

# PRESIDENT'S OFF FOR PANAMA

Shouts "Good Bye, I am Going Down to See How the Ditch is Getting Along."

FLAGSHIP IS THE LOUISIANA.

After Inspecting the Canal He Will Pay a Visit to Island of Porto Rico.

Washington, Nov. 8.—"Good bye, I am going down to see how the ditch is getting along," shouted President Roosevelt as he stood on the after starboard deck of the yacht Mayflower at the Washington navy-yard, as the vessel was leaving the dock with the president for his Panama trip.

Accompanying the president were Mrs. Roosevelt and her maid, Surgeon-General Kiley of the navy, and M. C. Latta, one of the assistant secretaries at the White House. The Mayflower will take the party to Wolf Trap light, at the mouth of the Rappahannock river, where a transatlantic cable is being laid, and then to the battleship Louisiana, which is to convey the president to and from the isthmus.

President and Mrs. Roosevelt arrived at the navy-yard shortly before 4 p. m., where they were met by Secy. Loeb, Capt. Latta, the commandant of the yard, and Capt. A. F. Long of the Mayflower. A company of marines and a detachment of sailors were drawn up before the wharf, and as the presidential carriage arrived a welcome was sounded from the bugler aboard the ship and from a drummer in the marine ranks. For a few moments the president and Mrs. Roosevelt chatted with the naval officials on the wharf, and then she and the president stepped aboard the starboard of the ship. The band played another welcome, and the band sounded the gang-plank aboard the vessel. Here had assembled to meet them Postmaster-General and Mrs. Corcoran, Ambassador Jusserand and Mme. Jusserand, who carried a large bunch of flowers for Mrs. Roosevelt, and James H. Gardner, the commandant of operations. They remained with the president for about 15 minutes, until the order was given to start. Then a United States flag was run up to the mainmast, the gang-plank was taken up, the ship loosened from her moorings, and the trip to Panama was begun.

As the vessel started, President Roosevelt appeared on deck and shouted a good-bye to the crowd which had assembled. He appeared to be in particularly good spirits and remained on deck until the vessel was out of sight. As the ship passed the lower end of the navy-yard a parting president's salute of 21 guns was fired.

The Louisiana will be conveyed to the isthmus by the armored cruisers Tennessee and Washington. Aboard the Louisiana is Lieut. Frank Evans, who will utilize the wireless telegraph apparatus, with which the ship is equipped, for communication with the White House at Washington whenever the president desires it. In this way the public will be accurately informed of the movements of the ship. Secy. Loeb will give to the press dispatches from the president which may be received from time to time.

The president will spend four days on the isthmus. He will arrive at Colon Thursday, Nov. 15, where he is to be greeted aboard ship by President Amador, Chairman Shonts and other members of the canal commission. A considerable part of that day will be spent at La Boca and Ancon, the train making a low run across the isthmus to give an opportunity to see the rights and make an examination of the work. At La Boca there is to be an inspection of the present terminals of the all French canal, and the Panama railroad following which there will be a trip to nearby islands, where the president is to be shown the proposed actual Pacific end of the canal in deep water and its approaches. In the afternoon there is to be a sight-seeing tour around Ancon hill. At Ancon the day is to be made a "festa," with the town decorated and illuminated. The president and party will be driven in carriages through the principal streets, accompanied by an escort on horseback.

An address will be made by President Amador and a response by President Roosevelt. In the evening the president and Mrs. Roosevelt and others are expected to dine with President and Mrs. Amador at the presidential residence. This probably will be the only time on the isthmus when the president will leave the jurisdiction of the United States. The program for Friday and Saturday contemplates a visit to and inspection of all points of interest on the isthmus, including the Culebra cut, the site of the proposed dam and locks at Gatun and the present and proposed terminals of the railroad and canal at Cristobal. Sunday will be spent quietly on the isthmus and in the evening the party will board the Louisiana for San Juan, Porto Rico, where the vessel is scheduled to arrive Thursday morning, Nov. 22. At San Juan elaborate preparations have been made for the reception of the president. He will remain there one day, leaving Friday, Nov. 23, for Washington.

