LAST NIGHT'S NEWS

The Burlington Officials Keep a Bold Front, but the Road is in a Bad Way.

A Strike to be Ordered on Three Roads.—Who are Assisting the C. B. & Q.

The German Crown Prince Now Thought to be in an Alarming Condition.

Anti-Mormons in Georgia Trying to Create a Disturbance.

By Telegraph to the NEWS.

THE STRIKE.

The Burlington Rolling Stock in Bad Condition.

CHICAGO, March 2.—The agreement between the Brotherhood of Engineers and Firemen and the Knights of Labor had no apparent effect on the number of applicants at Burlington offices this morning. The majority of men, however, look more like firemen than engineers. Officials of the company claim the situation is steadily improving; fourteen passenger trains were sent out from Chicago today and sixteen came in. The company commenced running coal trains on the Chicago division today and claim they are running local freight trains on most parts of their system.

At the Round House on Twelfth Street, the foreman said to a reporter today: "I am tired looking at some of the men who are employed to take the place of strikers. Engines are

IN A HORRIBLE SHAPE.

Three of our finest locomotives are ruined and others badly broken down."

A most important move was made today by Chief Arthur in the strike. The following telegram was sent to each chairman of the general grievance committee of the Brotherhood of Engineers and Firemen on the following lines of railroad, viz.: Chicago & Alton, Chicago & Northwestern, Chicago, Rock Island & Pacific, Wabash Railroad, Wabash & Western, Missouri Pacific, Union Pacific, Atchison, Topeka & Santa Fe and Wisconsin Central:

Dear Sir and Brother.—You are hereby authorized and ordered to come to the city of Chicago at once and report at headquarters. There are many important matters to consider in connection with the Chicago, Burlington & Quincy strike, and your immediate presence is imperative. Be prepared to convey your committee from here at a moment's notice.

CHICAGO, March 2.—Chief Engineer Arthur to-night gave out a long statement concerning the position of the engineers and firemen as to their present attitude toward the Burlington road. In it he says, in part: The men are striking, not to compel the railway company to pay them for services they do not perform, nor to compel the company to accept blind men to run engines. Neither do the men demand that the company shall furnish free passes for all their relations. The main issue is, shall the C. B. & Q. Company

PAY THE SAME WAGES

for the same work that is paid by ninety per cent in mileage of all the railways in the United States? This is almost the only question at issue. The principle of grading men according to years of service as engineers, adopted by the C. B. & Q., is illogical and unjust. Under that system a man serves from three to five years as a fireman, when he is supposed to be an apprentice learning the rudiments of engineering. He then takes a place as hostler and runs an engine from the round-house, in which capacity he may serve a year or more before he gets a switch engine for another year or two, when he may get on the road. By this time he has served an apprenticeship of from five to nine years, and still the company expects him to serve three years longer before he gets full pay. There is no other trade in existence that is asked to or would submit to the injustice of being a candidate for the superannuated list before becoming a full-fleged master of his trade. There is practically no difference in the service rendered or the results to the railway, between an engineer of the first grade and one of the third. There is no trade or calling in which years of service will determine a man's ability. An engineer of one year's service is often better qualified to run an engine than one who has twenty years' experience. There is one and only one just rule to determine the question, and that is

EQUAL PAY FOR EQUAL SERVICE.

In the present controversy the engineers and firemen can afford to lose the fight, but there is no possible way in which they can recede from their demands on the question of wages, except at the sacrifice of their entire organization. There is no other way out of the difficulty than by a concession on the part of the company on the question of wages, or a fight to the bitter end.

One of the chief topics talked of in railroad circles, today, was the alleged threat of the engineers and firemen to extend strikes to the lines connecting with the Burlington road, if such lines sold the latter's tickets. The threat was received with surprise by the various officers and representatives, and all declared that they were maintaining strict neutrality in the directions as well as in the matter of handling Burlington cars, etc.

