MINING, BUSINESS AND STOCKS

BUSINESS LIGHT; PRICES LOWER.

Such Were the Conditions That Prevailed on the Mining Exchange This Forenoon.

MARTHA WASHINGTON HIGHER.

This Stock Was an Exception and Some Lively Bidding Was Done For It—Closing Quotations.

The sales of stocks on the mining exchange this forenoon amounted to 37,500 shares, which brought the sum of $6,076.12.

The market, generally speaking, was inclined lower. Martha Washington seemed to attract considerable attention and it commanded a better price, closing the regular call with 3¼ cents bid. May Day held even with yesterday's quotations, but Star Consolidated and Tetro were both weaker. Interest has slackened in Little Chief and since the talk of probable trouble with the Snowflake company began, the stock has declined. New York Bonanza started off with a sale at 25½ cents; the price then stiffened to 26 cents, then relaxed again to the first price. Butler-Liberal was brought out on a bid of 16 cents.

The closing quotations of the forenoon were posted as follows:

TODAY'S QUOTATIONS.

	Bid.	Asked.
Ajax	20	24½
Bullion-Beck	1.40	2.00

CALIFORNIA MINING CASE.

W. F. Snyder's Name Mentioned in the Complaint Filed.

A San Francisco dispatch states that a suit has been filed in the courts of Shasta county in which serious charges are made against one of Salt Lake's well known citizens, Willard F. Snyder, manager of the Western Exploration company, and several others. The dispatch says:

Suit was filed by the Great Western Gold company against James J. Chambers, who was formerly general manager, vice president and director of the Great Western company. Chambers is accused of having "received and converted to his own use the sum of at least $40,000."

The company in its complaint recites several mining deals in which Chambers is accused of having fraudulently obtained large sums of money. Notable among these, it says, was a deal concerning the Afterthought copper property of Shasta county. The company claims it had Chambers go from here to Salt Lake City to secure an option on the Afterthought in a sum not to exceed $150,000; that he "entered into conspiracy with W. F. Snyder and one Mitchell," by the conditions of which Snyder took title to the Afterthought for the sum of $90,000, gave an option to the Great Western at $150,000, and when the company made the first payment of $20,000 Snyder paid $10,000 to the owners of the Afterthought and $10,000 was divided among Snyder, Mitchell and Chambers.

Several other transactions equally as irregular are charged against Chambers.

SMOKE NUISANCE ENDED.

Great Stack Built at Anaconda is Proving a Decided Success.

The Amalgamated Copper company seems to have effectually solved the smoke problem after no end of expensive litigation with the ruralists of the Deer Lodge valley and after making improvements at enormous cost. The deadly fumes from the great smelters at Anaconda came near depopulating the Deer Lodge valley by killing vegetation and rendering worthless farms which had for years been wonderfully productive. Many homes were broken up as the result of this condition and families were forced to go elsewhere to earn a livlihood.

The smelters were started up again last week and it would appear from what a correspondent of the Butte Miner has to say that the great stack, the largest in the world, which was completed recently, has put an end to the difficulty which has prevailed in the past. The Miner says:

"Since the new flues and the 300-foot smokestack have been in operation at the Washoe smelter a great change has been noticed in the color and variety of the smoke that issues from the top of the new stack, and although all of the furnaces at the smelter have not been fired up as yet the idea of carrying the smoke through several thousand feet of flue and then up 300 feet is said to have been more than successful, for the draft is so great that it carries the smoke to a distance of over 200 feet after it leaves the top of the great stack and then it floats away in the air instead of hanging to the ground, as it formerly did, when the old stacks were in use.

"A good illustration of this was noticed the other day when the wind took the smoke of the Washoe up the Deer Lodge valley. The smoke that came from the Butte smelters remained close to the ground and was dark-colored, while that of the Washoe was light in color and floated high above the other.

"Several tests have been made of the smoke as it comes out of the new stack and flues here, and it is said that the chemists have failed as yet to find that the smoke contains anything that is of an injurious nature after it leaves the 300-foot stack.

