SUCCESS OF THE WORK IN THE EAST. pondence from the East, published from "Mormonism" in many localities. Many people, who were formerly indifferent to the warnings uttered by the Elders, or who, worse still, treated those sent among them to preach the Gospel with contumely, reproach and even abuse; are beginning to see with clearer eyes and to listen with unstopped ears to the truths uttered by the brethren. They begin to think that there really must be something in "Mormonism" after all. There certainly is something in it, and that is a truth that all the world will yet know sooner or later. Sensible, truth-loving people will not always remain in the position of the ass whose master, as the story goes, put green spectacles upon him and gave him shavings to eat: they will get lean and hungry feeding upon such provender as many of them now get, and will eventually throw aside the spectacles and seek the fresh green pastures that so abound in the gospel. We do not wish to speak, with prejudiced narrowness of extant religions, for they incorporate many precious, wholesome truths; but in them are has to pass through too much chaff before reaching the wheat. A religion suited to humanity is one that will meet after all. There certainly is something in it, and that is a truth that all the world will before reaching the wheat. A religion suited to humanity is one that will meet life as well as in futurity. The system of truth, reproachfully called "Mormonism,,"

The last communication we received from the East in relation to the success of the work there is from Elder Theodore B. Lewis, and was written at Burk's Garden. Lewis, and was written at Burk's Garden, Va., under date of May 7th. He says, "The work in Virginia is rolling on. New additions to the Church by baptism are quite frequent the interest for the great latterday work is growing among the people." Brother Lewis thinks that a good work will yet be done in that State. The Elders in the States are laboring assiduously to attain the object of their mission, and are meeting with encouraging success in nearly overy place they visit.

A NUISANCE TO BE ABATED .- Among any, at the most intolerable nuisances to be met with in civilized society are professional "touters." Of this class we may mention a class who, too lazy to work, are employed by provision dealers to watch on the outby provision dealers to watch on the out-skirts of cities, and buy produce from pec-out at Savage & Ottinger's. . d145-6 ple coming in from the country, who may have it to sell. These "touters" are allowed GREAT BARGAINS and splendid Inducea per centage on all they thus purchase, and so far as they are concerned, they make, no doubt, a tolerably good thing of it; but while they and the class they represent are benefitted, they succeed, invariably, in raising the price of flour, vegetables and

We are sorry to say that specimens of both these classes abound here. We heard of a case this morning in which their opera-tions were strongly manifested. A gentleman of our acquaintance, wishing to purchase potatoes for a Ward co-operative store applied to a retail store on East Temple St., and was asked seventy-five cents per bushel, learning, however, in the course of conel, learning, however, in the course of con-versation, that the first cost of the potatoes diss 4 law

This is one of the small foxes that Remaining in the Office at Salt Lake destroy the vines,—one of the evils that must be stopped. Were it not for these miserable "touters" the produce could be brought into market here in Salt Lake City, and sold, first handed, to the people; or taken to the Ward stores and sold, when it would again be sold to the people at a very small advance on first cost. We be-lieve that country venders of produce would as soon do this as to dispose of it to these "touters" and thus aid in swindling the laboring classes.
