HEARING OF BIG LIBEL SUIT

Jury Selected to Decide Case of Alice Lewis vs William Glasmann, et al.

MRS. WARDLEIGH'S DIVORCE.

despite "Flippant Regard of Marital Vows."—February Jury List—Railway Pay Car.

Ogden, Jan. 23.—The \$1,000 libel suit brought by Alice Lewis Richards against the Standard Publishing company, William Glasmann, et al, is now on trial in the district court before Judge Chidester, who is sitting in place of Judge Howell who is disqualified. This is an action growing out of the alleged publication in Mr. Glasmann's paper of certain articles which plaintiff claims were libelous and very damaging to her good name. The jury satisfactory to both sides was secured just before adjourning time and consists of Adam E. Wardleigh, Parley Woods, John B. Crawley, Oscar Rice, Edward P. Chatelain, Bartholomew Chatelain, Sylvester Grow and Albert Allen.

Attorney A. G. Horn for the defense, announced to the court that one of the witnesses subpoenaed, Detective Pender, is confined to his home with sickness.

In two of the other libel suits pending brought by George Halverson against the same defendants, amended demurrers were filed to actions No. 2 and 4 on the ground that the complaints are ambiguous and unintelligible. In the case now on trial Richards Pratt and Sken represent the plaintiff and Attorneys A. G. Horn and R. S. Farnsworth the defense.

OBSTINATE ULCERS MAY LEAD TO CANCER

There is no difference, at first, in the appearance of a cancerous and a common ulcer, and for this reason every sore that is obstinate or slow in healing should excite suspicion, for the sore is nothing more than the external evidence of a polluted blood, and if allowed to remain may degenerate into cancer. Efforts to heal the ulcer by means of salves, plasters and other external remedies always result in failure, because such treatment can have no possible effect on the blood, where the deadly germs and morbid matter form, and are carried through the circulation to the place. No sore or ulcer can exist without a predisposing internal cause, and the open, discharging ulcer or festering old sore will continue to eat deeper into the surrounding flesh as long as a polluted, germ-infected circulation discharges its impurities into it. S. S. S. goes to the fountain-head of the trouble, and drives out the germ-producing poisons and morbid impurities which keep the ulcer open. Then as this rich, purified blood goes to the diseased place the healing begins, all discharge ceases, the inflammation gradually leaves, new tissue and healthy flesh are formed, and soon the sore is permanently cured. S. S. S. is made entirely of roots and herbs of a healing, cleansing nature, and unlike mineral medicines, does not damage the delicate parts of the system. S. S. S. tones up every part of the body. Book on Sores and Ulcers and any medical advice desired free.

Jan. 7, 1908.

I was not quite clear whether the plaintiff wife should be permitted to sue a defendant husband for divorce upon the ground of non support when she entered upon the marital relationship fully cognizant of the fact that her husband would not be able to support her, knowing that he was in attendance upon a medical school preparing himself for his future profession. After deliberation I have arrived at the conclusion that under our statute relating to divorce, the plaintiff is entitled to a decree of divorce, and an absolute duty upon the husband to support his wife, upon which the court has no right to place any limitations, however reprehensible the conduct of the plaintiff, in insisting upon her legal rights, may seem to the court, and in spite of the flippant disregard which she seems to manifest to her marital vows.

DISPUTED RIGHT OF WAY.

A complaint has been filed in the district court by Christina B. Hunter et al, against the Salt Lake & Ogden Railway company to recover \$1,000. The complaint charges that the defendant by force took possession of a piece of land belonging to plaintiff and tore the same up by building a roadbed on it, all to the plaintiff's damage in the sum of \$1,000.

The defendants immediately filed a reply to the complaint making a general denial of the allegations and setting forth that the railroad company purchased the land in dispute from plaintiff and therefore asks for a dismissal.

Special Correspondence.
Circleville, Plute Co., Jan. 20.—Since the holidays the stock has been very generous here. He left at the homes of Ben Lewis and Jas. Gass, boy babies, and at Dan Simkins a girl, but at Dan Day's home a pair of girls.

