TRUTH AND LIBERTY.

FRIDAY, APRIL 7, 1905. SALT LAKE CITY, UTAH.

With all that has been said and done against the Church, there are very few indeed who turn away from the Gospel -very few who have lost their faith in the work of the Lord. In the days CONFERENCE IS WELL ATTENDED Interest in Annual Gathering of

-very few who have lost their faith in the work of the Lord. In the days when men were not seasoned in the sunlight of divine knowledge, it was not infrequently the case that even those in leading positions fell away. But it is not so today. The leaders of the Church, from the presiding author-ities in the wards to the President of the Church, are firmly planted in the truth. They do not turn away from the light. They are faithful to their trust. Their testi-monics are strong in the Gospel of the Son of God. The Saints were endeavoring to be men and women of God, pure, true and just. They were trying to sustain principles of jusice and truth. No one would be more loyal to the government of the state and the nation, rendering to man the things of man and to God the things of God. Nor would the Lord exact anything of His people which would be in violation of the laws of the land. We love this land, and this nation. The Gospel was revealed here, and this nation was doing part of the Lord's work in gathering the people from other nations to the light of truth and freedom. And the speaker hoped that the United States government would be perpetuated to continue the work which had been appointed it. Miss Edwardina Parry then sang the seautiful song. 'Oh dry those tears.'' ELDER J. G. DUFFIN.

ELDER J. G. DUFFIN. President of the Central States mis-sion, reported his labors. This mission included five states and two territories. The work was prospering there. If the payment of tithing was a standard by which the faith of the people were to be judged then the prospects in the Central States mission were encourag-

In that part of the country there was something done in the way of coloniz-ing. There were, for instance, colonies in Texas and in eastern Kansas. The former numbered between three and four hundred. In the latter seven or eight buildings had been erected with-out any other help than was given in out any other help than was given in this mission. peal for continued mainfestations of al-vine goodness. The first speaker, Pres-ident Francis M. Lyman, fittingly re-ferred to the remarkable growth of the Church, and to its wonderful achieve-ments in the short space of seventy-five years. This in itself, said he, was evidence of heavenly favor and was a striking testimony of the divice mission of Joseph Smith. The speaker went on to speak of the necessity of sustaining the Priesthood, Those who strike at the Church or the leaders thereof, level a blow at him as an individual; because it was through the Church and the authorities of it that he had received all the blessings he enjoyed. And the moment any such he enjoyed. And the moment any such blow was struck at the servants of God, that moment was he as an individual member of the Church, placed on the detensive. He declared his firm con-viction that those who thus raised their voices and lifted their hands against the Church and its leaders would come to naget to naught.

Spectacular Injunction Suit to be Filed.

Auc -

Don C. W. Musser, Charles A. Smurthwaite and Frank J. Cannon Will Attempt To Enjoin President Joseph F. Smith as Trustee-in-Trust From Handling of Church Funds.

A spectacular and sensational suit is in course of final preparation in the office of Zane & Stringfellow, attorneys-at-law, this afternoon. The prospects are that it will be filed this evening. Just who the men.are who will sign their names to the document as plaintiffs is not known at this time. The probabilities are, however, that Don C. W. Musser, who voted against the Church authorities in the Conference vesterday afternoon, will head the list. It is known that he has been actively associated with Messrs, Charles A. Smurthwalte and Frank J. Cannon, recently ex-communicated. This morning these genilemen were all closeted with the

attorneys in question and aired their grievances, saying that the time for an accounting had come and that it was their duty to the public to see where the tithes and offerings of the Church went to. In order that definite information, might be had upon the subject, a representative of the Deseret News

presented himself at the office of

Zane & Stringfellow this afternoon, but he was not enlightened to any great extent in the way of detail. He did, however, ascertain that some such action as that indicated was contemplated. The judge said the papers were being type-written and that they could be had a little later. At, this juncture Messrs. Smurthwaite and Musser entered and were mightly surprised to learn that the "News" had heard of what they intended to do. In a moment they commenced a series of questions calculated to draw out the source of the paper's information but the matter passed off pleasantly when it was made manifest that the "News" man came to interview and not be interviewed, Accordingly their curiosity was unsatisfied. But it was made clear that a suft

in the nature of an injunction was to be filed against Joseph F. Smith as financial head of the "Mormon' Church. Mr. Smurthwaite objected to saying what the grounds would be end declared that nothing should be said about it at this time. He said he didn't know now whether he would get a complaint himself today. When it was filed In court everybody would know. It was evident that there was considerable indignation about the "News" getting the matter in advances as it was the intention to spring it as a great sensation in the Tribune tomorrow. It is said that the purpose is to prevent President Smith from receiving, disbursing, or handling in any way as Trusteein-trust, the funds of the Church and to compel an itemized accounting of that which he has thus far handled. Also that in a subsequent action a receiver may be asked for.

