

to take the regular college course in some higher institution of learning, and that in order to reach the success that they desire, such a college course is very necessary. The association has already done much in the way of assist-ing young men to enter colleges by hav. ing inducted many of the best institutions to recognize the certificates award ed by the international committee any students who do satisfactory work in any particular subject."

Mr. Hodge further remarked, "The Y. M. C. A. in this work has become a powerful ally of the public and private school, encouraging and supplementing the work of both. Then it surrounds young men with an atmosphere which dissatisfied them with present attainments and stimulates them to a larger familiarity with the best things that men have said, taught and done in the world. Meeting the daily needs of employed men it a practical and efficient manner and on a business basis, seems to be the secret of the success of this educational movement, which we are all most glad to approve, respect and support

Mr. Hodge stated that there had been 200,000 men and boys taking the educa-tional courses in the last 10 years, and 32,000 are engaged at present in the regular class work, with 10,000 others taking the more technical lines. He illustrates tonight in his First Con-gregational church lecture, the educalonal work of the association with stereopticon, and one display will be a Y. M. C. A. building and a state prisor side by side, and statistics that will not leave the audience long in doubt as to which is the more valuable to the work There will be no charge for admission It is the intention of Secy. Cox and he directors of the Salt Lake asthe sociation to make a great feature of this educational work when the new building has been completed.

SITUATION IN CARBON COUNTY.

Neither the adjutant general or th officers of the Utah Fuel company in this city had received any word from the coal regions this morning, as to any necessity for further aid from the state in the way of preserving order at the coal camps. It was feared yesterday afternoon that assistance might be nec. essary, as with Demoill, the Sicilian, at large, trouble at Sunnyside might happen any hour. A coal company official said today that the longer the Italian strikers were without work, the more danger there was of some kind of an outbreak. At the same time, the coal properties are being worked as usual, with a steadily increasing tonnage out.

DEATH OF MRS. CROUCH.

Old Resident of Salt Lake Called to The Other Side.

Mrs. Caroline Baker Crouch, widow of William Crouch, died Tuesday at 7 a, m. at the home of her daughter, Mrs. W. C. Burgon, Union, Salt Lake county, of general debility. The deceased was born in Ickelsham, Sussex, England, March 13, 1824, and emigrated to Utah 30 years ago. For 27 years she was a resident of Salt Lake City, but shortly after the death of her husband four years ago, she moved to Union where she lived with her daughter till her demise. Mrs. Crouch was a faith-ful Latter-day Saint and endured many hardships for her religion. She leaves four children. The funeral will be held from the Union ward house tomorrow, Thursday, at 11 a. m. Interment in the Balt Lake City cemetery.

THE AFTERNOON CALL.

Two stocks participated in the sales of the regular call of the Mining Ex-change this afternoon as follows: Ajax-1.000 at 536. New York Bonanza-200 at 13.

upon as before, as long as it lasts, the Decoration day expenses amounted to about \$100 for each occasion. Mayor Morris is the treasurer of the fund,

WHAT TEA DOES TO RHEUMATICS.

When you next take tea, think of this. Tea contains 175 grains of Uric Acid in every pound.

Meat contains only five to seven grains. Rheumatism is Uric Acid in the blood. Uric Acid accumulates from food when the digestive apparatus cannot create enough Alkaline elements (like soda) to neutralize it.

This Acid collects urea, or worn-out waste matter, from the system. That Urea enters the blood when Alka-

line action has not previously dissolved

By and by the waste matter reaches the joints and muscles, through circulation of the blood.

There it gradually deposits in solid particles, like granulated sugar.

These solid particles grind between the oints and muscles at every movement. This grinding causes irritation and pain. These in turn may develop inflamma tion and swelling. That inflammation be-

stirs Nature to help herself. She proceeds to coat the hard Uric particles over with cushions of pulpy mucous, like the first healing strata of an outer sore.

