AMERICAN.

Wired from Washington. Washington, 7 -Secretary Lamar and Indian Commissioner Atkins re-

open to visitors on Sunday. been summoned to attend it as there is no business to be considered requiring their presence. It is expected that all the cabinet officers will have returned to Washington by the 20th. It is stated at the White House that the President purposes to dispose of the pending business before seriously considering matters to be brought to the notice of Congress is his annual mes-

sage. Surgeon Main, of the Marine Hospital service, has reported to the Surgeon-General at Washington the details of a visit of inspection to Tampico, Bagdad, San Fernand, and other cities in Mexico near the bordef line, from which it appears there is no danger of an introduction of an epidemic of any kind from that

Lleuteuant George M. Storey, commanding the Alaska exploring expedi-tion, reports to the Navy Department from St. Michaels, Alaska, June 30th, that after leaving Ounalaska on June 9th he visited the new volcano on Bog-osloo Island, and found the only changes since last year's visit to be a logs cost about \$150 each in exchange

Thomas Hughes, postmaster at Albuquerque, New Mexico, and Assistant Postmaster Clark have been arrested, a shortage of \$1,200 having een discovered in the accounts of the Alexandria A. Gambril, of Illinois, has been appointed Chief of Division

in the Second Auditor's office CHOLERA AT MARSEILLES

Consul Mason at Marseilles has sent o the State Department a further report dated August 27th on the cholera epidemic. He says: "Accepting these statistics as now published they are undoubtedly quite below the truth. The deaths from Asiatic cholera in Marseilles since the 20th inst., inclusive, have numbered by days as follows: 46, 49, 46, 45, 45, 49, 27. The toal deaths from all causes during the ame days: 102, 118, 92, 86, 83, 70, 63 This considering that the normal death ate at Marseilles is less than 30 per day, frightful record and shows that us and typhoid fevers are ravaging city with a scarcely less dly vehemence than that of the lera itself." Mr. Mason says that partures from the city number about 1800 per day, but there has been no asic like that of 1884. The newest culiarity of the cholera both at Toun and Marseilles, Mr. Mason says, is tendency to complication at an early tage with typhoid fever combination,

rom which few patients are ever res-First Comptroffer Durham to-day stopped the requisition to pay the salary of A. J. Cresswell, government counsel before the Court of Commisioners of Alabama Claims for the onth of August until it is settled that there is any balance due him. The First Comptroller takes the ground that Mr. Cresswell is not entitled to a fixed salary of \$8,000 per annum, but that the law organizing the court provided that the government counsel should receive a reasonable compenation, that is, compensation for each ase tried, and that subsequent laws imited such compensation to \$8,000 per annum. The court, however, he says, neglected to ax the amount of a reasonable compensation and has illegally treated it as a fixed salary.

The Race Postponed-The Puritan Virtually the Winner

SANDY HOOK, 7, 9.40 p.m.-The race caween the Puritan and the Genesto has been postponed until to-morrow. to the lateness of the start the initial race between the Genesta and the Puritan, and to the lack of wind alterward, the yachts succeeded to-day in making only half the course, or twenty miles. In this twenty mile heat the Purttan squarely out sailed the Genesta one mile in ten and nearly two in twenty. The haze settled upon he bay all morning and there was no wind from any quarter until nearly noon. A hundred sails of yachts lay on the Horse Shoe at Sandy Hook this morning when the judges boat, Luckenback, arrived from New York with the judges—Messrs. J. F. Tams, Chas. stebbins and Philip Schuyler. At 9.45 a.m. Jay Gould's steam yacht, Atlanta, passed out by the Hook followed in ten minutes by the tug, Luther C. Ward, towing the sloop Puritan. She was saluted by the guns from nearly every steam yacht in the fleet while on her way to Scotland lightship, the starting point. The Genesta remained in the Horse shee, while Wm. Krebs of the New York Yacht Club, representing the Puritan, was put on board from the judges' boat. She then proceeded un-der sail on port tack to the Lightship. The English cutter was also saluted by a large fleet of yachts now under weigh. The tide was running flood during the forenoon; 217 vessels of all sizes and rigs were assembled within a circle of a mile of Scotland Lightship then lying to the southwest. By skilful management the skipper of both yachts brought them close enough to the line between the judges' boat and the Lightship on point tack to cross. In a few seconds after the starting signal the Puritan slipped across first, close up to the judges' boat at 1:35:55; but for some leason the cap-

