S. D. Evans has returned from a week's trip to Portland. He says that while the coming exposition is not very large, it will be choice and everything in it will be worth seeing. A notable feature is to be the great log house with logs as part of its make up seven and eight feet in diameter.

C. R. Savage is the happy exhibitor of a Ponderosa lemon weighing 1 1/2 ounces and 10 1/2 inches in circumference. Mr. Savage raised this lemon on a tree in his front bay window in the Twentieth ward, and thinks that for lemon tree culture the Twentieth ward can not be beat, in Utah.

David G. Calder has withdrawn from the Clayton Music company, and will retire to his ranch on the Provo bench. Mr. Calder has been in the music business in this city for 35 years, succeeding his father, D. G. Calder, who was well known pioneer in the music trade, and has been the means of bringing to this city many musical celebrities, and has been a well known and familiar figure in musical interests in the far west.

A horse belonging to the Crabtree Produce company, while being driven through the archway on Commercial street back of the Utah Hardware company's store, yesterday afternoon, broke through the pavement into the cellar beneath. It was found necessary to cut the harness loose from him and let him go toward the bottom, 10 feet. The animal was then led up stairs and out of the front door of the

hardware store, to the amusement and edification of a crowd of people who had gathered to "see the show."

At the Hawaiian missionary reunion in Barratt hall next Saturday evening a musical and literary program will be rendered, including selections from the Hawaiian, an address by Hon. William H. King on the "Mythologies of Hawaii," an operatic selection, "Tell Me Pretty Maiden," a recitation by Miss Arden Blair, and other interesting features. All interested in the mission are invited. Walker is 29 years of age and his parents live at 138 east Eighth South street. He was brought in from Bligh-wood last week. W. H. Philbrick of American Falls, member of the new state sanitary board of Idaho, is in the city today. He believes that the board will be successful in cleaning the sheep this year, and that the new sanitary board consists of other diseases of animals that have appeared in the state. Mr. Philbrick says that Idaho would have the best wool crop this year in the history of the state. The new sanitary board consists of three cattlemen, three sheep men and one horseman, the latter holding "the balance of power" when the other interests are arrayed against each other.

In the letter from President S. H. Lott of the state senate, published in Saturday's impression of the "News" two typographical errors occurred in the statistics quoted. The first made it appear that the demands of both of the colleges were less than \$100,000 two years ago, when it should have read "ten" years ago. In the second instance 409 was printed as 40 per cent, making the line "out of a student body of 7,200" read "out of a student body of 409 of college grade, read only 40 per cent are of college grade." These errors made it appear that the figures quoted were inaccurate, which was not the case.

S. F. Fenton has returned from San Francisco, where he left Mrs. Fenton improving in health. Mr. Fenton reports that San Francisco business men have become so aroused over the middle in local municipal administration that they are calling for a change on the evening of the primaries and attended those functions in person. They propose taking an active hand in politics themselves, and seeing to it personally that only fit men are nominated for office. They have become tired of having San Francisco managed by ward heeled men. Mr. Fenton gives that city an irreproachable climatological record, and says that the grass in the country is a foot high. The change to the winter climate of Truckee where everything is on runners, is a little violent. The snow sheds on the Southern Pacific are a terror from which Mr. Fenton was most pleased to escape.

CAPTIVE FLYING MACHINE. Wonderful achievement in Mechanics To be a Feature of the "Trail"

Portland—On the "Trail" at the Lewis and Clark exposition, opening in Portland, June 1, there will be exhibited a prototype of Sir Hiram Maxim's captive flying machine which is at present proving the chief attraction in the Crystal Palace, London. The captive flying machine concession, is, perhaps, the most sensational of any let by the department of concessions.

The flying machine consists of a great central cylinder, 150 feet high, with 10 projecting arms, from each of which is suspended an airplane. In these the passengers take their aerial flight. When in flight, the airplane is held in the luxuriously fitted ships the huge arms begin to revolve and the ships swing out in ever widening circles until the limit of the steel cables is reached. Under the midway the ships travel more than 1,500 feet at each revolution and by their own momentum are carried high in the air.

"Absolute safety is the paramount feature of the captive flying machine," says Sir Hiram Maxim, its inventor, "as it is constructed throughout of the finest quality of high tension steel. The location selected for this novel attraction is in a place where the wind is the "trail" opposite the experimental gardens, so that the people riding in the ships may have a matchless view, not only of the fair, but of the surrounding landscape within a radius of 100 miles.

A Dandy for Burns. Dr. Hergin, Pana, Ills., writes: "I have used Ballard's Snow Liniment always when there is no better made. It is a dandy for burns. Those who live in farms and country have many accidents, cuts, burns, bruises, which heal rapidly when Ballard's Snow Liniment is applied. It is always to be had in the house for cases of emergency." 25c, 50c, \$1.00 bottles. Sold by Z. C. M. I. Drug Dept.

BIDS WERE TOO LOW. Board of Education Members So Decided Except as to the Whittier School.

At the second meeting of the committee on buildings and grounds of the board of education yesterday afternoon, all of the bids for the sale of school property, with the exception of one, were rejected, as being too low, and the property will probably be re-advertised. The committee decided to recommend the acceptance of the bid of William McLachlan for the Whittier school property for the sum of \$5,500. Bids will again be asked for the sale of the Thirteenth ward, Longfellow and Irving school properties.

The Very Best Remedy for Bowel Troubles—No Family Can Afford To Be Without It. "I regard Chamberlain's Colic, Cholera and Diarrhoea Remedy as one of the very best remedies for bowel troubles," says Mr. J. W. Hanson, editor of the Despatch, Ocala, Georgia. "I have used this remedy after having used the medicine in my family for several years. I am never without it. No family can afford to be without a bottle of it. It is a certain to be needed sooner or later. For sale by all druggists."