When the Louisiana reaches Wolf Trap light the party will be transferred to the Mayflower and proceed to Washington, where the vessel is scheduled to arrive Tuesday evening, Nov. 27.

GOVERNORS TO GREET HIM.

Panama, Nov. 8.—President Amador has invited the governors of the seven provinces of the republic to attend the reception in the capital, which will be given in honor of President Roosevelt, and all the governors have signified their intention of being present. There is great enthusiasm throughout the republic over the approaching visit of the American executive. People from interior towns are already arriving in the capital in large numbers in anticipation of the presidential visit.

## JEROME WILL PUSH INSURANCE PROSECUTIONS

New York, Nov. 8.—Dist. Atty. Jerome today asked Justice Greenbaum of the criminal branch of the supreme court to set a date for the trial of Frederick Burnham, president of the Mutual Reserve Life Insurance company, his brother, George Burnham, and George Eldridge, who have been indicted on charges of insurance fraud and grand larceny. Mr. Jerome said that he hoped to proceed with the insurance cases in a few weeks.

EDITOR MAYNARD DEAD.

Omaha, N. Y., Nov. 8.—Lassalle A. Maynard of this place, associate editor of the Omaha Weekly, and a prominent figure at Lake Mohonk peace conference, died at Claremont, Cal., today.

SOCIALISTS KILL NATIONALISTS.

Los Angeles, Nov. 8.—Seven Nationalist workers were shot down here today by Socialists. The local situation is most serious.

FILIPINO COLONIES FOR MEXICO.

Mexico City, Nov. 8.—Paul Wentworth Lathrop, former district judge of the Philippine islands, arrived here today from Manila to determine as to the feasibility of the establishing of

# THREE FACTS

For Sick Women To Consider

FIRST.—That almost every operation in our hospitals performed upon women becomes necessary through neglect of such symptoms as backache, irregular and painful periods, displacements of the female organs, pain in the side, burning sensation in the stomach, bearing-down pains, nervousness, dizziness and sleeplessness.

SECOND.—The medicine that holds the record for the largest number of absolute cures of female ills is Lydia E. Pinkham's Vegetable Compound. It regulates, strengthens and cures diseases of the female organism as nothing else can.

For thirty years it has been helping women to be strong, curing backache, nervousness, kidney troubles, inflammation of the female organs, weakness and displacements, regulating the periods perfectly and overcoming their pains. It has also proved itself invaluable in preparing women for childbirth and the change of life.

THIRD.—The great volume of unsolicited and grateful testimonials on file at the Pinkham Laboratories at Lynn, Mass., many of which are from time to time published by permission, give absolute evidence of the value of Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice.

Mrs. Pinkham's Standing Invitation to Women.—Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham at Lynn, Mass. All letters are received, opened, read and answered by women only. From symptoms given, your trouble may be located and the quickest and surest way of recovery advised. Mrs. Pinkham is daughter-in-law of Lydia E. Pinkham and for twenty-five years under her direction and since her decease she has been advising sick women free of charge. Out of the vast volume of experience in treating female ills Mrs. Pinkham probably has the very knowledge that will help your case. Surely, any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.

colonies of Filipinos along the coast of Mexico. Judge Lineberger states that should the situation warrant he will bring over artillery as well as laborers. He says the Filipinos will flourish in the coast towns, which are of similar climate to that of the Philippine islands, and is enroute to Washington.

THREE BOYS EXECUTED.

St. Petersburg, Nov. 8.—The Riga correspondent of the Bourso Gazette has sent in harrowing details of the execution by shooting of three boys who had been condemned by a court-martial for robbery. Four other persons were executed at the same time. The firing party was completely unnerfed at the sight of mere children before them for execution and fired wildly, and it was only after several volleys that all the condemned were dead.

MURDER AND SUICIDE.

Jealousy or Rejection of Attention Probably the Cause.

Chicago, Nov. 8.—Jealousy or the rejection of a man's attention is believed by the police to have been the cause of a murder and suicide in Lincoln park to night. Hearing two shots a policeman made a search in the southern part of the park and discovered the body of a young man, and nearby they found a woman unconscious and dying. The young man, after being taken to a hospital, the woman is believed to have been Mary Olin, and the name of the man is believed to be F. C. Gray, but their identity has not been definitely ascertained.