DENVER, March 2.—The situation of the Burlington today is unchanged at this point. The company are sending out but one train a day, and that is the local mail. They are making no attempt to get eastern business, and will not guarantee anything. General Agent Crosby said this evening, that while the road was doing some business on eastern lines, he could give no idea as to when they would begin receiving freight or through passenger business in this city. They had a train in at 4:30 this morning, consisting of six cars, the engine run by a man named Jefferies who, some railroad men said, was found on a ranch near McCook. The same train was sent out at 10 o'clock this morning with two local mails and about fifteen passengers. The afternoon train from Chicago is reported three hours late and is said to be the through Kansas City and Omaha mail. Gillen, the photographer, who took a train out Wednesday,

BURNED THE ENGINE

so badly that it had to be side-tracked at McCook in a ruined condition. Company officials deny any Pinkertons men to be employed by their Colorado division. At the committee rooms, the Brotherhood today received some very encouraging telegrams from Chicago and Omaha, and the strikers express themselves confident of ultimate success.

PHILADELPHIA, March 2.—General Superintendent Swelgard, of the Reading company, said this afternoon that reports from the west, telling about hundreds of discharged Reading Railroad engineers taking the places of the strikers on the Burlington roads, were greatly exaggerated. Referring to records, Swelgard found that the entire number of locomotive engineers who left the service of the Philadelphia & Reading during the recent labor disturbance was 100. Road Foreman Colson and Master Mechanic Vernon declare that not more than twenty Brotherhood engineers were employed by the Reading company during the strike.

Washington News.

WASHINGTON, March 2.—The House committee on Pacific Railways resumed consideration of the Outhwaite Pacific Railway funding bill this morning and it was gone over by sections. It is expected that the committee will be prepared to report the result of its deliberations in a few weeks. There was somewhat of a general interchange of views this morning, and it is believed the committee is in favor of a funding bill of some sort, but the discussion has not progressed far enough to warrant any statement as to how long or how short a period should be fixed in any funding bill that may be agreed upon.

The House committee on foreign affairs, yesterday, authorized a favorable report on the Morrow resolution requesting the President to communicate to the House what steps, if any, have been taken in the direction of treaty stipulations or otherwise, to prevent the continued immigration of Chinese laborers into the United States, notwithstanding the provisions of the treaty of 1880, suspending such immigration.

The Senate committee on the District of Columbia, today, voted 6 to 3 against the Platt bill to prohibit the sale of intoxicating liquors in the District. The committee then, by a vote of 8 to 1 (Riddleberger), decided to frame and report a local option and high license bill. Riddleberger will make a favorable minority report on the Platt bill.

Emmons, through counsel, today filed a petition asking that letters of administration be issued to him on the estate of his deceased wife, the late Weltha A. Emmons.

A bill was introduced in the Senate yesterday, by Farwell, to reorganize the signal corps. It provides that only such officers shall be retained as are found fully competent for their duties. The number of officers will be reduced from twenty-two to fourteen, and competent unassigned lieutenants of corps will be transferred to the line of the army. The pay of men is rearranged, so that more competent and experienced observers will receive higher pay. Such reductions have been made in the number of officers and men that this rearrangement, while increasing the efficiency of the corps, will result in a net annual saving to the government of nearly $120,000.

Abram J. Kewell, commission merchant of New York, and U. S. Epperson, of Kansas City, before the House committee on agriculture, today, defended the use of cotton-seed oil in the manufacture of lard. The feature of the proceedings was the charge by the chairman of the committee that the Standard Oil Company transported cotton-seed oil north in the same tanks in which they sent coal oil south. The witnesses admitted that this would spoil oil for lard purposes, but it was not used by manufacturers.

European Notes.

LONDON, March 2.—Wallace Ross, the oarsman, will start for America, today, owing to domestic affliction.

MOSCOW, March 2.—The *Gazette* (government organ) says: Turkey will declare Prince Ferdinand a usurper in Bulgaria, and will interfere with a military force to establish states there in accordance with the Berlin treaty, either on receiving a mandate from all the powers or carte blanche from Russia.

