They learn three obediences—first to her parents, then to her husband, and lastly to her husband's parents. The married woman is a slave to her moth-er-in-law. The husband as a rule is not as faithful to the home as he might be. The reason for this disre-gard for purity is due to the fact that marriages in Japan are arranged by the young folks' parents. DINNER IS DUE. Senator Seely tells a good story of his experience in connection with the pres-ent bounty law. At his Mt. Pleasant home several years ago, he thought it would be a good thing to have a coyoté hunt, and he invited a crowd of young people up to his home for a dance, to be followed by a coyote hunt. The youths went hunting all right, and came to the dance, but when the 2kins were counted, there were just enough to call for \$6.50 in bounty money. This reduce? the cost of the dance and hunt to Sena-tor Seely from \$50 to \$43.50, but when the senator tried to collect he found that the mighty Salt Lake county hunt-er, John Ward, had got in ahead of him, and exhausted all the annual of him. er, John Ward, had got in ahead of him, and exhausted all the appropriation. Ever since then Seely has kept his war-rants, and has handed them in for con-sideration by the committee on de-ficits, along with the others which were not paid when the old law was repealed. He has now invited one or two of his friends in the senate to join him in a dinner party on the day the hounty is paid. The dinner is to cost \$6.50-no more and no-less-and as the item is listed in the bounty deficit now under consideration, the date of the commit-tee's report is being watched. Senator Seely says he has resisted many chances to sell his claim at a discount in order to collect it himself from the state.

RAIN TONIGHT.

The local weather is wet and disagreeable today. The cold that produced the snow has moderated so that the precipitation is in the form of show-ers this afternoon, and the snow has become slush. The low barometric area covers the entire Facilie slope. so that the weather office predicts rain for tonight and tomorrow. The in-tense cold continues unabated in the far north, the mercury in places re-gistering 30 degrees below zero.

There will be many days yet before spring's sunshine will do away with winter's chill.

¶In the meantime you can get much comfort from one of these Hart Schaffner & Marx suits, and at a January price which is lower than usual.
