### MINING, BUSINESS AND STOCKS

## DULL DAY ON THE EXCHANGE.

Little Activity Displayed in the Stocks Called During Today's Early Calls.

#### MAMMOTH WAS BROUGHT OUT.

May Day Unchanged - New York Bonanza Still Weak-Closing Quetations and Sales.

The forenoon closed with the sale of 6,825 shares for \$2,000.63 on the floor of the Sait Lake Stock & Mining exchange. The foregoing is enough to demonstrate that business was dull. Mammoth was the first to lead out with a sale, but only a limited number of shares were taken, a block of 25 going at 1.10. May Day came next with no practical change from yesterday's quotations. New York Bonanza opened with 500 shares going at 62% cents, closing slightly stronger. Yankee Con. passed the calls with no change of note, while sliver Shield displayed activity at 32 and 32% cents. The Daly stocks did not participate, but they remained fairly steady in the bidding. The closing quotations and sales were

#### JUDGE DEANE'S COMPANY.

Colorado Jurist and Mining Man Wil Organize One.

Organize One.

Judge J. W. Deane has gone to Salt Lake for the purpose of closing a deal on a bursch of claims he recently acquired in this district, says the Goldfield Review. The judge has organized a company and secured the necessary capital to presecute the work of development. The property consists of 12 claims situated less than two miles south of the Combination mine, and workmen are busy prospecting the surface, Phenomenal values have not been found, but some good rock in places has encouraged the ones in charge to go strong for the mineral they believe to be hidden on the property. The locations of these ciaims was made inst September and all the prospecting has been confined to the surface. The consideration has not been made known, but is stated to be a good found sum. but is stated to be a good round sum. During Judge Deane's absence he will

#### Incorporate the company, and endeavor to place the stock on the market. SURVEY'S ALASKA WORK, Geologist Alfred H. Brooks to Direct the

Campaign There. The peep of the first redia nuts pleas into the heads of the chiefs of the United States geological servey. Mr. Alfred H. Brooks, generals in the chiefs of the United States geological servey. Mr. Alfred H. Brooks, generals in charge of the division of Alaskan mineral resources, is one of the first to act busy. Instead of growing sleapy and larbargic under the influence of the warm spring sunshine, he falls to figuring on the length of time it will take to make the ice in Alaskan seas and the number of men he may dimnatch to field work in the far north. His plans for the summer's work are well matured, and the mer's work are well majured, and the

topographers and geologists of his di ision will be ready to start for the espective summer resorts as soon a

respective summer resorts as soon as climatic conditions warrant. That will probably be about May I.

Six different localities will benefit by the proposed geologic and topographic work in Alaska during 1905. They are Seward Peninsula, the Yukon-Tanana region, Prince William Sound, Mataneska and Controller East coal field, the usika and Controller Bay coal field, the Yakutat Bay coal field, and southeast

#### GATHERING STATISTICS. U. S. Geo'ogical Survey Engaged in Imporsant Work.

Charles D. Walcott, director of the United States geological survey, has issued a circular, which has been addressed to mining men throughout the country, asking them to co-operate with the survey in the compilation of statistics bearing on the mining industry. In the circular Mr. Walcott says:

"It is the intention of the United States geological survey to make a statistical canvass of the gold and silver mines of the country in addition to the statistical work of the bureau of the mint, chiefly to determine the production of gold and silver in each mining district and the relative quantities obtained in 1904 from placer or surface mines and from deep or lode mines. The information thus obtained will be published in the annual statistical volume, Mineral Resources of the United Charles D. Walcott, director of the ume, Mineral Resources of the United

All information furnished the survey All information furnished the survey will be held strictly confidential by the officers of the survey, only state, county, and district totals being published, the same to appear in the volume published annually by the survey and entitled "Mineral Resources of the United States."

The work in this district is in charge of Victor C. Heikes, who territory extends over Utah, Idaho and Arizona.