*检

There is marked mystery as to who the plaintiffs are and the "News" could not by the most diligent inquiry it could make, ascertain their identity. Of course, Messrs, Smurtwalte and Cannon cannot thus act, being non-members of the Church. Mr. Musser is the son of Milton A. Musser and a member of the Utah batteries that went to Manila where he founded a newspaper called "Freedom." Since his return to Utah he has been variously engaged, being identified for a considerable time with a local promotion firm and recently with a school of correspondence

FRANCIS B. LOOMISON POSITION OF THE U.S.

Philadelphia, April 7 .- Introductory iddress of Francis B. Loomis at the opening session of the annual meeting of the American Academy of Political ind Social Science, April 7.

"There are certain conditions which nust be fulfilled if we are to occupy position worth having at all. This a position worth having at all. This country has always stood before the world for certain things. In the course of its evolution from a number of scat-tered settlements on the eastern sez-board to its present position of being a considerable factor in world-politysour people have deeply cherished the uplift-ing and inspiring belief that we were in advance of other nations in setting them an example in free government and hoble living. St. Potersburg, April 7 .- The efforts of the police to smother the political agitation have led them to invade the emeteries in their search for evidence of treason. It has become the practise of students to place on the graves of omrades who were active or who suffered in the cause of freedom wreaths bound with ribbons on which political sentiments are inscribed. The police now make nocturnal visits to the cemeteries in search of these treasonable mottoes which are promptly confiscated. But being ignorant the policemen make curious mistakes. The other day harmless inscription in Greek simply expressive of sympathy, was selzed and on Wetnesday a red ribbon attached to a wreath which although on the grave of a well-known official being interproted by the police as a revolutionary conblem was not only cut off but created so much alarm that a general darm was sent to all vendors of mortwreaths prohibiting the sale of

The successful preaching of the Gospel and the steriling integrity of those engaged in it, was an additional testimony of its truth and bore record that God was at the helm of this work. Preeldent Lyman spoke of the unanimity with which the Church leaders were sus-tained and eited this as evidence of the confidence of the Saints in the dith and integrity of their presiding officers. The Church, suid he, was stronger to-day than it had ever been, and was so firmly established in the earth that here was no fear of its being easily disturbed. A profound impression was made when the speaker referred to the logatty of the "Mormon" people and to their readiness to uphold and sustain the tate and nation. A pleasing feature of the morning ses sion of the conference was a solo by Miss Edwardina Parry, who rendered receily, "O Dry Those Tears." Then ollowed reports of the Central and outhern States missions where the followed outlook was all that could reasonably be desired.

THIS MORNING'S MEETING.

The choir and congregation sang the hymn which begins:

"Come, come ye Saints, no toll nor labor fear, But with joy wend your way:

Though hard to you this journey may appear,

Stace shall be as your day."

The opening prayer was offered by John D. T. McAllister. Singing by the choir:

"Earth, with her ten thousand flowers, , with all its beams and showers, Heaven's infinite expanse, a's resplendent countenance, around and all above Bear this record-God is love."

ELDER FRANCIS M. LYMAN,

of the quorum of Apostles, was the first speaker. His heart, he declared, Was full of joy yesterday when he heard the excellent reports given of the progress of the Church, not only at home but abroad. The growth of the Lord's work since the organization of the Church, 75 years ago, was mar-velous. All the stakes of Zion and the the Church, missions of the United States were rep-

The Gospel, he said, makes us free. But this freedom, generally speaking, is manifested largely through the lib-erty which nations enjoy. The truth makes us love, not hate our neighbors. It makes us willingly specifice what makes us makes us willingly sacrifice what es not contribute to the advancement f our spiritual interests. It is this hat has made the Latter-day Saints a the third stable people. It is this this this this enabled us to establish oursolidly in the land, with good schoolhouses and meeting-We have not been a wealthy but we have been sustaining is a substantial character. From ons of the earth, the Saints have to this part of the country and a perfect unit. The wonderful of the Church was exhibited yeshav in the voting for the authorities the Church. It is a rare thing for a altrary vote to be cast in the congre-tions of the Saints.

