

COMMEMORATE DAY OF LIBERTY

Scandinavian People Celebrate
Anniversary of Granting of
Danish Constitution.

SING IN FOUR LANGUAGES.

Coming Events at the Resorts—Elks
At Salfair June 20—"Flag Day"
At Lagoon June 11.

"Denmark's Grundlovsdag" was a day of great significance to the Scandinavian people who gathered at Wanda-mere yesterday in commemoration of the granting to the Danish people of a constitution, of religious and govern-mental liberty by their sovereign. A large crowd assembled, in spite of the threatening weather. In the evening a program was presented in the large pavilion.

A feature of the evening was the singing of selections in three Scandinavian languages, as well as in English. The Scandinavian choir of Salt Lake, under the leadership of John P. Peterson, and the Swedish choir of Ensign, under Hugo Peterson, furnished the music. The choir sang the national anthems of Denmark, Sweden, Norway and America in the respective language of each country.

SPEECHES APPLAUDED.

The addresses were appropriate to the occasion, and the speakers were frequently interrupted with applause. The first speech was by L. M. Thomsen, who gave an interesting recital of the events leading up to the granting of the constitution to the Danish people. J. M. Sjodahl was the next speaker. He showed how the rights of the Scandinavian people in America and, especially to Norway, were secured by the Danish people. He also pointed out the significance of the Danish independence to the three Scandinavian countries, and especially to Norway, who were struggling for their own independence. Andrew Jensen spoke upon the effects the granting of religious liberty at that time had upon future emigration to this country. President Arthur H. Lund made a brief address, speaking of the benefits derived and the progress made by the Scandinavian people through the efforts of the liberty loving, peace loving patriots who made religious liberty possible.

"TEDDY" IS CHEERED.

At the conclusion of the services, the assembly gave three hearty cheers for the Scandinavian people in America and for President Roosevelt. A man named Teddy Bear, brought by Stephen H. Love from Idaho and kept in Wanda-mere resort, came to its death yesterday by strangulation. The cub climbed a pole in his den and fell to the ground, and the chain attached to the bear's collar caught on the pole, and before help could arrive the animal was strangled.

Elks at Salfair—Elks' purple day will be celebrated at Salfair June 20. A special program is being arranged by the local lodge having the matter in charge, and it is said there will be fun for everybody. On June 19 the Elks will conduct an auto parade as a booster for the excursion, in which a prize will be awarded to the most attractively decorated automobile.

Real Estate Day July 11—"Real Estate Day"

will be celebrated by the members of the Salt Lake Real Estate exchange at Salfair, on July 11. Local dealers have already subscribed \$250 toward a fund to be used in giving prizes to those making the trip to Salfair with the dust dealer. The firms that have subscribed to the prize fund for real estate day at Salfair and the amounts given by each are as follows: W. J. Halloran, \$50; Tattle Bros., \$50; E. J. Birrell, \$50; Salt Lake Real Estate & Title Co., \$50; A. Richter, \$25. Tomorrow will be field day for the U. of U. and the Elks will gather at Salfair, June 18 and the Ensign and Salt Lake Sunday Schools June 19.

"Flag Day" June 14—"Flag Day"

will be celebrated by the Grand Army of the Republic and kindred organizations at Lagoon on June 14. A program of sports, including a baseball game between two teams of veterans, is being made up. The affair is in the hands of special committees, the personnel of which is a guarantee of a good time. At a meeting held last evening to perfect arrangements for the celebration, the memorial committee of the Grand Army and allied organizations adopted resolutions extending the thanks of those organizations to every body who aided in making the Memorial day parade a grand success.

Lagoon Bookings—Lagoon resort

has a full calendar of bookings for June, with the exception of four days, and these will doubtless be followed by the most enjoyable and interesting of the list of organizations that will hold celebrations at Lagoon and the date selected by each:

Saturday, June 8—Swedish Brotherhood.

Tuesday, June 11—Indian War Veteran association and Ladies' Democratic club.

Wednesday, June 12—Tenth ward, Nineteenth ward, Twenty-fourth ward and Twenty-eighth ward, and the Retail Clerks' association.

