What a Goldfield Paper Says About

Harry Joseph's Purchase. Of the purchase of the Peekaboo group of claims in the Klondike district, near Goldfield, the News of that camp has this to say:

"The Peekaboo group of four claims, in the Klondike district, three and one-half miles from Klondike Wells, has been sold within the last few days for the sum of \$30,000. The sellers were Joseph Murachi and Joseph Pot-ter. The buyers were H. S. Joseph and E. H. Meade, formerly of Salt Lake, and FrankBenedict and John J. Mullin, the well known operators of Manhattan. The property purchased is traversed by an enormous ledge, averaging 60 feet in width, and the en-

tire ledge runs 35 ounces in silver. "Not much work has been done on the property, the deepest hole being 14 feet, but assays as follows have been taken, which are representative been taken, which are representative of the value of the property: Thirty ounces silver, 2 of gold; 316 opunces silver, trace of gold; 576 ounces sil-ver, and 256 ounces silver. The ledge carries from 3 to 5 per cent copper, and the surface showing indicates the making of a big mine. The first payment on the property was made early this week. The company will be organized and the property thoroughly explointed."

LOST MINE FOUND.

A Nevada Negro Has Walted Twenty Years for His Reward.

About 20 years ago Milt Campbell, an old negro, created great excitement an old negro, created great excitement in Elko by exhibiting a large boulder fabulously rich in gold, says the Free Press. He claimed to have found it in the foothills near Elko, but when in company with C. H. Sproule, Joseph Rosenstock, J. Alexander (all deceas-ed) and F. F. Muller, now of Los An-geles, he started out to locate the ledge from which he claimed to have taken the speciment he could not find taken the specimen, he could not find. It. Several days were spent in a fruit-less search when all the men became disgusted with Campbell, thinking that he was making rainbow chasers out of them. During all these years, how-ever, Campbell has maintained that he took the specimen from a ledge and has often secured assistance to look for his lost mine. The fact remained that he had a beautiful specimen and where he could have gotten it unless as he claimed, remained unanswered. claimed, remained unanswered. During the past few months Camp-bell has spent considerable time look-ing for the ledge and it is now believed that it has been found. Yesterday a number of locations were made in the foothills about three miles south of Elko and foday several men were seen starting out with powder, fuse, drills, etc. and they are reported to have shown some splendid specimens. The ind is reported to have been made by Dan Franks and is in the neighbor-hood where Campbell used to cut hood where Campbell used to cut Those interested are maintaining strict silence but it has been pretty thoroughly noised about that they have a very rich claim. If they have really found the old Campbell ledge they undoubtedly have a bonanza which will create a big mining excitement.

of the company closing on the 12th inst. at noon.

The properties of both companies were reported to be in excellent condi-tion and that an increase in the amount of dividends to be paid in the future is not unlikely.

MAJESTIC SMELTER.

Plant at Milford May be Placed in Commission Again.

While information of an official character is lacking, there is a probability of the Majestic smelter at Milford be-

of the Majestic smelter at Milford be-ing fired up again. The "News" is in receipt of informa-tion from Milford today to the effect that, acting under instructions from Managing Director E. E. Abercrombe, W. H. Nutting, an expert smelter man and former superintendent of the Bing-ham Con. plant at Bingham Junction, had been at the Majestle company's smelter for the purpose of inspection. Late developments at the Harring-ton & Hickory mine, in which an im-mense tonnage of silver-lead ore has mense tonnage of silver-lead ore has been blocked out, have been such that

Mr. Abercronible has reached the con-clusion that it would be a good plan to place the lead stack in commission and, place the lead stack in commission and, possibly, the copper matting furnace as well. The latter was operat-ed for a few weeks a couple of years ago, and then closed because of the lack of ore. Mr. Abercromble departed for the east this afternoon, carrying with him the report of Mr. Nutting, who reached the city during the forenoon.

CONCENTRATES.

Judge William C. Hall has returned from a trip to Goldfield and other Ne-vada camps. Tomorrow is the date set for the de-inquent sale of stock of the Century

fold Mining company. The Yankee Consolidated Mining ompany has awarded the contract for

10-drill air compressor. Henry Newell has returned from alifornia to give his attention to mita-

ng interests in this state. John Dern has returned from mak-

ing an inspection of the Lower Mam-moth mine in the Tintic district. Ernest Bamberger, manager of the Daly West mines, departed for Nevada this afternoon on the Overland limited. General Manager M. L. Requa of the Nevada Consolidated is again at the offices of that corporation in the Dooly

block. Manager R. H. Channing has re-furned from a trip to the executive of-fices of the Utah Consolidated in New York.

Manager Lafayette Hancheit of the Newhouse mines has returned from a trip to the Cactus mine in Beaver county.

Many altribute the decline in Silver King shares to the pending lawsuit in-stituted by James McGregor and associates.

A trial shipment of ore from the Shen-andoah property in the Good springs, Nev., district, reached the local mar-kets yesterday. Otto Stahlman, general manager of the Glasgow & Western Exploration company, has gone to Chicago on *

business trip.

It is reported that Samuel Newhous-has secured options on a group of attractive mining claims in the Loon Creek, Ida., district.

UNION IRON WORKS.

Damage Done to Vessels There Was Considerable.

San Francisco, May 9 .- A survey by the underwriters shows the damage done to vessels at the Union Iron works by the earthquake to have been considerable. The two 500 feet long freighters Mexican and the Columbia, In course of construction for the Amer-ican-Hawaiian Steamship company were found forward in their cradles and damaged to the extent of about \$15,000 each,

The Harriman steamship Columbia, on the dry dock, was thrown on one side, wrecking the deck and damag-ing the vessel to the extent of \$100,-060. The Columbia and the dock later A pair of heavy shear legs fell on the City of Puebla, inflicting damage at about \$15,000. The Puebla will be in commission in about a month.

FINE JOB WORK

Turned out on short notice at the Deseret News. A big shipment of new types and supplies just in. Our facili-ties for letter heads, bill heads, tags, en-velopes, pads, etc., etc., are unexcelled by any establishment in the west. THE DESERET NEWS.
