GILLET'S DOUBLE EXTRACTS. The best in use, and for sale everywhere. d251 2m

IMPORTANT TO THE TRAVELING PUBLIC.

It is the duty of all persons before starting on a journey to ascertain by what route they can reach their destination with the least trouble, and if there are two or more roads leading to the same point, to decide which is the safest and pleasantest to travel.

We take pleasure in stating, that the CHICAGO & NORTH-WESTERN RAILWAY is the oldest, and several miles the shortest, route between Omaha and Chicago. Within the last two years the road bed has been put in admirable condition, and almost the entire line has been relaid with steel rails.

The Depot in Chicago is centrally located, and as their trains arrive there thirty minutes in advance of all other lines, passengers can always be sure of making East bound connections.

Close connections are made at Chicago with the Lake Shore & Michigan Southern, Michigan Central, Baltimore & Ohio, Pittsburg, Fort Wayne & Chicago, Kankakee Line and Pan Handle Routes, for all points EAST and SOUTHEAST.

If you are going to Chicago, or East, you should, by all means, purchase your tickets on the Old Pioneer Route—
The Chicago and North-Western.

You will find on all through trains Pullman Sleepers, new and magnificent Day Coaches, and the best Smoking and Second Class cars now on any road in the United States.

Particular information with maps, time tables, etc., may be had of any of the Through Ticket Offices in the West, or upon personal or written application to J. W. Sloan, Ticket Agent, Salt Lake City, A. H. Earl, Ticket Agent at Ogden, or to J. H. Mountain, Western Traveling Agent, Omaha, Neb., or to W. H. Stennett, General Passenger Agent, Chicago. d54

EVENING NEWS.

Wednesday, · October 6, 1875.

Local and Other Matters.

THERMOMETER 76 degrees F in the shade at 1 p.m. to-day. Fine.

President Wells and Party.—This morning quite a large number of the friends of President D. H. Wells and the members of his party, principally ladies, went south on the Utah Southern, to York, to meet them. They are expected to reach this city this evening.

The New Art Gallery.—Mr. C. R. Savage is now busily engaged in fitting up his new art gallery, south of the University building. The process of circumstances through which the proprietor has waded in attaining to his present position as a leading photographic artist in America, his scenic views eliciting much commendation, and carrying off the prize at the National Photographic Exhibition, held at St. Louis a year or two since, is somewhat interesting.

On the 27th of August, 1860, at 11 p.m., he, with two yoke of cattle and wagon, and a small family, dusty and weary, entered Salt Lake City through Parley's Cañon, with a very incomplete outfit of photographic apparatus.

In a little room, now forming a part of the Salt Lake House, was a sign, "M. Cannon." The art pilgrim united his energies with this pioneer photographer of Utah. The proceeds of the reward of art efforts consisted of everything the country produced, and now and then a dollar in cash would be taken. Small pictures in cases with the regular mountain-boy style—big spurs, leggings, broad felt hat with beaver skin trimmings, and pistol in hand, the art patron used to want his "pictur tuk."

In 1861 G. M. Ottinger first appeared upon the art stage of Utah, and was not slow in finding kindred spirits. About this time the first portrait photograph, card style, was produced in a rather more pretentious style of gallery, opened by Mr. F. T. Perris, near where C. R. Barratt's store now stands. The march of improvement caused this gallery to come down, and Mr. Savage made a bold dash to build the Old Pioneer Art Gallery, near the Council House. This was a big step in those days, and, for a long time, it was one of the chief places of resort in Salt Lake City. This building, in course of time, became too small, and now we have one that is anticipated to meet the demands of art for a considerable time.

The present building, now nearly completed, is one that the city will be proud of, as it clearly shows that Utah is making a steady growth in art development, greatly in advance of the territories around her. It has been said that the possession of a taste for art indicates an advanced intellectual status. We venture to state that there are more organs, pianos and pictures in Utah homes than in the same number of houses of the working classes in any other part of the western states or territories.

