WASHINGTON.

A proclamation by President Grant.

WASHINGTON, 4.—President Grant

said this morning that it would afford

him much pleasure to attend the

meeting of the army of the Potomac

next week, but he would be prevented

from doing so by the extraordinary

meeting of the Senate. He designs

leaving Washington on Saturday for

Philadelphia, to return on Monday

with Mrs. Grant, who is now on a visit

to that city.

WASHINGTON.—By the President

of the United States of America:

According to the Act of Congress,

enacted an act to enforce the provisions

of the Fourteenth Amendment to the

constitution of the United States, and

other purposes, April the 20th,

A. D. 1871, being a law of extraordinary

public importance, I consider it my

duty to issue this proclamation, calling

the attention of the people of the

United States to the provisions of

all good citizens, and especially upon

public officers to be zealous in the in-

terpretation thereof, and warning all

persons to abstain from committing

any of the acts therein prohibited.

The law of Congress applies to all parts

of the United States, and will be en-

forced everywhere, to the full extent of

the power vested in the Executive.

But inasmuch as the necessity therefor

is well known to have been caused

chiefly by persistent violations of the

rights of citizens of the United States,

by combinations of lawless and dis-

saffected persons in certain localities

to the theatre of insurrections and

unlawful conflict, I do particularly ex-

hort the people of those parts of the

country to support the law, and to

maintain the rights of all citizens of

the United States, and to secure to all

such citizens the equal protection of

the laws. Fully sensible of the respon-

sibility imposed upon the Executive by

the act of Congress to which public

attention is now called, and reluctant

to call into exercise any of the extraor-

dinary powers thereby conferred upon me

except in case of imperative necessity,

I do nevertheless deem it my duty to

tion pool. A balloon, with letters, left

the hotel de Ville to-day. A great

meeting of all the republican societies

is called for Sunday, is the Court-yard

of the Louvre; Ladré Rollin will pre-

sides.

It is reported that Cluseret will be

tried for complicity with the Prussians

called for Sunday, is the Court-yard

of the Louvre; Ladré Rollin will pre-

sides.

Seals have been placed upon the offi-

ces of several Notaries Public, by order

of the Commune.

A special correspondent with the

Darien surveying expedition sends, un-

der date of April 25, full details regard-

ing their operations; although the sur-

vay of the Napier route is not reported

favorably, it is hoped it will still be

practicable. It will undoubtedly be

found ultimately that the distance from

Cape Horn to Atrato, along the banks

of the Napier River is sixty-nine and a

half miles in a straight line, and that

twenty miles from Atrato, the Napier

river flows through the mountainous

country for about thirty miles from the

foot of the divide; and is supplied

from the Doguado river as a tributary.

It is proposed to make thirteen locks

from Doguado, eighteen miles from

Atrato to the divide, then tunnel

through and descend to the Pacific by

side locks. The survey will be com-

pleted in twenty seven days. No in-

teligence has been received from the

explorers up to the present. It is cor-

lain they met the party following the

Paranacheta river.

The Tribune's Washington special

dispatch says, this morning, there is

good authority for the report that the

President will very soon, by proclama-

tion or otherwise, take active measures

for the enforcement of the Ku Klux law

passed during the last session of Con-

gress; the only circumstance which will

be likely to cause delay being the ab-

sence of the Secretary of War. The

President remarked, since his return

from the West, that he should not go to

California until he had initiated mea-

sures in accordance with the provisions

of that law, for the protection of the

South.

The same correspondent also tele-

graphs that many efforts have been

made, it is alleged, by the joint high

commissioners to prejudice the treaty

beforehand, in the minds of the people,

and to create false impressions as to its

contents. The treaty, it is declared,

efforts is that which seeks to convey

the belief that the American Commis-

sioners have allowed the claims of

British subjects to be put down, and

to the Alabama claims, and allowed

them to enter into the bases of settle-

ment, to the amount of about thirty

million dollars.

It is also stated, in the public prints,

that the English Commissioners have

presented claims to be considered for

slaves owned by English subjects and

freed by the United States Govern-

ment during the war. As the British

laws make the holding of slaves by

British subjects felony, the absurdity

of this report is apparent. There is

also a statement that the English

reports regarding the capture of slaves

in the West Indies are false and malici-

ous.
