**Question of Deferment Considered but  
Decided Against as it Would Es-**

(Special to the "News.")  
Washington, D. C., Nov. 10.—The secretary of the interior has made an important announcement relating to the payment of the first installment of the construction cost of the irrigation works on the Minidoka project, Idaho. The reclamation act provides for the return of the government's investment in not to exceed 10 annual payments. Heretofore the

This project will be delinquent on Dec. 1, 1908, and they are notified that the first payment of \$2.50 per acre must be made not later than Dec. 1, 1908, or they will be canceled and all rights under the law, together with all moneys already paid thereon, will be forfeited. The secretary has given careful consideration to the request for a number of settlers for deferment of the first payment. Owing to the fact that such deferment would establish a precedent which undoubtedly could be utilized by settlers to postpone payment on other projects, he decided that the first payment should be payable Dec. 1, 1908. Another reason for this decision was the fact that more funds to complete the plan of this project so that water can be supplied to the settlers who are already located there and also completed the project, must be upon which the work is well under way.

a complaint sworn to by J. W. Wooten, an alleged lawyer who was denied admission to the bar of Utah, was assigned to the charge of criminal libel. The defendant was represented by Arthur Christensen and the name of H. A. Smith was also entered upon the record as associate counsel for Weaver. A plea of not guilty was entered and the case continued without date. The hearing of the matter will be decided upon by counsel for prosecution and the defense.

Vienna, Nov. 10.—An encounter between two warring factions of students attending this morning's classes resulted this morning in injury to about 100 of the young men.