"The new flues and stack that have been recently completed at the smelter here were built with the idea of saving all of the arsenic and sulphur that was formerly carried away with the smoke, and which settled upon the lands of the Deer Lodge ranchers in such quantities as to impoverish the soil, which prevented the raising of successful crops. The ranchers naturally brought suit for the destruction of their lands and large damage suits were the outcome, which were settled as often as possible out of court, and this was another reason why the great improvements were recently made at the Washoe smelter, as the company was of the opinion that it would be cheaper to build flues and stacks than to be continually settling lawsuits with the ranchers in he valley.

"They will not only save large amounts this way, but will have a by-product that will be worth thousands of dollars annually.

"At the present time about 1,400 men are employed at the new works, and this number will be increased during the next week or 10 days so as to bring the number of men employed there up to about 1,600, while more men will be added from time to time as the occasion demands.

"The claim is also made that the works will be in full running operation towards the last of the present week, which will be good news to the citizens of Anaconda and the surrounding country."

ONTARIO'S NEW MILL.

Location of Plant Changed—Supt. Rood's Reasons For It.

The Ontario concentrator will not be located near shaft No. 2, as was formerly intended, but the plant will be erected on the present site of the old Ontario mill, which is being dismantled and torn down.

Superintendent C. L. Rood said this morning the reason for the change was due to the fact that a suitable foundation for the building at the site could not be had; the ground being too soft and which did not improve any as the work of exeavating progressed. Mr. Rood said the company would very much preferred to have built the plant nearer the mine. However, the site finally chosen is an advantageous one.

MERCUR SLUICES PLANT.

A Provoking Accident Has Caused Another Delay in Starting.

The management of the Con. Mercur has suffered another serious set back in getting the slimes plant started up and it may take a week or so to get things shaped up again. More or less trouble is to be expected in the starting of a new mill or an old one with new equipment, but the Con. Mercur has had its share of trouble.

The officers were congratulating themselves a day or two ago over the way things were working out after the trouble had with the solutions. The adjustments seemed almost perfect, when suddenly one of the rods in one of the larger tanks, filled with probably 100 tons of ore, gave way, spilling the contents.

The accident was an unfortunate one, but the repairs will soon be made. Manager George H. Dern is on the ground today, giving such assistance as he can to Mr. George Moore, who has directed the work of installing the slimes plant.

BINGHAM COPPER BELT.

Road Will be Open for Traffic to Yampa Mine by October 15th.

Capt. Duncan McVichie, manager of the Bingham Consolidated Mining company, and one of the heavy shareholders in the Bingham Copper Belt railroad said today that splendid progress is being made with the extensions of the road in the West Mountain district, and that traffic would open for the ores of the Yampa mine, and possibly for those from the Boston Consolidated, not later than Oct. 15.

The Bingham Copper Belt is undoubtedly the most wonderful railroad in Utah, if not in the entire west, and there are few men with capital that would have ever attempted to put their money into such an enterprise.

Successor to Senator Lewis.

At the meeting of the board of directors of the Majestic Copper Mining & Smelting company, held in Hartford, Conn., yesterday, a successor was elected to Senator A. B. Lewis, who tendered his resignation from the board some time ago. The local office of the company had not been advised today as to who had been elected. President Mucklow is expected to return to the city the latter part of the week.

Strike in the Blue Acre.

The developments being made at the Blue Acre Copper mine in Beaver county continue to show up encouraging. A cross-cut made on the 300-foot level has revealed a two-foot vein of copper ore which will run from 6 to 8 per cent in addition to the gold values.

Work on the Naildriver shaft is progressing rapidly, but during the first of the week a flow of water was encountered which might prove troublesome. So far, however, it can be handled with a bucket. The shaft is now down 490 feet, and a force of men is also breaking through from the 350-foot level to the tunnel for an air circuit and for an exit for the miners. Cross cutting will be begun at 600-foot level, where it is expected the unusually rich deposits opened up in the tunnel will develop into something gratifying.—Park City Miner.

CON. ALTA MINES SHIPPING ORE.

Manager Crowther Says it is Coming Down to Smelters at Rate of a Car a Day.

OUTPUT SOON TO BE DOUBLED.

Company Employing Sixty Men in Mines—Rich Copper-Lead Ore in Grizzly Tunnel.

