfavorable to growth and their duties, fixing their compensation and repealing all prior ordinances passed by the City Council May 27th, 1992, and approved by the Mayor June reproduction, and the experiments made evident that an increase to two or three times the present amount would result in the speedy destruction of all flowering plants. If the air's composi-2nd, 1902, be, and the same is hereby amended so as to read as follows: Sec. 5. The Chief of Police shall, tion has greatly varied since the advent of the plants, the change must within ten days after this ordinance have been slow. goes into effect, designate by notice in writing, filed with the City Recorder.

The Sylphs-called also the electric attledore and shuttlecock-is a novel Parisian game. The sylphs, or shut-tlecocks, are butterflies or feathers made of collodion; and when one these is thrown into the air it floats. and is driven back and forth between the two players. Instead of striking however, the players repel it from some distance by wands previously electrified by friction.

From a stump of a large brown cedar in the Garden of the Gods, near Pike's Peak, Prof. Bessey has estimated the age of this partic far tree at between 800 and 1,000 years.

ignation, removal, transfer, promotion or reduction, the Chief of Police shall, The tuatara, the curious lizard o New Zealand islands, is supposed to represent the oldest living type of aniin like manner, fill all vacancies from among the existing force, or from aphals in the world, and is of further inpointments, as in his judgment he shall deem for the good of the service. terest as being the first vertebrate in Sec. 2. That section 12 of said ordi-nance referred to in section 1, of this thich was discovered a survival of an eye of invertebrate kind in addition to the ordinary seeing organs. The third ordinance, be, and the same is, hereby eye has more recently been found by its original discoverer, Dr. Dendy, in amended to read as follows: Sec. 12. The salary and compensation of the officers, employees, men and agents of the Police Department shall another New Zealand creature. This is the New Zealand lamprey, a favorite food of the Maoris, and the third eye, be as follows covered with thin skin and probably of Chief of Police and ex-officio failer, no present use for seeing, is exactly on top of the head. Dr. Dendy believes \$1.500 per year. City Detectives each, \$1,140 per year. bat far back in the earth's history this ye was one of a pair of useful ones oth the lamprey and the tuatara havng then two eyes on the back of the head. In the tuatara it is the left eye that still remains, but in the lamprey it is the right one. All other policemen, each, except bl-cycle policemen, \$960 per year. Bicycle Policemen, \$990 per year.

Balloon photography as a means of military map-making is being develop-ed by Rev. J. M. Baker, the English aeronaut. He uses a small balloon, and, to avoid the trouble and expense of hydrogen, this is quickly inflated by hot air from a petroleum heater. A effect upon approval. Passed by the City Council of Salt Lake City, Utah, January 12, 1901, and referred to the Mayor for his approval. small automatic camera is carried. In 1902.