The players showed great ability in dramatic work, although they are mostly amateurs. Mrs. Fulmer making a hit in the leading part. The people seem to be better pleased with the home talent than with most of the traveling troupes who play here every season.

RAILROAD RETRENCHMENT.
About 110 Shoppers Laid Off Temporarily.

Ogden, Jan. 23.—Last night at quitting time, without notice or warning, about 110 men in the Harriman railroad shops in Ogden were notified by Master Mechanic Malone that their services would no longer be needed. Rumors of the impending lay-off had been emphatically denied, and the move was a sorry surprise to the men and will work a great hardship upon them, as they have been for the most part living up to their salaries. Shopkeepers who have been carrying the railroad men from month to month will also be affected.

Mr. Malone says, however, that the lay-off is only temporary, and that the men will be back at work again in a month. This assurance is received with many doubts, as the railroad company has fallen off in its reported 75 per cent. On the Winnemucca division over half of the trainmen have been given leave of absence, as not a fourth of the trains are now running which covered the lines a few months ago.

There are abundant indications of an epidemic of measles, scarlet fever and diphtheria throughout Cache county, and Dr. D. C. Budge, county physician, has issued a note warning the parents of the county to watch their children and should it be found that the child has symptoms of any contagious disease that the matter be reported at once to the board of health. The board of the parent who fails to comply with the law in reference to contagious diseases will be vigorously prosecuted.

THE COLTON ESTATE.
Being Over a Million the Will is to be Attacked.

Washington, Jan. 22.—The case involving the question of the legal domicile of Mrs. Ellen M. Colton, who died here in February, leaving an estate of more than a million dollars, was brought to trial before Judge Barnard in the district supreme court. In Mrs. Colton's will Hattie Margarette Sacher, a great granddaughter of Mrs. Colton, was virtually disinherited, while the bulk of the Colton fortune was left to John B. Dahlgren, who

endeavored to have the will probated in California. Miss Sacher is attacked by the will of Mrs. Colton's will, claiming one-half of the estate.

The first step in the case is to establish the domicile of Mrs. Colton. The statement of Miss Sacher's attorney was that Mrs. Colton repeatedly expressed her purpose in the early nineties to "shake the dust of California from her feet," and that she left California in 1898 feeling bitter over litigation with relatives as to the distribution of some of the estate left by her husband, Gen. D. D. Colton. It is alleged that Mrs. Colton resided in Washington, D. C., continuously from 1898 until the time of her death, and during that period spent only five weeks in Santa Cruz, Cal.

It is expected the trial will take up about two weeks and that more than a hundred witnesses will be examined, some of them coming from France.

WESTERN MARKET LETTER.
Special Correspondence.

Kansas City Stock Yards, Jan. 21.—Cattle receipts last week were larger than expected, at 54,000 head, including 4,000 calves, but the week closed with no perceptible change in prices of range beef cattle although stockers and feeders declined 10 to 20 cents. There were many buyers from the country here all week, and everything was cleaned up. Colorado stockers sold at the highest prices of the season, a shipment from Gunnison selling at 4.30 to 4.50. Cows in this shipment sold at 3.50 to 4.00, and other Colorado beef steers brought 4.25 to 4.50. New Mexico beef steers sold at 4.40 and stockers at 4.00, panhandle cows at 2.50 to 3.25, fed bulls 3.25 to 3.50, veal calves up to 6.00, heavy calves 2.50 to 4.50. The supply today is 12,000 head of cattle, market barely steady, although the demand is good both from killers, who anticipate smaller runs soon, and from country buyers, who are operating more freely as the spring

season approaches. Almost all traces of the late panic have disappeared, and trading is now on a normal basis. Colorado stockers sold today at 3.90 to 4.40.

Receipts of sheep and lambs have been running larger than expected, as the good market is attracting everything that is suitable to move. Supply today is 10,000 head, market steady to 10 cents lower, or 15 to 20 cents below the best time last week. Top lambs today sold at 6.50. Monte Vista lambs at 6.50 to 6.75, with a few light weight and poorly finished lambs at 5.10 to 5.40, yearlings at 5.50 to 6.00, wethers 4.75 to 5.25, ewes to 4.25. There is a good outlet for the market, and future prices will depend on the volume of the receipts.
