INVESTIGATE WATER SHORTAGE. County Commissioners, Through Clerk, Make Appeal to State

Engineer to Investigate Existing Conditions-This Year's Drought Has Caused a Loss of \$500,000.

from the county commissioners County Clerk James today sent the following communication to State Engineer Doremus:

"Dear Sir:-I am directed by the board of commissioners of Sait Lake county to present to you the following facts and suggestions concerning a situation that seriously affects the in-

terests of Salt Lake county: "On Wednesday, August 14, Thomas P. Page, of Riverton; Henry B. Beck-stead, of South Jordan, and Nels A. Nelson, of Crescent, representing residents of the southern and western portions of Salt Lake county who use the waters of Utah lake for irrigation purposes, made a presentation before the board of county commissioners in substance as follows: "Utah lake is a reservoir from which

several canals in Salt Lake county ob-tain their supply of irrigating water, tain their supply of infracting without which supply about forty thousand acres of arable land in Salt Lake county would have to be abandoned as desert. This land has been in a fair state of cultivation for a number of years, and has afforded homes and support for thousands of people. In consequence, however, of a failing off in the water supply, this area of country is being reduced to waste. The dam-age this year is computed to be more than half a million dollars, and the committee stated that the crops of 1901 would not more than pay the taxes and water assessments. While an unusually dry season has contributed to the losses given, and has emphasized the necessity of storing water, the committee took the view that the chief cause of trouble is not in the present cause of trouble is not in the present dry season, but in the fact tha UCT lake, as a reservoir, is being deprived of its water supply. They say the streams which are the sources of providing the take reservoir are being diverted, and as the waters therein never reach the lake, said waters are there fore misappropriated. For two or three years past the waters of the lake have been receding, owing to this cause. In reference to an impression that the diversion of streams heretofore flowing into the lake has no effect on its vol-ume, the committee pointed out that this is not the fact, since the great bulk of the seepage from irrigated districts finds its way to a lower level than the take, and the prior appropriators in the canal companies are thus unjustly deprived of their rights.

"As the state engineer has general supervision of the waters of the state, the board of commissioners of Salt plained of.

Acting under instructions received | Lake county feels justified in calling your attention to this complaint, and in requesting that you give to it such attenion as comes under he duties of your office.

Uncle Sam and Tetro were the only stocks that "stirred up the animals" at the afternoon session of the stock ex-change, but Ajax sold 3,100 shares in many Wills Tetro way "The committee referred to also asked the board of county com-missioners to give relief to the people who are suffering, by remltting their taxes for 1901 or by reducing the assessed value of property; and by making a survey to ascretain if the headwaters of the Weber and Du-chesne rivers could be turned into the Provo river, and thereby be impound-ed in Utah Lake as suggested by a under the hammer there was some ex-cited bidding, but the sales footed up but 4,000 shares, 39 cents being the low-U. S. government official who made surveys in that part of the country. Re garding these suggested means of re-lief, the board has no jurisdiction in the premises, and any relief given must be on other lines. As to the suggested survey to ascertain whether or not the waters of the Duchesne might be di-verted to Utah lake, the board of commissioners suggests that probably you are in a position to give information as Uncle Sam, 1,400 at 1.80; 200 at 1.8942, 00 at 1.8942; 400 at 1.9042; 400 at 1.8042; Tesora, 100 at 87, Ben Butler, 500 at 17. to what might be practicable in that without interfering with onnection. vested rights.

"As to the claim of the irrigators to the waters flowing into Utah lake (in order to supply it as a reservoir), the at 38%, seller 10 days, Victor, 500 at 20. board of commissioners made a search of the records, and ascretained that on August 5, 1999, a filing was duly made on all those streams which feed the lake, and a claim was set forth to water amounting to one thousand cubic feet per second. The filing referred to is Today's bank clearings are \$634,848.98, compared to \$397,597.15 for the same day last year. properly recorded in Book B of Water Claims, in the office of the Recorder of Salt Lake county. Tuttle, formerly of Montana, but lately of Salt Lake, will take the position from which Mr. Spiro resigned. the Salt Lake county appropriators had used the water filed upon, but that during the past two or three years the supply in Utah iske had been greatly diminished, through canals being taken out at various points in Wasatch and Utah counties. Water that should have been used in Salt Lake county was therefore diverted elsewhere. The committee also expressed the view that if present conditions were allowed to remain, the value of Utah lake as a reservoir would be destroyed within a few years.

"The board of commissioners respectfully requests that you give the subject of the irrigators' petition care-ful consideration, as to whether any part of it comes within the scope of your office, and if practicable that you den, vice-presidents; Eugene Cannon, secretary, and Ernest Fowler, treas-urer. Governor Wells to Push the Button on September 16-Local Eiks Will Then Do the Rest.