Thursday, June 13—Davis county Sunday school.

Friday, June 14—G. A. R. state day.

Saturday, June 15—Iron Molders' union.

Monday, June 17—Latter-day Saints' German society.

Tuesday, June 18—Loyal Americans of America and Salt Lake Jewelers' association.

Wednesday, June 19—Thistle club of Salt Lake and Scottish Thistles of Ogden.

Thursday, June 20—First Congregational Church, Aid society and Sunday school; St. Phillips church, and Sunday school and the Plymouth Sunday school.

Friday, June 21—Woodcraft day, Woodville circle, Salt Lake circle and Silver Maple circle.

Saturday, June 22—Scandinavian societies of Salt Lake and Ogden.

Sunday, June 23—Salt Lake Literary society, midsummer day.

Tuesday, June 25—Old folks' excursion of Salt Lake and Davis county.

Thursday, June 27—Z. C. M. E. and Brokers' association, butchers' barbeque.

Friday, June 28—First Methodist church and Sunday school.

Saturday, June 29—Z. C. M. E. manufacturing departments and Fraternal Brotherhood.

Elks at Heber—Yesterday was Elks' day at Heber City. About 300 "good

fellows" went over from Park City. A sumptuous feast was spread for them by the women of the city. During the afternoon the Heber baseball team and the Y. M. C. A. team of Salt Lake City were matched in a game resulting in a score of 13 to 4 in favor of the former team. An entertainment by the Elks was given in the Opera House in the evening, followed by a grand ball.

REMARKABLE RESCUE.

That truth is stranger than fiction, has been borne home demonstrated in the little town of Feen, on the high plateau of C. V. Pepper. He writes: "I was in bed, entirely disabled with hemorrhages of the lungs and throat. Doctors failed to help me, and I had had fed when I began taking Dr. King's New Discovery. Then instant relief came. The coughing soon ceased; the bleeding diminished rapidly; and in three weeks I was able to go to work." Guaranteed for coughs and colds, \$50 and \$1.00, at Z. C. M. I. drug store. Trial bottle free.

DETAILS ARE ARRANGED.

High School Cadets Leave June 12 for Encampment Near American Fork.

At yesterday afternoon's meeting of the high school cadets it was decided to hold the coming annual encampment near American Fork, on the high water in Utah lake has made a swamp of the location previously selected near the lake. The cadets also decided to leave town for the camp, June 11, taking the shortest route as far as Murray, and marching the rest of the way. The location for the camp is still undecided. It is only a short distance to Utah lake and half a mile from American Fork. The cadets expect to go into camp about 400 strong. Two four-mile teams will be provided by the commanding officer at Fort Doug, Las.

WILL CURE CONSUMPTION.

A. A. Herren, Finch, Ark., writes: "Foley's Honey and Tar is the best preparation for coughs, colds and lung trouble. I know that it has cured consumption in the first stages. I never heard of any one using Foley's Honey and Tar and not being satisfied. For sale by F. J. Hill Drug Co., 'The never substitutes'."

SALT LAKE BOY WINS.

Dewitt Knox Leads in Contest Between Andover and Exeter Academies.

The Boston Herald contains a long account of the recent Andover-Exeter dual meet, in which Andover academy won 56-6-6 points to 39-1-6 for Exeter academy. The special interest Salt Lake has in the matter is the appearance of Dewitt Knox of this city, son of President Frank Knox of the Bank of the Republic, as a prominent athlete on the winning Andover team. The Herald has the following paragraph about young Knox:

Knox of Andover won the quarter mile run after a hard grueling contest. For the early part of the race it appeared as if Sprague would run away with it. But on reaching the back stretch the Auburn hurred Andover runner began to pick up from fifth position. He gradually wore down the runners in front of him. In the last 15 yards he outspurred Sprague and won by two yards. Sprague and Exeter followed close in the rear of Sprague. The 440-yard run was won by Knox. Andover, second, Sprague, Exeter, third, Spear, Exeter. Time—51.1-8.

