DEFENCE OF MORMONISM-On the speech of Mr. George Francis Train, recently de-livered in defence of "Mormonism," the New York Times says:

"It is assuredly a very fine piece of ora-tory; but if Mr. Train ever delivered it, he must have taken it almost bodily from a

speech which the Utah delegate (Mr. Hooper) delivered in Congress a few weeks ago.

Mr. Hooper is a very modest and unassuming member of Congress, and rarely troubles the House with his speeches; but the Mormons have shown their usual astuteness in sending a man of such marked ability and high character to represent them at Washington."

That's new to all the people of Utah, and is an evidence of a great lack of intelligence, on the part of the Post's correspondent, in respect to the geography of Utah. For the benefit of this gentleman, we will tell itim that Ogden is many miles from the "head of the lake," and is forty, instead of fifteen, miles "north of Salt Lake City."
