

THE EXPOSITION AT JAMESTOWN

It Will be Formally Opened This Week Although it is Not Ready.

EIGHTY PER CENT FINISHED.

Visitors Will Not be Disappointed—Assembly of War Fleets Will be One of Greatest Ever Seen.

Norfolk, Va., April 21.—Despite the energetic efforts of officials and workmen, the Jamestown ter-centennial exposition will be opened this week unready. Many of the structures that are to house domestic and foreign commercial exhibits and shelter the achievements in the industrial arts are incomplete. Yet the sum of what has been done, as compared with the unfinished work, forms a satisfactory result.

In the beauty of the water show, with its amazing gathering of foreign fleets, representing the most formidable types of naval fighting machines of nearly every power of the world, and in an opening program with President Roosevelt in the leading role, with diplomatic, military and naval representatives of great and small foreign nations participating, the public will have its recompense.

The grounds and buildings at the exposition are about 80 per cent finished. Several of the most important buildings are built solidly of brick, cement and iron, and these are intended to remain on the grounds as a nucleus of a great work. Regardless of the permanence of the work, however, the exterior of most of the buildings will be ready when the exposition is formally opened on Friday next.

The inception of the Jamestown ter-centennial exposition sprang from a desire of a people, many of them descendants from that hardy English stock that settled among the Indians here 300 years ago, to teach to its brothers and sisters and display to visitors from the older nations the traditions that have been handed down by those courageous colonists. When completed it will be almost all that is implied in the expression "a world's fair," but it will not stop there. No other exposition has attempted to show the world the life of the colonists, the hardships of the pioneers who opened new country after civilization had been attained on the seaboard and the achievements of these people worked from raw material.

Twenty-five states will trace their history from their earliest days to the present and the exhibits will be sheltered by appropriate buildings.

The state buildings have been grouped along the historic shore of Hampton Roads and command an excellent view of the navy of the world. It is this great naval display that will prove the crowning glory of the exposition. Nothing like it has ever before been attempted. There are few harbors in the world that could accommodate so large an assemblage of warships. The fleets will number, in addition to several of the best types of each of the foreign powers, the Atlantic fleet of the United States navy, under command of Rear Admiral Evans, which is conceded to be the finest organization of fighting machines afloat.

The seal of government sponsorship will be set upon the exposition by the coming of the president of the United States, ambassadors and ministers of foreign governments, the governors and representatives of states and territories and delegations representing important civic bodies.

On the first day will be fired the salute to the Union by the assembled warships and the salute to the president by the United States artillery stationed on the grounds as he steps on the government pier from off the Mayflower. The fact that the exposition is so accessible from Washington has resulted in an unusually large number of acceptance by diplomatic representatives.

Complete arrangements have been made for the protection of the visitors to the exposition. Both the exposition authorities and the police department at Norfolk have arranged with a detective agency to assist in the police work. Detectives are being called in from all over the country to join in the service.

WHEN HOPE IS GONE
Cuticura Soap, Ointment and Pills cure every humor, from pimple to eczema.

BITTERLY COLD WEATHER
THROUGHOUT COLORADO.

Denver, April 21.—A sharp drop in temperature followed the snowstorm last night, 14 above zero being recorded by the weather bureau in both Denver and Pueblo, and fruit of all kinds in eastern Colorado was actually nipped in the bud. At Grand Junction, the center of the more important fruitgrowing district west of the continental divide, the temperature fell to 30 degrees and the weather observer there reported today that the condition of the fruit was grave. While the damage to fruit in this state may amount to several million dollars, nearly all other crops will be greatly benefited by the moisture.

A remarkable feature of the snowstorm was that it was more severe in the lowlands than in the mountains. While the precipitation covered a large area, including all of Colorado, Wyoming and part of South Dakota, Nebraska, Texas and New Mexico, the snow was almost entirely confined to the eastern slope of the Rocky mountains and extended from Lander, Wyoming, and Rapid City, South Dakota, on the north to Santa Fe, N. M., and Roswell, N. M., on the south. The Colorado state line on the east was practically the limit of snow in that direction and only a light snow occurred west of the continental divide. The storm originated in the north and

A Friend in Need—Always with You.

When you have Heartburn, Colic, Coated Tongue, Suspected Breath, Acid-rising in throat, Gas-belching, or an Incipient Cold, take a Cascaret.

