## THE PRIMARIES.

ON Monday evening, the 18th inst., the primary meetings of the People's be, Party in Salt Lake County will convene at eight o'clock. They should be fully attended. Citizens ought to show their interest in local politics by their presence and action in caucus. The primaries are specially of the law was met by its penalty, the meetings of the masses. In the this city would be in excellent financaucus is the place to express preferences and offer objections. Conventions are only attended by delegates; the cancus is for the people.

All who have the right of suffrage should take part in the primaries. Women voters as well as male voters have the right to be present. There is no difference of sex in this matter, the law makeing both sexes equal in this particular. To those who object to the presence of ladies in a political gathering, because of the feelings which are sometimes engendered and expressed in forcible language, we have to say, no language is proper in a primary which is improper for a lady to hear, If the presence of ladies will check uncouth and pugnacious expressions, and tend to make men act with decorum, by all means let us encourage the mingling of the sexes in politics.

We remind the members of the PeoplesParty that these meetings to be held on Monday are theirs. They are not called for an indiscriminate gathering of the public. They are for the PEOPLE'S PARTY, and no one who does not belong to that party is invited. Should others attend they invited. Should others attend they have no right to a voice or a vote in the deliberations, and no one should be permitted to take part in the election of Delegates to the Conven-tion but members of the People's Party.

The step has been taken because of fear upon the part of the home authorities that the progress made by the students in matters outside of strictly educa-THERE is a municipal ordinance against profane swearing. It is not often enforced. If every infraction of the law was met by its penalty, this city would be in excellent finan-cial condition, and perhaps some check would be put upon those lips too ready to utter the name of Deity prefixed to an oath. "Thou shalt not take the name of the Lord thy God in vain," ought to have weight with all who believe in a Supreme Being. And those whodo not, exhibit great inconsistency, to sev the teast in using the parter is the part of a streated to not, exhibit great inconsistency, to not, exhibit great inconsistency, to say the least in using the name of a Being whose existence they doubt or deny, in "affirmation of some-thing to which they aim to attach the greatest importance. "LAMBS FOR THE UTAH FOLD."

THE St. Louis Republican says:

The Mormon missionaries are re turning with their game. Nineteen of them arrived at New York on Thursday last, with 750 lambs for the Utah fold. The opponents of the polygamists talk, but the proselyters work. The Church is having a steady and rapid growth."

This is a sample of much present newspaper coniment. It exhibits the usual utter lack of comprehension of the subject. If these rash writers on the "Mormon" question would take the trouble to investigate a little before rushing into print, they would discover that the arrival of these emigrants is no in

dication of the present growth of the Church to which they belong; also that they are not the "game" of the missionaries as the Republican sportingly if not elegantly expresses

The Latter-day Saints who arrive in these companies are most of them old members of the Church and their families, not recent converts. Our missionaries do not go to the imagined, with not recover. to catch emigrants for

Utah. Their duty is to preach the gospel of faith, repentance and baptism for the remission of sins, and the promise they have to Junction, about seven o'clock and make as an inducement to converts, boarded by a band of desperadoes is simply, the gift of the HolyGhost. When they have filled their mission

and spent the time appointed for their labors, they return in compa-ny with people who have been mak-ny with people who have been making preparations for years to gather with the Saints in Utah. These Elders take charge of the people on the way, and give them the benefit of their traveling experience and ministerial advice until they arrive at their destination.

As a rule, it will be found that he converts of these missionaries are still in the lands where the gospel found them, most of them anxlous to emigrate, because the gathering of the Saints is part of the faith they have embraced, not merely because they want to better their temporal condition. In all probability, several years will pass away before they will be able to accumu-NEW YORK, 16 -The am