Shipments are coming from the Continental-Alta mines at Alta at the rate of a car load a day and Manager Henry M. Crowther states that the output will be doubled just as soon as teams can be obtained to bring the product down the canyon.

The ore being marketed is mostly of low grade, running about $20 to the ton, which has accumulated in various parts of the mine and which has been in the way of the men at work there.

The company is working the largest force of men in the camp, having in all 60 men employed in the mines, while 10 teamsters are on the road between the property and the valley smelters.

Manager Crowther received word yesterday that a vein of high grade copper-lead ore had been broken into in the lower Grizzly tunnel, but as to its extent and richness he is yet to be informed.

The new boarding house, which has been under construction for several weeks, is nearing completion and the sleeping apartments for the men will supplied with 60 beds and matresses; the men being required to furnish their own blankets.

The company proposes to make things as comfortable as possible for its employes, and among the advantages to be had with life there will be a library supplied with daily papers and magazines.

CONCENTRATES.

Manager George H. Dern of the Con. Mercur departed for camp again this morning.

Six cars of ore from the Victor Con. are scheduled to reach the local market this week.

The carload of ore promised last week by the management of the Little Chief mine has arrived at the samplers.

The Tetro mine in Tintic resumed operations again this morning after a shut down for a day or two to make some repairs to the machinery.
4Hd Mine Con Alta

Grading is now in progress for the foundations for two gasoline hoists to be installed on the Montreal property, near Milford, which is under bond to the Royal Gold & Copper company.

The Dalton mill at Marysvale is busy on Wedge ores. The plant is under the superintendency of Sam. Colbath, Jr. Ore running about $43 to the ton is now being turned into the crushers.

The ore and bullion settlements reported late yesterday were: Crude ores and concentrates, $31,100; base bullion, $45,200. Total, $76,300.

The special stockholders' meeting of the St. Louis-Vassar company called for the purpose of increasing the capital stock to 400,000 shares, has been postponed until Oct. 5.

C. E. Lowe, a wealthy planter of Honolulu, H. I., one of the owners of the Glencoe group of mines, lying southeast of Cherry Creek, in company with Eugene Morris, his superintendent, passed through camp last week, en route to his mines. Mr. Lowe will go to New York before returning to the fair islands of the Pacific—Cherry Creek Miner.

Work is progressing rapidly on the Wide West mill ore house and trestle for dumping ore in grizzly. The new tunnel will be started immediately and are is being hauled fro mthe mine to the mill for treatment.—Cherry Creek Miner.

The Star mine contract was closed last week and several employes were laid off, pending the re-opening of the mine by the Glasgow & Western Exploration company. It is anticipated that the first work will be sinking the shaft from the 700 foot level.—Cherry Creek Miner.

There was some quiet skirmishing going on yesterday afternoon for stock in the Raymond mine in Tintic. Inquiries were frequent today and rumors were rife that some important disclosures had been made on one of the lower levels.

Charles E. Green, vice presiden of the Green Reduction company of New York is in the city for a few days, the guest of Col. W. L. Wiswall. The object of Mr. Green's visit to Utah at this time is to further introduce his process in the camps. A plant will probably be installed at a well known property in the southern part of the state.

Manager Will J. Dooley of the Johnny mine of Stateline, accompanied by his wife, has returned from a trip to California and Nevada. Mr. Dooley spent a week or more looking over interests in the great camp of Tonopah. He also went over into Inyo county, Cal., which contains a vast unprospected mineral bearing section.

Preparations are being made for a vigorous winter campaign at the Scottish Chief mine near the head of the Big Cottonwood canyon. Manager Lawrence has placed an order for supplies sufficient to last the men employed there until next spring. The same preparations are being made for other properties in that section as well as in the parts nearer to Park City.

A well known mine superintendent who inspected the ore recently developed in the southwesterly drift on the 2050 level of the Consolidated California and Virginia mine, expresses the opinion that the increase in number of ore stringers indicates the presence of a large body in that vicinity, of which the stringers encountered are feeders. The opening to the west in which stringers are more numerous is 179 feet from the C. & C. shaft and in virgin ground.—Tonopah Miner.

