HOUSE.

WASHINGTON, 10 .- The committee on post offices agreed to report favorably the bill to make all public roads and highways post routes, thus saving the time of Congress in considering special bills.

The first bill on the calendar, au-

thorizing the President to appoint T. D. Kirby to be captain in the army, gave rise to a long discussion. Colonel and Brevet General Kirby was cashiered from the army for drunkenness and conduct unbecom-

ing an officer. The bill passed—yeas, \$7; noes, 63.
Craven, of Arkansas, introduced a bill authorizeng the Mississippi, Albuquerque & Inter-Ocean Railway Company to construct a road through the Choctaw aud Chickasaw reser-

vation; referred. A communication from the Secretary of the Treasury gave the names of officers and employees of the Internal Revenue Bureau and Department of Justice killed or wounded in the enforcement of the internal revenue laws. Number killed, 29; wounded, 50. The names of eight persons are also given who were assaulted and wound d for supplying internal revenue officers with information.

Adjourned until Monday.

The Pacific Railroad lobby is very much agitated over the proposition to compel settlement of the cost of the surveys of Kansas. There was some \$,000,000 acres in Kansas which had been surveyed by the government; but the land being granted to the Kansas Pacific road it is not obliged to pay the cost of the survey and perfect its title unless the company sees fit to do so. The result is that alternate sections and adjacent lands enhanced in value while no tax is paid upon it by the palm is for the company to sell on easy payments covering 10 years at a good rate of interest. The plan is for the company to sell on easy payments covering 10 years at a good rate of interest. The title is not transferred to the purchaser until the last payment has been made, and in the mennwhile no one is obliged to pay the cost of survey until the settler has made his final payment for his farre. In this way the road is able to offer as a special inducement, freedom from taxes on land bought from the company for a term of years. In the meantime, the rest of the land in the neighborhood is obliged to be taxed for the cost of survey until the settler has made his final payment for his farre. In this way the road is able to offer as a special inducement, freedom from taxes on land bought from the company for a term of years. In the meantime, the rest of the land in the neighborhood is obliged to be taxed for the cost of schools, etc. Anderson, of Kansas, is making a vigorous fight against this abuse, and has his bill well under to be taxed for the cost of schools, etc. Anderson, of Kansas, is making a vigorous fight against this abuse, and has his bill well under way. Next week the railroad will have the question argued before the committee, but the indications are that the bill will be reperted to the House favorably.

Marshalthere cannot get any money. want of means. The United States Marshal there cannot get any money to pay the expenses of his office, and therefore can't make arrests. The law requires all United States marshals to turn into the Treasury at the end of every fiscal year the Government money which they may have on hand. This, the Marshal of Arizona has refused to do for the past two years. Until he does turn in such money the First Comptroller of the Treasury will not recommend that any money for the expenses of his office be advanced to him. When the cowboy troubles were serious a short time ago, some money was advanced the Marshal's office in

Arizons, but it was not sufficient to do much good. The fact that the Marshal has not complied with the law has been laid before the President with recommendations that a change be made.

Territorial. The Senate committee on Territo-ries to-day heard Paul Schulize, of Oregon, president of the Alaska Trading and Fishing Company, and M. D. Ball, of Bitka, in advocacy of favorable action on the bill introduced by Senator Grover and Re presentative George, to provide a civil government for southeastern

The committee then took up Sen-ator Vest's bill to establish a United States court in the Ind'an Territory, and for other purposes. Several sections of the bill were discuss ed up to the hour of adjournment, and the measure then went over as unfinished business for the next meeting.

Burrows' bill defining the qualifi-cations of Territorial delegates by excluding polygamists, which passed the House of Representatives last Monday, was not taken up by the Land Frauds.

Beck said that the principle had been announced, that the arrears of pensions could be given to pensioners of all our wars, irrespective of their circumstances, and if this was carried out it would bankrupt the cuntry. The resolution was laid aside, and Frye made a speech upon the tariff. When Frye concluded his speech, there was an executive session, and the Senate adjourned till Monday.

BERLIN, 10.—Considerable sensation has been created by a prominent paragraph in the North German Gazette accusing the Progressist press of attempting to influence the Judge in favor of Professor Mamballa Irrigating Company, exclusive right to appropriate, divert and distribute through canals, for irrigating purposes, the waters of the specified rivers in those Territories, for the purpose of aiding the construction of personally, still less that they were purpose of aiding the construction of canals. The House committee on Indian affairs have unanimously reported in favor of the passage of the bill in-troduced by Representative George to authorize the auditing of unpaid accounts in the Treasury and Interior Departments for supplies fur-nished and services rendered to the Indian Bureau. Large numbers of these claims are held in California, especially by San Francisco merchants. Recommendations for the enactment of this bill have also been obtained from both the departments ramed.

The Pale Faces are our Enemies.

Another curiosity in legislation came before the Senate yesterday In the shape of a bill to pay to one Lother, of Vermont, \$34 as the proan ante-mortem statement, which is now being taken by the proper officers. It is generally conceded that the ball which hit him was fired by his brother, although, of course, aimed at Barton; but this cannot be positively determined until the ball is extracted and compared with the callbra of the control of the customs authorities of two white faced steers. This claim has been before Congress for ten years, and the Senate yesterday approved it. A Highly Respectable Thief.

pared with the calibre of the pistols used by Barton and the younger Soteldo. The primary cause of the affray was the publication by Barton of an article in the Republican descriding an alleged disturbance by Soteldo in a house of ill-fame. This article, it is said by Soteldo's friends was sent to Soteldo's wife, and caused her to separate from him. She is with him to-day, however, and much sympathy is expressed for her and their two children. There is also considerable sympathy expressed for Soteldo himself, as he possessed many attractive qualities, and his errors are mainly attributed.

A Highly Respectable Thief.

St. PAUL, 10. — D. H. Vander-hoof, first book-keeper in the First National Bank of this city, was arrested by the United States Marshal to-night for the embezzlement of an amount variously estimated at from \$20,000 to 30,000. He has had charge of the books many years and has systematically manipulated the acceunts to cover his stealings. It is thought the money is absorbed in dissipation and grain speculation in which he was very successful until he was caught in a re ent bear movement in wheat.

Appeal by Harker Smith, a young lawyer of Atlanta. About noon Three men state they heard Soteldo threaten yesterday to kill Barton.

A. C. Soteldo was arraigned in the police court to-day, charged with assault with intent to kill his brother, Antonio M. Soteldo. He was committed to jail to await the result of his brother's injuries.

Soteldo has regained entire consciousness, but is paralyzed from the head down, and his death is only a question of a short time. He carried a pistol for several days merely for his protection, as he had been sleeping alone in a new ho se in a remote part of the city.

B. E. Lands.

A. C. Soteldo was arraigned in the police court to-day, charged with assault with intent to kill his brother as ensational article published about Smith the day before. Dewitt declined to apoligize or retract, when Smith struck him with his fist, knocking ihim down. Before Dewitt arose, Smith's friends hurried him from the office. The assault has created great excitement, and blood is expected. The article which caused the assault accused Smith of seducing and deserting a woman, who is now in Denver, Col. It was highly sensetions, and as Smith is well known and stands high in Atlanta social circles, he felt himself greatly wronged.

The Daily Telegraph declares statesmen outside the influence of the treasury considers it an invitation to reopen the discussion.

The Morning Post says it is a direct incitement to the Home Rulers

The Daily News contends Glad-stone's meaning is mistaken. There seems to be a very general impres-sion that the government will have the utmost difficulty in securing a majority for Gladstone's cloture proposal.
