Speculative Opinion in Financial Centers Showed Some Unsettlement Last Week.

#### **FAVORABLE FEATURES APPEAR**

Pfethora of Money is Chronicled from Financial Centers and Conservative Operators See Improvement.

New York, Sept. 6 .- Speculative opinion over the existing levels of value of securities showed some unsettlement last week, without any apparent change in fundamental conditions to explain the doubt suggested by the accontinues hopeful over the prospects for improvement of business, and confident in the present strength of the financial position. Some misgivings were manifested, nevertheless, that the prices have been pushed to an unwarranted level as a result of the un usual abundance of credit facilities and in an anticipation of the coming betterment at too rapid a rate.

WEAKENED ASSUMPTIONS.

Special developments during the week weakened some of the purely speculative assumptions on which large market operations had been based, and dashed the feeling of confidence with which the advance had been followed. There was much discussion over the absence of any additions to the American Smelting & Refining board of directors at the annual meeting, as the acquisition of large holdings in the company for Standard Oll interest had been alleged as a reason for the strong tone of the stocks. There were statements made also of a diminution in the holdings of the interest in control of the company as voted at the annual meeting. The annual report itself disclosed little within for the price allitudes in the stock in the carnings for the past fiscal year. WEAKENED ASSUMPTIONS. the past fiscal year.

#### DISQUIETING RUMORS.

At the same time disquieting ru-inors were current of the condition of the market for copper metal and the price of silver continued its down-ward course. As the smelting stock has been the subject to a widespread advertising in the conduct of the spec-ulative campaign its market position mative campaign its market position was vulnerable to those unfavorable inferences, and its break was of important sympathetic effect on the general list of stocks. The adverse sentiment of the general public toward the stock market is a matter of solicitude among members of the stock exchange.

change.

Aside from this phase of the speculative position news of business recovery and of the progress of the crops suggested some revision of previous estimates which formed the basis for the earlier advance in prices.

### NOT UP TO EXPECTATIONS.

Reports of net earnings of railroads for July and of gross earnings for the later weeks of August failed to show the rate of recuperation that had been hoped for, and here also some revision of opinion was called for. In the iron and steel trade the recovery, although proceeding steadily, is reported disappointingly slow.

These various considerations were only partly effective in offsetting the influence of the plentiful supplies in the money market as a broad underlying support for prices as ce-

Fluctuations have been narrow, and although the tendency has been downward and the undercurrent weak it is evident that a renewal of important speculative operations would cause a recovery quickly. The only change in the statistical position has been an increase in exports during the last few days, and if continued will mean the shipment of nearly 50,000,000 pounds of American copper to foreign countries during August; but imports have continued heavy, and the apparent supply for the month from domestic and foreign sources will be fully 100,000,000 pounds. Chicago, Sept. 6 .- Victor Rosewater, head of the publicity bureau of the Republican party, tonight gave out the following statement made by P. H. Morrissey, grand master of the Brotherhood of Railroad Trainmen, in a circular recently issued to all lodges and members under Cleveland date:

"Brother H. R. Fuller, national legislative representative of the Brotherhood of Locomotive Firemen and Engineers. and of our brotherhood, after consulting with the chief executives of these organizations, presented to the Republican national convention at Chicago in June, 1908, a proposed anti-injunction plank as representing the views of these organizations and requested that it be placed in the platform of that party as follows:

THE PLANK.

"'We pledge ourselves to such legislation as will guarantee to workmen those rights necessary to their industrial pro-tection, including the right to strike tection, including the right to strike and to induce or persuade others to do so; and to such legislation as will pre-vent the issuance of restraining orders and injunctions without hearings; and guaranteeing trial by jury to persons accused of contempt of court, if such alleged contempt be not committed in the presence of the court or so near thereto as to obstruct the administration of justice.

this proposal and adopted in its stead another plank.

"Brother Fuller, together with Broth-er Willis, assistant and chief engineer of the Brotherhood of Locomotive En-gineers, appeared before the Democratic national convention in Denver and presented to that party for adoption the same proposed plank as submitted to the Republican convention. The Demo-cratic convention also declined to accept it and adopted in its stead another plank.

#### NO POLITICAL PROGRAM.

"It should be understood that the Brotherhood of Railroad Trainmen has no political program and indorse no polotical party or candidate for any elec-tive office. Neither have the lodges any authority to use their funds in furtherance of any partisan political move-ment, and any attempt on the part of an officer or member of the brother-hood to enlist the organization's support or indorsement in the interest of any candidate or party should be promptly challenged and repudiated. #### GOMPERS WILL FIGHT "UNCLE JOE" CANNON

Danville, Ill. Sept. 6.—Samuel Gompers, president of the American Rederation of labor, will invade the Eighteenth Congressional district of Illinois Monday, for the avowed purpurpose of bringing about the defeat of Joseph G. Cannon, Speaker of the national house of representatives, who is making his ninteenth campaign for a seat in the house of Congress from the territory indicated.

Mr. Gompers is billed to make his first address at the Labor day celebration here tomorrow. Two years ago he declared his intention of seeking the Speaker's defeat, and announced that he would make a number of speeches for the Democratic candidate who opposed Mr. Cannon. However, Mr. Gompers made only one or two speeches in the outskirts of the district, failing to appear in Danville, where the heaviest labor vote of Mr. Cannon's district is polled, and the speaker was re-elected by the largest majority he had had in 18 campaigns, with the exception of the vote cast for him four years ago, on the occosion of the Roosevelt land-slide.

In this county, Vermillion, is polled the heaviest labor vote of the entire district, some 5,000 or 6,000 of these laboring men being employed in the coal mines situated near Danville, and it is in this country that Speaker Cannon received his heaviest majority. In the next largest labor settlement or county Mr. Cannon is given his next heaviest majority, and so on down to Edgar county, in which but few union loborers reside, and which is populated almost entirely by farmers, where the speaker receives his lightest majority. Despite the activity which Mr. Compens promises in his declaration.
