STOCKS WERE STRONGER TODAY

Daly-West, Silver King and Star | Guggenheim Tells the Company's Con. Closed at Higher Figures.

ONTARIO WAS TRADED IN. THE PRICE TO BE KEPT UP.

Ben Butler Jumps Again-Ajax was Weaker-Tesora Active-May Day Firm.

Business was good on the Mining Exchange today and prices generally showed some improvement. This was especially true of Daly-West, Silver King, May Day and others. The first named loosened up nearly 500 shares at prices ranging from \$30.30 up to \$30.321/2, while \$73 per share was offered for Silver King, which was firmly held at \$80. May Day advanced to 40% owing to the probability that the mill will be completed shortly. Ben Butler jumped up to 3%, with fair prospects of going to 10. Silver Shield was also firmer today in spite of the fact that several thousand shares were offered on the market at prices ranging from 25 at the opening to 26 at the close. Showers Consolidated was active at lower figures running from 9% at the outset to 9% on the last sale. Star Consolidated was also much stronger on the asurance of Mr. Packard that a car of ore will be marketed daily for some time. The stock sold up to 85% today. Tesora opened at 46% and sold down to 45 while Mammoth let go 50 shares at \$2.05. Anchor brought \$2.43%, while Ajax sold from 89 down Ontario was active at \$7.20 Rocco-Homestake dropped 1,000 at \$1.10 flat and Sacramento sold from 38 to 4. Golden Eagle also moved up to while Little Chief was in demand Yankee Consolidated weakened Closing quotations were posted as fol-

SALT LAKE MARKETS.

A marked decline is seen today in the butter market. This is specially true of creamery butter, which is quoted by J. M. Christensen & Co., anywhere J. M. Christensen & Co., anywhere from 171/2 to 21 cents per pound, wholesale. There is also a surplus of ranch butter, and a consequent weakening of prices.
Eggs are not very plentiful but for

all that the price is not changed from last report, sales being made at \$6 per case and fust under that figure. The demand for poultry is small and prices show a tendency to fall.

The wholesale prices on dressed turkeys range between 12 and 13 cents per pound with chickens standing at from 9 to 11 cents.

GRAIN.

No change is reported in the buying prices on grain, which are as follows: Wheat, 4716 to 50 cents per bushel. Oats \$1.10 to \$1.12% per cwt.

Rye \$5 to 90 cents per cwt.
Feed barley 70 to 75 cents per cwt.
Brewing barley \$1.10 to \$1.25 per cwt.

FLOUR. Wholesale selling prices on flour is as follows:

HAY. Timothy hay stands between \$11 and \$12 per ton, while lucern ranges between \$5 and \$10 per ton.

BIG SMELTER CONSOLIDATION.

Intentions Regarding Silver.

The Combine to be Made More Advantageous to the Miner - Employes to be Cared For.

A dispatch from Denver, Colo., today states that the organization of the American Smelting Co., in which the American Smelting & Refining Co. has been merged with the Guggenhelm interests and which will control between 75 and 80 per cent of the silver output of the world, has been announced by Simon and Daniel Guggenheim, who arrived in the city yesterday.

The Mesers. Guggenheim have given out the following statement:

"Our business has not been absorbed. There has been a merging of the two interests and an exchange of securities. In the handling of metals, the miner will be enabled to get the full price that is paid and what benefits the miner is of advantage to the smelters. We have kept up the price of lead and we pro-pose to do the same with silver. Today silver is scientifically and secretly bought by four brokers in London who stand in with each other and the buyer. The seller sells his product from day to day and is at the mercy of the brokers. This can and will be changed, as soon

the thing can be rounded up.
We believe that instead of the smelt. er company being a menace to the country it will be an advantage. In the lirst place the receipts of the railroads will be increased by an increase of freight in and out. To the miner it will mean an enormous advantage. It will increase the product of his ores because under such a large operation as this will be, the smelters can assist the miner to mine his low grade material which he now often times allows to re-main in the mine. We believe the main in the mine. We believe the smelter is, in a sense, to the miner what the banker is. The banker supplies him when in need of funds and the smelter should supply him with low

