—You need not suffer from this most distressing disease again in all your life. Email's Raim acts as a positice and lubricator, absorbs the fumors and allays the intense itching at once. No caustic, no acid, so pain. A. AleGibbons Esq., 19 Poplar street, Allegheny, Pa., writes: "I had he) ing and bleeding piles so bad I could not sit stand or walk without intense suffering. I dectored with many physicians, and tried all the (so called) cures that I ever heard of, in vain (paying out hundreds of dollars), until I used Email's Magic Balm, or Ointment. After the first application I enjoyed the best night's sleep I had for ten years, and two boxes have cured me completely."

Women and children are weeping over the cafastrophe which has overtaken them, and are its sore need of clothing and food. The women in many instances have totally inadequate clothing. Some were without shoes or stockings. Children ware in garb fit only for the hottest weather in comfortable homes. And men have only very meagre outlits. They are living as best they can, existing only until charity, which is already widespread, can be made available for their relief. Hew many of these distrased there are within the Sny district cannot be told. It will be with the greatest difficulty that some of them can be reached.

Saits Against Mrs. Parnel PHILADELPHIA, May 18 .- Two bills n equity were filed today against Mrs. Parnell, the mother of the Irish Par-Parnell, the mother of the Irish Parliamentarian. The plaintiffs are Mary R. Stewart, and the administratrix of Charlotte Smith, both of whom were connected with the Parnell family. They aver that in 1875 they gave Mrs. Parnell sums of money aggregating \$7500, which she was to invest and pay dividends on. They received sums at regular intervals until 1883, when payment ceased, and they claim to be unappeared. The court is asked to issue a Paraell. The court is asked to issue a writ of attachment against Mrs. Par nell's property in this city, and that she be ordered to file an accounting.

New York, May 18.—Daily additions to the literature concerning Mrs. Scotled are received by the coroner. The latest is dated San Francisco, May 10th, and was received this morning. It was signed M. B., and purports to add to the knowledge of Mrs. Scofield's facts as follows: She kept a ten-roomed house in Post street, San

Francisco, fifteen years ago, and the lodgers' missing valuables were traced to her. She blackmailed certain San Franciscans whose names are given, according to the letter. Nearly a column is given this even-ing to the Scotald story by certain papers. It is alleged that she intends to light the case and will not seek ball. Meantime doubt is expressed concern-ing the bail furnished by Ferris. An affidavit has been made that Ferris's bondsman has only a temporary deed for the realty on which he qualified, and a suit is pendion to make the bondsman transfer the property to other claimants. A writ of habeas corpus was procured to bring Mrs. Scoffeld into court this morning.

The Long and Short Houl.] A decision has been filed by the inter of Martin & Co., of Denver, against the Southern Pacific Company and the Union Pacific Company. The chief Union Pacific Company. The chief question involved is that of a greater charge for a shorter haul from San Francisco to Denver than for a longer haul to Kansas City, over the same line. The conclusion of the commission is that no adequate charge for a shorter haul to Denver than for that to Kansas City can be justified. In view of the fact that an effort is being made in good faith by various lines to read. in good faith by various lines to read-just tariff, to meet the requirements of the law, no order will be issued in this case for 60 days.

Inherited Diseases.

lating. Here, alas, they become ter nature is more prognant with awful meaning than the fact of the inheritance of disease. It meets the physician on his daily rounds, paralyzing his art and filling him with dismay. The legend of the ancient Greeks pictures the Furies as pursuing families from generation to generation, rendering them desolate. The Furies still ply their work of terror and death, but they are not now clothed in the garb of supersti-tion, but appear in the more intelligible but no less awigl form of hereditary disease. Modern science, which has illuminated so many dark corners of nature, has shed a new light on the ominous words of t Scriptures, "The aims of the fathers shall be visited upon the children unto the third and fourth generation." Instances of hereditary disease abound. Fifty per cent. of cases of consumption, that fearful destroyer of fami-lies, of cancer and scrottle, run in families through inheritance. Insanity is hereditary in a marked degree, but, fortunately, like many other hereditary diseases, tends to wear itself out, the stock becoming extinct, & distinguished scientist truly says: "No organ or texture of the body is expanse from

A distinguished scientist truly says: "No organ or texture of the body is exempt from the chance of being the gubject of hereditary disease." Probably more chronic diseases, which permanently modify the structure and functions of the body, are more or less liable to be inherited. The important and far-reaching practical deductions from such facts—affecting so powerfully the happiness of individuals and families and the collective welfare of the mition—are obvious to reducof individuals and families and the collective welfare of the mation—are obvious to reflec-ting minds, and the best means for prevent-ing or curing these diseases is a subject of intense interest to all. Fortunately nature has provided a remedy, which experience has attested as infallible, and the remedy is the world-famous Swift's Specific, a pure vegetable compound—nature's satidate ? all blood poisons.