Captain Stoll of the Elks Fair and 'arnival today received the following telegram from Governor Toole of Montana: "Will attend your carnival in

person. Have invited staff." Just prior to the receipt of the dis-patch Captain Stoll received the following letter from L. R. Hass, Governor

Toole's private secretary: "I am directed by the governor to acknowledge the receipt of your com-munication under date of August 12th. 1901, in which you invite Governor Toole and his staff to be present and participate in the festivities of governors' day at the Elk's carnival and street fair to be held in Salt Lake City, September 16th to 21st. inclusive, 1901. and beg to say in reply that the governor informs me that he will commu nicate with the members of his staff at once and don't think that there is any question but that he and his full staff will be able to attend on governors' day, September 16th, which your committee has named in honor of the chief executive of the State of Utah. In the meantime the governor desires to express his personal thanks for the invitation and the hope that the car-

nival may prove a success beyond the nost sanguine expectations of the management." OTHERS COMING.

Captain Stoll says that the governors The Utah association of Fire Insurof the surrounding states have been in ance Agents held a well attended meet-ing yesterday. Officers were elected, delegates to the national convention chosen, and a very able address was given by Aaron Weil, the president of a similar organization in Indiana. The following are the officers chosen. vited to be present with their staffs on Governors' day. He has assurances that several of them will attend. Ar-rangements are being made for Governor Wells to open the carnival, and for this purpose an electric wire will be following are the officers chosen: E. W. Wilson, presider: L. B. Rogers, of Salt Lake, and B. H. Goddard, of Ogrun to his office so he can press button. That will be the signal for the proceedings to begin. The Elks will do he rest.

WILL CHOOSE QUEEN TONIGHT. A delegation of six ladies visited the director-general today on behalf of a very prominent lady to act as carnival queen. The carnival queen problem will be settled tonight by the executive committee. MISCELLANEOUS.

The following booth spaces were awarded today: Davis Shoe com-pany, J. P. Gardner, Palace Meat mar-ket, Moore & Tiffits. The attendance guessing contest is at-

tracting wide attention, the figures of the guessers ranging from fifteen thousand persons a day within the carnival enclosure, to thirty-five thousand persons a day. There have been sixty booth spaces

subscribed to to date out of the two hundred that was set aside by the committee on concessions and privileges the merchants of Salt Lake City for the trip will be furnished by From today a corps of assistants will be added to Director-General Stoll's staff. Headquarters will be open each and every evening until ten p.m. The construction of the fence for the carnival enclosure will commence the last week in August. The arches are under construction at the present time Hall and will be placed on the enclosure by Sept. 1st.

Constipation,

Headache, Biliousness,

an excursion to Saltair today. The feature on the program is an address by President Lorenzo Snow at 7 p. m. There will also be singing by members of the two Scandinavian choirs, and a pantomime by local talent. Everybody is invited by the committee on ar rangements.

Despite the bad weather yesterday there were 780 people at Saltair. When they arrived at the resort they found that the sun was shinging and taken all in all it was a warm day with but the slightest sprinkle of rain in the evening. The occasion of the gather-ing at Saltair was the reunion of the Exception and while the small strend Foresters and while the small attendance somewhat marred the successful carrying out of the program, at the same time all who went out to the lake enjoyed themselves to the top of their bent. Josh Davis, in his well known chinaman get-up told fortunes and otherwise amused the children who were present. The ladics, under the direction of Mrs. Myers, prepared a lunch for the Foresters and their friends which was greatly appreciated by all who sat down to the bounteous repast. The regular program was commenced about six o'clock in the evening. The opening number was the baseball game in the water which was won after three innings by Court No. 4, which beat Court No. 1, the score being five to four. One of the most being five to four. One of the most interesting numbers was an exhibition drill given by thirty four boys and girls, under the leadership of Mrs. A. E. Mc-Bride and Miss Coats. The tug of war between Courts Nos. 1 and 4 was won by No. 4. Mr. Terry and Mrs. Lil Kahn won the prize waltz, and In the guessing contest, I. C. Line won first place. Mrs. Lyngberg second. The fol-lowing numbers won prizes in the ticket lowing numbers won prizes in the ticket drawing: 1325, 1351, 94,234, 97,808, 98,134, 97,825 94,189 98,730, 98,651, 1993, 98,124, 2748. Notwithstanding the rain and wet reather, about 500 of the Brotherhood of Railway Trainmen and their friends went out to Lagoon yesterday and spent a most enjoyable outing at the popular Farmington resort. Field sports and dancing occupied the afternoon and evening, the following being the prize winners: Oldest Brotherhood man on the grounds,Goff Gane; men's foot race, C. S. Clark; ladies foot race, Mrs. E. F. Snyder; fat men's race, Engineer Chatterton; girl's race, Eva Newcomer; boys from 10 to 14, William Chase; boys under 10, Robert Patterson; egg race, Mrs. Dern; potato race, Jimmy Meeks; waltzing contest, Miss Smith and Shorty Allen; two-step contest, Mrs. Mudge and Mr. Webster; railway recitation, Miss Glen Short. . . .