Secy. Arthur E. Snow, of the Columbus Consolidated Mining company, went up to Alta this morning to take a look at the new strike reported from that property in the winze sunk from the lower tunnel. The find was not entirely unexpected. The vein was broken into on Sunday night and developments since have disclosed the fact that it is the most important one ever opened in the property. It shows a width of about 10 feet and the ore is said to run about $100 to the ton.

BEARS ATTACKED THE SPECIALTIES.

Weakness of Standard Stocks, Affected by Selling of New York Central, Was Cause of It.

ALL STOCKS SOLD VERY FREELY

Result of Secretary of the Treasury Shaw's Plans to Relieve the Monetary Situation.

New York, Sept. 23.—Prices opened lower than last night with a few exceptions on a fairly large volume of business. Standard stocks became affected by the selling of New York Central and their weakness induced a bear attack on the specialties. The general selling disclosed little support anywhere, but pressure was not of a very serious nature in any one quarter. New York Central declined 1¼. The measure of money relief announced by the secretary of the treasury was taken advantage of to market stocks and prices fell sharply all around. Amalgamated and Sugar fell over 2 points, General Electric 2½, Southern Railway preferred 2½. Rock Island preferred 1⅝ and quite a number of other stocks a point or more. The market was quiet and steadier at noon. United States Steel second 5s broke through yesterday's low record of 73 and touched 72⅞.

Bonds generally were weak at noon.

Fresh liquidation in Amalgamated and the Pennsylvania group drove the market down again. Amalgamated fell to 41½, a loss of 2½, and Pennsylvania touched 121. Standard stocks generally sold slightly lower than in the forenoon.

The market fell into semi-stagnation without important rally. St. Paul lost as much as a point, and Southern Railway preferred extended its decline to 3⅝. Lake Erie & Western preferrd lost 2 points.

A further sagging of prices brought most of the leaders into the list of 1-point losses. New York Central fell 2 full points and Amalgamated nearly 3. There were 2-point declines in St. Louis-Southwestern, Chicago & Northwestern and Virginia-Carolina Chemical, and 4 in Lake Erie & Western. Covering by room shorts steadied the market. Southern Railway preferred rallied a point. The closing was near the lowest and heavy.

LIVESTOCK.

CHICAGO.

Chicago, Sept. 23.—Cattle—Receipts, 17,000. Stronger. Good to prime steers, 5.40@6.00; poor to medium, 3.30@5.00; stockers and feeders, 2.40@5.10; cows, 1.40@4.50; heifers, 2.00@5.00; canners, 1.40@2.60; bulls, 2.00@4.15; calves, 3.00@6.40; Texas fed steers, 3.25@4.25; western steers, 3.25@4.50.

Hogs—Receipts today, 24,000; tomorrow, 20,000. Steady; 10 cents lower. Mixed and butchers, 5.50@6.35; good to choice heavy, 6.00@6.30; rough heavy, 5.60@5.90; light, 5.80@6.35; bulk of sales, 5.85@6.10.

Sheep—Receipts, 28,000. Sheep and lambs steady to weak. Good to choice wethers, 3.40@4.00; fair to choice mixed, 2.25@3.25; western sheep, 2.75@4.35; native lambs, 2.75@5.15; western lambs, 3.75@5.50.

KANSAS CITY.

Kansas City, Sept. 23.—Cattle—Receipts, 15,000, including 2,000 Texans. Steady to lower. Native steers, 3.50@5.40; Texas and Indian steers, 2.00@3.60; Texas cows, 1.90@4.00; stockers and feeders, 2.00@4.50; bulls, 2.25@3.25; calves, 2.50@5.60; western steers, 3.85@5.40; western cows, 1.75@2.80.

Hogs—Receipts, 7,000. Market steady. Bulk of sales, 6.00@6.05; heavy, 5.80@6.00; packers, 5.70@6.05; medium, 6.00@6.10; light, 5.35@6.10; yorkers, 6.05@6.15; pigs, 5.10@6.00.

Sheep—Receipts, 10,000. Market steady. Muttons, 2.60@4.00; lambs, 2.50@5.00; range wethers, 2.20@3.75; ewes, 2.25@3.25.

OMAHA.

