Thursday, June 10, 1909

## FRAGMENTS.

A MAN NAMED James Thurston was arrested in Ogden yesterday for stealing \$25.

Geo. C. Mill appears in the Theatre this evening, in "A Fool's Revenge."

Capt. Paul Boyton gives an exhibition at Garfield at 6 p. m. tomorrow.

Anderson, the second hand dealer, was being tried in the police court this afternoon for passing counterfeit money.

Homer Duncan was arrested to-day on an indictment with one count of unlawful cohabitation, and was released on \$1,000 bail.

A SPAN of street car mules made things lively for a few minutes this afternoon, on Main Street, and finally succeeded in breaking the car tongue.

BROTHER C. MURKLEY, of the 17th Ward, has raised some fine large strawberries this season. Some of the berries measured four and a half inches in circumference.

WM. FINESTAD, of the First Ward, who was sent to the penitentiary last night in default of \$2,000 bail, was released to-day, Wm. Groesbeck and Milford Allen being sureties.

WM. SIMMONS, of Rock Island County, Illinois, wishes to obtain information concerning his father, Silas Simmons, who came to Utah about 1850. Anyone who knows of the whereabouts of Mr. Simmons or any of his family in Utah, will please communicate with this office immediately.

REV. T. C. LUFFY and family have met a sad bereavement, in the death of their little son Wesley. We join with their friends in a tender of sympathy.

Two other children of Mr. Luffy are ill, but reported to be improving. We hope they will speedily recover, and continue to be a comfort to their parents.

JOHN C. FERNET, the well known journalist and writer, will star this fall, supported by a strong company, in the following repertoire: "Huguenot Captain," "Carrouche," "Ray Blue," "Jocaste the Juggler," "Grimaldi" and "Valjean." Mr. Fernet's success on the stage since he made his debut last July has been marked, and his endorsement by the press emphatic.

In the suits instituted by the John Harvester Company, before Justice Burton, on promissory notes given to R. Warcock, the court has given the following orders: The case against James Hobbie, stay of proceedings to June 14; Benjamin Wright, trial on June 14; J. H. Layton and Wm. Wilson, trial set for June 18.

THE People's Party at Richmond, Cache County, have nominated the following candidates to be voted for at the municipal election on Monday, June 14th: For mayor, Thomas Griffin; councilors, James W. Hendricks, A. G. Harrison, W. C. Burnham, John Gooch, Alma Merrill; C. Z. Harris, recorder; C. Traylor, treasurer; John Halgren, assessor and collector; Eli Webb, W. D. Vanney, justices of the peace; Henry Brower, city marshal.

## LOCAL NEWS.

Registration.—All persons qualified to register should attend to this week, at the various places appointed by the deputy registrars for that purpose. No further opportunity will be given this year. It would be a good thing if the precinct registrars would give notice of the time and place to find them during the remainder of the week.

Wants Work in a Mill.—To-day we received a call from Brother Silver H. Yowler, who arrived from the "Old Country" last Tuesday. He has been accustomed to working in a flour mill, and is well acquainted with the working of mill machinery. He is also familiar with the process of chopping, and invented a new dress for that class of work. He is in want of employment. Any person who can give him work can communicate with him through this office.

Two Kinds.—John Beck, proprietor of the celebrated Hot Springs mine, is manufacturing two kinds of soda. One is the kind generally in use, but of superior quality. The other is the water of the springs charged with gas. The first is good on account of its refreshing and palatable flavor, while the other is more acceptable on account of its medicinal properties. Both are excellent in their way. Dyspeptics will prefer the mineral soda, while those who merely desire to quench the thirst during the hot season will take the first.

Searching for Theo. McKean.—At six o'clock this morning the house of Mr. Theodore McKean, on the west side of Jordan River and just past the White Bridge, was surrounded by deputies, who subpoenaed all present to appear at once as witnesses before Commissioner McKay. Mr. McKean did not happen to be home at the time the call was made, so the matter of arrest was not made. At the same hour as the visit to McKean's, Mr. Emery's house in the 10th Ward was also called at, and several witnesses summoned to the same case.

The witnesses were all taken to the Commissioner's office, had been no defendant present, notified to appear before the grand jury on August 6th.

Supreme Court.—Linford Watts was admitted to citizenship in the Territorial Supreme Court yesterday. Chancellor Bacon, respondent vs. B. G. Raybould, appellant; application for a rehearing denied.

The People ex rel. Yearian vs. Adam Ogden, justice, on application therefor, heretofore submitted, is ordered that a hearing on motion for a new trial of this cause be and is hereby allowed.