treatment charges. We have been getting information from large institutions like the Krupp works in Germany concepning their methods of caring for their employes. We intend to apply the best of these methods to the men in our employ. It s our intention to improve the condition of the men and we hope to estab tish libraries and proper homes for them. We do not claim to be philanthropists but believe that an improved condition of the men in our employ cannot but work an advantage to us. There is no doubt that the thrifty larers will in time become investor the securities of the company and that

MAMMOTH REPORT.

President McIntyre Says a Detailed Statement will be Made on Feb. 5.

At the annual meting of the Mam-moth Mining company last year very few details of the manager's report was published, but the news that a detailed report will be presented at the meeting on February 5th, will be of inlic generally. President Samuel Mc-Intyre announced today that a complete report of the year's work will be made, which will probably appear in the "News" of the above date. The re-port will be of special interest as showport will be of special interest as show-ing the costs of the law suit to date as well as the big operating expenses of the old Tintic bonanza. Mr. McIntyre is now purchasing rails for the new drifts being run. He exhibited some splendid samples of ruby copper from the mine today which are said to run between 70 and 80 per cent.

SWANSEA DIVIDEND. The Total Dividends for Month Amounts to \$131,000.

The directors of the Swansea Mining company met today and declared the regular monthly dividend of \$5,000 or 5 cents per share, payable on February 9th. The books will close on the 5th of the month. The payment of this sum brings the total paid by this company

Dividends to the amount of \$131,000 have been paid by five companies during the present month.

SUES THE ALBION.

Fritz Reipen Desires His Title Quieted to the Central Claim.

Fritz Relpen has commenced a suit in the district court against the Albion Mining company, to quiet his title to all of the Central lode mining claim, situated in Little Cottonwood mining district. Plaintiff alleges that the de-fendant in surveying the Albion No. 5, and the Utah Volunteer mining claims, have run the lines thereof over on plaintiff's mining claim and now claims the area in conflict, from which action plaintiff prays relief, by enjoining the defendant from so doing.

THE NOME LAWSUITS.

Disputes Over \$10,000,000 Worth of Placer Ground Are Settled.

San Francisco, Jan. 31.—The Chronicle says the competate settlement has been reached out of court between Alexan-der McKenzie and the defendants in the suits over the mines for which McKen-zle was appointed receiver by United States Judge Arthur H. Noyes of the district of Alaska, in which property valued at over \$10,000,000 is involved. By this settlement all the rights to the famous Anvil and Dexter Creek mines are vested in the Ploneer Mining company, and their titles to these properties have been so perfected that there is no possibility of further contest. This roperty included the famous Discovery

claim, which has produced more than a million dollars worth of dust. Litigation in what are known as the "Chipps Cases" is at an end. This inclades suits brought recently in the superior court of San Francisco for sums amounting to \$430,000 by Linde-berg, Lindblom and Brynteson against McKenzie for damages which they claimed to have sustained by his actions while receiver of the property. It stops the litigation in the cases of Comptols vs Anderson and not only takes these actions from the state courts but also from the United States

district court and the United States circuit court of appeals. circuit court of appeals.

By the compromise all the accounts of Receiver McKenzie were allowed and paid, all the debts incurred for the mines by the receiver were paid, all the receiver's charges were settled and a stipulation was entered into by which all itigation was to be dismissed.

The suits for almost half a million

The suits for almost half a million dollars in the superior courts of Call-fornia will be dismissed and the suits instituted in the court at Nome which have been carried to the circuit court of appeals in San Francisco, will now rise. A 2sw weak spots were noted,

be dropped. The settlement will also affect all litigation at Nome over min-ing properties there.