Remember, all these are not merely Discomforts, but indications of a serious Cause.

Nip them in the bud—eat a Candy Cascaret. Cascarets don't purge, nor punish the stomach like "Bile-driving" "Physics." They act like Exercise on the Bowels. Muscles that propel Food, and that squeeze the natural Digestive Juices of the body into Food.

Cascarets ward off, or cure, the following diseases:
Constipation, Indigestion, Dyspepsia, Torpid Liver, Biliousness, Headache, Diarrhea, Flatulence, Jaundice, Nausea, Vertigo, Piles, Worms.

In such cases a little Cascaret in time is worth fifty dollars worth of Treatment later on, to say nothing of the suffering, discomfort, loss of Business Energy, and loss of Social Sunshine it saves.

Headaches, Heartburn, Gas-belching, Acid-ridings in the throat, and Colicky feeling are sure signs of bowel trouble from food poisons, and should be dealt with promptly.

One Cascaret will stop the coming trouble, and move on the Bowel load, if taken at the first signs.

Don't fail to carry the Vest Pocket Box of Cascarets with you constantly.

All druggists sell them—over ten million boxes a year.

Be very careful to get the genuine, made only by the Sterling Remedy Company and never sold in bulk. Every tablet stamped "CCC."

246

worked its way slowly to the south, passing out of the state late yesterday. Frederick H. Brandenburg, district forecaster, who estimated the snowfall in Denver at 17½ inches, said today that though the storm was remarkable in this city for April, it was by no means unprecedented. On April 21, 22 and 23, 1886, the records show a snowfall of 22 inches, 23 inches falling on the last day of the storm. The only weather bureau station in the mountains of this state is located at Corona on the Moffat road. There only four inches fell during the late storm.

At the railroad office it was stated today that traffic was not seriously impeded by the snowstorm, as all the mountain roads are prepared to meet such emergencies with giant rotary snow plows, and that no trains were delayed over an hour or two.

It was feared that heavy snow falling on the old snow of last winter might start slides to running, but in the section of the state where snow-slides are most frequent the snow was light and no slides have been reported.

ROCKEFELLER'S NEW PASTOR.

Rev. C. F. Aked Assumes Charge of Fifth Ave. Baptist Church.

New York, April 21.—Rev. Charles F. Aked, for 14 years pastor of the second largest Protestant church in England, today formally assumed the pastorate of the Fifth Avenue Baptist church of this city. Dr. Aked's labors at Liverpool, where he was pastor of Pembroke chapel, drew the attention, not only of all England, but even of continental Europe because of his extraordinary ability as a preacher and his aggressive leadership.

Dr. Aked first preached at the Fifth avenue church early last winter and left a deep impression upon the members. Subsequently a call went out to him to serve as pastor of this influential New York church—a call which received the warmest support of John D. Rockefeller, who is one of the pillars of the congregation.

Hundreds were unable to gain admission to the church today. Prominent among those present was John D. Rockefeller, Jr., director of the church's Bible class. Mr. Rockefeller, Sr., participated in the evening service.

TWO KILLED IN WRECK ON SOUTHERN RAILWAY.

Birmingham, Ala., April 21.—As the result of a triple wreck on the Southern railway a short distance east of Woodlawn, a suburb of Birmingham, early today, two men are dead and a number injured.

THE DEAD.
Cal B. Harris, fireman on wrecked train.
Tom Beatty, brakeman on wrecked train.

INJURED.
James Wages, Atlanta, engineer; skull fractured.
E. H. Hill, engineer; internal injuries.
Thomas Powell, engineer; bruises on body.
White, fireman, shoulder dislocated.

YEOMAN BUENZLE'S CASE GOING TO SUPREME COURT.

New port, R. I., April 21.—An appeal to the supreme court is to be taken in behalf of Fred J. Buenzle, chief yeoman of the U. S. navy, whose suit for damages of his expulsion from a Newport dance hall while in uniform, was decided adversely last week by William H. Sweetland, presiding justice of the Rhode Island superior court.

In presenting his suit, Buenzle has been aided by the fund to which President Roosevelt and naval officers contributed, it being desired to obtain a ruling as to the rights of a man wearing the naval uniform.

Capt. Albert C. Dillingham, superintendent of the naval training service, who has charge of the fund, said tonight the case will be carried to the supreme court on appeal.

