whom? The president in such case was dissolved during the remainder of the day in the presence of the subject was probably granted. Indeed, one report of his resignation represented him as in an unaccountable state of disturbance.

Now, we submit that it is a false idea of either duty or duty that prompts a resignation with such a request, and we do not think it readily because it is of record that the president of the United States, Mr. Van Buren, was twice re-elected in yielding to the will of the electors.

The present trouble in Norway may be said to date back to the very day of the union with Sweden, Norway, when the king of Denmark, of whose country it was a province, wanted independence under a king of his own choice. But the people of Norway refused to be separated from the Swedish king, an arrangement which the latter was in receipt, as a poor compensation for the transfer of Finland to Russia. The union thus established was never cordially accepted.

AN ART SCHOOL. An important step taken by the University of Utah, which opens its school year on the 15th inst., is the addition of an art school. The University has had an art department for students in its department of drawing, but this new school is an entirely distinct character, in that it engages students in painting and free-hand drawing, thus affording facilities for the study of art in advanced work.

Their action should prove such an incentive to the study of the beautiful in this particular line that hereafter the art school will be a permanent feature of the institution.

The Associated Press correspondent at Stockholm, in a recent dispatch, represents the feeling in Sweden as somewhat bitter towards Norway, on account of the incessant agitation in the latter country for a dissolution of the union. SO BRINKS ON THE SCAPULS. A conflict that would be intense had it not been for the fact that the United States has grown up around the method of a senator's holding office by the officers of the law which he has violated. We refer to the practice of allowing the condemned to remain in the hands of military, all the while he is shown to act ill. It will be remembered that in the recent case of John T. Sweeney, one of the first questions of the Senate was whether or not it was a commission of offense that he should be allowed to remain in custody, was for "peacefully for good and true."

take an invasion. The country, with its numerous fields and fields, is generally inaccessible to hostile forces, and it has an army in its request to enter to any country of its class, while its population of sturdy farmers and fishermen are brave and bold with unshakable patriotism.

The government of Norway, after an indecisive struggle, has been compelled to accept a compromise which, even under favorable circumstances, would bring ruin to both countries.
