Special Business Notices.

ATTENTION is invited to the new advertisements, among which may be found a number of eastern firms, which will be noticed separately hereafter.

ALL the members of the 18th and 27th Quorums of Seventies living in this city, are requested to meet in the City Hall (to-morrow) Sunday, at half past four p.m., for the transaction of important business.

A farmer who lives on the bank of the Delaware and Hudson canal, near Honesdale, having been annoyed by the boatmen throwing coal at his turkeys and chickens, has fixed poles in his field, and hung on them old hats, tin kettles, and bottles, at which the boatmen are continually throwing coal. About once a week he gathers his harvest, which is enough for his own use, and with the surplus he is running a small coal yard.—*Honesdale Journal.*

THE "Cricket on the Hearth" at the Theatre on Monday evening.

"The most popular affectation among young ladies ravenous for social notoriety is the 'Florida cough,' which is regarded by those who have been abroad as a fine substitute for 'Roman malaria,' so fashionable a few years ago. The southern malady is supposed to be contracted sitting on the piazza of a Magnolia or Jacksonville hotel, flirting and eating oranges alternately. Those who have never been near either place suffer dreadfully from the disease.—*N. Y. Gazette.*

LYON'S KATHAIRON.
Lyon's Kathairon is an invigorating tonic vegetable preparation, positively free from any mineral or deleterious substances. It is the most delightful of all hair dressing—cooling the head, allaying irritation, curing headache and throbbing temples, making the hair strong, fragrant, glossy and obedient to control, so cleanly to use that it will not soil the finest fabric, causing the hair to grow luxuriantly and beautifully, removing dandruff and pimples. No man or woman can become bald who will use the Lyon's Kathairon properly.

The great gift of preaching—Knowing when to stop.
Some sermons are like small country houses with big pianos—the introduction is larger than the structure behind it.
A woman seats herself in a pew in seven motions; a man with one.
An effective sermon is one that hits that man in the next pew.

HAGAN'S MAGNOLIA BALM
is an unfailing prescription for a faultless complexion. Sallowness, roughness, sunburn, moth patches, freckles, discoloration, dark spots, unwholesome paleness, tan, pimples, eruptions, redness and every other kind of blemish disappear ll as magic by the use of Hagan's Magnolia Balm. A few applications applied with a soft linen cloth will leave the delicate hues of refined beauty and youthful bloom. Its application cannot be detected, and it is absolutely free from all possible harm, warranted purely a vegetable extract from the flowers of Southern France.

Local and Other Matters.

THERMOMETER 49 degrees F. in the shade at 1 p.m. to-day. Cloudy, breezy.

Tabernacle Meetings.—Services will be held in the New Tabernacle on Sunday afternoon, and every Sunday until further notice. Services commence at 2 o'clock.

Scandinavian Services.—We are requested by Elder A. W. Winberg to announce that the Scandinavian meeting of next Sunday will be held in the Old Tabernacle, commencing at half-past four p.m.

President Young and Party.—Presidents B. Young and Daniel H. Wells and party left Cove Fort at 11 a.m. yesterday, and arrived at Beaver at 4 p.m. Most of that part of the journey was through a heavy snow storm. The health of President Young is excellent.

Hoodlumism.—A resident of the 16th Ward informs us that his summer-house was carried bodily out of his lot the other night, and left in the lot of a neighbor, with the roof torn off and otherwise damaged.
These senseless and mischievous pranks are becoming much too frequent, and their perpetrators have apparently no more manhood about them than so many apes.

Notice of Adjournment.—The regular monthly meeting of Superintendents and Teachers of Sunday Schools, was by unanimous consent adjourned until Monday next, at half-past 7 p. m.
A good representation from every school is particularly requested, as there is business of importance to decide upon.
GEORGE GODDARD,
Asst. Gen'l. Supt. S. S. Union.

Benefit to Manager Harris.—On Monday evening a grand complimentary benefit will be given to the popular manager, Mr. W. T. Harris, of the Theatre, and at the Theatre. Mr. Harris has proved himself a gentlemanly and obliging manager, enterprising and energetic in looking after and securing such attractions for the Temple of the Drama as are available in this far inland city. On Monday it is presumed that his friends and patrons will rally around him in force and tender him a full house and a rousing benefit.