PEAK OF PRAISE FOR PRESIDENT

John Temple Graves Says He's Grown Great Because He Has Risen Above Party.

BRYAN TOO FOR SAME REASON

Both Patriots in Every Pulse—A Word From Either Would Elect The Other.

Chicago, April 20.—John Temple Graves of Atlanta, Ga., speaking tonight at the annual banquet of the Iron-club on "The Regeneration of Parties," said:

"Party idea in general have never held so lightly as today. North and south, in Republican and in Democratic ranks, loyalty hangs by a hair. The Republican party, formed upon the Federalist idea and reborn and prospered upon the tides of abolition, has progressed beyond the Federalist theory to privileges, and beyond the anti-slavery agitation to graft.

"The Democratic party has been recruited so rapidly from the ranks of the mighty in trade that its platforms have trucked, and in the last campaign it nominated a candidate whose actual spoken commendation was based upon the bald and infamous confession, 'He was not offensive to the trusts.'

"But times have changed and men have changed with them. The cheap newspaper and the rural mail delivery have built the clearest and most practical Democracy in the world.

"The practical citizen—and he is ninety-tenths of the people—wants a government without regard to names.

"What conservative Democrat save Albert B. Parker with his conferees has been strong enough to put Bryan to indignity and heart to shame? What Republican is strong enough to reduce the irrepressible Roosevelt to the ranks of the methods of the past?

"Mr. Bryan is great because in all his life he has never feared or hesitated to champion his convictions against his party and to put them in balance against his personal interest. He is the first Democrat of the world.

"Mr. Roosevelt has grown great because he, too, has risen above the party, and has provided a new stamp of privileges, he came with a brave heart and an open mind to Washington. He followed with the orthodox in the wake of his party and in the path of his predecessor. But one day William H. Hearst flung at his feet an array of unanswerable statistics to prove the inferiority of the trusts. Roosevelt rose against a brave man's shield, and Theodore Roosevelt was never the same man again. He buckled on his sword and went forth to war with the morger of those Northern railroads under Hill and Harriman. He has never sheathed since then the blade he bared in our Democratic battle against corporate greed and profit.

"There they are—these two great men the two greatest men in all the world. They are American statesmen and patriots in every pulse. One of the other should be president and pilot of the people in these times. If it was ever true before in our history it is true today that these two men leading opposite factions have on their lips the power to change the face of parties and to regenerate the republic's life. One word from Bryan would send Roosevelt on anointment to the White House. One word from Roosevelt would just as surely elect Bryan president and clothe him with power for reform. Roosevelt could not re-elect the president. Never was a man so near as Bryan to the people and never such respectability in four American hands before.

"If Bryan from defeat will not retwine the laurel upon Roosevelt's conquering brow, then from the great height of victory let Roosevelt reach down to lift the patriotic Bryan up to power and to duty."

SPANISH ELECTIONS.

Madrid, April 21.—The elections for members of the chamber of deputies opened quietly today. The only trouble was at Barcelona, where voters came to blows at the polls and one man was killed and two were injured. At Madrid the vote shows the Republicans to have made a material gain.

Returns from the provinces show that 119 Ministerial candidates and 34 Liberals were elected without opposition.

PREDICTS HUGHES WILL BE NEXT PRESIDENT.

New York, April 21.—Col. Henry Waterson, editor of the Louisville Courier-Journal, arrived here today from Europe, where he has made an extended visit.

Col. Waterson said tonight that William H. Bryan seemed to be the only man in the running for the Democratic nomination for president.

"Mr. Bryan is an individual man with a certain following," he said. "He is not a lawyer. He may be a law unto himself. It remains to be seen if the fragments of the Democratic party lying around loose can be united in a new program.

"I think that organized Democracy at the present time can see no other alternative except Bryan. Nobody has been seriously considered except him. Nobody except him is seriously considering running. I sometimes doubt whether he himself cares a fig for the presidency. For, I should think if he believed Democracy had a reasonable chance of carrying the country, and that he might be nominated, he would be a greater success of responsibility than he seems to be showing.

"I do not believe President Roosevelt wants a third term for himself. I know he recently stated that if the convention nominated him and adjourned it would have to be recovered as he would never accept another nomination. I am willing to take him at his word."

Col. Waterson declared that Gov. Hughes was a force to be reckoned with in Republican politics.

