Reports on the Hatch Case, etc.

Nye, from the majority of the select committee to investigate the charges made by Dawes and Hatch against General Babcock, made a report. It is quite lengthy and goes into an elaborate analysis of the testimony taken, reviewing at length the evidence of Sabcock and Perry, the commercial agent of the United States at San Domingo city, and concluding with a recommendation that the petition of Haten be indefinitely postposed. The committee state that while Gen. Babcock has been guilty of some indiscretion, there is nothing in the evidence to show that he was in any way guilty of any attempt to keep Hatch in prison.
The minority report, signed by Terry,

Schurz and Vickers, censures the conduct of Babcock and charges that he connived with certain parties in San Domingo to keep Hatch in jail for some purpose best known to the parties themseizes. At a meeting of the Workingmen's Association the introduction of Chinese labor into the country was forcibly denounced as a continuance of slavery. Nelson, of Wyoming, the President, said if the Government would not keep the Chinese out of the country the Government should be removed. All were unanimous in demanding from Congress such measures as would put a stop to the importation of Chinese, and resolutions to that effect were adopted, and several speakers urged that if this failed, recourse should be had to tarms. A mass meeting of working men will be held on Thursday evening next.

Several Senators to urge the reduction of taxation and duties to the extent of a hundred millions. Even at this large figure it is believed there would be a considerable excess of revenue over expenditures, and sufficient for the sinking fund.