Co-operative Grape Culture—Excellent Prospects, &c.—We take the following from a communication dated at St. George, April 28th, from Brother J. W. Crosby, to Bishop Edward Hunter—
"A company of ten men, including myself, have unitedly put out about ten thousand grape vines, in Cooper Bottom, about three miles from this city. We intend adding to this, year by year, both in vines and fruit trees, and we want a man who is acquainted with the business to come and take charge of this. A man with a small family would be preferable. We purpose furnishing a house on the ground; also team, tools, &c., and would give such a man constant employment and liberal pay, supplying all his reasonable wants. If you learn of such a person please let me know, or send him along. We could send a team for him, if desirable.
"Summer is upon us; almonds and apricots are nearly grown, peaches are of respectable size, the people are feeding their cows and teams on new mown lucern, some wheat is in the boot, and, with plenty of water in the streams, our prospects are good for abundant crops of fruit, grain, hay, etc.
"I was through the Temple today. The outside is finished and the inside progressing rapidly, and altogether it looks very beautiful.
"Nearly all of our people are enlarging their vineyards, orchards, lucern fields, and, in fact, we have much to do and but few men to do it."

Sericulture.—
Editor Deseret Evening News:
Perhaps a few suggestions, or a few words o' advice, on the subject of sericulture, would not be amiss to those who may not be so far advanced as others regarding the nature of silk worm eggs. As the warm season is approaching, it would be well to take the eggs out and look at them, especially those who may have them in a warm place. In taking my eggs out to look at them for the purpose of giving a few to a friend, I found there were in the neighborhood of 1000 worms crawling around, which had hatched out that day, and which, but for the above circumstance, I should have lost. I went out to look for some feed, but it was very scarce, as the buds are only just beginning to show themselves, but I happened to have some tender lettuce, which was about three or four inches high. I got some of that and cut it up in very fine and gave it them. In feeding them lettuce cut it up very fine, and let it be the tenderest leaves you can get. The object of cutting the lettuce fine is because, the worms being so small, when the surplus leaves dry up, if the latter are large, the worms are apt to be inside and then you lose them. The same with the mulberry, unless the leaves are very small. When the worms are ten days old, you need not cut the feed, as they then are large enough to eat their way out. Give the worms plenty of room and fresh air and change them often to a clean place. It will keep them healthy and you will have better success. Treat them with the greatest care and avoid handling with the hands while they are young. Put a leaf down, they will climb on it, then you can move them with safety.
R. SIMPSON.

More Storm.—A nice rain again last night, with snow down the base of the mountains.

Down Apace.—It hailed away from the northward for a while this morning, and more storm is very likely.

Runaway.—This morning a street car double team, detached from the car, raced up East Temple Street, and were finally stopped by an active young fellow, after considerable exertion.

Brought to Town.—The body of fireman Baker, accidentally killed on the Central Pacific railroad, on Thursday, at the Promontory, was brought to this City last night. He was a resident of the 15th ward of this City.

The Germania Works.—We hear that the Germania smelting and refining works are about to be improved with a view to starting them in operation again in a little while, which will help business to some extent.

Farmers' Weather.—One of the foremost farmers of Davis county remarked to-day that this season was, so far, the most favorable for heavy crops of any year since he came to Utah, and he has been here almost from its first settlement.

Agreeable.—The storms and rain these days render the air cool and exceedingly pleasant. Splendid working weather, excellent too for the small seeds and other growing crops. Also keeping the snow on the mountains from melting too rapidly, and the streams from overflowing their banks and doing much damage. Just the right sort of weather. Auspicious every way, so that the frosts keep off.

Departure of Missionaries.—This morning a number of the missionaries called at the recent General Conference, destined for Europe, left on their eastward journey. A couple of ladies accompany the party, Mrs. S. P. Neve, wife of one of the missionaries, who goes on a visit to her relatives in Denmark, and Mrs. H. C. Fowler, whose husband is now laboring as a missionary in England.

