

# THROUGH WITH EQUALIZATION.

Members of the Board Are Glad to  
Get a Rest.

## BANKERS CARRY A POINT.

McConnell, Jones and Schettler See  
Cause for Rest After a Week's  
Not Apply to Private Bankers.

The county board of equalization completed its arduous labors yesterday afternoon and adjourned sine die. The work of equalizing the county assessment roll is a long and irksome task and the members are very glad to get through. The second protest of Bankers W. S. McConnell, T. J. Jones and B. H. Schettler against the decision of the board not to allow them an abatement of 50 per cent from the amount of their assessments is done with the board in reconsideration. It caused the board to reconsider a former action and secondly to the demand of the three bankers named. But the ruling only applies to them and to none of the other private banking institutions. It will be over a week before the official figures of the work of the session will be ready, but the abatements of abatements made amount to \$292,179.45.

Unsettled mortgages erroneously assessed, \$44,547; on personal property, \$164,024; on improvements, \$58,625; on real estate, \$27,901. As an offset to the abatements, the board made advances in valuations of about \$300,000, divided as follows: J. A. Cunningham, money and solvent credits advanced \$188,000; W. H. McIntyre, money and solvent credits advanced \$25,000; estimated advance in real estate in the northeast part of town, \$35,000. This leaves a net reduction in the assessment roll of \$292,179.45, or an equalized assessment for the county of \$38,611,365, against a gross assessment as returned by the assessors of \$29,044,137.

Last year the equalized assessment was \$38,515,485, making an increase this year of \$21,179.45.

The county property is not included in any of the above figures for that it is assessed by the state board of equalization. It includes railroads, telephones, telegraphs and net proceeds of mines which aggregates no considerable amount. Last year it footed up to \$2,500,000.

The board this year, in addition to the abatements that it made, reduced the taxes of the indigent and widows to the amount of \$2,241.

The abatements made by the board yesterday were as follows:

## FAVOR BICYCLE PATHS.

Council Committee Will Recommend  
Construction in Various Streets.

The council committee on municipal laws and streets held a conference with some representatives of the wheelmen last night and as a result will recommend the passage of the ordinance for the construction of bicycle paths on various streets in the city. In joining in with the recommendation Councilman Whittemore explained that in doing so he would insist upon the placing of a special tax on wheels to help pay the cost of building and maintaining the paths. Other councilmen thought that would be a just thing to do, and fifty cents a wheel was suggested, but Mr. Fernstrom expressed the fear that that amount wouldn't pay for the collecting of it.

The new ordinance provides that the paths shall be five feet wide on both sides of the street, adjoining the sidewalks, and that the irrigating ditches, carriage steps and hitching posts shall be removed to the outer edge of the paths.

## GAME WARDEN HOME.

Mr. Sharp Returns From His Trip to  
Southern Utah.

Fish and Game Commissioner John Sharp returned last evening from southern Utah, where he has been since the 13th instant on official business. At Richfield he met the county commissioners and discussed matters relative to the fish preserves at Fish Lake. Accompanied by Superintendent James L. Walker of the hatchery, Commissioner Sharp visited Fish Lake and while there took about a million and a half of black spotted trout eggs, which have been taken to the hatchery. After spending three days at Fish Lake they went to Panguitch lake, 100 miles south and west and there taught the warden the theory and practice of taking eggs. The eggs will be taken and artificially hatched. Mr. Sharp is much in favor of doing this as he says from 75 to 85 per cent of the eggs will be saved in that way.

## FEWSON SMITH, JR., NAMED

Judge Morse Formally Appoints Him  
Jordan Water Commissioner.

Judge Morse has made a written order appointing J. Fewson Smith, Jr., commissioner to carry into effect the division of water of the Jordan river and to regulate the headgates of the various canals and ditches in accordance with the decision of the court. He is generally known as the celebrated water case which consumed some three months in its trial. The judge still has under advisement the motion to settle the findings and decree in said suit.

## SCHROEDER SUES.

Theodore Schroeder today filed suit in district court against the Utah Stove & Hardware company, for \$120 with interest at 8 per cent since August 1st, 1897, for attorney's fees rendered by Jones & Schroeder in the case of the defendant vs. J. W. Clark and Hardey Clark. The suit was to annul the obligations of said stove company on a bond of \$2,500 of J. W. and H. L. Clark.

## Judge Morse's Court.

Judges Morse's court convened at 10 o'clock this morning. In the matter of Turner A. Wickham vs. Kate M. Hofstra, the demurrer perforce argued and submitted was sustained and the plaintiff was given ten days in which to amend the complaint with permission to amend same by interpleading.

# COUNCIL WILL NOT RATIFY.

J. A. Fritsch, Purchaser of Old City Hall Corner, Hopes to the  
Contrary. However—Backed by a Syndicate That In-  
tended to Erect a Modern Business Block.

Considerable speculation is manifested in business circles today regarding the identity of the purchaser of the choice corner on State and First South streets which was knocked down to J. A. Fritsch, the real estate man, yesterday morning, for the sum of \$38,000. Mr. Fritsch this afternoon admitted that he had made the purchase of the old city hall corner for outside parties, but just whom they were he was not prepared at this time to state. Upon being questioned he stated that it was the intention of the buyers to erect a five or six-story business block to cover the entire site, providing the members of the City Council ratified the purchase.