ROME, March 2.—Advices from Massourah says that Chief Debed and his followers, who hitherto have been powerful allies of the Italian forces, have deserted to the enemy, taking with them the arms and equipments with which the Italians had supplied them.

The report of the desertion of Chief Debed and his followers is not confirmed.

DUBLIN, March 2.—A newsdealer named Dingle has been sentenced to three months' imprisonment for selling copies of *United Ireland*, containing reports of meetings of suppressed branches of the national league.

LONDON, March 2.—Official news has been received here that the condition of the crown prince is alarming. Upon the receipt of this intelligence Lord Chamberlain communicated with the Queen in reference to altering the court arrangements for next week, which include a levee and drawing room reception. He was directed not to alter the present arrangements, but to prepare and postpone receptions at the shortest notice.

The Prince of Wales has left the Rivera and is returning to London.

Lord Salisbury, in an interview with Baron de Stael, Russian ambassador, today, declared that he would oppose the deposition of Prince Ferdinand, unless the powers agreed upon his successor on the Bulgarian throne. He added that the nomination of the Prince of Mingrelia would not receive the assent of England.

In the Commons to night, the motion of Sir Charles Russel for the appointment of a commission to investigate the right of the government to suppress public meetings in Trafalgar Square was defeated.

SAN REMO, March 2.—The Crown Prince was on the balcony of his villa this morning. He looks and feels better than for several days past. The throat discharge is still much tinged with blood.

ROME, March 2.—To-day was observed as the anniversary of the coronation of the Pope. His holiness received congratulations of the Sacred College, Cardinal Sacconi, dean of the college, delivering the addresses. The Pope replied in an animated speech. He lamented more than ever his position, which he said was unbearable. He declared that if the Italian government did not prohibit jubilee fetes, it was in its own interests that it acted, and not from any respect for the Holy See. The Catholic world must be aware of the situation; no arrangement with the government was possible until the independence of the Papacy was restored.

DUBLIN, March 2.—The Bishop of Cork permits the body of the late Stephen J. Meaney to be placed in the cathedral there on condition that there will be no political demonstration.

The French schooner *Fleur de la Mer* has foundered off the island of Cayenne, and sixty passengers were drowned.

South American Congress.

BUENOS AYERS (via Galveston) March 2.—The Argentine and Oriental governments have agreed to hold a South American Congress in Monte Video, beginning July 18, 1888, the principal object of which is to form a treaty which will determine the questions of international rights pending between the South American nations. This congress will be the first of its kind ever held in South America.

Colorado Tobacco.

DENVER, March 2.—The report made today by Professor Cassidy, of the Colorado State Agricultural College at Fort Collins, on tobacco growing in this State, is important. Tests have been made for two years with the most satisfactory results. Of 18 varieties grown last season, all ripened before the end of August. The varieties were: Isabella, Cuboni, General Grant, Confuegos, Flanagan, White Stem, Orinoco, Vuelta Abajo, Elkerson's Yellow, Havana, Saqua, Legrand, One Sucker Virginia, Improved Havana, Missouri Broad Leaf, Yeara, Golden Leaf, White Burley, Connecticut Seed Leaf, Wilson's Prolific, Fiji, Orinoco. Both managed and unmanaured land was planted. The professor says the yield was phenomenal, and concludes that tobacco of any variety may be grown here and of superior excellence.

Reduced Rates.

CHICAGO, March 2.—Rates on packing house products to ten cents, in line with similar reductions from Kansas City.

Canadian Club Dinner.