This pulpy covering grows to the bones, as well as to the particles deposited. wax. Then we have "bony joints." al-most inflexible, and usually fixed in a bended position, from the pain and in-flammation. There it hardens like plaster or sealing

That is Rheumatism at its worst It is bad enough before it gets that far. There is but one sure way of curing Rheumatism, The first step is to neutral-Next, to dissolve, and carry away, the hard deposits that grind between the joints. Then get the digestive apparatus into such healthy condition that it will, unaided, produce less Uric Acid, and more Alkalines. more Alkalines.

This is what Doctors generally have

It is what I studied a lifetime to ac-complish, and achieved only after many failures and thousands of experiments. At last I found, in Germany, a Solvent which was not only effective, but abso-lutely safe to use.

Few agents powerful enough to be ef-fective in Rheumatism are safe. My discovery, now called "Dr. Shoop's Rheumatic Cure, acts directly, but inter-nally, upon Uric Acid in the joints and rungles.

muscles. It dissolves, and carries off, the painful

deposits, producing an immediate Aika-line condition of the blood, and neutraliz-ing the Acid in it which would have fed the Rheumatism and extended the dis-

It won't restore bony joints to flexibil-ity, and it can't undo, in a week, the damage caused by years of rheumatic conduing. condition

But it will benefit every case, and it will entirely cure most cases of Rheumatism.

So sure am I of this, that I will sup-ply Dr. Shoop's Rheumatic Cure, to any slok one who writes me for it, on a month's trial, at my risk.

If it succeeds, the cost to him is only \$5.50 for the six bottle treatment. If it fails, I bear the whole cost myself. And-he alone shall be the judge-

Surely you will not continue to suffer when you can thus get well ,at my risk. I have written an important Treatise on Rheumatism, telling of its relief and cure. It is free to Rheumatic people.

Write me a post card for it today. Address, Dr. Shoop, Box 3713 Racine,

P. S.-Simple cases of a yield to one bottle of Dr. Shoop's Rheumatic Cure. (Druggists, \$1). But all druggists do not supply it on a month's trial. You must write to me for that, C. I. S.

telephone, depot, electric light and street railway companies in this coun-

ty, which has heretotore open allow by the state board of equalization. In accordance with the opinion of the In accordance with the effect that the county attorney, to the effect that the law giving the state board power to make the assessment on such property is unconstitutional, the assessor was proceeding to make the assessment and the petition was filed to restrain him the petition was filed to restrain him from any further action in the matter. He will now have to show cause on March 14, why he should not be perma-nently prohibited from making the assessment upon such property.

TWO DESERTERS.

A Couple of Wives Commence Action for Divorce in District Court.

Henrietta M. Austin filed suit for dirce in the district court today against Frederick Austin on the ground of desertion. They were married at White Oaks, New Mexico, on March 11, 1888, and it is allaged that defendant de-serted his wife and three children on Aug. 26, 1901. Plaintiff also asks for the custody of the minor children. Suit for divorce was filed in the dis-trict court today by Adelia Sloan against W. A. Sloan on the grounds of describer and follows to see the state of desertion and failure to support. They were married at Nephi on June 1, 1891. It is alleged that defendant deserted his wife in 1893 and has falled to support her for more than five years past.

Judgments Secured.

In the district court yesterday afternoon judgments were rendered in favor of the Utah Commercial & Savings bank in two cases in which it was plaintiff. One judgment was for \$1,404, with costs and interest against Peter J. Reid and Charles Crismon. The other was for \$931 with costs and interest against William Davidson and Peter J. Reid. Both actions were brought to recover on former judgments secured against de-fepdants in the district court in 1894.

FIRED FROM TRAIN.

H. B. Windsor Compelled to Dress on Platform, Now Sues Union Pacific.

Suit has been filed in the district court by H. B. Windsor against the Union Pacific Rallway company and the Pull-man Palace Car company to recover Man Place car company to recover \$1,900 damages for ejectment from a sleeping car at Hawlins, Wyo, in July, 1903. It is alleged by plaintiff that he boarded a train at Cheyenne bound for boarded a train at Cheyenne bound for Salt Lake. It so happened that the train was made up entirely of sleeping cars and the Pullman conductor de-manded of plaintiff \$4.50 before he would let him ride in one of the cars. As he had but \$2.45, the conductor put him off the train at Rawlins. The election is the subsect

The ejection, it is alleged, was ac-companied by unnecessary violence, he being put out on to the depot platform only partially dressed and compelled to finish dressing in the presence of finish strangers, while the conductor laughed and jeered at him, and, throwing him his hat as the train pulled out, called him a "dead beat." By reason of the him a "dead beat." By reason of the actions of defendants' employes, plaintiff alleges that he has been damaged in the sum stated above.