tain of the Genesta tacked to star-board, just before reaching it, losing I minute and 42 seconds, add being han-dicapped 37 seconds thereby. She crossed at 1:37:37 official time. Capt. Crocker, of the Puritan, which boat ooked very handsome, with her mainsall sprit, topsail, forestay sall, jib and jib topsail set, meant "fight" from the start. At the moment the Genesia crossed the line the Paritan came about New Stove & Tinware Store! and in 30 seconds had filled away the starboard tack with the Genesia a hundred yards on her lee-board. The course was right in "the wind's eye," and a tug had started 10 minutes beauting out 20 miles to the windfore to log out 20 miles to the windward, and had placed a stake buoy for the yachts to round. Cheered on by the shouts of hundreds of spectators and followed by the immense flotilla of pleasure craft the contestants headed due east on the first reach. headed due east on the first reach. Finding that he could neither pass the Puritan to leeward or "outpoint? him, Captain Crocker, after 23 minutes, suddenly put the Genesta about to cross the Puritan's stern. But Capt. Crocker put his helm down, at once bringing the handsome white sloop around 40 seconds later. The Genesta was full of tricks, for round she came again in less than a minute, followed by the Puritan again in 40 seconds. Both yachts were carrying exactly the same canvas. Instead of gaining by the little skirmish which he had inaugurated, the Captain had lost, as the Puritan had gained a decided advantage. Both yachts went about at

I WA BASP FIFTH TO LILL ST.

spectators and proving the superior ing classes of the country. In arrangspeed of these boats as compared with
the old models. At 6:30 when the
judge's boat arrived at the outer mark
it was sundown. The wind was growter movement on the part of the Anand Indian Commissioner Atkins returned to this city on Sunday night.

About 700 Knights of Labor from ling lighter, and the yachts being then lightly architectured on Sunday. They were entertained by local light required time—a limit of seven from the British provinces on account Richmond, Va., vi-ited this city day. They were entertained by local assemblies of the order of this city. In the required time—a limit of seven hours, so the regatta committee orhours, so the regatta committee orhours, so the regatta committee orhours. Through the efforts of Gen. Rosecrans and the Register of the Treasury, they were allowed admittance to the Capitol and speat several hours there. This is the first time the Capitol has been before dark, and the Genesta and Pa A meeting of the cabinet will be held ritan were towed back to Horseshoe, to-morrow. The members who are The result of to-day's contest is absent from the city have not however, thought by experienced men to be a convincing proof that the Paritua can Defrauded of Twelve Million Acres.

GALVESTON, 7. - The News, some weeks ago, charged that nearly \$2,000,-

000 had been lost to the people and the school fund of Texas by the misman-agement of the State land affairs or something worse. In its issue of Sunday moruing the News editorially says on the same subject: To show to what extent the school fund has been robbed in the last ten years some official figures are submitted. In 1875 the new constitution gave one-half of the public domain to the public schools beside alternate sections located by virtue of railroad scrip. At that time there were already located for the school fund 11,358,600 acres, and there were 67,580,-129 acres of vacant, unappropriated public domain, which latter has been exhausted during the past ten years. The school fund under the constitutional provision denatfund, ought to have received 33,790,064 acres, being half the land disposed of chances since last year's visit to be a less discharge of smoke and steam and a small point making off from the northwest end. At the new volcano birds were nesting. At St. Michaels, Lieutenant Stoney secured nearly all line that time, which added to the acreage owned by the school fund in 18.5 would make a grand total of 45.476,665 acres of school land less 8,037,804 acres that have been sold. Thus the school for the land disposed in that time, which added to the acres age owned by the school fund in 18.5 acres of school land less 8,037,804 acres that have been sold. Thus the school fund in 18.5 acres of school land less 8,037,804 acres that have been sold. Thus the school fund in 18.5 acres the land disposed in that time, which added to the acres age owned by the school fund in 18.5 acres of school land less 8,037,804 acres that have been sold. Thus the school fund in 18.5 acres of school land less 8,037,804 acres that have been sold. the fur clothing required, also eighteen fund ought now to have unsold located good dogs and three good teams. The lands amounting to 37,137,860 acres dogs cost about \$150 each in exchange for a trade of goods. An interpreter was also engaged and shipped astan ordinary seaman. He expected to leave at once for St. Lawrence Bay and thence to proceed to Hotham Inlet. All on board the schooner Viking were welland showed great interest in the work ahead of them.