#### DON REAVIS BUSY.

#### Interested in Promotion of Railroad to The Bullfrog District.

J. Donnan Reavis, formerly a prominent real estate man in Salt Lake City, and now a resident of Los Angeles, is taking great interest in the project for building a railroad from Las Vegas, where it will connect with the Salt Lake railroad, to Bullfrog, Goldfield and Tonopah mining districts, Mr. Reavis recently has been over these districts, and within 10 over these districts. within days he will meen Mr. Jones, one

days he will meen Mr. Jones, one of the leading mining men of the Gold-field district, at Las Vegas, and together they will go over the route of the proposed road with a view to taking the initial steps in promoting it. According to Mr. Reavis, the route will be free from heavy grades and will not cost to exceed \$3,000,000, stocks or bonds for a large prt of which can be placed among the miners, who are anxious to secure communication with this city. Ore now can be hauled 12 miles from Goldfield to Tonopah and thence shipped via the Carson & Colorado road to San Francisco, but the miners are convinced that it would be greatly to their interthat it would be greatly to their interests to have reduction and smelting vorks in Los Angeles and ship to this

Anxiety in the mining fields to di-Anxiety in the mining fields to divert thade in this direction is shown by the fact that already they are securing lumber from Las Vegas, haulint it by team to Goldfield and other points, where it is selling for \$150 a thousand feet.—Las Vegas Advance.

#### THE FRISCO CONTACT.

New Hoisting Plant Goes Into Commis-

D. P. Rohlfing will leave for Beaver D. P. Rohlfing will leave for Beaver county again tomorrow night and while he is in camp this time the new holst at the Frisco contact mine will be placed in commission. The plant would have started on Mr. Rohlfing's last trip, but for a mistake made in the shipment of certain fittings for the engine. The fault was that of the machinery house which sold the plant.

The new holst at the Lulu is in operation and drifting is in progress on the

The new hoist at the Loui is in opera-tion and drifting is in progress on the vein, which was encountered recently from the bottom of the shaft. The drift being run, if continued into Horn Su-ver ground, would strike the latter about 400 feet below the collar of the

# OF BINGHAM.

Quiet Campaign of Edward Mc-Carrick Has Been Productive of Results.

#### TUNNEL NOW 400 FEET LONG.

Has Opened a Fine Body of Milling Ore-Exposed for 250 Feet On Strike.

For several months past Edward Me-Carrick has been carrying on a quiet ampaign of development at the Little Eddy mine in Bingham. According to gentleman well known in the camp, who came into the city last evening, Mr. McCarrick has succeeded in opening up a fine showing of ore in the tunnel in which all work has been concentrated since last November. The adit has been driven into the hill for a distance of a little over 400 feet and under an immense bedded vein of copper ore, which has been exposed for something like 259 feet on its strike. The vein has been developed on its dip for fully 209 feet and cross-cuts run through it show it to have a thickness of from 10 to 15 feet. Two other veins are known to lie under the vein just correct but these will be given atten-

opened, but these will be given atten-tion at a later date. "I consider that Mr. McCarrick has a mighty fine showing, 'said the "News' informant, "and, indeed, I believe he has made some of the most important developments that have been recorded in the camp for some time as it has demonstrated that the mineral zone of the district is larger than some had

supposed.

"The vein has a porphyry filling and this is impregnated with sulphides which will give some big assays in copper. The vein, as a whole, carries splendid milling values.

Mr. McCarrick, when asked to give further details concerning the late developments in the Little Eddie, declared there was nothing he could say at this

there was nothing he could say at this time further than that he is very well satisfied with the way things are go-ing; but he preferred to carry de-velopments forward a little more before doing very much talking.

#### TINTIC ROADS BETTER. Ore Moving Again from May Day and

Uncle Sam Mine.