Ricy H. Jones Case.

The supreme court yesterday afternoon heard arguments on the demurrer in the disbarment proceedings against Attorney Ricy H. Jones of Brigham City. The demurrer was based on the City. The demarrer was based on the ground that the state bar association did not sign the charges. Attorneys R. W. Young, J. W. N. Whitecotion and Charles Baldwin argued the demurrer in behalf of the state, and Judge O. W. Powers argued in behalf of Attorney Jones. Jones.

COURT NOTES.

Aaron Keyser filed suit in the dis-trict court today against John E. Hill, Laura Hill and John E. Hill, Jr., to recover \$2,500 alleged to be due on a promissory note executed on Jan. 28, 1902, and to recover \$200 as attorney's Former Lives in Far Away Archipelago and Latter in Salt Lake City.

CALLS HER HIS "DEAR FRIEND."

Says He Has Heard Something of the "Mormons" and Their Big Tabernacle --- Full Text of His Letter.

What will probably result in a very interesting and instructive correspondence has been started between the pupils in the public schools in this city and those in the schools of the Philip. pines. The initiatory step has been tak. en by a Filipino boy who writes to "An American Girl, Sait Lake City," as follows:

131 Aranzazu Street, San Mateo, Rizal, Dec. 12.—An American Girl, Salt Lake City, Utah: Dear Friend-My teacher told me to write this letter to tell you about my town and to ask you to tell me about yours. My surname is Manuel. We live in a broad valley near Manila; it is about

15 miles from it. In the northeastern part of this town is a high mountain. It is called "Mataba." We get many kinds of wood from that mountain. The climate in these parts is not similar to this your country. We have only two seasons; one dry and one wet. During a year we have a hot wet season from May to October, followed by a cool and dry season. In this my town we have bamboo trees. I know they are differ-ent in your country. I am going to you about it. It is growing about 35 feet high. Every year the sprouts appearing around it. Its leaves are so

hick so they are shelter for the sun. It has joints just like the joints of a corn stalk. It is not solid like a corn stalk, but is hollow inside. It is so thick and strong that the people make houses out of it, and all kinds of fur-niture. Here is a leaf of it. Also we have cotton trees. They are big trees. Some of them grow more than a hundred feet high. Its fruits are hanging in clusters. It is not so good to make cloth because its fibres are not strong and white. The trunk is used to fire-wood; its fruit is used to make pillow. In this town we have public school, Let me tell you about it. It is contain two hundreds fifty pupils. We use to seating fifty American desks and some long benches. We have four teachers one American and three Philipino. Their name are Mr. Charles E. Hoye. He is an American man. Mr. Jose B. Mr. Miguel C. and Miss Regina A. They are Philipino teachers. We go to school in the morning at eight o'clock and return at eleven. In the afternoon we go at two o'clock returning at four. I have heard some things from the book, about the Mormons in your country and also Tabernacle. I should be thankful if you explain me. Please ex. cuse my mistakes because I cannot write English very well yet, and my teacher did not correct My letter. Please answer my letter as soon as you have time.

Yours very respectfully, FELIX MANUEL.

BUSINESS NOTES.

Today's local bank clearings amount-ed to \$406,959.02 as against \$461,655.40 for the same day last year.

The Union Gas & Pipe Line company of this city filed its articles of incor-poration in the county clerk's office today. It's capital stock is \$1,000,000, di-vided into shares of the par value of \$1 each. W. S. Ravenscroft is presi-dent; J. W. Bolleau, vice president; Thomas J. Almy, secretary and treas-urer. The company owns a number of coll claims in this county. oil claims in this county.