The People vs. J. C. Morton et al.; argued by A. B. Heywood and W. E. Dickson. Submitted and taken under advisement.

Mr. Cunningham et al., appellants vs. J. S. Scott et al., respondents, argued by Mr. Hoffman for appellants and Mr. Boyle for respondents. Submitted and taken under advisement.

Harry Haynes appellant vs. Bolivar Roberts et al., respondents, argued by Mr. Hoffman for appellants and Mr. Williams for respondents. Submitted and taken under advisement.

To-day the suit of Thomas Fenton vs. Salt Lake County, on appeal from the Third District Court, was argued and submitted, and adjourned until to-morrow at 10 a. m.

To-morrow is the date set for hearing the following cases: U. S. vs. Wm. Browder, First District; The People vs. David Miller, First District; Spanish Fork City vs. Wm. M. Thomas, First District; B. B. Blinn et al. vs. U. C. By Co., Third District; U. S. vs. N. H. Groesbeck, First District.

# THE FIRE-FIELD.

A THREE-YEAR OLD CHILD BURNED—THE MOTHER SEVERELY SCORCHED WHILE RESCUING HER BABY.

A few minutes before 5 o'clock last evening a fire broke out in the carpenter shop of Mr. Wm. F. Cahoon, in the Twelfth Ward, on Fourth East Street, between South Temple and First South. The flames rapidly spread to a dwelling house close by, occupied by three families. In the carpenter shop a little daughter of Mr. Albert Angell was seriously burned, and her mother, Mrs. Thurns V. Angell, severely injured by contact with the flames.

Just before the fire started, Father Cahoon was engaged at work in his shop. His three-year old granddaughter, Maud Angell, was sitting on the carpenter's bench, playing with some toys, as she and other children have been in the habit of doing. She reached up to a shelf above and obtained a match, which she struck.

Her grandfather took it from her, chiding her for the act. Shortly afterward he had occasion to go out of the shop for a few minutes, and not thinking of any danger, left the child playing. He was not gone over five minutes when he heard screams and saw that the building was on fire. When he stepped outside, Maud, who is a bright child, obtained another match and ignited it. This she dropped into the mass of shavings on the floor below, and in a few seconds was enveloped in the flames. Her screams brought her mother from the house near by. When Mrs. Angell reached the door the whole interior was ablaze, and hearing the cries of her infant, she rushed in and seized it, regaining the open air as quickly as possible. Here help was at hand and the fire which enveloped both of them quickly extinguished. Mrs. Angell, however, had been severely scorched about the arms, head and face, while the little one was burned on the limbs, hands, face and head.

An alarm was given, but about the time the fire started a stiff breeze came up, and the flames from the carpenter shop were soon communicated to Mrs. Angell's house, a few feet distant. This place was occupied by two families belonging to the owner, Mr. Carlquist, and Mr. Anderson. The building was of brick, two stories high, the upper story unplastered. So quickly did the flames spread that the inmates of the house had to rush out for their own safety.

The fire reached the inside of the roof under the cornice, and it seemed but a work of a moment for it to run the entire length of the building, every partition, with the openings between the lath apparently increasing the draft, and the whole building proving a regular furnace in its undisturbed state. At most all of the roof and much of the woodwork was destroyed before the flames were brought under control.

It was at first hoped that the entire building could be saved with its contents, as the fire appeared to die out when the water was turned on. It was soon discovered, however, that such was not the case, and several firemen and bystanders at once began removing the furniture. A number of men, noticeable among whom were Mayor Sharp, Mr. Odd and Martin Christofferson, worked nobly at saving everything of value they could obtain on the second floor, passing through and through the flames while removing articles from the rooms. Chief Ottinger and his men also did their utmost, regardless of any danger. When at last they were compelled to retire, having almost emptied the rooms, one of the men narrowly escaped serious injury. As he was making his way out through the flames and smoke he was struck by a stream of water, and knocked backward into the fire. He managed to scramble out, however, and reach the ground in safety.

Mrs. Angell and little Maud were removed across the street to the house of Mr. Jas. Hogle, where Mrs. Young and Bower were summoned, and with Mrs. Hogle did all they could for the relief of the sufferers. The burns of both of the injured ones were dressed, and the child comforted and soothed to sleep under the influence of opiates. Mrs. Angell, however, was perfectly frantic at what had occurred, especially to her infant, and for a long time was uncontrollable. Her husband, a physician, succeeded in administering a hypodermic injection of morphine, and the lady became calmed. A message was sent, conveying the sad news to Mr. Albert Angell, who was working at Pascoe's nearby kiln, four miles distant.

