Suit Filed by Col. Treeweek and Some Of the Things Alleged-

SILVER KING COALITION.

The filing of the \$400,000 damage sult yesterday in the federal court against the Silver King Coalition Mines company was a subject for discussion in mining circles today. A close friend of N. Treeweek, one of the plaintiffs, declared that the chances are ten to one declared that the chances are ten to one that the King company will lose out in this contention; that Col. Treeweek is in possession of maps showing all of the underground workings of the King as they actually were up to a few months ago and that they show conclusively that the Keith-Kearns company, which has hear absorbed by the King Gordi has been absorbed by the King Coali-tion, extracted the ore alleged to have been taken from the Conkling lode mining claim and treated the same in the mill formerly operated on the Klith-Kearns ground. It was also asserted by this friend of

It was also asserted by this friend of Col. Treeweek that the officers of the King Coalition not long ago offered to settle the contention by the payment of \$15,000; which Col. Treeweek in-formed them he would consider after first having been granted permission to make an inspection of the territory where the ore is alleged to have been taken from the Conkling. The request was refused and thereupon Col. Tree-week as associate, J. Leonard Burch, ordered the attorneys to draw a com-plaint. As stated yesterday in the plaint. As stated yesterday in the "News," the plaintiffs claim ownership to a three-quarters interest in the Ar-thur and Conkling claims and they are suing to get their share of the proceeds.

COPPER LAST YEAR.

Average Price Obtained for Metal Best in Many Years.

(Pollock Special Wire.)

Borton, Jan. 9.—The copper pro-ducers who sold their copper through the agencies which based monthly set-llements upon the quotations of En-gineering and Mining Journal (which gineering and Mining Journal (which quotations are made up for the pur-pose of such settlement) received an average of 20,004 cents per pound for their year's production of electroly-tic brands and 20.66 cents for Lake. These averages compare with 19,278 cents for electrolytic in 1908, and 15.-616 cents for Lake, so that last year's average has been the best for many years and is from half to one and one halff cents per pound above the average prices received by companies selling through the United Metals Sell-ing Co.

ing C The lowest price received for the year was for December at 13,163 cents for electrolytic and 13,385 cents for Lake. The highest month's average was in March, when the companies received 25,065 cents for electrolytic.

MINING MAN DIES.

R. M. Johnson Succumbs on Eve of Obtaining a Fortune.

Obtaining a Fortune. R. M. Johnson, a veteran mining man of this city, was found dead in his room at the Halls hotel yesetrday fore-noon, presumably from heart trouble. The deceased was 75 years of age and leaves two sons who reside in Chicago, to survive him. One of the latter is on his way wast and no account on his way west and no arrangements will be made for the funeral until his

A few days ago the deceased closed A rew mays ago the deceased closed up a deal for the sale of all of his interests in the Gold Springs dis.rict in Iron county, from which he would have realized approximately \$125,000 within a very short time a very short time

Men Breaking Away from Western Federation of Miners.

A new miners' union is to be organ-A new miners' union is to be organ-ized in this camp, says the Review of Goldfield. It will be along lines of the Virginia City union, which is the old-est, with one exception, in the world and has been the most successful. For more than four decades it maintained its entity and during all this time there was never a breath of labor trouble. The men received the wages they de-manded and the hours they asked for. There was an entente cordiale between mine operators and miners such as the world never known outside of the Com-stock. It was only when the Western Feder-

It was only when the Western Federation sent in its agitators and the union was disrupted by counter forces that trouble ensued and strikes occurred. The Virginia City miners' union today is ready to return to its independence if a precedent is established, and such a precedent will be established in Gold-field. The next step will be for Goldfield. The next step will be for Gold-field and the Comstock to join hands. The other unions in Nevada will quickly follow suit.

iy follow suit. No announcement has hitherto been made in the Goldfield papers of the proposed union and the move has been such a quiet one that it is probable that many of the local miners are not yet acquainted with the new situation. This independent union will receive a charter from the state legislature, at least one will be applied for. The union will be fully incorporated and will be

a charter from the state legislature, at least one will be applied for. The union will be fully incorporated and will be managed by conservative people. A man with anarchistic tendencies will find it a hard union to secure admis-sion in, but for conservatives it will be an ideal organization, one in which mine operators and employes may meet upon a common scale, where grievances will be discussed and adjusted and where the spirit of copartnership, that is sadly lacking in the Western Fed-eration of Miners, will exist. The formation of this union will put an end not only to the present strike, but will obviate any labor trouble in the future. Needless to say, the new union will be a patriotic. American or ganization and the movement is liable to be spread throughout the mining camps of the west, to the unbounded benefit of both labor and capital as they are invested in the mining in-dustry.

NO DIVIDENDS.

The directors of the Uncle Sam Con-solidated and May Day Mining com-panies are scheduled to hold meetings this afternoon to transact regular rou-tine business. No dividends will pe posted.

SAN FRANCISCO MARKET. (Pollock Special Wire.)

CONCENTRATES.

Victor C. Heikes, in charge of the local offices of the United States geo-logical survey, has returned from a trip to Washington, D. C.

John Dern, president of the Consoll-dated Mercur Gold Mines company, has returned from Fremont, Neb., where he spent the holidays.

SCARLET FEVER VICTIM.

Little Erma Diana Anderson Succumbs to the Dread Disease.

Scarlet fever claimed another victim Scanlet lever claimed another victim today in Erma Diana Anderson, the 4-year-old daughter of Heber C, and Mar-garet Harmon Anderson, who reside at 946 West North Temple street. The child passed away at 11 a. m. and was buried in the city cemetery this afternoon at 5 o'clock. The afflicted mother and her two-week-ogl infant are both guarantined in the house.

GIVEN 75 DAYS.

E. M. Woodcock was this afternon sentenced by Judge Diehl to serve 75 day. in the city jail or to pay a fine of \$7" for petty larceny. Woodcock had obtained a rifle belonging to a friend by the name of Marcao and pawned the same. Marcao filed complaint and on conviction of the theft Woodcock was given the heavy sentence above recorded. ------