The Art Bazar above referred to is erected on the site of the Old Pioneer. It is 100 feet deep by 28 feet wide. The first story is 14 feet in the clear, and the second story 12 feet, with large glass front, and fine attractive windows on the second story. The showroom, on the first floor, is 60 feet long, with spacious staircase leading to the second story. The balance of the first story is divided into a picture frame room, 13x39 feet, office, photograph mounting and burnishing room; next a photograph washing room, where the mysteries of toning and fixing the prints are attended to.

On ascending the stairway to the second story, you are received in a fine reception room connected with a ladies' dressing room, artists' room, and fine operating room 26 x 39 feet, with skylight and sidelight, 16x20 feet, connected with a roomy dark room or chemical room, dark room being a misnomer, as the sensitive negative can be subjected to a flood of light, provided it is non-actinic, as the scientists say. The balance of the floor is used for printing photographs, a very interesting and curious operation.

It will be seen that a person can get his portrait taken, and have the frame made on the spot by skilled artizans, and the new Bazar admits of doing everything first class, none but competent persons to be employed. Another feature is the mounting, varnishing and framing of chromos, in the same building. The chromos are received in sheet form and turned into the show room fit for any parlor in the land. In the second story is stored a vast collection of negative views, the result of ten years' hard travelling of Mr. Savage, reaching all over the West, Colorado, Wyoming, Idaho, Montana, Arizona, Utah, Nevada and California being well represented.

When all the improvements projected are introduced, we venture to say that the Bazar will not be far behind many of the metropolitan establishments in finish and appointments.

Thus we see the perseverance of an earnest worker, creating sources of labor and a home manufactory that employs eight persons, male and female, when a few years ago one could hardly make a living at the same business.

On the walls of the show room are paintings from the easels of G. M. Ottinger, F. Lambourne, and others of our home artists.

The building, when the front is finished, will present a really fine appearance, and is a credit not only to the proprietor, but to Mr. George Romney, the contractor, who has erected it in double quick time.

City Council.—The Council met last evening, Alderman Sharp presiding.

Petition of R. C. Facer, asking the privilege of erecting an office over the scales of the Rocky Mountain Coal Company, South Temple Street, granted.

Petition of David Day, for the use of a portion of the street and sidewalk in front of his premises, First South Street, for thirty days, on which to pile building materials; granted.

Petition of Ann Helstrom, for the privilege to sell candies on the street in front of the Theatre; granted.

ed during the pleasure of the Council.

A communication from the officers of Camp Douglas military post was read, in which they expressed thanks to the Council for their invitation to accompany the municipal committee of reception to Ogden on Sunday to meet President Grant, and regret their inability to accept, owing to having the impression that they would have to prepare to receive his Excellency at Camp.

A communication was read from the Pioneer Rifle Club, thanking the Council for the privilege extended to them of having shooting matches on Arsenal Hill.

Bill of expenditures, for September, at the Insane Asylum, $496.46, was allowed.

Report of Alderman Pyper showed that he had disposed of eighty-two cases in the police court in September, and that $409.75 had been collected in cash fines and $317.50 in labor fines.

Bill of Marshal and Chief Engineer of Fire Department, for September, $139.62; allowed.

Bill of Salt Lake Gas Company, for September, $1,379.58; referred to committee on claims.

Police bill, for services in September, $990; allowed.

Adjourned till Tuesday, Oct. 12, at 7 o'clock.

Returned Missionaries.—Elder R. V. Morris, who had charge of the last company of emigrants, called last evening. He has been absent on a mission in England about two years. While there he labored principally in the Birmingham Conference, as the President of that portion of the mission, but also visited other parts of England, and parts of Wales. He enjoyed his labors abroad exceedingly, and returns in good health and spirits.

We also met to-day with Elder John Squires, who arrived with the same company. He left this City for England Oct. 20, 1873, and labored for the first half year after his arrival there in the London Conference, and subsequently, up to the time of his departure for home in the Nottingham Conference, under the direction of Elder F. M. Lyman. He also enjoyed his mission very much, and is in splendid health and spirits.

Both of these brethren state that the prospects of the work in the British Mission are very encouraging, the spirit of inquiry concerning the Gospel being on the increase there.

