The syldence brought out then and pagan society, and the reagainst Robeson is of the most verse of the objects intended by the damning cheracter. He threw divine founder of the true Christian away millions of the public money, religion is achieved by apostate and made foolish contracts for Christendom, which, like Pharisee sponding millions more, which were ism of old, compasses see and land annulled by his successor. All this to make a proselyte, with similar if is known, and yet honest men obey greater results.

# CHANGES IN PUBLIC OPINION

THE changes that are wrought in public sentiment in the course of a few years are nowhere more strik-ingly apparent than in the progress of women medical students in their struggles for recognition and professional rights. Where a short time ago shouts of derision and howls of scorn and anger ascalled those lady doctors who attempted to enter prac-tical schools of medicine and surgery, now are heard words of encous gement and praise from the other

sex, and doors that were formerly

miles, must eventually be recognized that paper of July 23d, he had and will surely achieve a triumph all the more glorious from the oppo-falsehood, and had used other mice, must eventually be recognized

MODERN EVANGELISM. "Things in India are decidedly mixed. There are 34 different Pro-testant missionary sociaties—25 Ku-ropean, 11 American. Christianity ought to thrive in that country!" The above, from an eastern ex-change, snows now division is accom-plished by a system whose original pofessed object was tobring mankind to a "unity of the faith." Its actual

to a "unity of the faith." Its actual as "McVeagh gets muddled," and saying "Tom James on the stand," and so on. These three geatlemen pate the scientific distum that the moon is a dead world without vege-tation, water or even an atmos-phere. Another alleged discovery is in the same direction. Professor is in the same direction. Professor practices in trade which are vulgar-

nesses from giving testimony, and placed the government at great disnatronomer, a few weeks ago declar-ed that he had seen a real cloud floating over the *MarcCrisium*—a dark and in the more and alors

its wake. Yet in justice it must be said that none of its multifatious branches teach or inculcate such practices. In proper time, theory they are opposed to them. Fatal Collision. But they have no vigorous policy for

on, and scientists ought to practice that modesty of assertion which they recommend to theologians. The Boston Herald talks in this severe way of the Reput lican leader in the House and his followers: The suppression of those vices, and having a national character—the nations to which the missionaries belong recognizing them as civilis-ing agencies and the forerunners of the suppression of those vices, and having a national character—the nations to which the missionaries belong recognizing them as civilis-ing agencies and the forerunners of the suppression of those vices, and having a national character—the nations to which the missionaries belong recognizing them as civilis-ing agencies and the forerunners of the suppression of those vices, and having a national character—the nations to which the missionaries belong recognizing them as civilis-ing agencies and the forerunners of the suppression of those vices, and having a national character—the nations to which the missionaries belong recognizing them as civilis-ting agencies and the forerunners of the suppression of those vices, and having a national character—the nations to which the missionaries belong recognizing them as civilis-ting agencies and the forerunners of the suppression belong to the persons injured.