The police declare that the woman made a desperate struggle for her life. When found some distance away and her half in the right temple. The man had a bullet hole in his temple and still grasped a revolver in his hand.

THE PROHIBITIONISTS.

Congratulate Themselves on Showing They Made Tuesday.

Chicago, Nov. 8.—Those in charge of the Prohibitionist national headquarters in this city were congratulating themselves today upon the excellent

showing which they claim the Prohibitionists made in the different states Tuesday. A large number of dis-patches have been received and Charles R. Jones, chairman of the national Prohibition committee, said that the total vote of the party in the different states will exceed 325,000, whereas the total for Swallow for president in 1904 was 257,000.

In New York Francis D. Gates, Prohibition and Independence candidate, was elected state senator, and in Seattle, George T. Cottrell, national grand chief temperance, was elected state senator on the Democratic ticket, backed by Prohibitionists and Independents, in a district that gave Roosevelt 1,500 majority in 1904.

In Illinois the Prohibitionists broke all records, their candidate for state treasurer, Allin, receiving 55,000 votes, and carrying over a dozen counties. At least six Prohibitionists are reported elected to the legislature. In Massachusetts the Prohibitionists are credited with 40,000 votes for Moran, who carried 23 cities despite his defeat for governor. The Prohibition party polls a "balance of power" vote in at least seven states—New Hampshire, Rhode Island, Pennsylvania, New York, Illinois, Iowa and Kansas.

Dispatches from Oklahoma Prohibition headquarters indicate that a large majority of the delegates-elect to the constitutional convention are favorable to the insertion of a prohibition clause in the organic law of the state.

AN ARCTIC PEOPLE HAD NEVER SEEN A WHITE MAN.

Victory, B. C., Nov. 8.—Interesting details regarding the finding of a people who had never seen white men, on Prince Albert Island in the Arctic, are given by an officer of the returned revenue cutter Thetis, who learned full details from Capt. Klunkenberg of the steam whaler Olga, who located them. Last winter the Olga, under command of Klunkenberg, accompanied by an Eskimo, started inland on a hunting trip. He went 250 miles in a north-easterly direction over the snow, finding traces of people. Other whalers had also seen traces of natives in this region, but never sighted them. Capt. Klunkenberg came up with 150 or more. When they saw him, they came toward him, armed with copper knives and bows and arrows. They held these above their heads and he pointed a rifle at them.

One advanced alone and he laid down his rifle, the native putting down his weapons. They became friendly, and by means of signs, Klunkenberg learned that other than an old woman who came from Prince William land they had never seen white men previously. He visited the village and found about 600 people, all of whom lived by hunting and fishing. They used the most primitive utensils, fashioned from bone and native copper. Their dress was not like that of other Eskimos, but similar to that of the Greenland natives, made of soft tanned skins sewn with deer sinews. Their winter houses were of sod, with an inner lining of skins and dried in shape from those of other known tribes. They were nomadic. The only article seemingly brought from civilization seen by Capt. Klunkenberg was a piece of steel, evidently from some ship, which was converted into a spearhead.

PILES CURED IN 6 TO 14 DAYS.

PAZO OINTMENT is guaranteed to cure any case of itching, blind, bleeding or protruding Piles in 6 to 14 days or money refunded, 50c.

LEAD PENCILS HIGHER.

New York, Nov. 9.—The wholesale rate on all lead pencils costing \$3.50 or less a gross, has gone up, according to announcements now being sent to stationers by domestic manufacturers from 5 to 25 cents a gross. New price lists on some lines of foreign pencils are also being sent to dealers.

The reason given for the advance is the higher cost of labor and materials.

SOLOMON HAMBURGER DEAD.

Chicago, Nov. 9.—Solomon Hamburger died unexpectedly yesterday of heart failure following an operation. Mr. Hamburger was one of the best known men in the cigar and tobacco business in the country.