NEW YORK, March 2.—The Canadian Club of this city gave a dinner tonight, to mark the completion of the labors of the British fisheries commission. Erastus Wyman, president of the Canadian Club, presided, and on his right sat Mayor Hewitt. At the chairman's left were members of the fisheries commission, Right Hon. Joseph Chamberlain, Sir Lionel Sackville West and their associates. Two hundred other guests were present. Letters of regret from Secretary Bayard and Sir Charles Tupper were read. Secretary Bayard, in his letter, says: I hope the treaty now pending for ratification may be thoroughly comprehended upon both sides of the border, and tried upon its merit. The treaty has been framed in the spirit of just and mutual conciliation and advantage, and I earnestly hope the blindness of partisanship, or influence of local selfishness or ignorance, may not be suffered to deprive the two countries of its great benefits. Its defeat would be a great calamity, which I hope patriotism may arrest.

To Negotiate.

WINNIPEG, March 2.—On motion of Premier Greenway, the Manitoba legislature adjourned for two weeks, to allow government to enter into negotiations with Dominion government the settlement of all grievances existing between the two governments.

In Favor of McGlynn.

NEW YORK, March 2.—Judge Patterson, today granted to Dr. McGlynn a permanent injunction restraining Henry George and his followers from incorporating an anti-poverty society.

Improved.

WASHINGTON, March 2.—The condition of Vice-President Potter, of the Union Pacific Railway, is much improved today.

Concluded.

CHICAGO, March 2.—The joint western conference committee concluded its labors today, but did not succeed in adopting a unanimous report. The conclusion reached, together with objections, will be submitted to the managers of the western and northwestern lines at a meeting on Wednesday. Southwestern roads take no step to form an agreement until the others conclude their labors.

Sorghum Company.

BOSTON, March 2.—The *Commercial Bulletin* will announce tomorrow the formation of a stock company in this city which expects to control the entire sorghum crop of the country, through the use of the new patent presses.

Canadian Comments.

OTTAWA, Ont., March 2.—The provision of the new tariff bill presented to the American Congress, yesterday, by which it is proposed to place timber on the free list, is gladly welcomed by those members of Parliament who are engaged in the lumber industry. Speaking to the Associated Press representative, today, Mr. Bryson, whose firm hold large timber limits, said the abolition of duty would at once enhance the value fully 5 per cent. Last year the timber exported to the United States was valued at $8,000,000. The proposed change would greatly benefit Canadian lumbermen, and, in addition to other things, enable them to handle the low grades of lumber, which they heretofore had been unable to touch. Others expressed the same views.

Base Ball.

NEW YORK, March 2.—A special meeting of the National League base ball delegates is in session here. It was decided this afternoon that fifty cents should be the uniform price of admission during the coming season. A consultation with the committee of players of the brotherhood regarding the salary question, resulted in an agreement to the effect that no salary in excess of $2000 was to be paid, but that "personal contracts" could be made outside.

After the Mormons.

ATLANTA, Ga., March 2.—An Athens special to the *Constitution* says that the city was much aroused this afternoon, when it was publicly known that "Mormon" elders had suddenly appeared at Athens, and were getting ready to issue cheap excursion tickets to Utah. The matter will be immediately investigated.

FIFTIETH CONGRESS.

HOUSE.

WASHINGTON, March 2.—A letter from the Secretary of the Treasury, showing the probable loss by destruction of United States bonds, was laid before the House.

Unanimous consent was secured to have printed in the *Record* a memorial signed by glass blowers protesting against the reduction of duty upon imported glass, as proposed by Mills' tariff bill.

Randall, from the committee on rules, reported a resolution providing for an evening session every Friday, for the consideration of the private pension and political disability bills. Adopted.

The House, in committee of the whole, resumed consideration of the "omnibus" bill, providing for the payment of thirty additional claims for supplies used for the army during the war. Reported by the Court of Claims under the provisions of the Bowman act.

Lee, of Virginia, offered an amendment of appropriating $26,000 for the relief of the Protestant Episcopal Theological Seminary and High School of Virginia, and after a vigorous opposition from a number of members, on the ground that it established a dangerous precedent, the amendment was adopted, 102 to 64. The bill was then agreed to and reported to the House; pending action, a recess was taken until 2:30 in the evening, the session being for the consideration of pension bills.