The Tintic roads are getting in better shape tand ore has commenced moving again from the Uncle Sam, May Day and several others, which withheld shipments while the highways were at their worst. The Uncle Sam has several lots ntrates and a car of first class crude

Manager J. E. Darmer of the May Day says developments at that proper-ty during the past few days are very assuring and the condition of the mine, physically speaking, is in a better shape at the present time than they have been during any part of his administration.

#### CONCENTRATES.

Manager Henry M. Crowther of the Continental Alta mines is in Alta today.

J. C. Conklin, formerly engaged in the sampling business in this city, has engaged in mining in the Builfrog, Nev.,

P. W. Madsen of the Century Gold Mining company will leave for the Park valley property of that concern on Sat-

Things are looking up at Good Springs, Nev., and everything indicates that that camp is going to have its share of Nevada activity. It is reported that a very active cam-

paign of development is to be inaugu-rated shortly at the Flying Dutchman property in the Tintic mining district. The ore and bullion settlements reported by McCornick & Co. late yester-day were as follows: Crude ore and concentrates, \$75,900; base bullion, \$45,-

Capt. E. E. Rodgers, president of the Capt. E. E. Rougers, president of the Elack Pearl Mining company, operat-ing in the Pearl, Ida, district, passed through the city today, accompanied by a party of friends, on route east.

Nearly all the big exchanges where stock, grain and coiton are sold, will be closed from Thursday until Monday on account of Good Friday, which is a holiday in some of the eastern cities,

E. T. Woolley of Ogden has opened the offices of the Mines Development association in this city, which is to be the headquarters of the organization. The company was recently formed along co-operative lines.

George E. Biair, who, with a number of others, is interested in the Red Dog group south of Goldfield, has received some encouraging news from camp, where a vigorous campaign of develops meat is being carried on.

A. B. Greeson, business manager of the Salt Lake Mining Revisw, and Corydon Higgins, son of the editor, are in camp getting out a special edition of the Review for southern Nevada, to be issued May 15.—Goldfield News.

George Crismon, president of the Utah mine at Pish Springs, has secured a foothold in the Hiko mining district in Nevada. A force of men was put on recently to do development work, and Mr. Crismon is anticipating favorable

Robert D. Grant returned yesterday

from a irip of several weeks duration on the shores of the Pacific ocean. Mr. drant will shortly leave for the east, and upon his return will give attention to the reopening of the old Sloux and Utah mines in the Tintle district.

A message received over the private wire of James A. Pollock & Co. during the day conveyed the haformation that at the annual meeting of the stockholders of the Utah Consolidated held at Jersey City, N. J., the retiring board of directors was resciented with the exception of James P. Fillips, Jr., who was elected in the place of Thomas Casey, deceased,

Articles of incorporation were filed yesterday in the office of the county clerk by the Copper Prince Mining company of Salt Lake, the capital stock of which is \$50,000, divided into 500,000 abares of the par value of 10 cents each. The officers of the company are: President, W. L. Walker: vice president, M. E. Goodwin: secretary and treasurer, Charles E. Street. These, with Benjamin Rose and Edward R. Tucker, are the directors. The company has prop-

erty in Big Cottonwood canyon, not far above the Telluride Power company's

Of the Gold Bar Mining company, in which Judge W. A. Sherman of this city is heavily interested, the Bullfrog Miner says: "On the Hazleton the management has just opened up a rich channel of ore. The ledge, while being about the regular width of five feet, contains which here we do are than has about the regular width of five fest, contains much higher grade ore than has previously been encountered in the company's property. The assays run from \$50 to \$500 a ton, and shipping ore can easily be obtained. The stock of this company has been in great demand for the past week, and bids of from 30 to 40 cents are frequently made."