All the charges made before the at-

orney general and the president of the inited States will be dropped and with-rawn so there will be no grounds for talked of congressional investiga-

The courts of the circuit court of appeals in the contempt cases against McKenzle and Dubose will not be af-McKenzle and Dubose will not be affected by this settlement since it was not completed until after all the evidence in these matters had been presented. Having Been informed of the settlement Judge Ross of the United States circuit court of appeals has announced that he will decide the contempt cases on Monday next. It is estimated that over \$1,000,000 has been expended for the expenses in the legal contests which have now been ended.

VEIN OF ANTHRACITE.

Found in Rock Canyon by the Provo Anthracite Coal Company.

Special Correspondence.

Provo, Jan. 31.—The Provo Anthracite company which has done a great amount of work in Rock canyon with the expectation of uncovering a body of anthracite codal, is very much encouraged, striking a vein of very fine anthracite several inches thick at the end of their tunnel. The company has found large quantities of coal more or less mixed with foreign substances and has kept steadily at work, believing that by going farther into the mountain they would find coal free from rock and dirt and in paying quantities. In this they have been encouraged by geological experts, and with that end in view Special Correspondence. cal experts, and with that end in view have tunneled about fifteen hundred feet. Mr. John H. McEwan came down from the mine yesterday, bringing with him samples of the coal from the new cein, which to all appearances is equal to the Pennsylvania anthracite, and the

encourages the company to believe that with a little more work the desired nd—anthracite in paying quantities— will be reached, The first work on the prospective mine was done by Judge Kellogg, who later induced others to become interested with him and a company was formed. under the above name. Jesse Knight is a heavy stockholder in the company, which will be taken by many as an omen that success will reward the la-

MINING NOTES.

A car of ore was sampled today from the Tesora, of Tintic.

R. P. Hunter of Ogden was in the city today on mining business. The Carisa, of Tintic, reached the market today with five cars of ore.

Nine cars of ore were on the market today from the Centennial-Eureka.

Superintendent R. H. Channing of the Highland Boy is back from a two weeks' trip to the East.

Fifteen cars of ore from Tintic were reported by the Taylor-Brunton samp-ler.

The Grand Gulch mine has reached the market with another car of high grade copper ore.

Manager Weir, of the Ajax, who came in from the mine today, reports no change at the mine, though things are said to look far from discouraging. David L. Gregg has resigned his position with The Ingersoil-Sergeant Drill Co., to accept a new position with the Mine and Smelter Supply Co. of this

W. J. Lawrence reports the winze down 50 feet from the tunnel of the New Sensation group in Cottonwood. Good ore has been encountered all the

Manager Poland* reports everything working very smoothly at the Highland Boy Smelter. The company expects to send out a car of bullion every other day beginning with February.

Col. Heffron reports that the wheels of the Bingham Copper and Gold company's new smelter were turned yester-lay. Some of the bearings became heated and further adjustments are being made today.

Five cars of ore were expected to reach the sampler today from the Low-er Mammoth. The shipment of sacked ore was held to be completed with ore from the new strike in the winze from the 800 and will be heard from in a day

Treasurer George H. Dern came in from Mercur last evening. The mill has handled about 800 tons of ore per day during the month while the ave age values have run a little under \$6 per ton. A few days ago the average is said to have run up to \$6.94 per ton. Manager Farnsworth, of the Bullion-

Beck, reports ore showing in sevra places at south end of the property The ore is the usual grade found in the mine, some of it running 2,000 ounces in silver per ton, while some of it does not run more than 50.

Quil Nebeker, who came up a few days ago from the Coconnino company's copper property in Arizona, says that a leaching process will have to be introduced before the property can be made to pay. This is also the opinion of E. P. Jennings, the expert.

Manager Packard, of the Star Consolidated, expected to sell three cars of ore this afternoon. Two more cars are already at the sampler and Mr. Packard says it is the intention to ship two cars of ore every other day for a while. The ore comes from the 200 level where a fine showing is reported.