Fatal Accident.—This morning while Brother Edward Jones, an aged gentleman, from Ephraim, Sanpete County, was on his way to this city, his team became frightened and ran away, causing himself and a young woman with him to be thrown out. Brother Jones sustained such severe injuries that he shortly afterwards expired. The woman was not hurt.

The remains of the unfortunate man were taken to the Washington House, where they now lie, and where an inquest was to be held over them this afternoon.

We are informed that the deceased was brother to the late Captain Dan Jones.

The cause of the frightening of the team was a sick mule, which was lying on the side of the road, and which rolled over and groaned as the animals were passing it.

Theatre.—The Theatre will be open this evening, and every evening during this week. The programme for to-night consists of two comic dramas and Mr. Chas. Vivian's celebrated sketches, anecdotes, character songs, and his great impersonation of "Ten Thousand Miles Away." The performance commences with "A Husband to Order," Mr. Margetts as Philippeau," Mr. John S. Lindsay as "Pierre Marceau," Mr. Bowring as "Baron de Beaupre," Mr. Wilton as "Anatole Latour," Miss Cogswell as "Josephine." The entertainment concludes with "Solon Shingle," Mr. W. T. Harris in the title role, his first essay of this famous character, Mr. Lindsay as "Robert Howard," Mr. Evans as "Hugh Winslow," Mr. Geo. Bywater (his first appearance) as "Charles Otis," Mr. Wilton as "John Ellsley," Mr. Thompson as "Tripper," Mr. Bowring as "Judge," Mr. A. Hovey (his first appearance) as "Timid." Other characters by the company.

At Toquerville.—The following was received this morning—

"TOQUERVILLE, Oct. 6, 1875.

"*Editor Deseret News:*

"Brother Jones and party arrived here last night, all well; they go to St. George to-day to arrange business, and go on as soon as possible."

Waterworks.—The waterworks pipes are being laid on South Temple Street, from the front of this office eastward to the Eagle Gate. The laying from the tanks, in City Creek, to South Temple Street is nearly completed.

CORRESPONDENCE.

Grasshoppers and Breadstuffs.

PORTAGE, Box Elder Co.,
Oct. 1, 1875.

Editor Deseret News:

I noticed an article while reading your last week's paper, headed, "Take Care of It." This brought me to thinking about bygone days, when the grasshoppers eat us up for several years in succession, which caused us to go hungry, and since that day we have been told so many times to lay up breadstuffs, but have we done it? I think not. The question is, Will we now commence? The destroyer is now on our borders. Malad valley is full of them; they are laying their eggs by the million, and they are traveling south when the wind is in their favor, and when it is not they camp. So you may look for them. How far they extend north I do not know, but the freighters say for hundreds of miles. We have a heavy crop in Malad valley, and the health of the people is generally good, but the grasshoppers make it unpleasant at present.

Your brother in the Gospel,
L. THORNTON.

THE FAMILY!

Twenty-five years in successful use and still the popular Family Machine! The beauty of its work and wide range of application on all kinds of material, sewing with either cotton, silk or linen thread, and its never getting out of order, have made it the pride and joy of nearly

ONE MILLION HOMES!

Its claims for simplicity of construction, ease of operation and management, quietness of movement and durability, are beyond controversy. Give it a trial and you will buy no other. Thorough instructions given in its use.

The No. 7.

This machine is especially designed to fill a want long felt by manufacturers of Clothing, and is constructed upon the same principle as the No. 6. It is capable of higher rate of speed than shuttle machines, is lighter running and can be regulated for work quicker than any machine heretofore used by

TAILORS.

By a simple change of the presser foot it can be used for all kinds of Family Sewing or Dressmaking. Like the No. 6, it will speak its own language, and we solicit from the TAILORS of Salt Lake an examination of its merits.

WHEELER & WILSON SEWING MACHINES!

The No. 6.

The attention of Shoemakers, Harness Makers, Glove and Trunk and Travelling-Bag Manufactures, and others requiring a machine for leather work of any description, is respectfully called to this

NEW

production of our company. After experimenting for fifteen years to construct a machine upon the rotary hook principle, we offer to mechanics representing the above industries, this recent and improved invention, confident that it possesses qualities long sought for by them. The machine will speak for itself. An examination and trial are all that we ask.