Thomas Hughes, postmaster at Albuquerque, New Mexico, and Assistant Postmaster Clark have been arbured as a mounting to 37,137,860 acres. But it has in fact only 24,678,297 acres. This fund, then says the News, has been defrauded of 12,459,563 acres, worth \$25,000,000. Some time there will be a sure enough investigation of land matters in this State. Twelve million acres may be a small matter, but it is worth hunting up. It is about 1,000 acres for every pupil in the public schools. How would it do, says the News, for the Grass Commissioner to be put on the trail of these lost lands. lands amounting to 37,137,860 acres

be put on the trail of these lost lands? The Wabash Troubles Adjusted. Sr. Louis, 7.-Messrs Powderly and Turner held another conference this afternoon with General Manager Talnadge of the Wabash Railroad and presented their request as previously outlined in these dispatches. The request was not made in a written form out was presented in the course of a onversation and was accepted and agreed to by Col. Talmadge and the latter gentleman dictated in the preence of Powderly and Turner the tollowing order which was at once telegraphed to the Superintendent of Motive power and Machinery of the Wabash road with directions to instruct their subordinate officers accordingly "In filling the vacancies caused by the discharge of men for incompetency or by their leaving the service, give old men the preference over strangers or new men, asking no questions as to

whether they belong to the Knights of Labor or any other organization.' This is understood to have been entirely satisfactory to Messrs. Powderly and turner, and the belief now is that the actual settlement of the trouble has been reached and that an official notification will be promulgated to the Order to that effect. Powderly and Turner left for Cincinnati to-night.

Ward and Warner's Rascality. NEW YORK, 7 .- The suit brought by George C. Holt, as assignee of Ferdin-and Ward against Wm. S. Warner, to have set aside the transfer of property made by Ward to the defendant and others just prior to the failure of Grant & Ward, was continued to-day before the referee. Mr. Ward was again called to the stand and testified that of March 1st, 1884, there was due Mr Warner about one million dollars, for which he gave new obligations, upon which he was to pay Warner 20 per cent. a month. These obligations were to fall due September 1st, 1884. Mr. Ward said that the transfer of his property to Warner was made on May 7th, 1884, and that the total amount of the obligations for which he gave notes was \$587,560. The hearing will be continued to-morrow.

Investigating Gotham.

New York, 7.—The committee ap-pointed by the Senate to investigate the government of New York City and its departments, iheld its first session to-day. A resolution was passed requesting the Corporation Counsel to communicate by letter with the vari-ous heads of departments and with the officers of the city and county with a view of obtaining from them suggestions and facts to assist the committee in its work. The comptroller's office sent in summary reports of that department covering a period of over forty years. It will be used as a basis for the beginning of the luvestigation in detail.

FOREIGN.

The Carolines.

Paris, 7 .- De Freycinet, minister of oreign affairs, is hurriedly returning to Paris, in consequence of the excitement occasioned by the Carolines af-fair. The Spanish residents at Marseilles threaten to attack the German consulate in that city. The local authorities have taken steps to pre-vent any repetition of the Mad-rid outrage. The newspapers rid outrage. The newspapers of Paris are commenting on the difficulty between Germany and Spain. They insist that Prince Bismarck is trying to embroil the French in the

SUNDAY SCHOOL UNION MEETING.

