JOSEPH HENSHAW DIES.

Former Secretary of Majostic Company Passed Away Sunday Morning.

To the hundreds of citizens of Sait Lake City who knew Joseph Henshaw, the announcement of his death at an early hour yesterday moraing will come as if it were a personal loss. Although Mr. Henshaw had been alling for a number of months past and his closest friends realized that be could not re-cover from a computication of diseases cover from a cover from a complication of diseases, he hore his suffering cheerfully to the end. He was never loard to complete, his life was one of sunshine throughout and looked towards the bright side of

ning the ease one of whise introduced in things, always forgetting the dark. Be-cause of this disposition of his, his gen-ial ways and whole eartedness, he won a host of admiring friends. The decased come to Salt Lake a little over all years ago from Denver to accept the position of chief clierk of the Knutsford hots! Afterwards he was installed at manager and left that position to become secretary of the Ma-jestic Copper Mining & Smelting com-pany, when State Senator A. B. Lewis was at the head of that corporation, ami continued in charge of the local offices of Senator Lewis until alckness compelied him to give up. He was well known to the traveling public, having been connected with hotels in the largheen connected with hotels in the larg-er offles of the country during the greater portion of his life. UINTAH MINERAL LANDS.

W. S. Smith of Myton Writes About Thom in a Recent Letter.

The News of Deuver prints a letter written to Major S. K. Hooper of the Denver & Rio Grande by W. S. Smith, now a resident of Myton, in which he gives some information concerning the

Rives some information concerning the mineral possibilities of that portion of the state, and says: The mineral resources of the Untah reservation are as yet unknown and op locations of mineral can be made until 66 days from the opening, or until Oct. 28, but on the ferest reserve, recently set aside, pros-pectors have been abroad for three weeks, and are inding some fine spec-iments of ore, especially copper. In one assay of 165 to the ton, silver and lead predominated. Gold values

counted on for adding immensely to the state's output,

NAILDRIVER ANNUAL

Old Board of Directors Will Serve Dur ing Coming Year.

The stockholders of the Naildriver Mining company of Park City met dur-ing the day and re-elected the present board of directors, which will organize with C. L. Rood, president: S. H. Lewis, vice president: W. R. Wight-man, secretary and treasurer, with Charles Reid and L. U. Colbath completing the board of directors. An informal talk was indulged in over plans for the future development

of the mine, but the feeling among those present was that the board of directors are able to judge what is to the best interest of the company better than anyong else. The usual reports were submitted by President Rood, bearing on the onvsical and financial condition on the physical and financial condition

the same time is carrying on a vigor-ous campaign of exploration. Supt. Stort advised Manager flam-berger last night that the showing in the face of what is known as the Win-nebogo cross-cut is decidedly encour-aging. This cross-cut has been run for 100 feet from the main working tunnel and is penetrating a porphyry dyke, earrying 1 per cent copper values, thus demonstrating that the members of the United States geological survey, who have made a study of Bingham geology, were correct in the opinion that these dykes belong and are at-tached to the main porphyry zone of the camp.

Knob Copper company have recently Knob Copper company have recently been inquiring about the disposition to be made of the \$150,000 representing their contributions in the reorganiza-tion. This fund, so it is understood, will figure in the consolidation and be-come a part of the assets which the White Knob company will turn over to become connected with the combination.

New Ore Treatment Method.

George H. Waterbury of Denver is the inventor of a new process for the extraction of values from copper ores, Much is claimed for the method by Mr. Waterbury, who says he can reduce raw copper ore into the metallic state in-from 15 to 20 minutes. According to the Denver Post, Samuel Newhouse has become interested in the process.

A mining deal that means a great deal to the future of the Parker Moun-tain district was transacted in Challs the fore part of last week, when the United States Mining & Smelting com-puty, through its agent, C. G. Goss, bended the remaining one-half interest of the Parker claim from the Williams boys and Colorado parties. The price is not given out, but is said to be about \$25,000. The other half of this claim was bonded by this company some time ago from W. W. Adamson for \$10,000, The fact that it has secured a foot-hold in the new camp is of much im-portance to this mining section...-Chal-ils Messenger. Messenger.