RAILROADS IN DEMAND.

Was Especially Good for Southern, Southwestern and Western Stocks.

Revival of Interest in Obscure Properties-Some Weak Spots Noted -Bonds Firm.

New York, Jan. 31.-The execution of buying orders for 2,000 shares of Mobile and Ohio made it sell at 65 to 67 compared with 61 last night. . St. Paul gained % and then lost it. A good demand prevailed for south-

ern, southwestern and some of the western stocks, particularly Missouri Pacific, Kansas and Texas, Louisville and Chicago Great Western, These properties advanced about a point. Some response was made by the steel group to a rise of 1 and 1½ in Federal Steel and Steel and Wire respectively. St. Paul's failure to hold its rise in-duced selling of the other grangers and Rock Island fell to 126. The Pacifics and industrials were well supported. Trading broadened out considerably and a notable feature was the revival of interest in usually obscure stocks. Large blocks of these stocks were tak-

en at advancing prices and some of the Morgan issues were buoyant. Chicago, Indianapolis and Louisville common Indianapolis and Louisville common and preferred rose 6 and 10 points respectively, and C. C. C. & St. L. 2 points. Inactive stocks, such as Wisconsin Central common and preferred and Chicago Great Western "A" 1, and 2½ points. This specialized strength caused buying of the standard railroads, S. c. ul rising 2 points and Burlington, see the Pucifics over a polici lington , set the Pacifics over a point. Mobile and Oblo soured up to 69%, and the Southern Rallway stocks and Mis-souri Pacific continued upwards. Smelt-

Lackawanna losing 14, Pressed Steel Car preferred 1, and Alton declining 14 on relaizations. There was realizing elsewhere under this strength, and at noon the market became easier.

REVIEW OF WOOL MARKET.

Boston, Jan. 30.-The American Wool and Cotton Reporter will say tomorrow: "The wool market has been more active the past week and a somewhat im-proved feeling is noted in the trade. Quite a number of mills have been represented in the market and some fair sized lines of wool have been taken. The amount of business done considerably exceeds that of the previous week and we should estimate the volume of sales at about 3,500,000 pounds. These consist largely of Territories, scoured, Oregon medium fleeces and delaine

Some manufacturers express themsome manufacturers express them-seives as satisfied with the orders which they have taken on overcooatings. Others are still running on duplicate light-weights. While prices are upon the whole in favor of the buyer, there has not been sufficient recession as yet to justify a general lowering of quota-tions. In fact, on some lines a pretty firm feeling prevails. This is especially noticeable in quarter-blood fleeces and delaine wools, as well as on schoured wools, and some sales have been made

at full quotations.
Sales for the week in Boston amounted to 3,176,000 pounds domestic and 280,-

MUNYON'S RHEUMATISM CURE

When Prof. Munyon says his RHEU MATISM CURE will cure rheumatism there isn't any guesnwork about ithere isn't any false statement about it simply cures. It does just exactly what he says it will do. It cures more quickly than people expect. It cure without leaving any ill effects. It is a splendid stomach and nerve tonic, as ell as a positive cure for rheumatism All the Munyon remedies are just as reliable. Any draggist 25c. viol. The Guide to Health is free(so is medical advice if you write to Broadway and 36th St., New York.

000 pounds for the corresponding week last year. The sales since January 1st amount to 9,615,000 pounds, against 17,-169,600 pounds for the corresponding time of last year.'

LONDON WOOL AUCTION.

London, Jan. 30 .- The wool auction sales were continued today. During the series 177,074 bales were offered, of which 15,500 were withdrawn. The of-ferings today numbered 10,631 bales. Merinos were in fair demand. Ameri-can buyers paid full prices for suitable parcels of certain grades, of which a larger supply was offered. Superior Victoria greasy was in good demand. A few were taken for America.