South Omaha, Sept. 23.—Cattle—Receipts, 7,000. Market steady to stronger. Native steers, 4.30@5.65; cows and heifers, 3.25@3.45; western steers, 3.25@4.40; Texas steers, 2.75@3.85; canners, 1.50@2.25; stockers and feeders, 2.30@4.20; calves, 3.00@5.00; bulls, stags, etc., 2.00@3.75.

Hogs—Receipts, 3,000. Market steady to shade lower. Heavy, 5.70@5.80; mixed, 5.75@5.80; light, 5.85@5.95; pigs, 5.00@5.95; bulk of sales, 5.80@5.85.

Sheep—Receipts, 7,000. Market steady. Fed muttons, 3.35@3.80; wethers, 2.30@3.60; ewes, 2.75@3.25; common and stockers, 2.25@3.00; lambs, 4.00@5.00.

DENVER.

Denver, Colo., Sept. 23.—Cattle—Receipts 550. Steady. Beef steers, 3.50@3.85; cows, 2.00@3.00; stockers and feeders (freight paid to the river), 3.00@3.75; bulls, stags, etc., 1.50@2.50.

Hogs—Receipts, 400. Steady. Light packers, 6.00@6.05; mixed and heavy, 5.95@6.00.

Sheep—None.

PRODUCE

ALASKAN BOUNDARY.

Canada's Case Closed and United States' Opened.

London, Sept. 23.—Atty.-Gen. Finlay concluded his argument in behalf of Canada at this morning's session of the Alaskan boundary commission. He received the thanks of Chief Justice Averstone and the congratulations of Messrs. Root and Lodge on his "lucid explanation of so technical and comprehensive a subject."

The attorney-general made it clear that Canada wants about everything, and the American counsel informs the Associated Press that every effort will be made by them to convince the tribunal that the treaty contemplated a barrier between the Dominion and the ocean and that the question of territory is not important provided the shores and inlets remain in the possession of the United States.

David T. Watson of Pittsburg, of counsel for the American side, opened for the United States, describing the purchase of Alaska and stating that the the United States published in 1867 the map issued by Russia in 1826, one year after the treaty with Great Britain and that no protest was made against the boundary therein fixed, either by Great Britain or by Canada.

Enormous Demand for Whisky.

Peoria, Ills., Sept. 23.—With the low price of whisky, all houses are experiencing an enormous demand. The whisky trust has ordered an increase in the capacity of the Great Western and is engaging 300 men for the operation of now idle plants.

Dr. Deimel (LINEN-MESH) Underwear

If a man tells you he has a cold, ask him what kind of underclothing he wears. He will probably say wool.

Tell him to try Dr. Deimel Underwear and you won't have to ask him how his cold is again.

Booklet telling all about it and the garments may be had.

NOTICE OF ASSESSMENT.

Ione Mining and Milling Company, principal place of business at Salt Lake City, Utah. Notice is hereby given that at a meeting of the directors, held on the 22nd day of September, 1903, an assessment of one-fourth of one cent per share (¼ of 1 cent) being assessment No. 4) was duly levied on the capital stock of the corporation, payable immediately to R. W. Madsen, secretary of the company, at his office, No. 51 East First South Street, Salt Lake City, Utah. Any stock upon which this assessment may remain unpaid on the 23rd day of October, 1903, will be delinquent and advertised for sale at public auction, and unless payment is made before will be sold on the 14th day of November, 1903, to pay the delinquent assessment, together with the cost of advertising and expense of sale.

R. W. MADSEN, Secretary.
No. 51 East First South Street, Salt Lake City, Utah.
Dated Sept. 22, 1903.

THE FORD HOTEL.

Burlington Route

Burlington Equipment.

The Burlington has the best equipment made on all its through trains. The strongest he biggest cars, the safest cars. It doesn't make any difference what kind of cars—coaches, chair-cars, tourist-cars, palace sleeping-cars—they're the best that money can buy.

It's the cheapest plan. We don't have break-downs from poor equipment, and our patrons are pleased.

Chicago flyers leave Denver 4:15 p. m. and 9:45 p. m.; to St. Joseph, Kansas City and St. Louis, 2:00 p. m. and 9:45 p. m.
