TUTTLE BROS. & WOOLLEY; Progress- Herald Bldg THE REAVIS SYSTEM OF HOME BUILDING MEETS THE PEOPLE'S APPROVAL. Never before has the demand been so great for "THOSE HAPPY HOMES FOR FORMER RENT-PAYERS." Nearly 50 are now in course of erection in Sait Lake City alone and happily the demand is equal to the supply. It now requires three competent super-intendents and how men to keep the wheels of business moving in the establishment of J. Donnan Reavis. System is an important adjunct of this

or J. Donnan Reavis. System is an important adjunct of this great concern and men are hired on the basis of their skill and competency. No work is slighted; only the best of ma-terials are used; every nail that is driven and board that is cut is done under the supervision of a competent superintend-ent; the brick work is laid by mechanics with unsulled reputations for probity and mechanical ability; the finished houses are models of convenience, appearance and solidity—the results demonstrating be-yond doubt that built to order houses are the only kind that fill the requirements of the people.

the only kind that hil the requirements of the people. Mr. Keavis' system of providing the money and starting the buildings on a day's notice has proved to be the only reasible and practical one for those who own vacant land and want. It improved. Delay and doubt are entirely removed from the REAVIS SYSTEM and the monthly payments are scaled so low that they are often less than the renting value of the house.

of the house. The lowest rate of interest is charged and by permitting a system of part payments, the interest is so cut down that on the average it amounts to about 4 per cent on the term of the building loan. The Reavis contracts are flexible and are drawn with a view of doing justice to the purchaser and seller alike. ACTIVITY IN IDAHO.

# Mr. Cutler Reports Building Booming Around Sugar Plant.

Mr. T. R. Cutler arrived from Idaho this morning, where he has spent several days looking over the building operations of the Fremont Sounty Sugar factory at Sugar City, the work at Sugar City townsite, and the farming operations of the two sugar companies. He reports everything in flourishing condition, and says the activity around Sugar City suggests a regular bee hive. Since the spring weather opened, building operations have taken on a sort of boom. One hundred and fifty masons and steel men are today at work on the Fremont factory, and the forces will be steadily increased. Thep lanting of beets is going on briskly both around the Fremont factory and at the Idaho Falls plant, and indications are that both factories will have all they can do to take care of the crops. The Fremont plant from present indications will be

ready before beets are harvested. At Sugar City the building up of the new town is going on rapidly. The two-story brick business block, which the George Romney Lumber company is now erecting for the Townsite company, is well up and will be finished within the next 60 days. The premises have aleady been leased to six business concerns, including a hardware store grocery and dry goods, wall paper and paints, a clothing house and a butcher shop. In the upper story J. H. Wallis will establish the Sugar City Times. One merchandise store has already op-One merchandise store has already op-ened in Sugar City and Mr. Cutler says he was surprised to note the ex-tent of its sales. Opposite the busi-ness block is being crected a bank building and hotel. The bank will be conducted by banking interests already at Rexburg and St. Anthony, including Messrs, Bowerman, Flamm, Comstock, and others. A two-story building to be and others. A two-story building to be run as a restaurant is going up next to the hotel. The Oregon Short Line has contracted to build a rock depot at Sugar City, and the stone is already on the ground. Two jumber and hard-ware firms have bought lots opposite the depot. Sugar City postoffice will be established at once, either in the busi-ness block or the bank building. Nine lets have just been sold for a grain elevator and warehouse which will be built immediately. Mr. Cutler states hat 20 dwelling houses have already been finished, and six more are in process of building, including residences for the head men of the sugar company, Messrs, Mark Austin, J. B. Gaddie and Walter Webb.