CIGAR MAKERS EXPLAIN.

Issue Statement Advancing Reasons For Strike Now On.

Just why the cigar makers of Salt Lake are on strike for higher pay, and what this pay amounts to, are the subjects of a statement given out to the public last night. The Cigar-makers' union, through its president, J. C. Weekwork, is responsible for the statement, which explains their case as follows:

"The cigar manufacturers at the beginning of the year asked us as a special favor that the cigar-makers make no statement to the press regarding our demands. The cigar-makers up to date kept their part of the agreement; so did the manufacturers, as far as the press is concerned. But some of them in selling their goods

are telling their customers that they don't know what we want and are greatly misrepresenting our demands and, in justice to ourselves, and to every lover of truth and fair play, we make the following statement:

"The cigar-makers of Salt Lake City are not unjust nor unreasonable in their demands. We are demanding an increase of \$1 per 100 on the most popular brands, \$2 on a certain brand that furnishes work for only four cigar-makers in Salt Lake City; on the clear Havana work no increase has been asked for.

"While rent and the cost of living have gone up 15 to 25 per cent, the cigar manufacturers have increased their business 20 to 30 per cent, without any advance whatever, working under the same scale of prices for 25 years. Now, after working so many years under the old bill, we demand a slight increase which will amount to a raise in wages from \$1.25 to \$1.50 per week, or about a 2 per cent increase. Nearly all the wage earners throughout the country are having their wages raised voluntarily or upon demand, to 15 per cent in the light of these figures, and it is beyond measure that we are justified in asking that our demands are the most just, most reasonable of any demands that have been presented by any organization to their employers. In order for the cigar-makers of Salt Lake to put themselves right before their friends and the union-made cigar-smoking public, we issue this statement."

BENEFIT CONCERT.

Friends of Lady Teacher Injured in Explosion Arrange Testimonial.

Friends of Miss Neta Gerber, the young lady school teacher who was recently burned by the explosion of an alcohol lamp at her school at Picher, are arranging a benefit concert in her behalf. Miss Gerber met with an accident which will confine her in the hospital from six to 12 months and which expenses will be beyond measure. The Salt Lake theater has proffered the use of the house for a concert to be given there Friday, June 14, arrangements for which are being made. The following artists have kindly consented to appear: Mrs. Marie Gennis, Miss Edna Sawyer, Mrs. Margaret R. Kerr, Mrs. G. Skelton, Prof. J. J. McCellan, Prof. Skelton, Prof. Douglass, and Thomas Ashworth.

Tickets to the concert will be on sale at various places in the city. Mr. John H. Back will be pleased to fill orders for tickets to anyone not being able to find them elsewhere.

If you will make inquiry it will be a revelation to you how many succumb to kidney or bladder troubles in one form or another. It is the fact that beyond measure, it never disappoints. For sale by F. J. Hill Drug Co., 'The never substitutes'."

BREEDEN A BUSY MAN.

Attorney General Is Being Flooded With Requests for Opinions.

Atty. Gen. Breeden has requests for opinions from various state officials piled up on him daily, until the idea of a material enlargement of his office has become something far more material than a production of the imagination. He has been asked for over 2,500 opinions since becoming attorney general, and while not gratified at the amount of work required of him, he is gratified at the fact that in only two instances has he been reversed by the courts. Judge Breeden is called upon, from the governor down to interpret and construe every law that is enacted by the legislature, and it keeps him on the jump. It is nothing for the attorney general to have on his desk from 20 to 40 opinions to be answered immediately.

DESTRUCTIVE BLAZE.

Fire at Residence of W. H. Bywater Does Considerable Damage.

Fire broke out in the upstairs rooms of the residence of W. H. Bywater, at the corner of Sixth and L streets, about 6 o'clock last evening. The family were just seated at supper when one of the members slipping on a stair, a moment saw smoke issuing from the roof. He immediately gave the alarm.

and the family had considerable difficulty in getting control of the flames. The fire department responded to the call turned in, but arrived too late to be of much assistance.