A month ago Mr. Hamburger and his family returned from a trip around the world. Mr. Hamburger was a member of the Standard and Illinois athletic clubs. He took an active interest in philanthropic work. He was born in Bavaria in 1857.

TO INCREASE EMPLOYEES' WAGES.

New York, Nov. 10.—The Herald says it became known yesterday that practically all the great railroad and industrial corporations of the country, the affairs of which are directed from this city, have decided to increase the prevailing rate of wages to their employees.

Besides the Pennsylvania Railroad company, which already has announced an increase, the Standard Oil company, the Amalgamated Copper company, and the United States Steel corporation, are mentioned as having decided on an increase or have the subject under consideration.

consideration. The New York Central, the Lackawanna and other eastern railroads, the Herald says, have either been requested to advance the wages of employees or have taken some steps to do so.

The Herald says the increased cost of living and the prevailing prosperity are the reasons for the step and that the managements of the corporations desire to have their workmen participate in the prosperity.

SIEMSEN AND DABNER TO BE TRIED AT ONCE.

San Francisco, Nov. 8.—Immediate trial for John Siemsen and Louis Dabner, who have confessed to numerous murders and robberies, is planned by the authorities. With the view of putting the machinery of prosecution in operation the police today took Siemsen

before A. Sasaki, the cashier of the Japanese bank, who partially identified him as one of the men who assaulted him.

J. H. Dockweiler, the first man held up by Siemsen and Dabner after they started upon their career of crime, was taken before Siemsen today. Siemsen immediately acknowledged that Dockweiler had been one of his victims.

MORE PAY FOR MINERS.

Bisbee, Ariz., Nov. 8.—All miners employed by mining companies at Bisbee and Tombstone received notice today of a raise in wages to date from Nov. 1. The scale has been advanced 2 cents per day all around. Miners now receive \$1.75 per day and shaft men \$1.25. The new scale means the expenditure of half a million dollars more per annum by mining companies.

POPE TO HOLD CONSISTORY.

Rome, Nov. 8.—The pope will hold a consistory about the middle of December, but it has not been decided whether cardinals will then be created or not. According to some observers this consistory will be held chiefly for the purpose of transferring the archbishop of Seville to another see and to appoint several French bishops. According to others cardinals will be created, including one Belgian and one Frenchman. The latter appointment will be made as a result of the people's desire to show his gratitude for the unanimity with which the French clergy have supported him in his struggle with the French government.

SILVERWARE HIGHER.

New York, Nov. 9.—Following the recent advance in sterling silver knives, forks and spoons, the manufacturers of plated silverware announced new price lists on these articles yesterday. The International Silver company, which comprises several affiliated concerns, put up its prices from 5 to 10 per cent on all plated ware. Hollow ware, which includes pitchers, bowls and vessels of various kinds, remains at the old prices.

Many sufferers from nasal catarrh say they get splendid results by using an atomizer. For their benefit we prepare Ely's Nasal Cream Balm. Except that it is liquid it is in all respects like the healing, helpful, pain-relieving Cream Balm that the public has been familiar with for years. No cocaine nor other dangerous drug in it. The soothing spray relieves at once and cure is certain. All druggists, 75c, including spraying tube or mailed by Ely Bros., 56 Warren Street, New York.

Every Afternoon and Evening, Commencing Wednesday, November 7th.

ONE WEEK. REGULAR PRICES.

carries

# Grape-Nuts

"There's a Reason," experience proves.

1st. This food is toothsome and delicious.

2nd. It is wonderfully easy of digestion, the starchy part having been predigested in the progress of manufacture.

3rd. Predigested Grape-Nuts supplies the body with carbohydrates in such form that the blood quickly assimilates and deposits these elements in the tissues all over the body, there to lie dormant until exertion releases the kinetic energy.

That energy is there if grape-Nuts has been the food.

4th. This food contains delicate particles of Phosphate of Potash obtained in natural form from field grains.

This element thus highly specialized by Mother Nature, has an affinity for and will unite with albumen and water in the human body.

This combination produces the soft gray matter, filling the Brain and Nerve Cells all over the body. That keep the

Thinker Healthy.

Yale and Harvard men know w these things and they are a "husky lot," both mentally and physically.