"That Hughes would succeed Roosevelt in the White House. At that time Horace White, Mr. Hughes and I were at Brown university, where the degree of LL. D. was conferred on each, and I told Hughes that while some Republicans might not like him, they would have to select him. I believe, will be to the Republican party what Tilden was to the Democratic. I have in my pocket a ticket in the Paris universelle college for 100 to 1 that Hughes will be the next president of the United States.

KILLED A COWBOY.

Father of Girl to Whom He Was Paying Attention Shot Him.

Butte, Mont., April 21.—A Miner

HUSLER'S FLOUR!

Is not an accident but the successful accomplishment of years of experiments.

that But Kincher, a well known cowboy and rancher, was shot and instantly killed by B. F. Moulton, a stockman this morning. Moulton had objected to the attentions Kincher was paying to his young daughter, and the shooting followed Moulton's ordering Kincher away from his ranch. Kincher, it is said, began firing first, but his shots went wild.

GILMAN'S OUT ON BAIL.

Dayton, O., April 21.—Mrs. Leah C. Gilman, her son and two daughters, charged with procuring the death of Dona Gilman, in November last, have been released on bond to await the action of the next grand jury, which meets in September.

ACTOR KENNEDY'S BODY TAKEN FROM THE WATER.

New York, April 21.—A body, supposed to be that of Peter J. Kennedy, a well known theatrical manager, who disappeared in December last, was found in the water tonight off South Brooklyn.

The body was so badly decomposed that identification will be difficult. In one pocket were found business cards bearing the name "P. J. Kennedy," and a Masonic identification card of Mecca temple No. 488, bore the same name.

Mr. Kennedy disappeared Dec. 28 last. His hat and overcoat were found on a ferryboat which landed at Thirty-ninth street, South Brooklyn, from the Battery, Manhattan. The same night Mrs. Kennedy received a special delivery letter from her husband in which he stated he was about to drown himself.

Mr. Kennedy at one time managed John L. Sullivan and later made a fortune with the comedy, "Yankee Doodle." His wife, who was Miss Beatrice Norman, a daughter of Mrs. Annie Mack Berlin, a well known actress, had starred for several seasons under her husband's management. She appeared on the road in a number of plays, including "Captain Kennedy."

Mr. Kennedy's last venture was with Ella Wheeler Wilcox's "Mizpah," in which Mrs. Kennedy was the star, which played for a short time on the road and closed at the academy of music, Oct. 20, after a brief run. This is the last in which Mrs. Kennedy appeared all his money, and it is supposed that brooding over this caused him to take his life.

STORMS IN NEBRASKA.

Snow and Frost Have Killed Much of The Fruit.

Omaha, Neb., April 21.—As a result of the unprecedented weather that prevailed during the greater part of the month of March and the freezing weather and heavy snowfall of the last few days, many of the fruit trees, such as peaches, plums, apricots, cherries and blackberries in this section have been injured, but the general opinion among those who have the best means of information is that the damage is not as great as has been reported.

Indeed, many are of the opinion that while a great many of the fruit trees and in some instances completely killed, and possibly some of the later varieties have been hurt, the benefits resulting to the grain crops from the snowstorms of recent date had in any way more than offset the damage.

NO SNOW ON NORTHERN PACIFIC.

St. Paul, April 21.—According to officials of the Northern Pacific and Great Northern railroads there have been no snowstorms along these lines in the west for several weeks, particularly in the Rocky mountains.

Gen. Supt. Horn of the Northern Pacific railway, when asked if the snowstorms of recent date had in any way inconvenienced them in the west, said:

"We have not had a sign of snow along our line in the far west since February, with the possible exception of a mere trace at Livingston, Mont. We do not anticipate any more trouble in that direction."

VICE GOVERNOR MURDERED.

Rostov-on-Don, Russia, April 21.—The vice governor of the prison was shot dead in the streets here today. His assassin was arrested.

DON'T PUT OUT OFF.

for tomorrow what you can do today. If you put off buying a bottle of Burdett's Snow Liniment, when that pain comes you won't have any, buy a bottle today. A positive cure for Rheumatism, Burns, Cuts, Sprains, Contracted Muscles, etc. T. S. Graham, Prairie Grove, Ark., writes: "I wish to thank you for the good results I received from Snow Liniment. It positively cured me of Rheumatism after other failed. Sold by the Drug Dept., 112 and 114 South Main Street."