A large crowd gathered and rendered what assistance was possible, but before the fire was extinguished, damage to the extent of about \$800 was done. It is thought the fire was started through defective wiring of the upper rooms. There had been no fire made in the house all day, and the only explanation for its origin is the theory that the wires in some way ignited some near by inflammable substance. The loss was covered by insurance.

CURED HEMORRAGES OF THE LUNGS.

"Several years since my lungs were so badly affected that I had many hemorrhages," writes A. M. Ake, of Wood, Louisiana, "and treatment with several physicians without any benefit. I then started to take Foley's Honey and Tar, and my lungs are now as sound as a rose. I recommend it in advanced stages of lung trouble." Foley's Honey and Tar stops the cough and heals the lungs and prevents relapse. For sale by F. J. Hill Drug Co., "The never substitutes'."

WEATHER BULLETIN.

Light Frosts and Clouds the Features Of Past Week.

The local weather bulletin for the week ending Monday evening last, is as follows:

During the fore part of the week just closed, the weather was unseasonably cool throughout the state generally. Light frosts were reported in exposed localities and the death of snailshells was pronounced. The cloudy conditions began to disappear by the middle part, however, and the temperature rose gradually and continued above normal for the remainder of the week. The temperature averaged highest in the northern section and was considerably lower in the middle and southern sections, where freezing temperatures were reported in many localities on the 28th and 29th.

Precipitation for the week averaged below the normal. In the northern section the rainfall was very light, and, with the exception of a few scattered thundershowers, was of little consequence. In the middle and southern sections there was considerable rainfall, the amount being above normal for a few localities in the southern section. The heaviest precipitation occurred generally on the 28th. In the mountainous districts of the northern section, little of the snow had melted owing to the prevailing cool weather. The week was deficient in sunshine. The first three days were generally fair and the week closed cloudy with scattered thundershowers.

STATE'S BALANCE SHEET.

Treasurer Christiansen Files His Financial Report for Month of May.

State Treasurer Christiansen has filed his report for the month of May with State Auditor Edwards, showing a balance on hand in the state treasury on May 31 of \$555,875.95. The receipts for the month amounted to \$22,090.76, which, with the balance on hand on the first of the month of \$524,785.19, makes a total on hand during the month of \$546,875.95. The disbursements amounted to \$80,999.55, leaving a balance on hand on May 31 as given above. This balance is distributed among the various funds as follows:

General fund.....	\$ 35,834.84
State district school.....	10,499.45
Sheep inspection.....	2,576.89
Redemption fund.....	1,257.78
Trust fund.....	1,462.56
Suspense account.....	8.91
Fish and game fund.....	319.80
For reserve road and school fund.....	9,993.50
Agricultural college.....	16,991.88
Deaf and dumb asylum.....	9,884.64
Sanitary asylum.....	15,284.00
Institution for blind.....	11,682.12
Miners' hospital.....	24,820.66
Normal school.....	8,409.88
Reform school.....	12,813.92
Public buildings.....	22,185.58
Reservoir fund.....	197,916.99
State school.....	148,388.05
School of mines.....	17,796.10
University of Utah.....	14,597.15
Total.....	\$555,875.95

SANITATION IN CACHE.

Inspector F. E. Clarke Returns From A Trip to Logan.

Inspector F. E. Clarke of the state board of health has returned from Logan, where he was gratified to note that the local city council was proposing to introduce a sewer system. There is, however, much opposition from property owners whose frontage is so extended as to ensure a heavy assessment in their cases; but it is believed that a way will be found out of this difficulty, so that Logan can have its much needed improvement. There have been of late 30 cases of whooping cough reported to the state board of health from Logan which is a strong factor in impressing upon the local authorities the need of improved sanitary conditions. Dr. Clarke also visited Newton, and Clarkston. The latter town is provided with water from springs, so people are in good shape. The Newton people are supplied from surface wells, and have for sometime been boiling their drinking water.

NEW LINE PROPOSED.

Streetcar Company Is Thinking of Furnishing Service to Ninth Avenue.