Lyman spoke of the of the Church, not only lers of the Church, not only seneral authorities, but also those the various stakes and wards of n. They were men of God-good mand they had been chosen to the callings by faith and prayer. And the people at large were con-vinced of their integrity to the truth. If the world could only know the character of these men and of the atter day Saints in general, their attitude towards us would be very dif-ferent from what it is. Elder Lyman vas disposed to take the more charit-able view of the opposition which the ward has manifested towards the "Mormon" people. No doubt, he said, there were people the wards where there were some in the world who were inspired by the spirit of evil in this opposition. But he was convinced that the groat malority as the great majority of them really thought that they were doing God's service in trying to put out the light of "Mormonism." They believed what the real enemies of the work were vriting against us. No doubt this was true of the days when Losent the e of the days when Joseph the phet lived. But notwithstanding all this, it was still possible for all who are stirred up against us, to know whether or not there is any truth in this lat-ter-day work. aries in general. It was the duty of the people at home to share the burdens of those who have sons or hus-bands on missions. He advised those young men who were going on mis-sions not to purchase clothing or other necessaries until they reached the headquarters of the mission.

Elder Rich referred approvingly to the testimonies born yesterday by El-ders Hugh J. Cannon, Nephi Pratt and Rulon S. Wells, respecting the teach-ings which they had received from their fathers. But he rejoiced more in the fact that these men had testimonies for themselves concerning the Gospel. He declared that he had such a testi-mony, himself. He knew, he said, that President Smith was at the head be-cause God had placed him there. by President Woodruff at Ogden. The speaker spoke of the necessity of trials and tests of faith. He often thought that the Saints were like a flock of sheep-the cry of a wolf would soon drive them together. It is true that some people oppose us sincerely, but there were others who did so from other motives them a low of truth. He other motives than a love of truth. He referred to the conversation which he had had with a young theological student on the streets of one of the large cities of the south, in which the young man told him that his teacher, a profes-sor of theology, declared that he had been to Utah and that the "Mormon" men always referred to their wives as cows. The young man added that he knew his teacher told the truth because he was a good man. In the face of such villification as this, what could the Saints do save deny it in toto. The choir sang the anthem, "Let the the

Leaving Fort Sam Houston the party moved to the city, where 10,000 school children awaited the president at Travis park. When he en-tered the enclosure every child held aloft a tiny United States flag, and waved it vigorously. The children sang "America." and the president bared

Maj. McLaughlin, but they decided against it.

That Germany, despite banishments, is not one whit behind other European missions, is the encouraging word brought back by Elder Hugh J. Cannon, who returned several days ago from presiding over the work in that country. It will be remembered that a littie over three years ago the edict went forth that "Mormonism" was to be no longer tolerated in that section, and that in Prussia especially, steps were taken to banish the Elders from that neighborhood. In some cases the mis-sionaries were thrown into jail for

no cause whatever, and they were so hounded by the officers that it was finally decided to quit the empire and leave the work to local Elders. This was done and with what assistance the Utah missionaries could give, some times at long distances, the work continued as though nothing had occurred

o mar its progress, When the order of banishment was first issued, President Cannon had a conferance with Andrew D. White, the American ambassador, who kindly proffered to do all he could to have the order annulled. Mr. White laid the matter before the government and after awhile the answer came back that Germany did not deem the pro-mulgation of doctrines not excluding polygamy, compatible with good orde and morality. It will be noted that no charge of preaching polygamy was made against them, but simply that the government could not tolerate the preaching of principles not excluding

But despite their efforts no fault could be found with them so that all that be found with them, so that all that could be done was to have them banished on general principles. There were some few places where the order was not effective, but in these the Elders were cautioned against praying or sing-ing hymns, and instead had to read the

hymns and pray in secret. In spite of the difficulties referred to, the work has continued in good condi-tion and last year 340 baptisms were performed in that country. A year ago the German mission was annexed to the Swiss mission and the work in both the Swiss mission and the work in both countries is now under one head, the president being Elder Serge F. Ballif of Logan, Utah. There are now about 130 Elders in that mission and all are much encouraged with the success at-tending their humble efforts.
