HEARINGS IN THE DISTRICT COURT.

Henry Marks et al Win Damage Suit—U. P. Ry. Co. Gets Another Special Jury Verdict.

Improvements at Ogden Canyon Resort—Funeral of Miss Gertrude Denkers—Wedding Licenses.

Ogden, May 10.—Henry Marks et al have secured a judgment in the second district court for \$1,670.54 against the Union Pacific Railroad Co. The suit was on trial Tuesday and Wednesday and was submitted to the jury at 3:30 yesterday afternoon, who after over four hours of deliberation brought in a verdict in favor of the plaintiffs assessing the judgment at the amount above mentioned. The suit was brought to recover \$1,955.35 due on a branch of contract, the defendants having agreed to furnish the plaintiffs with 100 pounds of wool at 18 cents per pound, but only furnished 51.650 pounds causing plaintiffs a loss of nearly \$2,000.

The Union Pacific Railroad company is evidently determined to get a jury in the future in all damage suits brought against it, practically of their own choice, as the company has paid for a special jury venire from the district court to hear several of the last damage suits tried in the district court. The following special venire has been drawn from which to select a jury to hear the case of Marks et al.

PEACE BETWEEN FACTIONS

Of B. Y. U. Students—Hot Time While It Lasted.

Provo, May 10.—The trouble in the Brigham Young university over the tracing of '07 in letters of line on the roof of the mountain by the class of '07 did not end with the election of the letters by the student body Tuesday night, as it was supposed would be the case. When the students directed their eyes to the scene of Tuesday night's

IS THIS WHAT AILS YOU?

If the Symptoms Fit Your Case, Remember "A Disease Once Known is Half Cured."

Feel feverish? Have headache? Backache? In fact, "ache all over"? Have occasional chills? "Aches and pains"? Tongue coated? Bad taste, especially in morning? Bad, foul breath? Perhaps nausea, or "sickness at stomach," occasionally? Feel weak, tired, and discouraged?

The above are symptoms common to stomach and liver derangements and often precede attacks of fever and malaria, rheumatism, grip, bronchitis, and "lung fever," or pneumonia.

Whichever ailment they point to, you may be sure that it is best to get rid of them as soon as possible by putting your system to rights, regulating, toning up and invigorating stomach, liver and bowels, and thus purifying your blood and system and enabling it to throw off the attack.

For the above purpose, medical science has as yet produced no better agent than Dr. Pierce's Golden Medical Discovery. It is not a secret, or patent medicine, all its ingredients being printed on the bottle wrapper. It is the prescription of a well-known and experienced physician. It contains no alcohol or other harmful, habit-forming agents, chemically pure, triple-refined glycerine being used both as a solvent and preservative of the medicinal extracts of which it is composed. It is made from the following native American medicinal roots: Golden Seal, Mandrake root, Stone root, Bloodroot, and Black Cherry bark. The medicinal properties of these are extracted by exact and peculiar processes with the use of chemically pure, triple-refined glycerine, of proper strength, and devised for this special purpose, and in such a way as to produce a most perfect pharmaceutical compound.

As to the superior curative properties of some of the above ingredients, we can only give room here for a very few of the briefest extracts from standard medical works, but more complete information will be sent you, free of charge, in pamphlet form, if you will send your address plainly written on postal card or by letter, to Dr. R. V. Pierce, Buffalo, N. Y., with a request for the same.

Of Golden Seal root Prof. Bartholow, of Jefferson Medical College, says: "Very useful as a stomachic tonic (stomach tonic) and in atonic (weak stomach) dyspepsia. Cures gastric catarrh (disease of stomach) and headache accompanying the same. . . . Chronic catarrh of the intestines, even if it has proceeded to ulceration, is remarkably benefited by Hydrastis (Golden Seal). . . . It may be given as a remedy for intermittent fevers and malarial poisoning, and enormous eruptions, indigestion, debility, diarrhea and dysentery, constipation, piles and all morbid and critical discharges."

contest yesterday morning they found the "07" there as large and prominent as before it had been destroyed the night before. This angered the student body who were not of the class of '07, and rather surprised and pleased the '07s. About 150 of the student body marched to the hill and again obliterated the figures, replacing them with a skull and cross bones, and left the warning sign, "Whoever returns leave hope behind." Then they came back to the school and the early part of the day was passed more or less in hush-whacking tactics by the two parties, the student body and the class of '07, such as preventing members of the

class from entering the buildings and class rooms, clipping hair, etc., and vigorous verbal encounters, several physical contests were also reported, but denied at the school. The professors, however, were unable to allay hostilities till President Brimhall took a hand and compelled an armistice. In the afternoon a peace conference was held, and it was decided that all should expend the remainder of their surplus energy in uniting to make a large B. Y. U. on the mountain on Friday. It was claimed at the meeting that the second construction of the "07" was the work of some members of the '07 class who did not know of the new Tuesday evening, and the agreement between the class and the student body that no more "07" were to be made, but that all would unite in making a "Y. U. '07s, who knew of the intention of the class to make the "07" went to the ground after the first "07" had been destroyed, and seeing no work done merely carried out, as they supposed, the intention of the class. This is the way it was explained.

Dick Clark, Orvin Scott and Roy Vincent, all boys under 18 years of age, were sentenced to the industrial school yesterday by Judge Kellogg of the juvenile court. The boys were held till today to give the parents time to begin habeas corpus proceedings to test the jurisdiction of the court, they having expressed a desire so to do. If this is not done the boys will be taken up today. They were all on probation, when brought up for new offenses, which caused Judge Kellogg to decide that they had no inclination to reform, hence the sentence.

HOW A PLOWING MATCH WAS WON.

The picture shows the ingenious manner in which a clever Englishman, Captain Sycamore of Brightingsea, recently won a plowing match. Since actual distance and straightness of furrow were prime requisites in the competition, Captain Sycamore conceived the idea of attaching a compass to his plow. The scheme worked admirably, and the captain walked off with the prize.

Some Business Men Are Too "Conservative."

If a farmer concluded not to plant seed, but to "conserve" it, because crops sometimes fail, he would be as wise as the merchant who "conserves" the money which should be invested in publicity, because he has it in bank, and because he fears that publicity may not be completely profitable.
