LABOR UNIONS IN POLITICS

Intention to Put an Independent Ticket in Field at Next Election.

NO CANNERY SHOW AT BOISE.

Electricians Strike Unsettled—County Recorder's Office Vacant—Funerals Sunday—News Notes.

Ogden, Aug. 18.—The labor unions of Ogden have called a mass meeting for next Monday evening at their hall on Twenty-fourth street, for the purpose of taking the preliminary steps to launching a labor political party. It was believed by many that the members of the labor unions would endorse certain candidates on either the Republican or Democratic ticket, but it is understood they will now name a full ticket of their own and support the same.

STRIKE UNSETTLED.

Electricians and Telephone Company Not Yet Agreed.

Ogden, Aug. 18.—The strike which was declared by the ten electricians employed by the Independent Telephone company, is still unchanged, although an effort has been made by both sides to settle the matter without delay, yet they have been unable to get together on a proposition. Last evening the electricians held a meeting which was attended by State President Lou Lynn of Salt Lake, who discussed the situation with the members. The strikers' committee has been unable to get an interview with the owners or managers of the company, but hope to within a few days, when the difficulties will be settled, if possible.

WILL NOT SEND EXHIBIT.

Canners Have No Stock and Will Not Show at Boise.

Ogden, Aug. 18.—The canners of Weber county, who were to meet last evening with Fred J. Kiesel, to consider the sending of an exhibit of canned goods to the irrigation congress, did not materialize, the reason being that it is practically decided not to send such an exhibit to Boise City. Those interested in the proposition made a thorough canvass of the situation and found that the goods canned last year have practically all been sold and shipped to other markets, and that the greater part of this year's fruit crop is not yet ripened, so it would be very difficult to get a creditable exhibit together, hence it has been decided not to arrange an exhibit of canned goods.

BUYING LAND FOR DRY FARMS.

Two Funeral Services—Ice Company Closes Down For Season.

LAND FOR DRY FARMING.

A number of Provo people are securing land on the old Fort Crittenden reservation in Cedar valley for the purpose of engaging in dry farming. J. W. Dunn, Evan White, W. N. Jensen, Peter Jensen, James Gray, C. F. Decker and O. P. Smith have each bought 160 acres from the state board of land commissioners, and with others will organize a company to operate a dry farm.

ICE COMPANY CLOSES DOWN.

The Provo Ice & Cold Storage company, composed of Salt Lake and Provo men, which has an ice plant north of this city, equipped with the best modern machinery, with a capacity of 12 tons every 24 hours, and located on an ideal site, where pure spring water is converted into ice, has been compelled to close down for the season. The reason is that, now, during the low-water season, when the farmers use all the water they can obtain for irrigation, the company cannot operate its plant, which is run by water power, continuously, as this must be done in order to make artificial ice successfully. The company will probably not try to operate any more this season; but next season it will install steam power and be prepared to run to its full capacity the entire season.

SUE FOR RESTRAINING ORDER.

Liberty Irrigation Company vs. William and R. W. Bailey.

Ogden, Aug. 18.—The Liberty Irrigation company, through its attorneys, Richards and Pratt, has filed an action in the district court against William Bailey and R. W. Bailey to secure a restraining order against the defendants to prevent them from in any way molesting the plaintiff's canal or laterals. The complaint alleges that the defendants are stockholders in the company and have 120 acres of land to water, but that they divert the waters of the canal upon their land at other times than when notified of their proper term by the watermaster, and that by so doing the crops of others have suffered for want of water. The court granted a temporary restraining order, which plaintiff asks be made permanent on hearing of the case.

It proved to be located in the barn and stables of Peter Olsen, who was at work in the field at the time. The fire spread rapidly and burned furiously, the property named being totally destroyed, together with a good horse, about 25 tons of hay and other things, entailing a loss of about \$300. It was only by the most heroic efforts of an energetic company of willing workers that the home and much other nearby property were saved from destruction.

The fire was started by two little tots of four and six years respectively, who, it is stated, had gone to the top of the hay in the barn and there started the fire. The smaller of the two ran into the house crying that "Some one had set the barn on fire."

It is remarkable that the children made their escape from the burning barn.