The loss by the fire will amount to nearly \$4,500. Mr. Cahoon lost his shop and tools, which were worth about \$400, while the damage to Mrs. Angell's building and the household furniture probably exceeds \$4,000. Three families are rendered homeless, at least for a time, and most of their clothing, with considerable of their furniture, destroyed.

An incident which shows how short a time the families occupying the building had in which to escape occurred when Mrs. Anderson, who was dressing two of her children, aged about three and five years, preparatory to giving them a bath, and had taken part of their clothing off when the alarm was given. The little ones were first removed from the house, and then, upon being told to secure their clothing, and were taken into a neighbor's summer kitchen, where they remained until after the fire was extinguished, huddled up on the floor in a half-dazed condition, and gathering around them some old clothes for a covering.

This fire affords a striking illustration of the great necessity of an improved pressure in the water mains. The firemen found it impossible to get a stream of water from the hydrants so to the burning building with any force, as the pressure at the nozzle was only 13 or 14 pounds. Though the firemen worked faithfully, they were delayed until the steamer was brought into action before obtaining sufficient water wherewith to operate successfully.

Another hindrance was quite noticeable. Hundreds of persons, men and women, boys and girls, rushed into the alleyway which was the only means of ingress from the street to the burning building, and there they remained, ran to and fro, interfering with the firemen and hindering them in their work. A few of those who did not belong to the brigade rendered effective and necessary service. But by far the greater number, and especially children from about four years of age up, hampered the efforts of the firemen, besides being in constant danger themselves. In a case like this the removal of the crowd to a respectable distance would be a great improvement.

To-day the physicians report Mrs. Angell and her child as progressing favorably, with prospects of a speedy recovery. They were removed last night from Mr. Hogle's to Father Cahoon's, where they are receiving every attention. Neither of them are burned inwardly, and while the outward injuries are both severe and painful, no fears are entertained of fatal results.

Brother Cahoon, Mrs. Angell and all the sufferers by the fire appreciate the kindness of friends in their distress, and desire to return their thanks to

# Chief Ottinger, the firemen and others who worked at that building, and to their neighbors and friends who rendered such timely and valuable assistance.

Freeman's Fish.—John H. Freeman—the fish man—is receiving fresh fish every day, direct from the fisheries. He carries to your doors, salmon, trout and white fish, and disposes of it at the lowest practicable prices. Do not forget him when you want supplies of fish. Read his advertisement.

## Removal of the Sandwich Islands for \$10,000,000.

SAN FRANCISCO, 10.—A statement was published this morning which reveals the rumored proposed sale of the Hawaiian Islands to a syndicate of European capitalists for \$10,000,000. A bill was recently introduced by the Hawaiian legislature to sell the islands for \$2,000,000. It is stated that a number of native legislators are ready with an amendment making the sum \$10,000,000. Mr. Hoffman, agent for immigration of Portuguese to the islands has assured the king that a syndicate of European capitalists are ready to furnish the money. If this were consummated it would virtually mean the sale of the islands as the amount could be used for the benefit of the government. It is stated that the king is not averse to the proposition as long as he secures the greater part of the money.

The International Typographical Union.—The Gift of Childs and Drexel.

ST. LOUIS, 10.—At the session of the International Typographical Union, a committee was appointed to devise a plan whereby Childs and Drexel could be paid to the best possible use. They recommend that the \$100,000 remain intact for the space of 5 years. On Child's next birthday it is proposed that every Union printer working in the United States east of the Mississippi River shall set up one thousand ems, the number of ems in each line being the number of the printer's age. When the birthday of Drexel comes every Union printer shall set up one thousand ems, the number of ems in each line being the number of the printer's age. Thus for five years it is proposed to commemorate the birthday of these two generous givers. At the end of that period it is expected that quite a handsome sum will have been accumulated. It is proposed that a short of \$50,000 will be raised. With this it is in contemplation to erect in Philadelphia a botanical hall which shall be known as the "Home of the Craft."

The Crop Report.

WASHINGTON, 10.—The crop report of the Department of Agriculture makes the area of spring wheat nearly the same as last year, but with a 12,000,000-acre increase in the wheat area in Minnesota and Wisconsin. Minor spring wheat districts show a small increase in the wheat area in Minnesota and Wisconsin. The wheat area in Minnesota and Wisconsin is 1,200,000 acres, and the wheat area in Minnesota and Wisconsin is 1,200,000 acres. The wheat area in Minnesota and Wisconsin is 1,200,000 acres, and the wheat area in Minnesota and Wisconsin is 1,200,000 acres.