Tomorrow the employes of the Ric Grande Western will have their annual outing to Provo canyon. They will go on a special train furnished by the company, which will return in the evening. Tickets will be furnished to the employes and their families and

none but those bearing these passes will be allowed to ride, the idea being to limit the excursion strictly to those who are employed by the road. Music

A GREAT DEPOSIT ON DESERT

announner and a second and as second and a second and as second and a second and an

The Scientific American recently published a descriptive article on the remarkable salt deposit at Salton, on the Colorado Desert. Following is a portion of the article:

"Few readers had heard of the Sea of Salton up to 1892. At this time the Colorado river broke its barriers and flowed into the desert of California, flooding it to an extent of hundreds of square miles. In the vicinity of Salton was one of the largest salt deposits in America; the water encroached upon it, and for a time threatened the industry, but after creating an excitement which spread over the entire West, it reced-ed. The rumor was to the effect that the new sea was so vast that it would change the climate of southern Califor-

"The deposit of salt at Salton is one of the sights of California. It lies in a depression almost three hundred feet below the sea level, and was at some time in the past the bed of a sea, or ex tension of the Gulf of California. From train which passes near by, the tract looks like a vast snow field, and in the early morning is frequently the scene of beautiful mirage effects. The sait deposit, which is essentially rock salt, covers about one thousand acres, and is at present the center of interest on account of the dispute of rival companies over the possession of the prop-erty. The company has shipped from this place annually about two thousand continuously over the same area, or tons of salt, valued at from \$6 to \$34 per about ten acres having been plowed.

CHIN CHIN RETURNS. UNDERTAKERS' LAST DAY.

Officials Would Not Let Him Go to Victoria, B. C.

Chin Chin, the well known Chinese merchant of this city who left here for Victoria, B. C., about six weeks ago, returned to Salt Lake last night. Chin went north for the purpose of securing Information concerning the importation of Chinese from the old country to Mexico. He had been offered a contract to get 5,000 of his countrymen to go to Mexico to work on farms and railroads. In order to do this he had to see a Chinaman in Victoria, B. C., but unfortunately the government officlais at Seattle told him if he went to Victoria, he might have a hard time to get back and Chin concluded he had better not go. He remained in Seattle and wrote for the information he need-

While in Seattle Chin says he was treated well by everybody he met ex-cept the officials who refused to let him go to Victoria. Chin had a good word for U. S. Judge C. H. Hanford, who, he said, is one of the best men he ever met. He attended the trial of Dan, the Japanese charged with smuggling wo-men to this country for immoral pur-He said that some of the lawposes. yers tried to induce the court to send the Jap up for five years, but Judge Hanford only sentenced him to four months in jail and a fine of \$50. Chin is glad to get back to his family and friends, and says he is not sorry he did not leave the United States.

ELKS' CARNIVAL NOTES.

The attendance guessing contest is attracting wide attention the figures of the guessers ranging from 15,000 persons a day within the carnival enclos-ure to 35,000 a day.

There have been sixty-one booth spaces subscribed for to date, out of the 200 that have been set aside by the counciltee on concessions and privlleges for the merchants of Salt Lake City.

The construction of the fence for the Elks' Carnival enclosure will commence the last week in August. The arch are under construction at the present time, and will be placed on the en-closure ground by September 1st.

There has been over 900 rooms booked for the accommodation of the visitors during carnival week, with the com mitter on accomomdations outside of the list of hotels and rooming houses The committee on accommodations requests of the citizens to kindly sub their list of available rooms as soon as possible. On August 20th, a list of rooms that are registered at head-quarters will be mailed to all visiting Elks' lodges, and to strangers who have written to the committe for accommo dations. A conservative estimate been made by the committee and 11 weather is favorable the canival enclosure will hold at least at an average of 10,000 visitors a day.

9:00 p. m

It is stated that the greatest part Mr. Spring's bounty went to help I dividuals. He watched the young m in his company's works, and many of them, who displayed habits industry and economy, did he put in way to better things than the wor shops of the factory offered. He w liberal in his giving of gratuities to t workmen, also, and it is said that the s not a man, woman or boy emplo in the McCormick factories but has (casion to remember him pleasantly. of his benefactions, to individuals institutions, were so quietly perform that scarcely anybody except the ben ficiaries ever heard anything abo them. They did not go into the news papers, hence Mr. Spring was not wh known as one of the liberal give Chicago. By fixing upon a limit for personal fortune-a very moderate li it, to be sure, in comparison with vast fortunes of the day-and keep the amount of it down to that limit during his lifetime, Mr. Spring was always in a position to die without dis-grace, according to the Carnegie standard .- Savannah Ga.) News.

society.