It is proposed by the management of the Utah Light & Railway company to make changes in the route of the Sixth Avenue line, so as to run up the B street hill from First avenue, doing away with the curves on A street and Third avenue. A new line up the hill to Ninth avenue and thence east to the city cemetery is also being considered. The Sixth avenue line is now double tracked with 60 pound steel, clear to the cemetery, and is in fine running order.

ALUMNI HOLDS REUNION.

Banquet and Toasts, More or Less Serious, Followed by Dancing.

The University of Utah alumni gathered last night in the new gymnasium building to talk over old times, and enjoy a repeat while explaining to each other how good it feels to have finished college days on the hill. The banqueters filled the large upper floor of the gym and the lower floor, where dancing completed the program. That the association is growing rapidly in numbers and interest was evident from the large attendance which passed that of any preceding banquet, and was composed more largely of younger alumni. The gymnasium building had been nicely decorated for the occasion with potted palms, and Varsity

banquet, while music was furnished by the Ogden High school orchestra under the direction of Equine Coop. Oscar Van Cott acted as toastmaster, while John C. Mackey, retiring president of the association, delivered an address of welcome to the new alumni, and spoke in favor of a greater and bigger university, to consist of a number of consolidated colleges, including a normal school, a mining school, an agricultural college, and an arts and science school. Miss Nellie E. Brown replied, thanking the alumni for their welcome to the graduating class; Joe B. Swenson, an employee of the class of 1892, roared the kindergarten graduates, while Geneva Love spoke for the arts and science graduates, listing the shining lights of that department who have gone forth to more than average success in the world. Miss Edna Harker, listed as a normal graduate, handed a demon to the engineers instead of praising them, but they had enough courage left at the end of the toast to give their department yell, with a complimentary cheer for the normal. The final toast was to the normals by Isaac Russell, in which they were discussed from the standpoint of a former member of the arts department.

A FORTUNATE TEEN.

Mr. E. W. Goodloe, of 107 S. Louis St., Dallas, Tex., says: "In the past year I have become acquainted with Dr. King's New Life Pills, and no laxative I ever before tried so effectively disposed of malaria and biliousness." They don't grind nor gripe. 25c at Z. C. M. I. drug store.

SENIORS TO PAY DUES.

At a meeting of the senior class of the Salt Lake High school held yesterday afternoon at the campus, it was decided to start an active campaign for class dues. They have been slow coming in and a deficit for commencement expenses is the result. The meeting listened to a short talk from President Sheekles of the Alumni association, urging all those present to join, and inviting the class to attend the alumni banquet. Principal Eaton explained his reason for withdrawing his name from the commencement program, declaring that it was on account of the fact that he was physically unable to attend to the duties that would devolve upon him. No more meetings will be held until commencement.

WIFE AND SWEETHEART

Meet and Charles A. Buchanan Keeps Under Cover as a Result.

A special dispatch from St. Louis states that Miss Georgia Parsons of Salt Lake is there to post herself as to

the status of the divorce suit of Mrs. Charles A. Buchanan of Portland, Or., against her husband, with whom she left this city for St. Louis in 1905. Buchanan deserted his wife shortly thereafter, and she filed a suit for divorce, which was dismissed. It seems that Buchanan met Miss Parsons in Portland and became engaged to her, but she was warned by her friends of his unsatisfactory matrimonial status, so she made the trip to St. Louis to find out for herself. Miss Parsons, on learning from the court clerk what she was after, hunted up the "widow" with whom she lodged her years. Mrs. Buchanan says now she will never seek for a divorce, and the prospective Mrs. B. No. 2, would like to lay violent hands on Buchanan.

HE FIRED THE STICK.

"I have fired the walking-stick I've carried over 40 years, on account of a sore that retarded every kind of treatment, until I tried Bucklen's Arnica Salve, that has healed the sore, and made me a happy man," writes John Garrett, of North Mills, N. C., guaranteed for Piles, Burns, Etc., by Z. C. M. I. drug store, druggists, etc.

