ELECTRICIANS GO ON STRIKE

Independent Telephone Co. Held Up On Singular Demand for Advance in Wages.

GLASMAN MADE POSTMASTER

Hearing of Label Suit Against Glasman Newspapers—Pentfield Loses Damage Suit.

Ogden, Aug. 17.—A strike was inaugurated yesterday afternoon by 10 of the electricians employed by the Independent Telephone company, which may last for some time. According to the information given out by R. C. Fisher, president and G. W. Snively, secretary of the Brotherhood of Electrical Workers, local lodge 316, one of the electricians was employed by the company as foreman, and was being paid foreman's wages, but was doing only the work of a common electrician. This did not please the other employees, who demanded of the management that it either give him foreman's work to perform or else advance their wages to the same scale as his. The company was not willing to do this, holding that if it were willing to pay an employee foreman's wages and let him do regular work, the employees had no right to complain, and so informed the spokesman, who immediately called a strike, and 10 men laid down their tools and walked out. Manager Forrestall would not give out any statement on the matter, but it is believed the company and strikers will come to an agreement.

DISTRICT COURT HEARINGS.

Pentfield Damage Suit Dismissed; Contributory Negligence Assigned.

Ogden, Aug. 17.—In the case of John Pentfield against the Union Pacific, suit brought to recover \$30,000 damages, on motion of the attorney for the railroad company, Judge Howell peremptorily instructed the jury who heard the case to bring in a verdict "no cause of action." The case will no doubt be appealed to the supreme court by Atty. McCracken, who hopes to reverse the judgment of the lower court. It is a most unfortunate circumstance for Mr. Pentfield not to get some recompense for his injuries, which are very serious. His right leg is off at the knee and his left foot cut off at the instep, as a result of an accident which occurred

last February in the local yards when he was struck by a switch engine. The court held that under the evidence that plaintiff was guilty of contributory negligence. He was employed at the freight house as truckman, and was going to his work about 7 o'clock in the morning, walking on a pathway leading across from the Union depot to the freight house, and just as he was passing over the track the engine came along and struck him, and the evidence indicated that had he been on the watch and careful he could have seen the engine and escaped injury.

HEARING OF LABEL SUIT.

All day yesterday was occupied in the second district court in the taking of testimony in the case of Viola Lewis against The Standard Publishing company and William Glasman. The witnesses examined were D. T. Tracey, W. Fred Bosser, Viola Lewis, Wm. M. Hughes, Llewellyn Jones and William Glasman.

The first witnesses' testimony went to show that Mrs. Evelyn Glasman owns the majority of the stock, it having been transferred to her by Mr. Glasman, also that at a meeting of the Standard company Frank Francis was made editor and manager of the paper. Messrs. Bosser, Hughes and Jones testified that at the time they were in the employ of the Standard Mr. Glasman was editor and gave orders, that they had seen editorial articles written in his hand writing and had received instructions from him concerning their work. Mr. Glasman denied being editor of the Standard and Examiner or manager and said he did not know how many reporters are employed on the papers, and that he was not responsible for the publication of the alleged libelous articles concerning Miss Lewis. He was on the witness stand when court adjourned last evening.

Loutsenko states he hopes next year many more will join in the outing, as the Hermitage is an ideal place for such a gathering.

RICHFIELD.

LARS PETER PETERSON DEAD.

Walter E. Anderson Arrested for Contempt in Not Paying Alimony.

Special Correspondence.

Richfield, Sevier Co., Aug. 15.—Walter E. Anderson was brought before the district court today on a charge of contempt. Some time ago his wife filed an action against him for separate maintenance and upon the 8th instant a hearing was had at which the court ordered the defendant to pay his wife one hundred dollars pending the trial of the case at the next regular term of court. Fifty dollars of this sum was to be paid at once and the balance before the date of the trial. Yesterday a week had elapsed since the order of the court and yet the defendant had paid no money to his wife, hence the arrest today. In his defense the defendant said that he had been in the mountains trying to find some of his cattle. The court did not think the excuse sufficient and ordered the defendant committed to the county jail until the amount was paid. Within 3 minutes after the order for commitment had been made the clerk had the money.

LARS P. PETERSON DEAD.

When he first came to Utah he settled at Pleasant Grove but soon thereafter removed to Richfield. His family was taken to Ephraim during the Indian troubles from 1867 to 1871, but when peace was restored they returned to Richfield. Mr. Peterson took a prominent part in fighting the Indians during the Blackhawk war. He was a faithful member of the Mormon church, a model citizen, honest and industrious and has set a worthy example to posterity. TROPIC.

DISASTROUS FLOOD.

Severest Storm in History of County Does Great Damage.

Special Correspondence.

Tropic, Garfield Co., Aug. 14.—Yesterday this place was visited by the worst flood ever known here. The storm began about noon and in two hours two inches of rain had fallen. The streets soon became raging torrents, cellars were filled with water and mud, barns were flooded, hay that was cut in the field was swept away or destroyed. Everywhere outbuildings were filled with mud and the yards around the houses were a veritable quagmire. The hail that accompanied the storm was severe and much damage was done in the upper part of the town, where the hail fell as large as walnuts, stripping all the leaves off the standing corn. Chickens were drowned and carried away and great boulders came rumbling down with the angry waters, which tore out great gorges and in other places covered the land with rocks and debris.

Ed J. Joutel, the watermaster, in trying to cross the stream was caught in the flood and carried for some distance, nearly losing his life. The damage to the growing crops is very great.

When the flood reached Cannonville, four miles below this place it came with the roar of distant artillery, with at least a five foot breast of water, carrying debris, rocks and timber. Everything was carried before it. It was an appalling sight. The roads were left almost impassable.

Reports from the mountains tell of floods there and the narrow escape of great destruction to the sheep from floods. One outfit lost its camp equipment of provisions, saddles, bedding, etc.

The range is in excellent condition and stock and sheep look well. The abundant rains assure an abundance of grass. The frequent electrical storms put the people in terror of the frequent freshets. The many freshets from the storms have kept the water out of the ditches for several weeks and no sooner are the dams and ditches repaired than another flood comes and they are swept away.

R. G. Lambert, who has just come in from the Escalante country, has had a serious time with the freshets and washouts and thinks he has worked out his road tax for several years.

So heavy was the fall of hail in the canyon that parties have brought it down today in sackfuls and are freezing ice cream with it.

ESCALANTE.

Thrilling Ride to Reach Oasis in the Desert.—Big Crop of Fruit.

Special Correspondence.

Escalante, Garfield Co., Aug. 11.—This is called the end of the string by some of those who get here and have to turn back, as they can go no further.

The trip over the mountain and into Escalante is one that should satisfy the most ardent seeker after the sensational. The windings around the face of the cliffs as the steep descent is made is startling in the extreme, and after looking on the dreary desert of broken mountains—the view of this veritable oasis in the desert is pleasing to the soul.

The orchards of Escalante are a beautiful sight. The trees are so loaded with fruit they have to be propped up, while the people are feeding the most beautiful apples and apricots to their hogs. The majority of the people of this region are interested in stock and sheep. The latter have done well the past season, but the cattle owners are anxious to see stock buyers in their midst, who will find many fine cat-