The September meeting of the Desret Sunday School Union, took place n the Assembly Hallon Monday even-ng, commencing at 7.30 p.m., Stake Supt. J. C. Cutler, presiding. The Sixth Ward Silver band rendered some selections on the opening of the meeting, after which, the First Ward thour, who furnished the music during the evening, sang "Glorious Things of Thee are spoken."
Supt. Alexander Steele offered up

prayer, and the choir sang, "When the Rosy Light of Morning." At the time the roll was called, all the city wards, with the exception of the Tenth were represented, and Big ottonwood, East Mill Creek and Farmer's Wards of the country. Stake Superintendent Cutler said he was gratifled to see so many present and hoped all present would observe

The band played another selection. Ass't. General Supt. George God-dard, in his address on "Duties Connected with the Superintendency of Sunday Schools," said we have a Saboath school in every Ward in this Stake of Zion. Each Ward is governed by a Bishop and two Counselors, who in connection with the Teachers, have enough to do to look after the interests of the people, besides Primary, Young People's Associations, Relief Societies, and Sunday schools. When a school is organized, the Bishop of the Ward and the Stake Superintendent select some person to take superintendence, and other officers are appointed. whose duty it is to give the children a religious training. The superintendent has a corps of teachers to assist him, who should find out how many school going children live in the district, and an invitation should be extended to every person to attend. It should be the ambition of every Superintendent to gather in all the children possible in his Ward. Another important duty should be

the commencement of the school ou time. The superintendent should a man whose example would be worthy of being imitated by the children. A monthly teachers' meeting should be held, the school being dismissed half an hour earlier on such days, to have a full attendance of teachers present. The Union has published rules for the guidance of superintenints, which can be had free of cost. Another duty to be observed in our schools is the administration of the Sacrament. The singing should be entered into by the whole school. We have over 40,000 Sunday School children throughout the various Stakes of Zion and not one of the officers or Adjutant General Drum had a conference with the President to-day in regard to the troubles in Wyoming Territory, and gave him an account of the steam already taken a recount of the steam already taken an account of the steam already taken a

tice in your daily lives. Do not touch, taste or handle anything that will steal away your brains. When you leave this house go straight home, and do not stand on the street smoking cigarettes. In conclusion the speaker said that if those present lived to his age, they would then realize and know the truth of what he had told them. . The choir sang an anthem, "Let

DAVID R. LYON,

Assistant Secretary.

TO STOCKGROWERS. A CALL FOR REPORTS OF LOSSES BY

STORMS, EIC.

Salt Lake City, September 7, 1885.

Editor Descret News: Inclosed please and a letter from Mr. A. T. Atwater, secretary of the National Stock-Growers' Association. Please insert it, as it is very important to the stock men. Sometime during last winter the U.S. signal Service was instructed to give the storm reports to the stockmen as well as the marines, so they could look out for their therds. The stockmen will see by reading the letter of instruction, what is required of us, and I hope that the president and secretary of each association throughout Utah will send in a report giving the number of stock, horses and cattle, in their county- no tax report. but an approximation, with the probable number of deaths last winter. The executive committee are especi-

send in reports of disease in their midst, if there be any, and the nature of the same Hoping that all the stockmen will be at our convention in this city on the 1st of October.

ally requested to aid in this matter and

I remain, respectfully, H. J. FAUST. Sr. Louis, Mo., August, 186. H. J. Fanst, Vice-President National

Stock tiruwers' Association: Dear sir The great success of our neeting last fall is a matter of history, and I feel that it is unnecessary to call to your attention the pronounced benefits that are to accrue from a united and harmonious discussion of quetions of interest to cattle men at the approaching second annual meeting of the Association. It is highly necessary that the status of the cattle industry in every State and Territory of the U S. be presented at this meeting, and you are therefore carnestly requested o prepare, at the earliest possible moment, a general review of the cattle interest as it to-day exists in your Territory, embracing all the points that were discussed last year, and including such statistical information as you may be able to present. This address is to be published in the proceedings of the Association. proceedings of the Association, and due credit will be giv-given to the writer. Should you find that you can not spare the time, to prepare it, I would suggest that you call on some member of your executive committee who is fitted both by education and experience to prepare such an article, and that you request of other members of your committee their general co-operation in the mat-ter, making the address at once reliable and intelligent, and creating, as far as possible, an article that will be acand West, so far as it may relate to the cattle industry of your district. The great volume of work devolving upon the secretary renders it necessary for him to call upon you to assist him as above, and in lending all other aid in your power, as without it it is simply impossible for him to present an intel-ligent review of the industry, and I

of the requests herein contained. Yours very truly, A. T. ATWATER, Sec'y.

earnestly ask a substantial recognition