Upon this topic, however, he was also loath to talk. "Of course if the City Council will not approve of the sale," he said, "that will end the matter."

It is thought, however, that if the sale is turned down that a further effort will be made to secure the property by those who are interested. There is a well defined rumor current on the streets today to the effect that Mr. J. A. Fritsch, the well known real estate capitalist, is behind the project, and Mr. Murray has the record of holding on to a good thing when he makes up his mind to go after it.

Under the present sale the property figures up roughly upon a basis of \$300 a foot on First South, and about \$22 a foot for the frontage on State street. When brought into comparison with recent real estate transactions involving the sale of property in the vicinity of the business district, this is a very good buy from the standpoint of the purchaser. It will be recalled that President Lorenzo Snow paid \$40 a foot for property on west South Temple street adjacent to the new Deseret News building.

## THE UNCLE SAM CONSOLIDATED CO.

This afternoon the Uncle Sam Consolidated Mining company was organized in the offices of Hon. David Evans in the D. E. Walker block, and later today the board of directors were to meet and elect officers. The capital stock is placed at \$500,000 shares, of the par value of \$1 each, and the directors elected by the stockholders today are David Evans, William McIntyre, John Derr, James Chipman and E. L. Sheets. At 4 o'clock this afternoon a meeting was held, at which the incorporation papers were signed.

The new company is the result of the purchase of a lot of Flint property, hitherto operated separately but which will now be amalgamated. It was engineered by Hon. David Evans, who has rounded up the Uncle Sam, Coca Fraction, one-half of the Hamburg No. 2, the Inez, the south half of the Hamburg proper, a portion of the Cyrus Oliver and 400,000 shares of a total of 500,000, at which the Richmond-Anaconda Mining company is capitalized. The holdings of the latter consisting of the Little Lion, the Anaconda and Mountain View.

Those who are principally interested in the deal are Mr. Evans himself, Senator Kearns, Col. E. L. Loomis, John Derr, E. L. Sheets, James Chipman, John R. Raudy, William McIntyre, Sam Jesse Knight, Geo. Havercamp, Sam King, Hon. Geo. Sutherland, C. D. Kennedy, Jos. L. Heywood, Lorin N. Morrison, R. G. Wilson and Charles Reese.

A million dollars was the amount paid for the property, which has already produced over a million dollars in profit, with enormous quantities of ore remaining blocked out and in sight.

## AMUSEMENTS.

The dog show, the big lake excursion and the sudden cool turn in the weather combined to lessen the attendance at the Salt Palace theatre last night. Perhaps done, he showed rare versatility, "Chimes of Normandy" had something to do with it, but at any rate it was undoubtedly an "off night." The handsome auditorium was not much more than half filled when the curtain rose on the popular opera. The hits of the night were made by Mr. Huff, the baritone, Miss Hallam, the Germane, and Mrs. Kohnle, the miser, the lady being especially sweet in her singing and acting. While Mr. Kohnle did not give the intensity to the role which many of his predecessors, notably Mr. Spencer, have done, he showed rare versatility, and the whole cast scene was rewarded with a curtain call. Mr. Abbott, the fisherman, was not up in his music and Miss Kirwin hardly has the youth requisite for Serpente. The male chorus was almost nil, but the sound was concentrated, but the ladies chorus more than made up for the omission in their sprightliness, their charming appearance, and their usual introduced drill. It might be well, however, for the lady in charge of the wardrobe to make a special survey of the condition of some of the black ties before they are used again. In spite of these several drawbacks, the beautiful music went with hearty favor and the leader brought out very well the charming orchestration. The vaudeville features between the acts were also immensely applauded and a special word should be said for the singing accompanied by the lantern slide effects.

## SALT PALACE TRACK TONIGHT.

resolution passed by the board of County commissioners, May 27.

There was no auction of county property today. The sales will be resumed at 10 a. m. tomorrow and it is expected that numerous pieces of property will be disposed of.

The friends of Mrs. A. B. Needham will be pleased to learn that her condition is improved today. Mrs. Needham gave birth to a baby boy on Saturday and since that time has been very ill. The babe is in a critical condition and doubts are entertained as to its recovery.

Mrs. Christina Alken Hoge, wife of William Hodge of the Sixteenth ward, passed away today at the age of seventy-one years. She was born in Glasgow, Scotland, and came to Utah in the early fifties. She had many relatives and friends in Utah. The exact time and place of the funeral have not yet been decided upon.

Thomas P. Thomas was taken to his home last night from the county jail, where he resides during the day shift, with what threatened to be a case of appendicitis. His condition improved, however, during the night and today, and he is expected to be able to return to his post tomorrow.

In the office of the board of public works it is said that a number of Salt Lake have driven to Mountain Dell to figure on the hay, on the city lands at the head of Parley's canyon, which will be auctioned off on the 28th inst.

A warrant was drawn today for \$28,700, the amount of the semi-annual interest due in New York on July 1, on the following issues of bonds: 1891 issue of \$25,500 five per cent; 1892 issue of \$45,000 five per cent; 1901 issue of \$500,000 four per cent. A portion of the interest due on the last named issue will be held in reserve by Treasurer Morris pending the return of some of the original issue, which the last issue of bonds was made to refund.