Water Meeting.—We are requested, by Brother George Triplet, to announce that there will be a meeting of residents and property holders generally, on the 20th Ward north bench, at the School-house, on Monday evening, at half past seven o'clock. The subject of the meeting will be "Water," of the scarcity of which the residents of the locality aforenamed have not much reason to complain just at present.

Lye Poison.—W. Fisher informs us that a two year old son of Luke Shaw, 16th Ward, drank some concentrated lye about 9 o'clock this morning. Bro. Fisher went in and administered to the child a teaspoonful of olive oil and a teaspoonful of strong vinegar, one after the other, every two minutes. In less than fifteen minutes all the pain and the symptoms of poisoning had disappeared. Bro. F. says this is a sure antidote for caustic sodium and potassium.

Child Drowned.—The following is from the Ogden *Junction* of May 5—
AGENT'S OFFICE,
Weber, U. P. Station,
May 3d, 1876.
Joshua Williams, Esq., Coroner, Ogden City:
Dear Sir:—A little girl, 16 months of age, daughter of Mrs. O'Keefe, who lives at Weber Quarry, was lost in the river, yesterday. If possibly the body of such a child should be found in that vicinity, please notify me at once.
Very truly,
A. H. VILAS.

Returned Missionaries.—Elder W. A. C. Bryan, of Nephi, called this morning. He left Utah about a year ago on a mission to England, and left Liverpool on his return April 12, arriving in this city on Tuesday evening. Elders Arnold Goodliffe, of Malad, and Shadrach Empey, of Lehi, missionaries, returned with him. They all left England sooner than they had expected, in consequence of poor health while there. On the journey home the health of all improved considerably.
Elder Bryan labored in the Nottingham Conference while on his mission. He reports good prospects in the mission, better than for many years past.

Cheer the Old Folks.—It will be remembered that there was an "Old Folks' Excursion," two years ago, to Lake Point, including a sail on the Lake, on the *General Garfield*, when the participants, about 250, enjoyed a most excellent time. The affair was under the supervision of that kindly, warm hearted, and respected gentleman, Bishop Edward Hunter, in conjunction with Brothers Goddard & Savage, and we understand the same parties purpose getting up a similar excursion this season, probably about the end of this or the commencement of the coming month. We believe it is not yet decided whether the party will be restricted to persons over sixty-five years of age, or whether the limit will be none under seventy years. The direction the "Old Folks' Excursion" will take this season will probably be southward.

Theatre.—The play of "Heinrich and Hettie," with Baker and Farron's multitudinous Dutch and Irish eccentricities, went off smoother and in better style than the evening previous, and the applause of the audience was unstinted.
These able gentlemen appear this evening for the last time. Those who wish to enjoy a laugh at their songs, dances, and Dutch and Irish dialect and notional comicalities should not fail to attend.
On Monday evening a grand complimentary benefit to Manager Harris.

Gone to Beaver.—Yesterday morning John D. Lee and two prisoners, named Hunt and Porter, started for Beaver, in custody of a deputy U. S. Marshal.

Will Preach.—Elder George G. Bywater is expected to preach at President Young's Schoolhouse, 18th Ward, to-morrow evening. Services commence at half past six.

Religious Services.—Religious services at the Tabernacle to-morrow afternoon, commencing at 2 o'clock, and in the various Ward meeting-houses in the evening, at the usual hours.

Rumor.—It was reported on the street to-day that Brother George G. Bywater had met with a severe accident, but, so far as we could learn, we believe there is no foundation for the report, which probably arose from the arrival in town last night of the body of Mr. Baker, killed at the Promontory.

BENEFIT OF W. T. HARRIS.

The following correspondence will explain itself:

SALT LAKE CITY,
April 29th, 1876.
W. T. Harris, Esq., Manager, Salt Lake Theatre:
Dear Sir—The undersigned, being desirous of showing their appreciation of you, both as a manager and gentleman, and also in consideration of your energy and activity in catering with so much ability and discretion to the public taste in the shape of amusements, wish to give you a more substantial proof of the esteem in which they hold you than the mere form of words, and therefore request you will accept of a benefit at the Theatre on some evening suitable to your own convenience. Should the offer we make meet with your approval, you will confer a favor by naming what evening we may count upon.