The House tonight began its evening session for the consideration of pension bills. Twenty-five of these measures were passed, together with bills removing the political disabilities of several men. At 10 o'clock, the House adjourned till tomorrow.

Renews Her Youth.

Mrs. Phœbe Chesley, Peterson, Clay Co., Iowa, tells the following remarkable story, the truth of which is vouched for by the residents of the town: "I am 73 years old, have been troubled with kidney complaint and lameness for many years; could not dress myself without help. Now I am free from all pain and soreness, and am able to do all my own housework. I owe my thanks to Electric Bitters for having renewed my youth, and removed completely all disease and pain." Try a bottle, 50c. and $1, at A. C. Smith & Co's Drug Store. (4)

Worth Knowing.

Mr. W. H. Morgan, merchant, Lake City, Fla., was taken with a severe cold, attended with a distressing cough and running into Consumption in its first stages. He tried many so-called popular cough remedies and steadily grew worse. Was reduced in flesh, had difficulty in breathing and was unable to sleep. Finally tried Dr. King's New Discovery for Consumption and found immediate relief, and after using about a half dozen bottles found himself well and has had no return of the disease. No other remedy can show so grand a record of cures, as Dr. King's New Discovery for Consumption. Guaranteed to do just what is claimed for it.—Trial bottle free at A. C. Smith & Co's Drug Store. (4)

The "Exposition Universelle de l'art Culinaire" awarded the highest honors to Angostura Bitters as the most efficacious stimulant to excite the appetite and to keep the digestive organs in good order. Ask for the genuine article, manufactured by Dr. J. G. B. Siegert & Sons, and beware of imitations.

PERSONAL.

Dear Bro. Meek, Ed. *The Central Methodist*, Catlettsburg, Ky.

I see in the last *Central* that you want a sick headache remedy. I suffered from sick headache, almost from infancy, and tried every remedy I could get, but never found anything to do me good until I used Simmons Liver Regulator. I feel for anyone that suffers with that terrible disease, and I hope you will give it a trial.—C. S. MORRIS, Brownsville, W. Va.

WE call the attention of our readers to the new card of the Studebakers. They have a new and novel plow. It is the New Patent Avery Sulky Plow. This is the lightest and simplest plow that we have seen. This plow has had a critical test and has been pronounced by several judges as a great saver of labor in weight and draught. The Studebaker Company are overstocked on plows, and to make room, will offer during the next thirty days, 100 plows at manufacturers' prices laid down. Get a plow as good as the best and cheaper than the cheapest. 33 and 35 Main Street, Salt Lake City.

In the matter of the Estate of William Jennings, deceased.

Notice by Clerk of day fixed for hearing Return of Sale of Real Estate.

PURSUANT TO AN ORDER OF HON. Elias A. Smith, Judge of said court, made on the 1st day of March, 1888, notice is hereby given that Frank W. Jennings, Priscilla P. Jennings, Joseph A. Jennings, Thomas G. Webber and Isaac Jennings, Executors of the last Will and Testament of William Jennings, deceased, made to the said Court, and filed in the office of the Clerk thereof, on February 20th, 1888, a return of sale made by them on the 16th day of February, 1888, under the provisions of the last will and testament of said deceased of the following real estate, and for the following sum, to-wit: Parts of Lots Two (2) and Four (4), Block Twenty-three (23), Plat "A," Ogden City survey, for fifteen thousand dollars, as will more fully appear from said return filed as aforesaid, and to which reference is hereby made for further particulars.

And notice is hereby further given that Thursday, the 15th day of March, 1888, at 11 o'clock a. m., at the court room of said court, at the County Court House, in said County of Salt Lake, has been fixed for hearing the said return, when and where any person interested in the said Estate may appear and file written objections to the confirmation of the said sale, and may be heard and may produce witnesses in support of his objections.

Dated March 1st, 1888.