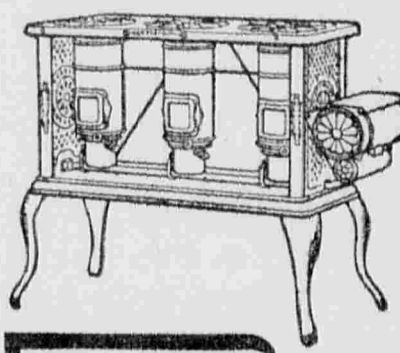

BLAZE IN PLUM ALLEY.

A blaze, the origin of which is unknown, broke out at 12:03 this morning in a building occupied by the Nebraska furniture store on Plum alley, and only the prompt work of the firemen saved the building from destruction. The damage to the building amounts to only about \$10 but the contents were damaged to the extent of \$200. Both building and contents are covered by insurance.

A man who is in perfect health, so he can do an honest day's work who says, has much for which he should be thankful. Mr. L. C. Rodgers, of Branch, Pa., writes: "I was not able to work, but he couldn't stoop over to his own shoe. Six bottles of Foley's Kidney Cure made a new man of him. He says, 'Success to Foley's Kidney Cure.' For sale by F. J. Hill Drug Co., 'The never substitutes'."

MALLIS IS HELD.

Samuel Mallis, the young man arrested here for forgery and wanted by the San Francisco officers, will remain in jail until an officer from the "Quaker" city arrives. Mallis, through his attorney, William Newton, made a hard fight in Judge Diehl's court yesterday afternoon when the case came up for hearing. He was charged with being a fugitive from justice. Newton did not like a ruling made by the court and said: "We may as well quit the hearing right now." Very well," said Judge Diehl and then he ordered Mallis held.

Clean Cooking

Wherever there's a New Perfection Oil Stove in the kitchen, there you will find the pots and pans clean and bright. The blue flame of the New Perfection is the cleanest flame produced by any stove, and is entirely free from smoke and soot. Another advantage of the

NEW PERFECTION Wick Blue Flame Oil Cook-Stove

is that the heat is highly concentrated by enamelled chimneys. This means quick results. The New Perfection is different from other oil stoves. Made in three sizes, with one, two and three burners. Every stove warranted. If not at your dealer's, write to our nearest agency for descriptive circular.

The **Rayo Lamp** is the best all-round household use. Equipped with the latest improved burner. Gives a bright, steady light at lowest cost. Made of brass throughout and beautifully nicked. Suitable for any room, whether library, dining-room, parlor or bedroom. Safe and satisfactory. Every lamp warranted. Write to our nearest agency if not at your dealer's.

CONTINENTAL OIL COMPANY
Incorporated

Wanted: A Brain!

An employer in the City advertised for a man to fill an important position. This employer is a man of keen business attainments, and has built up in a very few years a trade which he could not afford to give up even to accept a

Salary of \$10,000 per annum

which had been offered him. It is obvious that any one, to meet his requirements, must have business qualifications of a high order, such as are only possessed by a man of brains, and to such a man he offers high salary and other inducements. **He Wants Brains!!!**

Where are the Brains?

Are you satisfied with the kind that only earn for you \$10.00, \$15.00, or \$30.00 a week? Positions with high salaries are open, but it takes brains to fill them. Argue around Robin Hood's barn from now to Eternity, and you come back to first principles, viz., that

Food Builds Brains

and renews the waste and the wear that goes on every minute. If you want to make money you must have a strong money-making brain, and to secure that you must eat food containing the elements which especially feed the brain and nerve tissues.

Grape-Nuts Food

contains these brain-building elements. The food is made of wheat and barley, and in these field grains an all-wise Providence has hidden small quantities of Phosphate of Potash, the vital food for the brain and nerve centres. Grape-Nuts possesses this important element, which is lacking in white bread, potatoes, mush, etc. Besides, in the manufacture of Grape-Nuts the starch in the grains is changed into a form of sugar or pre-digested, so that it is easily and quickly assimilated. Eat Grape Nuts ten days and see how effectively it quickens and sharpens the brain power.

There's a Reason for

Grape-Nuts

KEITH O'BRIEN Co.