The Little Gem Gold Mining com-pany of Pearl, has recently purchased from the Falrbanks-Morse company one of their standard 25 horse-power one of their standard 25 horse-power holsts with all necessary ore buckets, hoisting rope and fittings for the gallows frame. The machinery will be set up as soon as possible on the property and put in operation. It is understood that the property which this company owns is very promising. It is under the management of J. C. Johnson, who has been identified with some of who has been identified with some of the best mines of the camp, and who has done more than any one man to develop the camp of Pearl, having opened the Checkmate mine and several others which have since been sold and are now producing.—Capital News.

#### DESIGN FOR CHAPEL AT COLUM-

BIA UNIVERSITY. At a recent exhibition of designs for chapel for Columbia university held in the American Fine Arts building. New York, the one shown in the cut attracted much favorable comment. It is beautiful in architectural effect, and its style conforms to that of the fine library and other new buildings in

the immediate vicinity. The plan of the interior shows a vaulted room, and at the intersection of the nave and transepts a dome ninety-one feet in height is supported by a tier of noble arches. It would afford a seating capacity for \$20 persons in the nave and transepts and 120 in the choir.

#### RUSSIAN DROSKY DRIVERS.

The cut shows a group of St. Petersburg drosky drivers ranged within the prescribed limit and lustily soliciting fares. It is the universal testimony of travelers that the drivers of public vehicles in Russian cities are the most

pertinacious and unprincipled "cabbies" in Europe, and that is saying a great deal. They also have the reputation of being exceedingly cruel to their herses, urging them to their fullest speed on all occasions and using the whip liberally.

#### NEW YORK PRODUCE.

Good Rally After Yesterday's Excited Closing, Then a De cline tame.

#### NORTHERN SECURITIES CAUSE.

Some Took a Downward Plunge, Recovered, Trading Becoming Cautions.

New York, April 19 .- The opening trad-

ing in the stock market today was quiet, compared with the excited clusing yesterday and good fractional gains were the rule with a few scattered losses, Lead rose 1/2, Colerado Fuel and Consondated Gas a point and Ontario & Western, Amazgamated Copper, Locomotive preterred and Northern American good fracions. Rubber Goods feil 1% and Virginla Iron a point. Prices were gracually pargening after the opening with Read ing in the lead, with an advance of a ing in the lead, with an advance of a point, when sentiment was again upset by the weakness or Northern Securities on the curb which broke from 1.1 to 1.1. There was a downward pulling followed by a feverish rally. Union Pacific lost 1½, New York Central 1½, St. Paur and flamois Central 1½, and united States Steel preferred a point, the recoveries in these reaching % to 1. Chicago, St. raul, Minneapons & Omana sold at a decine of 1. Twin City Rapid Transit broke 3½, Virginia Iron 3. Repubble Steel preferred and Rubber Goods 1½, New York, Chicago & St. Louis 2, and a number of the recovery and the rally, but prices neid well.

The trading became cautious on the recovery for a time, but prices rose more confidently later and reached the highest. Net gains became general and reached for 1. Lecomotive and Sicas-Sheffield Steel 2. New York, New Hayen & Hartford 1½, Woolen 1½ and Louisville & Nashville, Atlantic Coast Line, Delaware & Hudson and Amalgamated Copper a point. The market showed some hesitation again at noon.

Bonds were heavy at noon.

Only a limited interest was manifested in the market after the earlier losses, were recovered. The sensitiveness of the board room stocks to the movements of Northern Securities on the curb had much to do with restricting operations. oint, when sentiment was again upse

Northern Securities on the curb had much to do with restricting operations. American Car showed some sympathy with the advance in Locomotive and sold up a roll.

with the advance in Locomotive and sord up a point.

A spurt in the Southern group of stocks covered realizing sales elsewhere. Offerings were small and the reaction did not exceed \( \frac{1}{2} \) in any of the important stocks. Subsequently the market began to benent from the bucyancy of the Southern group. Nashville, Chattancoga and St. Louis advanced 1\( \frac{1}{2} \), Illinois Central 1, L. & N. 2\( \frac{1}{2} \) and Atlantic Coast Line 5\( \frac{1}{2} \).
